LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the

taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Cottage park, bounded:

Southwesterly by easement taken by the City of Boston for sewerage purposes April 23, 1900, twenty feet; northwesterly by another part of said park, twelve and 50-100 feet; northeasterly by the northeasterly line of said park, twenty feet; and southeasterly by another part of said park, twelve and 50-100 feet, containing two hundred and fifty square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Cottage park, bounded:

Northeasterly by easement taken by the City of Boston for sewerage purposes April 23, 1900, twenty feet; southeasterly by another part of said park, twelve and 50-100 feet; southwesterly by the southwesterly line of said park, twenty feet; and northwesterly by another part of said park, twelve and 50-100 feet, containing two hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows: 1 catch-basin and 15 linear feet of 10-inch catch-basin drain, in the above described premises, being parts of the private way known as Cottage park, at the northwesterly end.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announces examinations for desirable positions open in the Boston and Metropolitan districts as follows:

CLERICAL SERVICE, STATE AND CITIES, JUNE 25, 1927.

This is an examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. The examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the

examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application, and must have attended high school for at least two years.

All applicants will be marked on each subject of the examination; and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic, multiplication, division and decimals, 1; arithmetic problems, 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total 15.

Applicants will be required to obtain a mark of at least 64 per cent in spelling, and at least 65 per cent in general average in order to become eligible. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

The usual entrance salary for clerks for state service is \$840.

Sample questions for clerks available.

REPORT TO SCHOOL COMMITTEE.

Alexander M. Sullivan, Business Manager, made the following report to the School Committee on his attendance at the annual convention of the National Association of Public School Business Officials, at Philadelphia, May 16 to 20, 1927, inclusive:

Boston, May 31, 1927.

To the School Committee of the City of Boston.

In compliance with the provisions of section 3 of chapter 274 of the Acts of 1914 I am hereby making the following report:

On January 3, 1927, your Board passed an order authorizing the Business Manager or his representative to attend the annual convention of the National Association of Public School Business Officials to be held at Philadelphia, May 16 to 20, 1927, inclusive.

Delegates were present from many cities and towns in the United States and Canada. Sessions were held morning and afternoon and much work accomplished. The proceedings are finally printed in book form and will be ready for distribution at a later date. Papers were read and discussed on a variety of subjects as follows:

1. Janitor service — its problems and solutions.
2. Developing a segregated school budget.
3. Report of a special committee on housing.
4. Present day heating and ventilating.
5. Relations between the instructional and business agencies of a public school system.
6. School cafeterias, their management and equipment.
7. The Business Manager's relations with his Board and his city.
8. Problems of school architects.
9. The development of a school building program as seen by a school board architect.
10. Report on a uniform system of accounting and cost finding by the several cities.

The character of the work done by this convention, as suggested in the papers read and discussed on the various topics, shows that much valuable information can be obtained by a delegate if he pays attention to the proceedings and listens attentively to the discussions of the various problems involved in school business administration.

I wish to express my appreciation to your Board for affording me the opportunity to attend this convention as it was certainly worth while in all respects.

Respectfully yours,

ALEXANDER M. SULLIVAN,
Business Manager.

FINANCE COMMISSION LETTER.

The Finance Commission has addressed the following letter to the City Council:

BOSTON, June 8, 1927.

To the Honorable the City Council.

GENTLEMEN,—There is now pending before your honorable body a communication and loan order submitted by the Mayor for borrowing \$500,000 for the repair of streets of the city.

It is unsound financing to borrow money to meet current expenses. The principle of paying current expenses from money raised by taxation has, with few exceptions, been adhered to since the charter amendments were adopted until this principle apparently was abandoned by the present administration. Last year the present administration resorted to this improper method of financing, when it procured a loan to buy trucks and snow removal machinery—property which would soon wear out. That such financing is improper was recognized by the Mayor at the time of the loan for trucks, for he said in his message, "I appreciate that in advocating such a step I am departing, in a sense, from an established financial policy of the city, namely, to finance the purchase of equipment out of current revenue." The impropriety of such financing was also recognized by Mayor Curley in 1925, when, in breaking the good record of the city in the same way, he said, "It is with great reluctance and a realization that the municipality is departing from a sound policy, that I recommend the borrowing of \$500,000 for permanent street paving."

To borrow money for this current expense is contrary to the spirit of the tax limit law passed this year. After hearing arguments on the subject of the tax limit, the Legislature fixed the sum of \$13 on a thousand as the amount which the city might expend for its current expenses, obviously intending thereby that the Mayor should reduce the estimates of his budget to conform to the limit provided. In borrowing for the purpose of repairing streets the administration is over-riding the act of the Legislature and declaring that whatever tax limit is established it will nevertheless spend whatever amount it desires, even if the money is obtained by improper means.

Last year, with the appropriation provided and balances carried over, the Public

Works Department had approximately \$1,085,898 for street repairs, but it was able to spend only \$666,118.85. Subject to certain transfers it carried over for use this year the sum of \$369,779.81. Thus, with the \$250,000 provided in the present budget for this purpose, without any loan, the department has available for this year's work the sum of approximately \$619,779, which is within \$16,339 of the amount it was able to spend last year. If the pending loan order is passed, the department will have a total spending power of approximately \$1,119,000 for this purpose. There is nothing in its record to show that it has the capacity to carry on work to the extent of the total proposed amount.

All the funds which the Public Works Department can spend for street pavement in the current year can be provided without resort to a loan. If, in addition to the approximate sum of \$619,000 already available, any part of the sum of \$500,000 included in the proposed loan order is needed, there is no question that the Mayor can find it within his present budget. Your own Committee on Appropriations was able to recommend a saving of over \$200,000 by cutting out items, in most cases with the consent or against only a feeble protest of the head of the department involved. In fact, last year the departments were unable to expend the amounts provided for them in the budget and carried over unexpended balances of \$1,090,366.13. In the previous year likewise unexpended balances of \$502,545.24 were carried over. In case it should eventually appear that the money is needed, the Mayor should be required to provide it from his present budget by transfer.

The Mayor, in his veto of the School Committee's budget, stated, "I am sure that a careful consideration of the discussion that has been going on for a long time of the relief of taxation and a careful consideration of every item of expenditure will emphasize to you the importance of a thorough examination of your budget for the purpose of taking from it such sums as may appear to be unnecessary." He should be called upon to follow his own good advice.

There is, moreover, an enormous sum not taken into consideration in the budget which can be made available for this purpose. Since the beginning of the

present fiscal year over \$4,750,000 of money from taxes assessed in previous years, but not paid until after January 1 of the current year, has come into the city treasury. The greater part of this money has been expended for current expenses by the City Auditor, without any authority from the City Council. If, from money borrowed in anticipation of the coming in of current taxes or from the taxes themselves when they come in in October, the City Auditor were required to restore to the treasury only a small part of this cash surplus from prior years, the whole amount suggested in the pending loan order could easily be taken care of by a special appropriation. In an opinion rendered to the Finance Commission in January, 1922, Arthur D. Hill, Esq., then Corporation Counsel, held that such an appropriation would be legal.

Under chapter 206 of the Acts of 1891, the pending loan order will be illegal unless, under the terms of the act, the Mayor is ready to certify that the amount intended to be borrowed is not to meet a current expense, or that public necessity requires the borrowing of the same. Of course neither of these statements would be true.

The Finance Commission recommends:

1. That the pending loan order be defeated.
2. That the Mayor be required to find the money, if needed, by transfers from unnecessary items in his budget.
3. That, if the Mayor refuses to find the money, if needed, by means of transfers, the Council refuse to act until the Mayor sends in an order for a special appropriation from the surplus derived from back taxes.

Respectfully submitted,

THE FINANCE COMMISSION,
By CHARLES L. CARR,
Chairman.

STREET WIDENING PROJECTS
APPROVED.

Mayor Nichols announced on June 7 that he had approved the order of the Street Commissioners providing for the widening, relocation and construction of Ashland and Oakland streets, from Mattapan square to Washington street, West Roxbury, which will provide a most important through artery for crosstown traffic.

Mayor Nichols started this project as one of the first acts of his administration by sending word to the Legislature that he desired to have enacted a bill providing for the reconstruction of Ashland and Oakland streets through a loan outside the statutory limit of indebtedness.

The Mayor in doing so stated that Ashland and Oakland streets were more important than the widening of Cambridge street and some of the other downtown widenings. They are a link between North Shore and South Shore traffic and within the City of Boston give better transportation for nearly one-half million people who reside in Dorchester, Hyde Park, West Roxbury, Brighton and Allston. The importance of this project the Mayor regards as of great value for the relief of downtown traffic. Hundreds of letters have been received by the Mayor since the work started on this project. After approval of the Street Commissioners' order, the Mayor conferred with Public Works Commissioner Sullivan and instructed him to proceed without delay upon the work of reconstruction.

DAMAGES ASSESSED.

The Mayor has approved the following order of the Board of Street Commissioners:

Ordered, That this Board determines that the undermentioned persons sustain damages in their estates by the making of the public improvements, consisting of the widening and relocation of Ashland and Oakland streets, West Roxbury and Dorchester districts, as highways, under the order of the Board, in the amounts hereinafter respectively set against them, and awards said amounts therefor.

MAYOR URGES WAR VETERANS TO REINSTATE INSURANCE.

BOSTON, June 7, 1927.

WILLIAM J. BLAKE, *Regional Manager*, United States Veterans Bureau, Boston, Mass.

DEAR MANAGER BLAKE,—In reply to your letter under date of June 3, 1927, relative to the reinstatement and conversion of United States Government war-time insurance, I beg to say that this matter is one of vital interest to every veteran of the World War and to the dependents of the veterans. The benefits of Government insurance are many, and every veteran who is eligible should see to it at once that he and all dependents are protected by some form of Government insurance.

I believe very strongly that it is the duty of every eligible veteran to protect himself and his dependents to the fullest extent of his resources, and as the time is now short in which veterans may convert their war-time insurance, it is essential that this important matter be not delayed.

I have directed Capt. John J. Murphy, Soldiers' Relief Commissioner of the City of Boston, to send out a letter to all World War Veterans who have been on the rolls of that department during the past two years, urging upon them the advisability of taking steps to reinstate and convert their war-time insurance before it is too late, as the date for final action is July 2, 1927.

With very kind regards, I am,

Sincerely yours,

MALCOLM E. NICHOLS, *Mayor*.

CITY CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chapter 448, Statute 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chapter 266, Statute 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chapter 486, Statute 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority of the registered voters to make the recall effective. The Mayors power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission, and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chapter 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in section 26. (2) Chapter 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in section 32; changing the requirement as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in section 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to section 54. (3) Chapter 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chapter 94, Special Acts of 1918, abolishing recall of Mayor, and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chapter 288, Acts of 1921, fixing date of the annual municipal

election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chapter 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chapter 479, Acts of 1924, providing for biennial City elections (dating from November 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from January 1 to December 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years. (8) Chapter 136, Acts of 1925, increasing the number of signatures of registered voters required to nominate a candidate for election to the City Council. (9) Chapter 105, Acts of 1926, relative to nominations for municipal elective offices.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on November 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley, who served 4 years ending February, 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served 6 years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairman (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in

the lower house of Congress, Mayor Peters having also served as assistant secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Document, *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

AREA AND POPULATION OF GREATER BOSTON.

Area of Northern Division, 150.8 square miles and population in 1920, 699,685, or a density of 4,619 per square miles; Southern Division, 214.8 square miles and 211,191 population, or density of only 983 per square miles; in the whole Metropolitan District, 4,051 per square miles. In percentages Boston shows 10.5 per cent of District's area and 45.09 per cent of population; Northern Division, 36.2 of area and 42.18 of population; Southern Division, 53.3 of area and 12.73 of population. In the period 1915-1920, increase of population 34,798 larger in Northern than in Southern Division.

Total land area of District, 409.5 square miles; population by census of 1920, 1,713,744 (as corrected) or 7.52 per cent increase over that of 1915. Of the total population of the State in 1920 "Greater Boston" had 43.86 per cent.

In 1925, as ordered by the new census law (Chap. 453, Acts of 1924) each municipality of the District undertook its own enumeration, the total population counted being 1,808,845 as of March 31. Boston's proportion of said total was 43.10 per cent. By the more reliable State Census of 1915 that proportion was 46.77 per cent.

THE SCHOOL YEAR.

The school year begins on September 1 in each year and closes on August 31 next ensuing.

The sessions of the regular day schools begin on the second Tuesday following the first Monday in September and continue 42 weeks, including three weeks of vacation, one each in December, February and April. Sessions are suspended on Saturdays, Sundays, legal holidays; from 12 o'clock (noon) on day before Thanksgiving Day until the following Monday; from 12 o'clock (noon) on the second calendar day next preceding Christmas to and including New Year's Day; the week in which February 22 falls; Good Friday; the week which includes April 19 (Patriots' Day), also June 17 (Bunker Hill Day). Whenever a holiday falls upon Sunday the schools are closed on the following Monday.

The evening schools open on the last Monday in September and continue to the April vacation. The sessions of the high and industrial are on Monday, Tuesday and Thursday evenings from 7.30 to 9.30; of the elementary on same evenings beginning at 7.15.

The school centers are open from the first Wednesday in October to the last day of June, some on three evenings and one afternoon each week, others on two evenings only.

The summer review schools are in session for 40 consecutive days from the Monday following the close of the day schools in June, Sundays and holidays excepted.

The summer term of the day industrial schools extends from July 5 to the last Friday in August.

The sessions of the regular day schools closed for the year on Thursday, June 24, 1926, and resumed on Tuesday, September 14. In 1927 the closing date will be June 28.

WEALTH AND TAXATION OF MASSACHUSETTS, 1925.

Total assessed valuation of real estate on April 1, 1925, in the 39 cities and 316 towns of Massachusetts, \$5,560,636,090 (\$311,007,183 more than in 1924) of which 61.64 per cent applied to buildings and 38.36 per cent to land; of personalty, \$1,072,119,187; aggregate valuation, \$6,632,755,277 (5.35 per cent increase over 1924) on which the total tax levy was \$189,246,767, showing an average tax rate of \$28.53 per \$1,000. Boston's valuation (\$1,862,799,900) equal to 40 per cent of all other valuations in the State.

Massachusetts ranks fifth in amount of Federal income tax paid, this total being \$99,444,237 in year ended June 30, 1925. N. Y., Penn., Ill. and Mich. rank first, second, third and fourth.

Total taxes assessed by Mass. (exclusive of \$12,000,000 State Tax on municipalities) in year 1925, \$45,064,532, divided thus: Income tax, \$16,742,791; business tax on domestic corporations, \$10,345,057; same on foreign corporations, \$3,049,507; inheritance tax, \$6,064,517; franchise tax on 247 out of 374 public-service companies making returns, \$3,184,641; on insurance premiums, etc., \$2,653,564; on savings bank deposits (incl. Trust Co. Savings Depts.) \$2,041,823; on national banks, \$597,525; all other, \$385,107. Total share value of all domestic corporations, \$2,821,888,435.

Number of Mass. income tax returns received in 1925, \$353,750; of which 221,-

473 were found taxable. Total taxable income reported in these for 1924 and assessed in 1925, \$509,155,307, divided thus: Business income, \$281,016,419; interest and dividends, \$172,918,977; gains, \$53,426,633; annuities, \$1,793,278.

Total distribution of income tax to Mass. cities and towns in 1925, \$15,701,802 (\$1,729,380 more than in 1924) of which Boston's share was \$3,970,047; distribution of business, public-service, etc., taxes, \$12,907,822 of which Boston received \$2,995,629. Number of business corporations taxed, 22,672 of which 2,461 were foreign.

Total property in State exempted from taxation in 1925, \$1,188,768,668 (mostly real estate) divided thus: Public property of cities and towns, \$492,969,770; of literary and scientific institutions, \$216,661,100; of United States, \$143,809,609; of churches, \$118,580,281; of charitable and benevolent institutions, etc., \$89,374,110; of State, \$94,731,549; of counties, \$15,904,098; cemeteries, etc., \$8,716,509, all other, \$8,021,642. In Boston, the total exempt property in 1925 was \$374,601,292 or 31.51 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,000 or \$2,918 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1925 the 8,072 national banks in U. S. had aggregate capital of \$1,369,435,000; deposits, \$19,909,669,000; total resources, \$24,350,863,000.

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR ROOFING AND COPPER WORK.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for furnishing and installing roofing and copper work, Fields Corner Station. If the proposal is accepted a bond of an approved surety company will be required for the faithful performance of the contract in a sum of 45 per cent of the total price bid. Proposals should be filled out and signed by the bidder on forms to be obtained at this office, inclosed in an envelope, sealed, indorsed "Proposal for roofing and copper work," and left at the above address before 12 o'clock noon on Wednesday, June 22, 1927, at which time and place they will be publicly opened and read. A properly certified check in the sum of \$2,000, payable to the city, must accompany the proposal. The check shall become the property of the city if the contract is not executed by the bidder within the time prescribed after the date of the notification by the department of the acceptance of the proposal and the readiness of the contract for signature. Proposals must be made in duplicate. The sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Specifications and forms of contract can be obtained at this office.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

A. D. ADAIR,
Acting Secretary.

(June 11.)

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN OLNSTEAD STREET, PRIVATE LAND AND PARK LANE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Olmstead street, private land and Park Lane street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 50 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Olmstead Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, June 28, 1927, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

JAMES H. SULLIVAN,
Commissioner of Public Works.

(June 11.)

SCHOOLHOUSE DEPARTMENT.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals to erect and complete alterations and addition to the Grover Cleveland Intermediate School, Mather District, Charles street, Dorchester district, giving bond of a surety company satisfactory to the Board therefor in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Commissioners, 1007 City Hall Annex, signed by the bidder and left before 12 o'clock m. of Tuesday, June 21, 1927, at said office, with a certified check for \$10,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Commissioners reserve the right to reject any or all proposals. A deposit of \$25 in cash or by certified check will be required for a complete set of plans and specifications, said sum to be refunded on return of plans and specifications. Mutilation of the plans or specifications will be deemed sufficient cause for the forfeiture of the said deposit.

FRANCIS E. SLATTERY,
CHARLES P. NORTON,
JAMES W. H. MYRICK,
Commissioners.

In accordance with a vote passed by the Transit Department of the City of Boston on June 7, 1927, I will sell upon the premises at public auction on Wednesday, June 15, 1927, at 2 p. m., the following buildings in the Ashmont district of the City of Boston, the same to be removed from the lots on which they stand on or before July 15, 1927.

No. 18 Beale Street.

This is a square upstanding two-family house, with a slate roof, all improvements, porcelain baths, steam and furnace heat, 4-5-4 rooms.

No. 22 Beale Street.

This is a two-family house with a slate, hip roof, all improvements, electricity, 4-4 rooms.

No. 26 Beale Street.

This is a single house, 4-5 rooms, porcelain bath, all improvements, furnace heat.

No. 4 Brunswick Street.

This is a compact single house, all improvements, furnace and 6 rooms. Brunswick street runs off No. 1044 Dorchester avenue, and is adjacent to Beale street.

No. 5 Brunswick Street.

This is a substantial two-family house with fairly new asphalt shingle roof, 5-5-2 rooms, hard wood floors, electricity, furnace heat.

These buildings are to be removed from the land which has been acquired by the City of Boston for the extension of rapid transit facilities in the Dorchester district, authorized by chapter 480 of the Acts of the Legislature of 1923.

Terms: The successful bidder must deposit with the Auctioneer at the time and place of sale, 25 per cent of the purchase price in cash or certified check, and the balance of the purchase price to be paid within ten days after date of sale. The city authorities reserve the right to confirm the bid. Further particulars from the Auctioneer.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CONFIDENCE IN PORT OF BOSTON.

Capt. Robert Dollar of the Dollar Line called upon Mayor Nichols on June 10, and during the course of conversation expressed sincere confidence in the future of the port of Boston. He said that the Dollar Line liked very much to do business through the port and wanted to develop the trade of the Dollar Line in its import shipments to Boston.

Captain Dollar described the opportunity which seemed to him Massachusetts manufacturers had in the markets of the East, and said that owing to improved methods of manufacture he believed that it would be an easy matter for our industries to compete with British shippers and with native producers in China and Japan.

JULY 4 ORATOR IS CHOSEN.

Mayor Nichols announced on June 10 that he had received from Department Commander William McGinnis of the American Legion his acceptance of the Mayor's invitation to deliver the Fourth of July oration. Commander McGinnis' letter follows:

MY DEAR MR. MAYOR,—I am deeply appreciative of the unusual honor that you have paid the American Legion of Massachusetts in asking me to deliver the oration at the 144th municipal observance commemorating the 151st anniversary of the Declaration of Independence, Monday, July 4, 1927, at Faneuil Hall, at 10.30 a. m.

I recognize the importance of the distinction that you have conferred upon me as the representative of the American Legion. I sincerely trust that your thoughtfulness and confidence in me will be justified and that on this historic occasion the American Legion of Massachusetts will demonstrate their belief in the great ideals enunciated in that document known as the Declaration of Independence, by their presence and co-operation in making this one of the most memorable anniversaries conducted by the City of Boston.

Yours in true friendship,

WILLIAM MCGINNIS,
Department Commander.

LINDBERGH WOULD LIKE TO VISIT BOSTON.

Mayor Nichols announced the receipt of the following telegram from Washington in response to his renewed invitation to Captain Lindbergh to visit Boston:

"Captain Lindbergh has requested that I tell you of his deep appreciation of your kind invitation to Boston which he is most anxious to accept at some date in the not far distant future. He wished me to assure you that a visit to Boston would be to him a very great pleasure indeed.

HARRY H. KNIGHT."

U. S. S. "MEMPHIS" HERE FOR JUNE 17.

Mayor Nichols announced the receipt of the following telegram from the Secretary of the Navy assigning the U. S. S. "Memphis" to Boston for the June 17th celebration:

"In addition to vessels mentioned in my letter of June 9, 1927, I am pleased to inform you that the U. S. S. "Memphis" will be in Boston on the Seventeenth of June."

The Mayor also announced that he had taken up with Secretary of the Navy Wilbur the question of having an adequate navy representation for the June 17th celebration and he has been advised that the navy has made arrangements to send to Boston the destroyers "Overton," "Paulding" and "MacFarlan," and the Fleet Submarine V-2.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.]

SUPPLY DEPARTMENT.

Upon June 9 the Mayor approved a contract with the Federal Steam and Gas Supply Company for furnishing wrought-iron pipe for street signs. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, May 27, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of May 16, 1927, bids were opened on proposals for furnishing wrought-iron pipe to be used in connection with the erection of street signs and prices as shown on the attached sheet were received. The Federal Steam and Gas Supply Company was the lowest bidder at a price of \$8.35 per piece on this pipe, delivered in our yard, which met our specifications in every respect, except that the pipe was untested. Since the opening of the bids, the representative of the Federal Steam and Gas Supply Company stated that they are willing to supply tested pipe at the price quoted, namely \$8.35 per piece delivered at the yard, and also that they will allow a 2 per cent discount for payment in ten days, which will make their price lower than the price quoted by the Terminal Supply Company of \$8.43 per piece, who were the lowest bidders on tested pipe on the publicly advertised bid of May 16, 1927.

In view of the urgent need of placing these signs at the earliest possible moment and the saving involved, I feel that it would be for the best interests of the City of Boston to reject all bids received under public advertisement of May 16, 1927, and would request that permission be granted to award a contract, without publicly advertising same, on the alternative bid, namely 1,800 pieces to the Federal Steam and Gas Supply Company, the direct distribution agents for genuine Byers wrought-iron pipe, at a price of \$8.35 per piece, less 2 per cent discount for payment in ten days.

I am attaching herewith letter from the Commissioner of Public Works in which recommendation is made that the bid of the Federal Steam and Gas Supply Company be accepted.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Publics.

Approximately 900 Pieces "Standard" Wrought-Iron Pipe.—Crescent Sign Company, \$6.41 each piece; Federal Steam and Gas Supply Company, \$8.55 each piece; \$8.35 each piece, untested; Walworth Company, \$68.50 per hundred feet; Municipal Street Sign Company, Inc., \$9.23 each piece; Crane Company, \$858.72 per hundred pieces; Terminal Supply Company, \$8.43 each piece, 7 cents for delivering; A. M. Byers Company, \$8.30 each piece, untested pipe; \$8.50 each piece.

Alternative Proposal.

Approximately 1,800 Pieces "Standard" Wrought-Iron Pipe.—Crescent Sign Com-

pany, \$6.30 each piece; their specifications; Federal Steam and Gas Supply Company, \$8.55 each piece; Walworth Company, \$68.50 per hundred feet; one shipment; Municipal Street Sign Company, Inc., \$9.23 each piece; Crane Company, \$858.72 per hundred pieces; 2 per cent discount in ten days, subject to change in rate of freight; Terminal Supply Company, \$8.43 per piece; 2 per cent discount in ten days; A. M. Byers Company, \$8.30 each piece, untested pipe; \$8.50 each piece; contract to be turned over to recognized "Byers" jobber, f. o. b. cars, Boston.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

ASSESSING DEPARTMENT.

Upon June 2 the Mayor approved a contract with the Dewell Company for preparing the poll list for 1927. A communication from Edward T. Kelly of the Assessing Department was as follows:

BOSTON, May 27, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—We desire your permission to make a contract with the Dewell Company, without advertising, in the preparation of the assessed poll list for the year 1927, which includes typing of the poll tax book and collector's manuscript and the writing of the poll tax bills and coupons.

This work will necessitate preparing two copies of the police lists, showing the name, residence, ward and serial number of each male person over twenty years of age. In order to give a consecutively numbered list it will be necessary for them to eliminate all females, businesses, vacant dwellings, stores, garages, etc., upwards of 270,000 items; and then number the remaining male residents consecutively, beginning with number one for each ward, approximately 250,000 items.

From this list we desire them to write the poll tax bills and coupons giving name, street and number, ward number and serial number, and the same information on coupon. It is necessary to have the poll tax bills written as early as possible, so that they may be delivered to the collector and the payments made as speedily as possible.

The Dewell Company have done this and other work for this department at various times; are a reliable concern, and are familiar with our books. They will do this work at a lower price than has been estimated by any other concern, namely, at a cost of \$8,425, delivery of bills to be made not later than June 30, with earlier deliveries starting on June 20.

After investigation by the chief clerk it is found that the only other concern prepared to undertake this work desired space in this office. This, of course, was impracticable on account of lack of room. They considered doing the work at their headquarters, which was at 115 Purchase street, somewhat removed from City Hall for the delivery of records, and not properly equipped.

Under the circumstances we request your permission to make this contract

with the Dewell Company, without advertising, at a total cost of \$8,425.

Respectfully,
EDWARD T. KELLY,
Chairman.

PUBLIC BUILDINGS DEPARTMENT.

Upon June 4 the Mayor approved a contract with R. J. Connolly for installing new floors in the Quincy Market Building. A communication from John P. Englert of the Public Buildings Department was as follows:

BOSTON, May 23, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—On February 8, 1927, the City of Boston entered into a contract with R. J. Connolly for installing new floors at the Quincy Market Building in a sum not to exceed \$20,000. On May 3, 1927, the contract was amended so as to allow an amount in the sum of \$23,500 as a limit for the work to be performed. This work is now in progress and I feel that possibly even with this amount, it will not suffice to carry on to completion all the work necessary to make a satisfactory job. The work has now so far progressed, that I can estimate the total cost with a degree of certainty and I find that it will require \$27,500 for the entire work, instead of \$23,000 as at present allowed.

It is, of course, quite reasonable to believe that it is a physical impossibility to estimate accurately work of this nature, for as same progresses it is discovered that the supporting material is in such condition that it necessitates a replacement in many instances which, on a superficial examination, would not be in evidence. Also, in making many of the changes during this contract, the building laws at the present time would not permit of any such replacement as originally installed, which in itself added materially to the cost of the work.

In consideration of the foregoing facts, I respectfully request permission to change the contract of R. J. Connolly to allow the sum of \$27,500 instead of \$23,500 as it is now written.

I would add for your information, that all this money comes from my general appropriation for the maintenance of the department and will not necessitate any further transfer to meet same.

Respectfully yours,
JOHN P. ENGLERT,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 7 the Mayor approved a contract with Hardy & Streeter for the construction of artificial stone sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 4, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Hardy & Streeter, 12 Pearl street, Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters, also because such contracts vary

greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,
JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon May 27 the Mayor approved a contract with M. Spinelli & Sons for the construction of artificial stone sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, May 25, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to M. Spinelli & Sons, 253 Quincy street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,
JAMES H. SULLIVAN,
Commissioner of Public Works.

SCHOOLHOUSE DEPARTMENT.

Upon June 2 the Mayor approved a contract with John McCourt Company for grading, etc., at the East Boston High School. A communication from Francis E. Slattery of the Schoolhouse Department was as follows:

BOSTON, May 25, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Board of Schoolhouse Commissioners respectfully requests the approval of your Honor, under the provisions of chapter 486, section 30, of the Acts of 1909, to awarding of a contract, without advertising, in the sum of \$6,144.49, to John McCourt Company, 910 Huntington avenue, Boston.

This amount is necessary for the grading and preparation of the size for the planting of trees and shrubbery, the furnishing and planting of these trees and shrubs and for the erection of a wire fence for their protection, at East Boston High School. The appropriation for this work has just been received from the School Committee and it is necessary that the work be done at once as the season is getting late.

The above-named contractor is one of the best in this line of work, and the Board believes it will be for the best interests of the city to allow him to do this work. The price has been checked and found to be reasonable.

We hope that this request will meet with your Honor's approval.

Respectfully yours,
F. E. SLATTERY,
Chairman.

SUPPLY DEPARTMENT.

Upon May 26 the Mayor approved a contract with the Boston Buick Company for furnishing to the Assessing Department one Buick sedan. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, May 26, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same,

to the Boston Buick Company, Inc., to deliver to the Assessing Department the following: One five-passenger Buick sedan, including the following equipment, delivered: Front bumper, three-way stop light, rear fender guards, spare shoe and tube, interior mirror, tire cover, full set of tools, tire lock, motometer, automatic windshield wiper, for the sum of \$1,712; less allowance on 24-25 Buick, \$412; Net amount of the contract, \$1,300.

As this concern is the manufacturer, no advantage would be gained by publicly advertising.

Respectfully yours,
HERBERT S. FROST,
Superintendent of Supplies.

Upon June 6 the Mayor approved a contract with the M. N. Dain Company for supplying the various city departments with X-ray films. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 2, 1927

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of April 22, 1926, your Honor approved the award of a contract to M. N. Dain Company for furnishing X-ray films, etc., to the various city departments until December 31, 1926, publicly advertised bids on which were opened under date of March 30, 1926.

Under dates of February 17 and March 4, 1927, the City Hospital requisitioned this office for X-ray material, but as the contract for 1927 for this material was not executed until April 15, 1927, it was necessary to place these orders under the old contract prices for 1926.

Two bills are now being withheld for payment by the Auditing Department amounting to \$1,169.85 and \$1,093.77, respectively, but as these were emergency purchases for the Hospital Department, the City Auditor has instructed this department to secure your Honor's approval so that payment may be made to M. N. Dain as the goods in question have been delivered and used by the Boston City Hospital.

Respectfully yours,
HERBERT S. FROST,
Superintendent of Supplies.

Upon June 7 the Mayor approved a contract with the Brockway Motor Truck Corporation for furnishing one S Y two-ton truck. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 6, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract to the Brockway Motor Truck Corporation, without publicly advertising for same, for furnishing the following: 1 model S Y two-ton, six-cylinder, 165-inch wheel base chassis, \$3,000; less 20 per cent discount, \$600; total, \$2,400; closed cab, \$200; 12-foot body, box type, panel sides with three lumber rolls (2 ratchet) body similar to type used by McQuesten Lumber Company, \$575; freight, \$75; total, \$3,250; less allowance on old Reo truck offered in exchange, \$125; net price, \$3,125.

Truck to be equipped with single pneumatic tires, electric lights, windshield cleaner and commercial truck mirror.

As the Brockway Motor Truck Corpora-

tion is the manufacturer, no advantage would accrue from publicly advertising for same.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 3 the Mayor approved a contract with the Cadillac Auto Company for furnishing one seven-passenger sedan. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 3, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Cadillac Auto Company of Boston for furnishing to the Mayor's office one seven-passenger standard sedan with the following extra equipment: Wire wheels and two spares, fender wells in front fenders, trunk rack in rear, two tire mirrors, front and rear bumpers, spring covers, step plates, motor meter with lock, at a total price of \$4,196.15; less allowance on seven-passenger Marmon limousine, \$1,696.15; net price, \$2,500.

As this purchase is made direct from the manufacturer no advantage would accrue from publicly advertising for same.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 3 the Mayor approved a contract with the Boston Buick Company for furnishing the Collecting Department one Buick brougham. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 6, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Boston Buick Company for furnishing to the Collecting Department one five-passenger Buick brougham at a price of \$2,195 delivered. This price covers the following equipment: Front and rear bumper, mirror, Oakes tire lock, full set of tools, tire cover, trunk, water gauge on dashboard, automatic windshield wiper, spare shoe and tube, three-way stop light, cigar lighters.

As this car is purchased direct from the manufacturer, no advantage would accrue from publicly advertising for same.

Yours very truly,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 9 the Mayor approved a contract with the Chandler Motor Car Company for furnishing the Fire Department six Chandler sedan specials. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 9, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Chandler Motor Car Company for furnishing to the Fire Department six Chandler special sedans, meeting the following specifications:

Six Chandler Special Six sedans, each rear door to be cut 40½ inches by

32 inches inside, upholstered with genuine leather, rear side door windows to be leaded (opaque glass), back door windows to be of plain glass. Painting, upper structure to be black and the lower to be Fire Department red, standard. Spare tire, tube and cover to be mounted on left side of car. Cars to be of latest design, with complete equipment as follows: Front bumper, rear bumper, stop light, four wheel brakes, full-size balloon tires with extra tire, Gabriel snubbers all round, one shot lubricating system, oil purifier, air cleaner, vibration balancer, counter-balanced crankshaft, thermostatic heating control system, at a price of \$1,695 each, less discount of \$364 each, making a total of \$7,986, less allowance of \$70 each on six 1920-21 Buick roadsters offered in exchange, making the total amount of the contract \$7,566.

As the Chandler Motor Car Company is the manufacturer no benefit would accrue to the city from publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 10 the Mayor approved a contract with the Linscott Motor Company for furnishing the Fire Department one Reo speed wagon, etc. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 10, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract to the Linscott Motor Company, without publicly advertising for same, for furnishing to the Fire Department one model F 1½-ton, six-cylinder Reo speed wagon with closed cab and canopy top, express body, equipped with 32 by 6 tires and two extra leaves in rear springs at a price of \$1,730 delivered. Less allowance for old 1920 White truck offered in exchange, \$100; total, \$1,630 delivered.

As the Linscott Motor Company is the manufacturer, no benefit would be derived from a public advertisement.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 9 the Mayor approved a contract with the Eastern Tractors Company for the exchange and delivery of one Wausau five-ton plow. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 8, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of December 6, 1926, a contract amounting to \$15,120 was made for the purchase of tractors and snow plows from the Eastern Tractors Company for delivery to the Park Department. Among the items covered by this contract were two Sargent winged plows at a cost of \$1,100 each. After the delivery of these two plows, the chairman of the Park Department desired to exchange one of same for a different type plow to remove heavy snowdrifts in the Park roadways and exchange was made with the Eastern Tractors Company for a Wausau five-ton plow at a price of \$1,300 delivered.

Permission is therefore requested to amend the item in the original contract of December 6, 1926, calling for two Sargent winged plows, 20-foot spread at \$1,100

each to read "One Sargent winged plow, 20-foot spread at \$1,100 and one five-ton Wausau plow at a cost of \$1,300."

I am attaching letter from the chairman of the Park Commission in explanation of this change in the contract.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PENAL INSTITUTIONS DEPARTMENT.

Atlantic Works have been allowed to do the following work:

Renew ten tubes in condenser, including labor and packing, to furnish tubes and ferrules, \$10; renew joint on side of ship for the blow lines, \$20; renew one gauge cock similar to the ones now installed in boiler, \$20; remove and replace both telegraphs, relocating those in the pilot house so the wiring will not interfere with the steering gear, \$60; total, \$110, the same not being required by your contract with the City of Boston dated, and the amount of \$110 will be added therefor, making the account as follows: Contract price \$4,133; total additions, \$310; amount of contract, \$4,443.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$150, on contract with Henry F. Malley for laying sheet asphalt pavement in Glenburne street, Montealm avenue, Regina road and Verdun street, on account of constructing concrete retaining wall as directed. Original contract, \$33,859; total additions, \$170; contract as standing, \$34,029.

An addition, amounting to \$100, on contract with Henry F. Malley for artificial stone sidewalks in Aldie street, Farrington avenue, Louis Prang street, St. John street and Elton street, on account of hauling excavated material from St. John street and depositing it in Louis Prang street. Original contract, \$10,651.59; total additions, \$2,635; contract as standing, \$13,286.59.

An addition, amounting to \$35, on contract with S. J. Tomasello for laying sheet asphalt pavement in Gordon street, Williston road, Walworth street and Roslindale avenue, on account of removing two stumps not shown on plan. Original contract, \$67,508.36; total addition, \$35; contract as standing, \$67,543.36.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$1,000, on contract with the C. & R. Construction Company for laying 48-inch water pipes in Beacon street, Charles street, Park square, Columbus avenue, Arlington street and Tremont street, on account of cutting out and removing car rails, frogs and switches, hauling pipe and specials from Metropolitan Water Yard, etc. Original contract, \$124,635; total addition, \$1,000; contract as standing, \$125,635.

SCHOOLHOUSE DEPARTMENT.

Paul Caputo has been allowed to deduct from the contract for the Washington Irving School, addition, for omitting six water-closets and six urinals with supply and waste connections, \$800; for electric work omitted, \$418; for omitting book-lift, \$1,041; total deduction, \$2,259, per

architect's letter of May 2, 1927, and the amount of \$2,259 will be deducted, therefore, making the account as follows: Contract price, \$179,200; total additions, \$11,104.47; total deductions, \$6,259; amount of contract, \$184,045.47.

John Bowen Company have been allowed to deduct from the contract for moving portables at various schools, for heating and ventilating work, per Civil Engineer Patterson's letter of April 29, 1927, and the amount of \$800 will be deducted therefor, making the account as follows: Contract price, \$3,980, total deductions, \$800; amount of contract, \$3,180.

Phandor Company have been allowed to deduct from the contract for the Robert G. Shaw District School for shrubs and trees, \$500; finish hardware, \$900; total deduction, \$1,400, per architect's letter of May 11, 1927, and the amount of \$1,400 will be deducted therefrom, making the account as follows: Contract price, \$92,454; total deductions, \$1,400; amount of contract, \$91,054.

Phandor Company have been allowed the following for changes in the contract for the Bennett District School for trench and open blasting to regulate the play yard and changing curb grade to conform to Brookline town grade as follows: Blasting 282.06 cubic yards open blasting at \$10 per cubic yard, \$2,820.60; 69.22 cubic yards trench blasting at \$15 per cubic yard, \$1,038.30; total, \$3,858.90; deduction, 351.28 cubic yards earth excavation at \$1.50 per cubic yard, \$526.92; total, \$3,331.98; relaying driveway and curb, \$400; excavating and concreting ninety-nine fence posts, \$1,570; and the amount of \$5,301.98 will be added, therefore making the account as follows: Contract price, \$101,000; total additions, \$23,027.37; total deductions, \$900; amount of contract, \$123,127.37.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land, Lot 21, containing approximately 5,750 square feet, situated on the southwesterly side of Cedar street, adjoining the Phineas Bates School; and Lot 2, containing approximately 6,802 square feet, situated on the northeasterly side of Beech street, adjoining the Phineas Bates School, West Roxbury district, for school purposes, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to John Chirardelli, bounded:

Southwesterly by Beech street, forty-one and 49-100 feet; northwesterly by other land supposed to belong to said Chirardelli, one hundred sixty-four and 41-100 feet; northeasterly by land hereinafter described as taken from Peter Bordoni *et al.*, trustees, forty-one and 51-100 feet; and southeasterly by land supposed to belong to the City of Boston, one hundred sixty-three and 42-100 feet, containing sixty-eight hundred and two square feet, more or less.

The aforesaid described parcel is a part of a parcel of land registered in the Land Court, Certificate No. 18997, Book 90, page 197.

A parcel of land, supposed to belong to Peter Bordoni *et al.*, trustees, bounded:

Southwesterly by land hereinbefore described as taken from John Chirardelli, and by land supposed to belong to John Chirardelli, forty-six feet; northwesterly by land supposed to belong to Michael

Concannon, one hundred and twenty-five feet; northeasterly by Cedar street, forty-six feet; southeasterly by land supposed to belong to the City of Boston, one hundred and twenty-five feet; containing fifty-seven hundred and fifty square feet, more or less.

The aforesaid described parcel is a part of a parcel of land registered in the Land Court, Certificate No. 17814, Book 85, page 14.

Said parcels are shown on a plan marked "City of Boston, Beech Street, Cedar Street, West Roxbury, July 17, 1925, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said City; trees buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Brighton, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ransom road, bounded: Southwesterly by easement taken December 14, 1925, eight feet; northwesterly by another part of Ransom road, fifty-five feet; northeasterly by the same, eight feet; and southeasterly by the same, fifty-five and 22-100 feet, containing four hundred and forty-one square feet, more or less.

The sewerage works to be constructed are as follows: 50 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Ransom road.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lot of abutting land at the southerly corner of Ransom and Claymoss roads, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter mentioned; said lot being shown on a plan marked "City of Boston, Plan No. 762, Sewerage Works, Ransom road, Brighton, March 24, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

FINANCE COMMISSION REPORT.

The Mayor has received the following
communication from the Finance Commis-
sion:

BOSTON, June 10, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

SIR,—The Finance Commission pre-
sents herewith a report on the method of
obtaining water meter readings by the
Water Division of the Public Works De-
partment. This division is under super-
vision of a division engineer, Mr. Chris-
topher J. Carven, and the income branch
of it is under the direct supervision of
James A. McMurtry, with the rating of
engineer-in-charge. This report deals
with the latter branch.

There are approximately 91,500 meter
services in the city which require a read-
ing every three months. There are about
1,600 unmetered services billed on sched-
ule rates. Mr. McMurtry has an assist-
ant, Deputy Superintendent P. G. Finn-
erty, who is in charge of the meter
reading section. Mr. Finnerty has under
him thirty-two regular meter readers.
In addition there are five inspectors and
two special meter readers.

The regular meter readers are assigned
to reading small consumption meters in the
twenty-two wards of the city, while the
special men are assigned to reading the
large consumption meters scattered
throughout the city. The inspectors
visit the unmetered premises and make
inspection for the purpose of determining
the schedule rate for the billing of water.

Besides, there are ten laborers assigned
to this department, three to seal fire
pipes, three assigned to shut-off work, and
four assigned to work with the meter
readers reading outside meters. The
duty of the latter four is to accompany the
regular meter reader, raise the meter-box
cover, dust off the meter glass, and protect

the opening while the meter reader bends
down to read the meter. The require-
ment of the laborer to accompany outside
meter readers is due to a ruling of the Law
Department that when openings are made
in highways they should be guarded.

The system of making water-meter
readings is as follows: A card is filled out
for each meter as it is installed and filed in
a cabinet kept for the purpose. The cards
are filed according to wards, assorted into
groups, each group representing a day's
work. This setting up of the day's
work is done by the meter reader assigned
to that ward. In other words, each man
arranges his own day's work and the cards
are taken out each morning and when the
meters are read the cards are returned
to their places in the file for clerical work
by the office force. Once a man is as-
signed any particular ward, it is rare when
he is transferred to any other ward.

The Finance Commission sent one of its
staff in the fall of last year and the early
part of the present year to check up the
work of the inspectors by going around
with each inspector in his district. He
found that the meter readers had ar-
ranged their day's work to suit their own
convenience. They stopped work when
the weather was not fair without con-
sulting their superiors and, generally
speaking, did as they pleased. Our
representative found that there was a lack
of discipline over the meter readers and
was informed by them that they generally
knocked off work anywhere from 2
o'clock to 4.30 in the day, and that they
also had arranged among themselves not
to read more than seventy-five or eighty
meters a day. The result was that some
men finished their work early in the after-
noon and went off the job. When the
Finance Commission's agent, however,
accompanied the men on the job, it was
found that instead of reading eighty
meters a day, the men without difficulty

could complete between twelve and
twenty an hour, or approximately 125
a day. Some of the readers quite frankly
stated that if there was some encourage-
ment in their work there was no doubt
they could read more meters than they
had been accustomed to.

In addition to the work done by the
representative of the Finance Commis-
sion, the commission recently examined
the meter readers and confirmed the fact
that almost universally they were read-
ing between seventy-five and eighty
meters a day, with approximately ten to
fourteen visits where meters were unable
to be read, and that the time for complet-
ing their work in the day was between
half past three and four o'clock. It
appeared to the commission, therefore,
that the meter readers, by tacit under-
standing, have decided that not more
than seventy-five to eighty meters a day
should be read.

It was also apparent to the commission
that the number of meter readers was
excessive for the work and that at least
one third could be dismissed, the wages
of the remainder raised, and the daily
quota of 125 to 150 meters, according to
the location and extent of the districts,
for each reader adopted. The Edison
Electric Illuminating Company pays it
readers from \$1,196 to \$1,612 a year,
and the Boston Consolidated Company
pays from \$1,144 to \$2,860. The latter
salary, however, is based upon a minimum
salary of \$22 a week, plus bonus, which
brings it up to \$55 a week.

It is quite apparent that the number of
meter readers has been increased in City
Hall to such an unnecessary number that
it is impracticable to give them a proper
wage on the present division of the work.
Less men would mean more work per man,
but higher pay. Under the present
system there is also a period of two or
three weeks between quarters, when the
meter readers are brought into the office
to do certain clerical work and are then
sent out for another few weeks to take
readings which are of questionable value
to the city.

These later readings are taken to see
how the meters are recording, but no
bills are made out from these readings.
It has been estimated that with an
average of fifty working days each
quarter and a man reading about 100
meters a day, it would require the services
of only eighteen men, as against the
thirty-two at present employed, to read
all of the meters in the quarter. The
present system allows the men, therefore,
a large amount of free time which some
of the employees have taken advantage
of to enlist in other employment.

The Finance Commission in its recent
investigation found that there were
at least six of the meter readers who were
employed in outside employment during
hours other than city hours, but in only
one case, that of D. F. O'Brien, did it
find that the employment conflicted with
the duties of the employees to the city.
Mr. O'Brien is employed by the Post
Office Department as a regular clerk at
\$2,100 a year and works from 11 o'clock
p. m. to 7.30 a. m. It is obvious that
he cannot work day and night. It is,
therefore, impossible for him to go on the
job of meter reading at 9 o'clock in the
morning and do a fair day's work for the
city.

According to his own testimony he
called at City Hall only on Saturdays
for his cards and pay. The jobs of the
other men do not conflict with their city
work and the Finance Commission found

nothing to criticise in their seeking employment outside of their regular office hours. It believes, however, that Mr. O'Brien should be made to choose between the city job and his Federal position.

There is great opportunity for improving the conditions in this department, as well as making a large saving of expenditure by rearrangement of the work. The responsibility of assigning work to the meter readers should be placed on Mr. Finnerty. He should take full charge of the card files and, with the assistance of his clerk, arrange the cards in a day's work, should assign each day's work to the men and follow up the work by seeing that the men complete a day's work as laid out for them. This would encourage the men to work faster.

For the purpose of comparison of methods and results accomplished, the executives of the Boston Consolidated Gas Company and the Edison Electric Illuminating Company were invited to explain their systems. The meter readers of the Edison Company have their work arranged in books by a supervisor and they are obliged to complete all the readings in the day assigned to them. The number of readings a day varies from 185 readings located in Carlisle, Mass., to 885 readings in the Elm Hill section of Roxbury. Similarly, in the Boston Consolidated Gas Company, the meter readers have their work laid out in books by the supervisor in charge of this work, and they are expected to read from 200 to 250 meters a day.

The water meter readers of the City of Boston cannot be expected to read as large a number of meters as either the Boston Consolidated Gas Company or the Edison Electric Illuminating Company's men, as they have conditions with which the meter readers of either of these public service corporations do not have to contend with. The meter locations of the Edison Company and the Boston Consolidated Gas Company, before the service is installed, have to be approved and are situated always in accessible locations, while water metres are often located in places requiring keys from tenants on the top floors of apartment houses, or the removal of large accumulations of rubbish from the top of the water meter boxes. Our agent found that in some cases the water meter box was situated in a coal hole and before a reading could be had it would be necessary to remove a ton of coal or a load of wood, or furniture or whatever rubbish was in the cellar. In such cases the meter generally is not read.

If a system of co-operation was established between the Water Division and the Building Department, an arrangement could be perfected whereby the location of the water meter box would be in an accessible place for the water meter reader.

The Finance Commission recommends:

1. That a representative of the Water Division and of the Building Department be assigned to approve service locations on all new construction work and require that meters be set in locations accessible at all times.

2. That the Water Division, when water meters are reported inaccessible by the readers, require the owners to furnish free access, or order the water turned off.

3. That Meter Reader O'Brien be required to choose between his Federal and his city job, and that the other readers be not required to relinquish outside work as long as it does not conflict with their duties to the city.

4. That Mr. Finnerty be required to assign 125 to 150 meters a day to each reader, according to district.

5. That the quota of meter readers be reduced to the legitimate requirements of the service and wages increased when the readers are assigned a full day's work.

Respectfully submitted,

THE FINANCE COMMISSION,
By CHARLES L. CARR,
Chairman.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city: trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Halborn street, bounded: Northwest by easement taken by the City of Boston for sewerage purposes, December 9, 1926, six feet; northeasterly by another part of Halborn street, two hundred one and 18-100 feet; southeasterly by easement taken by the City of Boston, September 19, 1912, for sewerage purposes, six feet, and southwesterly by another part of Halborn street, two hundred one and 18-100 feet, containing twelve hundred and seven square feet, more or less.

The sewerage works to be constructed are as follows: 182 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Halborn street, between easement taken December 9, 1926, and easement taken September 19, 1912.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Halborn street, beginning at a point approximately 160 feet northwest of West Selden street and extending northwesterly for a distance of approximately 180 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 764, Sewerage Works, Halborn Street, Dorchester, May 18, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Livingstone street, bounded:

Westerly by another part of said street, six feet; northerly by the same, one hundred and twenty feet; easterly by the same, six feet; and southerly by the same, one hundred and twenty feet, containing seven hundred and twenty square feet, more or less.

The sewerage works to be constructed are as follows: 110 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Livingstone street.

Betterments are to be assessed for the making of the aforesaid improvement.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of abutting land on both sides of Livingstone street for a distance of approximately 120 feet southeasterly from Ashton street, excluding the lots at the corners of Livingstone and Ashton streets, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 768, Sewerage Works, Livingstone Street, Dorchester, May 24, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any

structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Lasell street, bounded: Northeastly by the northeasterly line of said street, eight and 4-100 feet; southeasterly by another part of Lasell street, three hundred seventy-eight and 45-100 feet; southwesterly by the same, eight and 7-100 feet; northwesterly by the same two hundred sixteen and 94-100 feet; again southwesterly by the same, sixteen and 14-100 feet; again northwesterly by Caspar street, ten and 9-100 feet; again northeasterly by another part of Lasell street, sixteen and 14-100 feet; and again northwesterly by the same, one hundred fifty-one and 9-100 feet, containing thirty-one hundred and eighty-eight square feet, more or less.

The sewerage works to be constructed are as follows: 375 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Lasell street, between Newfield street and the northeasterly line of Lasell street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the southeasterly side of Lasell street, between Newfield street and the northeasterly line of Lasell street, and the lots of abutting land on the northwesterly side of Lasell street, between Newfield street and the northeasterly line of Lasell street, excluding the lot at the corner of Lasell street and Newfield street and the lots at the corners of Lasell and Caspar streets, will receive benefit or advantage, beyond the general advantage to all real estate in Boston, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 765, Sewerage Works, Lasell Street, West Roxbury, May 14, 1927, William J. Severally laid over a week under the law.

CODMAN SQUARE CONVENIENCE STATION VETO.

The following was received:

City of Boston,
Office of the Mayor, May 25, 1927.
To the City Council.

Gentlemen,—I return herewith, without my approval, your order passed May 9 for the construction of a public convenience station in Codman

square, as it will not be necessary to issue indebtedness, provided such station is to be constructed.

Yours very truly,

MALCOLM E. NICHOLS, Mayor.

Placed on file.

HIGH PRESSURE FIRE PROTECTION, PARKER HILL.

The following was received:

City of Boston,
Office of the Mayor, May 23, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of April 11, 1927, in relation to high pressure fire protection service in the Parker Hill district, Roxbury, Ward 10.

Yours very truly,

MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, May 17, 1927.
To the Honorable the Mayor.

I return herewith the order of the City Council requesting the Commissioner of Public Works to provide high pressure fire protection in the Parker Hill district of Roxbury, and submit the following report of the Division Engineer of the Water Division:

"Parker Hill is in the high service area of Boston and is supplied from, and the water pressure is maintained by, Fisher Hill Reservoir in Brookline, the high water elevation of said reservoir being 251 feet above city base. Assuming that a pressure of 30 pounds should be available at all times, which is as great as a large portion of Boston has, the area of Parker Hill which does not have this pressure is that area above grade line of 185 feet above city base. This comprises only a length of about 1,200 linear feet of Parker Hill avenue, extending from a point 150 feet west of Wait street to a point 800 feet west of Iroquois street. To increase the pressure in this limited length of Parker Hill avenue will be a very costly proposition. Two ways are available, namely:

First. The greater water pressure available in Boston is that supplied from the Bellevue tank in West Roxbury, high water level being 375 feet above city base, and to bring this supply to Parker Hill it will be necessary to lay 12,000 linear feet of 12-inch water pipe from the junction of Centre and May streets, the nearest point of the Bellevue tank system, to Parker Hill. The rock and other difficulties that will be encountered make the estimated cost of this pipe laying about \$120,000. This single line will not completely solve the question, and to safeguard against loss of water in case of accident to this single pipe line, a second water pipe line through Brookline, Huntington avenue and Wait street is necessary to guarantee a constant supply. The greater portion of this second water pipe line would have to be laid by the Metropolitan District Commission in Brookline, on our request, etc. The second line will cost an additional \$100,000, a total estimated expenditure of \$220,000 to increase the water pressure in the limited length of water pipe in Parker Hill avenue.

Second. To install a small pumping unit to increase the water pressure, and as this station should be maintained twenty-four hours daily, the cost will be a serious factor to be considered.

As a matter of fact, the various hospitals on the top of Parker Hill are now amply protected by pumping units installed in said hospitals, both for domestic use and fire protection. The only buildings that are not as amply supplied as might be desired are six dwellings in this length of Parker Hill avenue, and they suffer only as to the fact that water flows slowly in their dwellings. On this length of 12-inch water pipe there are six post hydrants to which the fire apparatus can attach, and while the normal pressure is not of itself sufficient for fire-fighting purposes, any desired water pressure can be had by operating the pumps on the fire engines."

In view of the increased burdens placed upon the city by the state to meet the cost of the additional water supply for the metropolitan district, it does not seem feasible to assume a further expenditure of \$220,000 where the conditions do not warrant it.

Yours respectfully,

J. H. SULLIVAN,

Commissioner of Public Works.

GREYLOCK ROAD, BRIGHTON.

The following was received:

City of Boston
Office of the Mayor, May 26, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of April 25 in relation to Greylock road, Brighton.

Yours very truly,

MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, May 23, 1927.
To the Honorable the Mayor.

I return order of the City Council, dated April 25, 1927, and relating to Greylock road, Brighton, now under contract for construction.

Before the contractor's work is accepted by the department, he will be required to make good any defective or unsatisfactory construction, as called for by the terms of his contract.

Yours very truly,
J. H. SULLIVAN,
Commissioner of Public Works.
Placed on file.

ROOM FOR BABY CLINIC AND DISTRICT NURSES.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Department of Public Buildings in reply to your order of May 16, 1927, in relation to the use by the baby clinic and district nurses of the room formerly occupied by the judges and the room adjoining in the Dorchester Courthouse on Arcadia street.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Buildings Department, May 24, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to the inclosed order of the City Council, that the Superintendent of Public Buildings be requested, through his Honor the Mayor, to assign for the use of the baby clinic and district nurses, the room formerly occupied by the judges and the adjoining room in the Dorchester Courthouse on Arcadia street, I wish to say that the rooms referred to are unoccupied at the present time and I can see no reason why same cannot be used by the baby clinic and district nurses of the Health Department.

I will be glad to confer with them at any time that suits their convenience.

Respectfully yours,
JOHN P. ENGLERT,
Superintendent of Public Buildings.
Placed on file.

CATCH-BASINS IN WARD 10.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of May 16 in relation to catch-basins in Ward 10 being cleaned.

Yours very truly,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, May 26, 1927.
To the Honorable the Mayor.

I return order of the City Council, dated May 16, 1927, "That the Commissioner of Public Works be requested, through his Honor the Mayor, to have cleaned all catch-basins in Ward 10."

There are about 550 catch-basins in Ward 10. Up to date we have received only five complaints of flooded basins in this ward, and these have been attended to. These complaints were from Roxbury Crossing and the vicinity of Huntington avenue and Tremont street. In addition, basins have been cleaned in New Heath street, Old Heath street, Bickford street, Minden street, portions of Huntington avenue, and a great many bordering on the line of Ward 10, such as those on Prentiss street, Ritchie street, Centre street, Cedar street and Columbus avenue.

The contract for catch-basin cleaning in Roxbury calls for cleaning 3,000 basins. The work is now in progress, and the worst places will soon be taken care of.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.
Placed on file.

SILENT POLICEMAN, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Police Department in reply to your order of May 9 in relation to the installation of a silent policeman at the junction of St. Alphonsus street and Smith street, Ward 10.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Police Department, May 27, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

My dear Mayor Nichols,—In reply to the order of the City Council that the Police Commissioner

be requested through his Honor the Mayor to install a silent policeman at the junction of St. Alphonsus and Smith streets, Division 10, I would say, that after investigation of this matter, in my opinion, the installation of a traffic signal at this point would not be practical, inasmuch as both St. Alphonsus and Smith streets being approximately twenty-eight feet wide, left-hand turns for trucks and large vehicles would be difficult and probable continuous damage, by vehicles, to the traffic signal would result.

Yours respectfully,
HERBERT A. WILSON,
Police Commissioner.
Placed on file.

LOANS FOR HOSPITAL BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1927.
To the City Council.

Gentlemen,—I am in receipt of the attached letter from the trustees of the City Hospital in connection with the three million dollar building program authorized by the Legislature at its session in 1924. Under the program developed by the Trustees six major improvements were planned at the Hospital. Up to the present time, appropriations have been made available for four of these units. The communication herewith attached is primarily concerned with the two remaining units in the program.

Under the terms of the legislative act authorizing the hospital building program, it was provided that two thirds of any loan issued under the act shall be borrowed outside the statutory limit of indebtedness, and one third within the borrowing power of the city. For this reason, I submit herewith, in accordance with the request of the trustees, four loan orders totalling \$522,000. Two of these orders pertain to the House Officers' Building, plans for which have been drawn and accepted by the Trustees. The other two orders pertain to the Medical Pavilion and are intended to provide for certain preliminary work which must be finished before the actual construction of the Medical Pavilion can be started. I respectfully recommend adoption of these orders by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Hospital Department, May 19, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mr. Mayor.—To complete the building program within the act allowing the City of Boston to expend \$3,000,000 for hospital improvements, the trustees intend to construct two more buildings, one for house officers, and a medical pavilion of eight stories. In order to go forward with this program, it becomes necessary to demolish Wards Q, R and S, and to make certain changes in Wards F, G and H.

On behalf of the trustees, I therefore respectfully request that \$460,000 be appropriated for the construction of the House Officers' Building, plans for which have been drawn and accepted by the trustees, and \$60,000 to make such changes as may be necessary in Wards F, G and H, and to connect the same with the tunnel.

Yours respectfully,
HENRY S. ROWEN,
Acting President.

Ordered, That under authority of chapter 352 of the Acts of 1924, the sum of \$20,000 be and the same hereby is appropriated to be expended by the trustees of the Boston City Hospital for Medical Pavilion, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Ordered, That under authority of chapter 352 of the Acts of 1924, the sum of \$150,000 be and the same hereby is appropriated to be expended by the trustees of the Boston City Hospital for Medical Pavilion, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount, the same to be issued outside the limit of indebtedness.

Ordered, That under authority of chapter 352 of the Acts of 1924, the sum of \$154,000 be and the same hereby is appropriated to be expended by the trustees of the Boston City Hospital for House Officers' Building, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Ordered, That under authority of chapter 352 of the Acts of 1924, the sum of \$308,000 be and the same hereby is appropriated to be expended by the trustees of the Boston City Hospital for House Officers' Building, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds

or certificates of indebtedness of the City of Boston to said amount, the same to be issued outside the limit of indebtedness.

Coun. WILSON—Mr. President, I would like to ask if any reply has come in relation to the Homeopathic Hospital buildings, so nearly adjacent to the hospital, which are on the market for sale?

President HEFFERNAN—No reply has been received as yet.

The communications and orders were referred to the Committee on Finance.

BEQUEST OF A. SHUMAN.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1927.
To the Honorable the City Council.

Gentlemen,—On October 20, 1919, the City Council unconditionally accepted a bequest of the late A. Shuman wherein he left to the City of Boston \$100,000 for the purpose of erecting a convalescent home for men. On January 2, 1924, before this money had been turned over to the City of Boston the City Council amended said unconditional acceptance by providing that subject to an order of the Probate Court the city should accept this sum for the following purposes:

1. For the erection of a building to be used as a maternity hospital as a department of the Boston City Hospital, this building to be known as "The A. Shuman Maternity House."

2. For the erection on the grounds of the City Hospital of a dormitory for house officers, internes and orderlies engaged in the service of the Boston City Hospital, said building to be known as "The A. Shuman Memorial."

3. For the erection on the grounds of the City Hospital of a dormitory for female nurses engaged in service at the Boston City Hospital, said building to be known as "The A. Shuman Memorial."

4. For the establishment of a fund out of which financial assistance may be rendered to men patients convalescing from acute diseases following treatment in the Boston City Hospital, except those convalescing from alcoholism, who have been discharged from the hospital and who are in need of financial assistance; this fund to be administered by the trustees of the Boston City Hospital and to be known as "The A. Shuman Memorial Fund for Convalescent Men."

The executors under the Shuman will thereafter filed a petition with the Probate Court seeking instructions as to what should be done with this money and whether the city had the legal right to this money in view of the amended acceptance of January 2, 1924. The Corporation Counsel has advised me that the amended acceptance of January 2, 1924, is of no force and effect and is in law null and void on the grounds that in this Commonwealth when once a trust for a public charity is accepted by those designated in the will as its trustees, such acceptance cannot be amended at will and the trustees designated must carry out the desires of the testator as expressed in his will. At the hearing held in the Probate Court, the Court suggested that the City Council pass a new order rescinding and annulling the amended order of January 2, 1924, and reaffirm and re-enact the original order of acceptance of October 20, 1919.

In view of the fact that I am desirous of securing this money for the city and to comply with the suggestion of the Probate Court, I am accordingly submitting for your approval the inclosed order carrying out this recommendation of the Court.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

Whereas, On the twentieth day of October, 1919, the City Council of the City of Boston by its order unconditionally accepted the bequest to the City of Boston under the will of the late Abraham Shuman for the erection of a building to be known as "The A. Shuman Memorial Building for Convalescent Men" which order was approved by his Honor the Mayor, Andrew J. Peters, on October 22, 1919; and

Whereas, Subsequent thereto, on the thirty-first day of December, 1923, the City Council of the City of Boston by its order amended said order of October 20, 1919, by providing that the said bequest be accepted subject to the issuance of an order by the Probate Court, permitting the fund to be used for any of the following purposes:

1. For the erection of a building to be used as a maternity hospital as a department of the Boston City Hospital, this building to be known as "The A. Shuman Maternity House."

2. For the erection on the grounds of the City Hospital of a dormitory for house officers, internes and orderlies engaged in the service of the Boston City Hospital, said building to be known as "The A. Shuman Memorial."

3. For the erection on the grounds of the City Hospital of a dormitory for female nurses engaged in service at the Boston City Hospital, said building to be known as "The A. Shuman Memorial."

4. For the establishment of a fund out of which financial assistance may be rendered to men patients convalescing from acute diseases following treatment in the Boston City Hospital, except those convalescing from alcoholism, who have been discharged from the hospital and who are in need of financial assistance; this fund to be adminis-

tered by the trustees of the Boston City Hospital and to be known as the "A. Shuman Memorial Fund for Convalescent Men."

This order was approved by his Honor the Mayor, James M. Curley, on January 2, 1924; and Whereas, The Corporation Counsel of the City of Boston has advised the City Council that said amended acceptance of December 31, 1923, is of no force and effect and is in law null and void;

Therefore be it Ordered, That said order of the City Council passed on December 31, 1923, and approved by his Honor the Mayor on January 2, 1924, be and hereby is rescinded and annulled and the order of the City Council passed October 20, 1919, and approved by his Honor the Mayor on October 22, 1919, wherein the said bequest of the late Abraham Shuman was unconditionally accepted, be and hereby is re-enacted and affirmed.

APPROPRIATION FOR FIRE STATION.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1927.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Fire Commissioner relative to the new fire station at Parish street, Meeting House Hill. Last year a loan appropriation of \$100,000 was authorized for the erection of this building. With the opening of the bids last Friday, June 3, it develops that this appropriation will be insufficient to meet the total cost of construction.

In the opinion of the Fire Commissioner \$15,000 additional will be necessary to cover all the expenses that naturally come up in the erection of such a building.

In view of this opinion I submit herewith an order providing for the appropriation of this sum from the Special Fund, Sales of City Property. I respectfully recommend the adoption of this order by your honorable body.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Fire Department, June 3, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—In June, 1926, an appropriation of \$100,000 was passed by the City Council to erect a new fire station at Parish street, Meeting House Hill. The erection of this station will do away with two old, dilapidated buildings that are totally unfit for the housing of men or apparatus.

Following the passage of the appropriation, plans and specifications have been prepared to erect a building which was simple in design, but adapted to accommodate the two companies that are located on the hill.

At noon, today, bids were opened after advertising in the *City Record*, and the following figures were submitted by thirteen contractors.

Bidder.	Amount.
M. S. Kelliher Company.....	\$99,453
Phandor Company.....	100,589
John B. Dolan.....	102,865
J. Slotnick Company.....	106,860
John Bowen Company.....	107,352
Matthew Cummings Company.....	107,830
Joseph Rugo.....	108,440
Milton Construction and Engineering Corporation.....	108,849
Archdeacon & Sullivan.....	109,400
Thomas O'Connor Company.....	110,720
A. Pioletti Company.....	113,688
P. J. Cantwell.....	119,469
White Construction Company.....	120,110

It is apparent that the appropriation is not sufficient to cover the cost, and more money will be needed to carry on the work. An examination of the figures submitted shows that the bidding was consistent, and I think that no good would be served by re-advertising.

I respectfully recommend to your Honor that an order be submitted to the City Council asking for \$15,000 more to be added to this appropriation to cover the expenses additional to the construction of the building, such as architect's fees, printing and blueprinting, advertising and any other items that naturally come up in the erection of such a building.

Yours very truly,
EUGENE C. HULTMAN,
Fire Commissioner.

Ordered, That the sum of \$15,000 be and hereby is appropriated from Special Fund, Sales of City Property, for new fire station, Engine 17 and Ladder 7, Dorchester.

ICE FOR DRINKING FOUNTAINS.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Commissioner of Public

Works in which he requests that an appropriation be made available for the purchase of ice for the public drinking fountains. As this is an annual expenditure, I submit for your approval the accompanying order.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, May 28, 1927.
To the Honorable the Mayor.

I respectfully recommend that the City Council be asked to appropriate from the Reserve Fund the sum of \$6,000 for ice to be furnished for drinking fountains during the present season.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

Ordered, That the Commissioner of Public Works be authorized to expend a sum not exceeding \$6,000 for the purpose of furnishing ice for the public drinking fountains during the present season, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

LEASE OF LAND ON SPRING STREET.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the Honorable the City Council.

Gentlemen,—Enclosed please find an order authorizing the Mayor of the City of Boston, in the name and behalf of the city, to lease to the United States Government the land in West Roxbury which was formerly used and occupied as the West Department of the Boston City Hospital. The premises are on Spring street and, as you know, have been leased to the United States Government for the use of the United States Veterans Bureau. The present lease terminates June 30, 1927. The Government desires to lease the premises for some time longer, but they are uncertain as to the length of time for which they will need the premises. You will see by the terms of the order that the length of the lease can in no case extend beyond December 31, 1928. The conditions suggested in the order are substantially the same as those in the lease under which the United States Government now has possession of the premises and the rent is exactly the same. I may also add that the trustees of the Boston City Hospital are not adverse to leasing the premises.

I therefore recommend the passage of the accompanying order.

MALCOLM E. NICHOLS, Mayor.

Ordered, That His Honor the Mayor, be and he hereby is, authorized in the name and behalf of the City of Boston, in form satisfactory to the Law Department, and at a yearly rental of thirty-five thousand one hundred and seventy-five dollars (\$35,175), the lessee in addition to pay the cost of changes, repairs, alterations and improvements and to pay the cost of restoration of the leased premises after the termination of the lease or any final renewal thereof, unless the lessor otherwise agrees, to execute a lease to the United States of America of that certain tract or parcel of land consisting of thirty and one half acres, more or less, together with the buildings and improvements thereon, situate on Spring street, in the West Roxbury district of said City of Boston, known as the West Department of the Boston City Hospital, as at present occupied by the United States Veterans Bureau, Health Service Hospital No. 44, for the term of one year beginning July 1, 1927, and ending June 30, 1928. The United States Government is to have the option to terminate the said lease by giving to the City of Boston three months' notice in writing of its intention so to do; and said United States Government is also to have the option of renewing the said lease under the same terms and conditions as therein provided; but no renewal thereof shall extend the term of the lease or the period of occupancy beyond the thirty-first day of December, 1928.

SALARIES OF SCHOOLHOUSE COMMISSIONERS.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the City Council.

Gentlemen,—I transmit herewith an amendment to the Revised Ordinances of 1925, pertaining to the salaries of the members of the Board of Schoolhouse Commissioners. The duties of the members of this Board may be said to be analogous to those of the members of the Transit Commission. The accompanying amendment fixes the salaries at the same levels as now exist for this latter commission. I recommend adoption of the accompanying ordinance by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

An Ordinance Concerning the Salaries of the Schoolhouse Commissioners.

Be it ordained by the City Council of Boston, as follows:

Section five of chapter three of the Revised Ordinances of 1925 is hereby amended in the clause establishing the salary of the schoolhouse commissioners by striking out the words "the chairman five thousand dollars, and the two other commissioners each four thousand dollars" and inserting in place thereof the words—"the chairman seventy-five hundred dollars, and the two other commissioners each five thousand dollars."

Referred to the Committee on Ordinances.

SALARY OF SUPERINTENDENT OF SUPPLIES.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the City Council.

Gentlemen,—I transmit herewith an amendment to the Revised Ordinances of 1925 which will establish the salary of the Superintendent of Supplies at \$7,500 per year.

The duties of purchasing agent in a corporation the size of our municipality involve an unusual degree of discretion and good judgment which are not fully represented by the present salary of \$6,000 per year. I am strongly of the opinion that the present salary should be increased by at least \$1,500 and therefore ask your favorable consideration of the accompanying ordinance.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

An Ordinance Concerning the Salary of the Superintendent of Supplies.

Be it ordained by the City Council of Boston, as follows:

Section five of chapter three of the Revised Ordinances of 1925 is hereby amended in the clause establishing the salary of the superintendent of supplies by striking out the words "six thousand" and inserting in place thereof the words—"seventy-five hundred."

POWER AND HEATING PLANT AT DEER ISLAND.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Penal Institutions Commissioner relative to conditions at the power and heating plant at Deer Island. It is apparent from this communication that action should be taken at once to remedy these conditions. I accordingly submit herewith an order providing for the appropriation of \$125,000 to be utilized for the erection of a central heating plant at the House of Correction. I respectfully recommend adoption of this order by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Penal Institutions Department, June 6, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Conditions at the power and heating plant at Deer Island have now reached such a state that it is necessary that immediate action be taken.

Practically all of the boilers are over twenty years old, and we are now using three plants to heat and supply light to the island.

An inspection of the plant has been made on different occasions, at the request of your Honor, by Mr. Louis K. Rourke, Building Commissioner, Mr. James J. Mahar, Engineer of the School Department, and Mr. James H. Ritchie. All felt that the proper solution of the problem was the erection of a central heating and power plant to take care of the needs of the institution. Mr. Mahar is thoroughly familiar with our plant, as he had made a survey in 1915.

I inclose herewith copy of Mr. Mahar's report submitted to your Honor, under date of May 18, 1927, after his last inspection of the plant, and also report submitted by Mr. Ritchie under date of June 4, 1927.

Because of the imperative need, and because the location of the island is such that a longer time would be required to build a plant than if located on the mainland, I respectfully request that you submit an order to the City Council for a loan in the sum of one hundred twenty-five thousand dollars (\$125,000) to provide for a central power and heating plant for the House of Correction at Deer Island.

Yours respectfully,
PHILIP A. CHAPMAN,
Penal Institutions Commissioner.

Ritchie, Parsons & Taylor,
Architects and Engineers,
15 Ashburton Place, June 4, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

My dear Mr. Mayor,—I have read with great care Mr. Mahar's report of May 18, and have had two or three conferences with Mr. Mahar and have also consulted Mr. Chapman with regard to the contemplated changes in the power plant at Deer Island. Mr. Mahar's estimate of \$100,000 for this work, I believe, leaves an insufficient margin for safety, and I recommend that the appropriation be increased to \$125,000 for the following reasons:

Mr. Mahar's estimate did not include the architects' or engineers' fees. It did not allow for the fact that, in constructing the new boiler building, it would be necessary to almost entirely duplicate the present capacity of the electric generators in order to give continuous lighting service and fire protection for the pumps on the island during the construction period. In order to do this the new generators would have to be in place and in operation before the present generators in the boiler building could be disconnected, dismantled, and rebuilt in the new power building, and reserved for spares or for peak loads in the middle of the winter.

The piping of the mains in the basement of the existing buildings is in rather bad shape, and the probability is that when steam is put on to these lines from the new power plant, and at probably a little higher pressure than the existing system, leaks will develop and possibly there will be quite a bit of necessary repairing on these lines, so I believe a margin of four or five thousand dollars for this kind of alteration should be allowed.

It is very difficult to accurately gauge the cost of this construction work located as it is on an island in the harbor, for there is an uncertain factor in the extra cost of transporting men and materials and therefore difficult to accurately gauge the value of this work on an island location. I feel safe, however, in recommending to you that an appropriation of \$125,000 would prove to be adequate, and it may be that all of it would be required.

I am returning herewith for your files Mr. Mahar's report, which you so kindly loaned to me. Respectfully submitted,

JAMES H. RITCHIE

The School Committee, May 18, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

My dear Mr. Mayor,—At your request I conferred with Commissioner Chapman of the Penal Institutions Department and we both visited Deer Island on May 16, 1927. Mr. Chapman pointed out to me the troubles now existing at the island and the difficulties they are having with the present boiler equipment.

On the island there are three boiler plants:

(1.) Power House. In the power house there are two 54-inch horizontal return tubular boilers, one fourteen and the other eight years old, which at one time operated at Rainsford Island and which were afterwards disconnected and set up in the power house on Deer Island. There is also one 72-inch horizontal return tubular boiler, twenty-one years old. This entire boiler plant should carry a pressure of 100 pounds, but the boiler inspector, after an examination, reduced this pressure from 100 to 80 pounds.

(2.) Men's Old Prison. In this prison there are three 54-inch horizontal return tubular boilers, about twenty-four years old, and not in constant use but are put into operation in connection with the plant at the power house at times during the cold weather when the boilers in the power house plant are not sufficient to do the work.

(3.) Hill Prison. In the boiler room in this building there are three 72-inch horizontal return tubular boilers, twenty-four years old, and in pretty fair condition. They operate at a pressure of 80 pounds.

From the above you will see that the heating and power required for use on Deer Island is practically supplied by three boiler plants located on various parts of the island.

For your information I might say that during the year 1917 I was asked by the then Mayor of Boston to make a survey of the power plant at the island. At that time I advocated a central boiler plant sufficiently large to do the work of supplying steam to all the buildings on the island for both heating and power requirements. I personally designed the boiler plant and laid out the system of piping, wrote the specifications, and the following year the work was put on the open market for competitive bidding. It so happened that when the bids were called for the contractors did not desire to bid on competitive work because of war conditions and the uncertainty of estimating on the cost of labor and materials. Several bids were received, however, but at that time the contract was not awarded and the work was not done. That same year in order to allow the boiler plant in the power house to operate, it was necessary to make minor repairs on two of the boilers. These boilers were afterwards removed and two taken from the Rainsford Island Power House were installed in their places.

The entire heating plant on the island is a very old one. Constant repairs are necessary, and the heating of the island by three separate power plants is not an economical arrangement to my mind. I would recommend the following:

1. That a new power house of simple design be built near the center of the island, than the location of the present power house. I would recommend that this power house be built near the location of the present bake shop and be large enough to accommodate a number of boilers necessary to do the work of furnishing heat and power to all of the buildings on the island. Also to be of sufficient size for the installation of the present electric generators now in the old power house, and to provide sufficient room for boiler feed pumps, tanks, fire pumps, etc.

2. I would not favor placing this power house near the wharf where the coal is landed for use on the island. This procedure of locating the boiler room near a point where the fuel is delivered is followed in private practice, but in this instance, where the island is sufficiently supplied with help and where coal can be easily carted from the wharf to the new boiler plant with no expense, I feel that the location of the power house near the wharf should be sacrificed for the location I have referred to above. If the work of building a new power house and making other changes on the present heating is carried out during the summer and fall, all of this work can be so arranged without interfering with the operation of the present plant. I would recommend that the power house be of simple design brick walls, reinforced roof and to contain on the four sides as many large windows as possible; that this power house be large enough to provide for the following large cold storage bunker (capacity 400 tons), one large boiler room, sufficiently large in which four 72-inch horizontal return tubular boilers could be installed, one large room for the accommodation of the present electrical generator plant, and one room which could be used as a combination pump room and engineer's office and workshop. This power house should contain boiler power sufficiently large to take care of all the present needs of the buildings on the island, and should also be capable of future extension or addition. I estimate the cost of this entire work at approximately \$100,000. I know that you will appreciate that this is very difficult to approximate the cost of work of this kind, in an institution located on an island in the harbor. The problem of transportation from the city of building materials, etc., and the cost of labor are large items to enter into this estimate.

3. The solution of this problem is not simple. It requires careful study and I would strongly recommend that the services of a heating engineer possessing the knowledge of power plant design be engaged to solve this problem in all its details, to design the boiler-house chimney and to make satisfactory connections of the present heating equipment in all the buildings to the new boilers in the new plant.

The plants which were made by me in 1912 are not wholly applicable now. The use of some of the buildings in the vicinity of the old power house has been discontinued and a more central location of the power house than the location which was planned in 1917 is desirable.

If it were possible for me I would be very pleased to design a plant for Deer Island, which would fit its needs and which would provide heating power for all the buildings on the island. I know that you realize that this would require a great deal of time, more time than I am able to give, in the drawing of plans, the writing of specifications and the other work incidental to this proposed installation. I would be very glad to keep in touch with Mr. Chapman, or to give any information to anyone whom you may select to do this engineering work. I am most familiar with the present apparatus at Deer Island and fully appreciate its present condition and the necessity of making the changes and additions referred to above.

Kindly let me know if I can be of any further assistance in the matter. I shall be glad to give you any further information or to discuss the matter with you if you so desire.

Respectfully,
JAMES J. MAHAR, Engineer.

Ordered, That the sum of \$125,000 be and hereby is appropriated to be expended under the direction of the Penal Institutions Commissioner, for Central Power Plant, House of Correction, Deer Island, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

LOAN ORDER FOR NEW FIRE STATION, WEST END.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1927.
To the City Council.

Gentlemen,—In the opinion of the Fire Commissioner it is desirable that the three station houses in the Bowdoin square district be abandoned and that the companies now housed in these quarters be consolidated in one building centrally located in this section. I have conferred with the Fire Commissioner and the Street Commissioners relative to the cost of acquiring land for this purpose and the erection thereon of an adequate building. I submit herewith reports made

by these gentlemen on this project, and in accordance with the figures shown in these reports I recommend for adoption by your honorable body the accompanying loan order providing for the appropriation of \$750,000 for this purpose.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Street Laying-Out Department, June 6, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to your favor of June 4, 1927, requesting an estimate of the sum sufficient to cover the expense of acquiring the Old Revere House property in Bowdoin square for a fire house.

An examination of the assessors' figures and estimates of three real estate experts gives a figure of approximately \$387,375.

There is at present no stability in real estate prices along the new thoroughfare, and recent verdicts by juries in land damage cases against the city have failed to furnish anything like a uniform standard.

Under such conditions, the Board must allow itself a sufficient margin of safety to do justice to the parties in interest and safeguard the city's rights.

These figures, of course, are not to be taken as indicating the price which the city may expect to pay for this land, but are made up in accordance with the practice which prevails in this department for determining estimates sufficiently ample to cover all possible expense.

Therefore, the Board feels warranted in asking your Honor to recommend a loan of \$400,000 above the estimate of the construction of the fire house.

Respectfully,
THOMAS J. HURLEY,
Chairman.

City of Boston,
Fire Department, December 21, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Little or no consideration has been given to the location of the fire houses in this department as to their situation relative to the territory they are at present expected to protect, or as to the width of the streets on which the apparatus must leave the houses. Many of the fire houses of this department are so old as well as so badly located as to make it uneconomical to attempt to alter or repair them. Several of our houses are located so near the boundary line of adjoining municipalities as to give to this city only about one half their effective radius of action. Most of our houses particularly in the high value district are relics of the past, some dating back to the earliest days of horse-drawn apparatus.

This department is making a study for the purpose of making a comprehensive plan of consolidating many of the houses now existing into larger units which will result in economy of maintaining the houses in regard to heat, light, repairs, etc., giving better fire protection to the districts in which they are located as well as to improve the standard of living and the morale of the men. It seems to be the modern practice in the thickly settled sections of the larger cities to build houses to accommodate at least four fire companies.

As the first step in such a plan I desire to lay before you, for your consideration, the conditions in regard to the present Engine Company 4, located at 5 Bulfinch street, Engine Company 6, located at 24 Leverett street, and Ladder Company 24, located at North Grove street. These houses are all small, obsolete and in bad repair.

Several years ago it was necessary to remove the water tower located at Bulfinch street to other quarters as Bulfinch street is so narrow that it was practically impossible to get this piece of apparatus out of the house in reasonable time to respond to alarms. At present there is only one engine company regularly stationed in this house and even the pumper and hose wagon of this company cannot always make the turn from this house on to the street without stopping and backing. The sanitary condition of this house is so bad that it is necessary from time to time to employ a professional vermin killer to control the vermin in this house.

Engine 6, on Leverett street, occupies another old and antiquated house with poor living conditions for the men, and bad conditions in regard to getting apparatus out of the house promptly to respond to alarms.

Ladder 24, on North Grove street, has identical conditions with the two foregoing engine companies, with the added objection that it is too near the Charles River Basin to allow for its most effective use to this city. At present, due to the conditions on North Grove street, we are maintaining at that station only a city service truck, whereas fire protection demands an 85-foot ladder, because the longer ladder could not make the turn in the narrow width of North Grove street.

The water tower which was removed from Engine 4's House is now located at the quarters of Engine 25, Fort Hill square, from which station it must cross the entire city under most adverse traffic conditions to reach the territory which it was intended to protect. These conditions leave the West End section of the city, which is increasing rapidly in value since the widening of Cambridge

street as well as having the very important thing to consider from a fire standpoint, the Massachusetts General Hospital,—without sufficient protection.

Another important matter which must be taken into consideration is the protection afforded to the highest value district, namely, the retail store and office building district. The abandonment of the old Fire Headquarters Building on Mason street, the apparatus from which is to be housed at the new station located on Broadway, removes that apparatus nearly one-half mile southerly from the district formerly protected by the Mason street station.

The ideal site for the new house suggested above would be at the corner of Bulfinch and Cambridge streets, the site of the former Revere House. This lot contains approximately 11,000 square feet and adjoins the present property owned by the city on Bulfinch street, and has a frontage upon Bowdoin square and Cambridge street of approximately 137 feet, which is ample for our needs. The approximate cost of a building suitable for our requirements would be \$350,000.

The assessed value of the property which would be abandoned by the consolidation would be as follows:

Engine 4, 5 Bulfinch street, total assessed value.....	\$100,000
Engine 6, 24 Leverett street, total assessed value.....	40,000
Ladder 24, North Grove street, total assessed value.....	19,800
Total.....	<u>\$159,800</u>

I would most respectfully urge your favorable consideration of this project as the first step of a comprehensive plan to relocate and house the Fire Department. If this plan is pursued I believe it will tend to reduce our fire losses as well as the cost of running the department.

Respectfully,

E. C. HULTMAN, Fire Commissioner.

Ordered, That the sum of \$750,000 be and hereby is appropriated to be expended under the direction of the Fire Commissioner, for New Fire Station, West End District, and that to meet said appropriation the City Treasurer be authorized to issue from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Coun. McGRATH—Mr. President, I ask that that last order be laid on the table rather than referred to a committee, until the members of this Council have had an opportunity to look into the matter. It does seem to me that an order calling for an appropriation of three quarters of a million dollars deserves the consideration of every member of this body. Therefore, I would ask that the matter be laid on the table for one week.

Coun. GUILD—Mr. President, I cannot see what is to prevent the members of the Council making any investigation that they wish to make on the matter while it is in committee, in the usual course of business. I certainly can see no advantage in not referring it to a committee at this time.

Coun. KEENE—Mr. President, it occurs to me that a matter of this importance should be referred to a committee and that proper notice should be given to every member of the Council, also, so that we may all get at the facts more intelligently. It is, as my brother states, a matter of importance, requiring some care and attention; and I should think we could proceed with a little more knowledge by referring it to a committee than by simply laying it on the table at this time.

Coun. BUSH—Mr. President, I rise to a point of order, that the motion made was to lay on the table for one week.

Coun. McGRATH—Mr. President, if there is no objection, I will withdraw the motion, but in doing so would like to call the attention of every member of the Council to the fact that from the very time of the inception of this matter until the final vote is taken every step should be very carefully watched by all the members of the Council. When they are asked here to pay \$400,000 for some property worth perhaps half of that, it should serve as a warning to every member of the Council that from now on everything in connection with the matter should be watched very closely. I withdraw my former motion.

Coun. GREEN—Mr. President, I think this is a matter that would naturally be referred to the Committee on Finance, and if it is so referred I promise the councilor from Dorchester and each and every member of the Council that they will be entitled to be present with the committee and to be heard when the matter is taken up.

The order was referred to the Committee on Finance.

SIDEWALK ASSESSMENTS, ALDIE STREET.

A schedule was received from the Commissioner of Public Works assessing the owners of record of estates bordering on Aldie street, Ward 22, half cost (amounting to \$4,126.43) of constructing edge-stone and artificial stone sidewalks, same accompanied by following order:

Ordered, That the persons named in the foregoing schedule be and the same are hereby assessed

the sum set against their names as their proportionate parts of the cost of constructing sidewalks and edgestones in front of their estates bordering on Aldie street, Everett street to Franklin street, Ward 22, and the same is ordered to be certified and notice be given to the persons as aforesaid.

Passed under suspension of the rule.

LEAVE OF ABSENCE, CITY EMPLOYEES.

Coun. RUBY offered the following:
Ordered, That his Honor the Mayor be requested to grant leave of absence, without loss of pay, to all employees of the City of Boston who are delegated to attend the annual department encampment of the Veterans of Foreign Wars to be held in Holyoke, Mass., June 23, 24, 25 and 26, 1927.

Passed under suspension of the rule.

CLOSING OF REGISTRY OF DEEDS.

Coun. BUSH offered the following:
Ordered, That the office of the Registry of Deeds be closed on week days, except Saturdays, at four o'clock p. m., from July 1 to September 2, 1927, inclusive.

Coun. GUILD—Mr. President, I rise for information. I want to know what authority the Boston City Council has to fix the hours for closing the Registry of Deeds?

President HEFFERNAN—The Chair will state that the members of the City Council are the County Commissioners for Suffolk County, and therefore have the right to establish hours at the courthouse.

Coun. GUILD—Mr. President, it seems to me, then, that this order should refer to the City Council as County Commissioners, in order that it may be acted upon in that capacity.

President HEFFERNAN—The Chair will rule that that is not necessary.

The order was passed under suspension of the rule.

REPAVING OF WINTHROP STREET.

Coun. BUSH offered the following:
Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to repave Winthrop street, Roxbury, with smooth paving.

Passed under suspension of the rule.

ADDITIONAL ATTENDANTS, L STREET BATHS.

Coun. LYNCH offered the following:
Ordered, That the Park Commissioner, through his Honor the Mayor, be and he hereby is respectfully requested to provide additional attendants forthwith at the L Street Bath Houses.

Coun. LYNCH—Mr. President, I am going to ask that this order be referred to the Executive Committee and that the Park Commissioner be notified to appear at the hearing.

The order was referred to the Executive Committee.

SIDEWALK, M STREET AND MARINE ROAD.

Coun. LYNCH offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk in front of 225 M street and around corner on Marine road, Ward 7, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON EAST COTTAGE STREET.

Coun. LYNCH offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along the East Cottage street side of 164-168 Massachusetts avenue, Ward 7, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SALARIES OF MEDICAL EXAMINERS, SUFFOLK COUNTY.

Coun. WARD offered the following:
Ordered, That chapter 200 of the Acts of 1927 entitled "An Act Establishing the Salaries of the Medical Examiners and Associate Medical Examiners for Suffolk County" be and the same hereby is accepted.

Referred to the Executive Committee.

SIDEWALK ON CUSHING AVENUE.

Coun. McGRATH offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along 51 Cushing avenue, Ward 13, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON MONTVIEW STREET.

Coun. KEENE offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along Montview street, both sides, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON MT. VERNON STREET.

Coun. KEENE offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along Mt. Vernon street, both sides, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

REPAVING OF WASHINGTON STREET.

Coun. DOWD, offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Washington street, from Massachusetts avenue to Dover street.

Passed under suspension of the rule.

LEAVE OF ABSENCE TO CITY EMPLOYEES.

Coun. MAHONEY offered the following:
Ordered, That his Honor the Mayor be authorized to grant leave of absence, without loss of pay, to all employees of the City of Boston who are members of the Army Reserve Corps, the Naval Reserve Force, the National Guard, or the United States Citizens Training Camp, to attend the annual tour of duty or service school.

Passed under suspension of the rule.

IMPROVEMENT OF TENEAN BEACH.

Coun. GILBODY offered the following:
Ordered, That the Park Commissioners be requested, through his Honor the Mayor, to conduct a study of the needs of Tenean Beach, Dorchester, with a view to the making of immediate improvements there.

Coun. GILBODY—Mr. President, I desire to say a brief word in behalf of this order. Some few years ago there was an unexpended balance of \$18,000 from an amount that was intended to be used for Tenean Beach, but which was diverted to another part of the city. Since then no improvement has been made at the beach, and the bathing situation has become quite acute. We find one of our best beaches, the Savin Hill Beach, now being made an inland beach on account of the construction of the Old Colony boulevard. On the other side, the old Freepoint Street Beach is going to suffer because of the construction of that boulevard. That will leave for the entire section of Dorchester, suitable for bathing purposes, practically only Tenean Beach. Therefore, I am introducing this order as a matter of foresight, to provide for future bathing facilities in the Dorchester district. I move, therefore, a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

PUBLIC WORK TO RELIEVE UNEMPLOYMENT.

Coun. WARD offered the following:
Whereas, The Superintendent of the Massachusetts State Free Employment Bureau has publicly stated that industry is today at the lowest level in twenty-five years and that the workers of this section are today facing a depression never before equalled, be it and it is hereby
Resolved, That his Honor the Mayor be requested to appoint at once a committee to draft a program of public work for the relief of the unemployed who today suffer loss of work in consequence of industrial depression for which they are in no measure responsible.

Coun. WARD—Mr. President, I am referring to an article that appeared this morning in the Boston Post, and I wish to read it and have it inserted in the record:

"That industry is today at one of the lowest levels reached in the past quarter of a century was the announcement made yesterday by G. Harry Dunderdale, superintendent of the Massachusetts State Free Employment Bureau.

"Mr. Dunderdale's declaration was made before the delegates of the Boston Central Labor Union at their meeting at Wells Memorial building during a discussion on the advisability of holding a Labor Day parade this year.

"He said, 'With more than 2,000 men and women applying for work each day at the Employment Bureau, and on an average of but one application for help for each twenty-eight men seeking work, and one position for each twenty-three women, organized labor, and for that matter all workers, are today facing a depression never before equalled.'

"He also pointed out that the boot and shoe industry is very spotty with some places doing little work and other places practically shut down. At the same time the textile industry, he declared, has not been as slow in twenty-five years as at the present time.

"Following a lengthy discussion, amid which many delegates stated that their organizations were not in sympathy with a parade, the meeting voted to have a committee investigate the advisability of having a demonstration of some sort on Labor Day."

I don't believe we are any worse off in Boston than in any other large municipality in the country. I have read articles showing that 2,000 farms in the West have been abandoned, and this sort of thing comes on the wave of the so-called "Coolidge prosperity." I believe the people walking the streets today are sick and disgusted with hearing the cry of "Coolidge prosperity." The West is suffering and New England industries are also suffering. With that thought in mind, I am presenting this resolution this afternoon, so that Boston may take the lead in this matter, with the hope that when Coolidge returns from his vacation there may not be business depression in the country.

Coun. GUILD—Mr. President, some months ago there was appointed by the City Council a special Committee on Unemployment in the City of Boston. That committee was made up of what I regard as some of the ablest men in the City Council. They have functioned well and have put in a great deal of time investigating the unemployment situation. It seems to me, having in mind the way in which this resolution is framed, that for us at this time not to recognize properly the function of that special committee of this Council and the work delegated to it, would be a direct reflection on the committee, and it is rather surprising to me that such a move should come from a member of the City Council itself. I certainly feel that the special committee we already have is fully capable of taking whatever steps are necessary in this city, so far as the Council is concerned, in the matter of investigating and recommending plans for city work, having in view the alleviation of the unemployment situation. For the reason that it is a reflection on that committee of the City Council, I am opposed to the resolution.

Coun. WARD—Mr. President, I have no objection to the matter being referred to that committee. I believe, however, that the councilor from Jamaica Plain has looked at this resolution in the wrong light. He, of course, I suppose, is standing up to defend the President who, I believe, is responsible for conditions in the country today. However, I have no objection to having the resolution referred to the Committee on Unemployment, of which I am a member.

The resolution was referred to the Committee on Unemployment.

SIDEWALK ON PARK STREET, WARD 17.

Coun. WILSON offered an order:
Ordered, That the Commissioner of Public Works make a sidewalk along Park street (south side), from Alpha road to Washington street, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

REPAVING SOUTHERN AVENUE.

Coun. WILSON offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave Southern avenue, Ward 17, with smooth paving.

ACTION ON CONSTABLES.

Coun. WILSON—If it is in order, I would move at this time, Mr. President, to take from the table, under No. 9 on the calendar, the names of Barnet Levenhaum and Corrado Palladino, appointed constables by the Mayor on April 11.

(No. 9 on the calendar, which was on the table, and which includes the names referred to, is as follows:

9. Action on appointments submitted by the

Mayor April 11, 1927, of the following-named persons to be Constables: John H. Brady, Thomas Cannizaro, Barnet Levenbaum, Corrado Palladino, Maurice Rosenberg, Roman J. Vasil, Albert V. Walton, John F. Welch.)

President HEFFERNAN—Coun. Wilson moves that the names of Barnet Levenbaum and Corrado Palladino be taken from the table.

Coun. Wilson's motion was carried, and the question came on confirmation of the appointment.

Coun. McGRATH—Mr. President, I ask that those names be voted on separately, if there is no objection.

President HEFFERNAN—We will first vote on the name, taking them in order, of Barnet Levenbaum.

The question came on confirmation. Committee, Coun. Wilson and Englert. Whole number of ballots 19, necessary for confirmation 10; yeas 7, nays 12, and the appointment of Barnet Levenbaum was declared rejected.

Coun. GILBODY—Mr. President, I would like to speak to a point of personal privilege at this time, with unanimous consent of the Council.

President HEFFERNAN—If there is no objection, the councilor may proceed.

Coun. GILBODY—Mr. President, taking the entire group in which these names set forth in No. 9 have been intermingled, we have had a great deal of hullabaloo and howdydo about the whole constable situation in Boston. With the situation as it is today, the proper way to act, in my opinion, is to reverse the entire action of the Executive Committee and rehash the matter out, because there has not been a report to the body of the facts as arrived at by the subcommittee as the result of its investigation, and there is not a complete understanding of the situation by the entire Council. A partial report has been received, and all the members of this body should know what the situation in regard to these different gentlemen is. The subcommittee of five undoubtedly have their reasons for the action they have suggested, and probably there were many reasons for holding up some of these men. But the majority of us were not on the committee and have not had an idea of what has happened. Neither have we had a report. Therefore, I am going to ask, if in order, that further action on this matter be referred to the Executive Committee.

President HEFFERNAN—The Chair will rule that the motion is out of order, the Council having voted to take the names from the table and proceed to the question of confirmation of the appointments.

Coun. GILBODY—Then, Mr. President, I move a reconsideration of the action we have taken; and, speaking briefly on the motion—and I only speak as I do at this time because there has been so much hullabaloo about the whole thing, so much in the press and otherwise—because I feel that we ought to do something constructive in this connection.

President HEFFERNAN—Coun. Gilbody moves reconsideration of the vote taken on the appointment of Barnet Levenbaum.

Coun. Gilbody's motion to reconsider was carried.

Coun. GILBODY—Mr. President, I now move a reconsideration of our vote to proceed with the confirmation of these two men as constables, Barnet Levenbaum and Corrado Palladino, and that the names be referred to the Executive Committee.

Coun. RUBY—Mr. President, I would further move to amend that motion by moving that No. 8 and No. 9, as a whole, be referred to the Executive Committee.

No. 8, which was also on the table, is as follows: 8. Action on appointments submitted by the Mayor April 11, 1927, of the following-named persons to be Constables: Carleton N. Baker, Morris Berkman, Jacob Berman, Thomas A. Brannely, Eugene F. Canney, Nathaniel M. Clark, Barney DeLuca, Saverio DiDonato, John E. Downing, William L. Frost, Remy Goduti, Hugh F. Kiernan, William H. Kivlan, William J. Lally, John F. Laundry, Calvin E. A. Mackenzie, Edward J. McTiernan, Edward F. Murphy, William F. O'Connell, John A. Packard, Frank J. Penney, Howard W. Pinn, George M. Potter, James P. Rosenfeld, Herbert D. Sawyer, Benjamin Schnetzer, Arthur W. Wade.

Coun. GILBODY—I am agreeable to that, Mr. President, and I wish to say just a word upon it. I trust that the subcommittee of the Executive Committee will make a report today, so that we can dispose of the entire list now hanging fire on the calendar.

The Council voted to refer and take up Nos. 8 and 9, which were on the table, to the Executive Committee.

STANDING PASSENGERS IN BUSES.

Coun. DOWLING—Mr. President, the Council has before it a report of the Committee on Ordinances with reference to the petition of the Boston Elevated Railway Company for increasing the number of passengers carried in buses. I believe that matter is now on the table in the Council. It has been called to my attention that the Elevated officials have one or two matters which they want to present to the committee in connection with their petition, and I move you sir that the matter be taken from the table and referred to the Executive Committee and that the Executive Committee be directed to inform the Elevated officials that they will be heard this afternoon.

President HEFFERNAN—Coun. Dowling moves that No. 5 on the calendar be taken from the table.

The Council voted to take No. 5 from the table, viz.:

5. An ordinance concerning passengers carried in motor vehicles.

Be it ordained, etc.

Chapter thirty-nine of the Revised Ordinances of 1925 is hereby amended by striking out section one hundred and one, and inserting in place thereof the following:

Section 101. The license issued for each motor vehicle shall fix and specify its seating capacity, exclusive of the operator. Passengers in excess of twenty-five per cent above the seating capacity of such motor vehicle shall not habitually be carried. Whenever the number of passengers regularly applying for transportation exceeds the number hereinbefore provided for it shall be the duty of the licensee to furnish sufficient additional facilities to carry such passengers. No person operating or in charge of any such vehicle shall take on or suffer or permit more persons to ride or to be carried thereon at any one time than is authorized by this section, or permit any person to stand or sit upon any running board, steps, fender, dash or hood thereof, or permit any person to ride on such motor vehicle outside the body thereof; provided, however, that in addition to the number of passengers which said motor vehicle by the terms of this section is permitted to carry, children under seven years of age may be carried therein, in arms, or seated on the laps of adult persons accompanying them, but no passenger with a child in arms or seated on the lap shall be permitted on any front seat of the vehicle.

Coun. DOWLING—Mr. President, I move that that be referred to the Executive Committee.

Coun. WILSON—Mr. President, with reference to the last motion, I personally opposed this ordinance when it was introduced, and it was then given to the Committee on Ordinances to hold a public hearing. The public hearing was held, at which time a representative of the Elevated appeared. Perhaps my brother on the Ordinance Committee can tell us something with reference to what the Elevated Railway Company proposes to introduce this afternoon. I thought they had had their day before the Committee on Ordinances, and I see no particular reason for postponing action on this particular order. Has the chairman of the committee any knowledge as to what the Elevated information is to be this afternoon in addition to what they have already presented?

Coun. DOWLING—No, Mr. President, I have no information from the Elevated in this connection, and I have no connection with the Elevated Railway. The only connection I have with them is when I have occasion to give them 10 cents on such occasions as I ride in one of their cars. I don't know what additional information they want to present, but I thought I would call the attention of the Council to the fact that, as I understand it, there is additional information that they would like to present. Of course, if any member of the Council thinks he can pass on such matters with scant or little information, he can do as he chooses; but I do think, in justice to the Elevated, they not having apparently presented their full case, there should be no objection to their being heard this afternoon.

Coun. RUBY—Mr. President, this is one of the matters in reference to which a public hearing was given, and at which hearing the Boston Elevated was represented. At that public hearing there were some objectors who appeared, one woman particularly whom I recollect, on Adams street, where a bus runs daily, who came in and strongly objected. The representative who appeared for the Elevated was permitted to answer all questions before the committee and to present any information he desired to present. The same opportunity was given to him as was given to representatives of the public. There was information given to us by the representative of the Elevated, as we understood, a complete statement of the facts was given us by the gentleman who represented the Boston Elevated. I think at that time, if there had been any intimation that the Elevated would like to furnish more information and an opportunity to do so had been asked for, there is no doubt but what the committee would have adjourned the hearing for that purpose. Speaking in fairness to the committee and in fairness to those who appeared on behalf of the public, I do not believe that at another executive session any more information can be obtained from the Boston Elevated than we obtained at that time. We were told about the capacity of the buses, the height of those buses, and after getting all that information at that time the Committee on Ordinances took a vote, and their action has been brought in here. I am in favor of taking the matter from the table at this time and voting upon it, but I am not in favor of referring it again to the Executive Committee for further information from the Boston Elevated, because I, for one, as a member of the Committee on Ordinances who voted against the granting of the request at that time, feel that I have received enough information from them. I, for one, am ready to vote on this question today.

Coun. WARD—Mr. President, I happen to be a member of the Committee on Ordinances, although I was not able to be present at the time of the hearing. A report was made, however, on what was said there, and I have that report before me.

It seems that the hearing was advertised in every newspaper in Boston and that there were only four people out of 700,000 people in the City of Boston who cared to go before that committee and voice any objection. I will just read a few words of Walter E. Jackson, I believe known as "Stonewall Jackson." He said:

"I am here just the same as my friend Walker, objecting to standing up in these buses, and representing the Codman Square Improvement Association. I don't want to say anything more than my friend Walker has already said. I appear in objection."

That was the statement of one of the four who appeared before the Committee on Ordinances. If the Boston Elevated can come before us in public session this afternoon and convince us of the public necessity of people standing in the buses, I for one want to hear them.

Coun. McMAHON—Mr. President, my brother councilor does not at present come from a section where they use buses, but it is going to be only a short time when the section I represent, as well as many other sections of Boston, will have practically nothing to use but buses, and some of the members of this Council may not realize the feeling there is in regard to buses in sections where they are commonly used. If anyone cares to have a public demonstration of the feeling in regard to buses on the Elevated, let him go into a number of sections of this city and hire halls and invite people to come and state things in regard to the matter. He will then hear expressed in no uncertain language the objection that there is to these buses. But it is the same old story, where you have hearings down here. If you will advertise and hold hearings in the sections where the people live, people who have occasion to use the buses in districts where they are running, I don't think you will find a hall big enough to hold the people in Dorchester, for example, who would protest against the present situation. I do not at present have any buses in my ward, but they do have them in adjoining wards. The councilor should step out some night and take a trip up Adams street, standing up in a bus, and then he would get some idea of the objections that the people who ride in those buses have. I think the Elevated has had enough opportunity to present its case at a hearing.

Coun. BUSH—Mr. President, I have no objection to voice at this time in regard to buses running in my district, but I do feel that the Elevated has had an ample opportunity to be heard before the Committee on Ordinances, and that to allow special consideration such as is now proposed would be unfair to the public who appeared at that time in opposition to the ordinance. It seems to me that this should not be referred back to the Executive Committee and the Elevated given further consideration, being allowed to present their case at greater length. If they had any facts that they wished to present, facts which must have been in their possession then as they are now, they should have presented those facts at the original hearing before the Committee on Ordinances. I think it would be utterly unfair at the present time to allow them special consideration in the way of presenting further facts, without an opportunity for cross examination being allowed to the public generally.

Coun. KEENE—Mr. President, I move that we take a recess, subject to the call of the Chair.

Coun. DOWLING—Mr. President, I believe there is a motion before the house.

President HEFFERNAN—There is a motion before the body to refer to the Executive Committee, and so the other motion is out of order.

Coun. McGRATH—Mr. President, I move the previous question.

Coun. GILBODY—Mr. President, I do not propose to discuss the merits of the proposition here, because, as the Council knows, I am firmly and positively opposed to the proposition. However, although the record shows that only four people voiced their objection at the hearing, I think the gentleman who spoke forgets the fact that he represents 37,700 people in Roxbury, and the fact that a larger number of them did not show up here is probably not because they were not interested but because they did not think it was necessary, as they felt that he would protect their interests. I know that the people of my ward would not think it was necessary for them to come, because they would feel that I would stand up here and record their opposition to the proposition. On the other hand, however, while I am a firm opponent of what is proposed here, I would give any man, woman or child an opportunity to appear here in the Council and voice their views prior to the passage of a vote in the body. I think if anybody wants to be heard an opportunity should be given to him to be heard before the taking of a vote in the body.

The motion to refer to the Executive Committee was lost.

President HEFFERNAN—The question now comes on the passage of the ordinance.

Coun. RUBY—Mr. President, with reference to the general question, my good friend, the councilor from Ward 9 (Coun. Ward), read what a certain Mr. Jackson had to say with reference to his objection. I am going to ask the Council to bear with me and see what Mrs. Ward had to say in objecting to the proposed ordinance. This was Mrs. Mary E. Ward, of 910 Neponset avenue. Chairman Dowling asked her to state her objections. Her answer was:

"I object very much to any woman being subjected to this sort of thing. The previous speaker talked about the men. I would like to talk about the women, mothers and would-be mothers, those with children and grandchildren, who object very much to females having to stand in the buses, in Somerville, Cambridge or elsewhere. I know that the Elevated is getting money enough to provide the proper number of buses for the people. If it is only a question of allowing six or seven additional to stand in a bus, why not put on another bus? In Dorchester, my district, we are building up very rapidly. I was on a committee that waited on Mr. Dana. Mr. Dana said that the buses were not built to allow any passengers to stand, the buses going out on the Adams street line."

That is the district she comes from.

"If this ordinance goes through, it means that you will have women standing. I don't know about women having a better understanding than men, but certainly the men wear larger shoes and take up more room. I think we should have more buses so that there would be no necessity for anybody standing up. I got a very bad spill in an Adams street bus, in one of the streets, because I had to stand up and some foreigner rushed by me. I think the previous speakers should have taken into consideration the present mothers and the future mothers, in connection with this matter."

I asked Mr. Mulcahy, who represented the Elevated at that time, if it would be possible for a person conveniently to stand in a bus, in the aisle, and have somebody go by him, and he answered that such a person would have to squeeze by. Then a question was asked, I think by the chairman, in regard to the height of the bus, the inside height, and Mr. Mulcahy stated that from the floor to the ceiling of the bus was either 6 feet or 6 feet 3 inches, and that a person of ordinary height might have a tough job standing in the bus. He said that a person 6 feet in height or over might not want to stand in the bus, but that he had a very good alternative by waiting for a bus upon which he could get a seat. I think if that is the kind of an answer we get from a public utility official we ought not to grant that kind of privilege, where conditions are not as suitable for some individuals as for others. I am not arguing for myself in this matter, because I can stand in a bus without the possibility of hitting my head going over jounces in some of the streets we have in Dorchester. But I believe, on Mr. Mulcahy's statement, we ought not to grant this request. Every other request of the Elevated, in reference to jitneys and other matters, has been granted by the Council, but I do think that this is a matter which concerns the health and safety of the public. I think, in order to protect the public, it is our duty to oppose the granting of a permit to stand in all kinds of buses such as we have in our streets of Boston today.

Coun. McGRATH—Mr. President, I think in this matter one of the people we should have called before the committee is the Health Commissioner of Boston. I believe that this is a health menace, and I also think it is a menace to the morals of the women of our community when you ask them to ride in buses crowded the way these buses are. This request is typical of the Boston Elevated Railway. It says "passengers in excess of 25 per cent above the seating capacity of such motor vehicle shall not habitually be carried." That is, on 30, 40 or 50 per cent of their trips they may carry an additional number, as long as they do not do it "habitually." As long as it is not done "habitually," the driver can allow them to get on. Then it says, "whenever the number of passengers regularly applying for transportation exceeds the number hereinbefore provided for it shall be the duty of the licensee to furnish sufficient additional facilities to carry such passengers." Who is to pass on that? And then they show a splendid, charitable spirit, an intention to carefully look out for the people on Adams street and in other sections, when they say that no person operating such vehicle "shall take on or suffer or permit more persons to ride or be carried thereon at any one time than is authorized by this section, or permit any person to stand or sit upon the running board, steps, fender, dash or hood thereof, or permit any person to ride on such motor vehicle outside the body thereof." They are not going to let people ride on the fender or hood. Think of it. The hood is going to be left free, so that the man driving can look over the hood without any person interfering with his view. And they are not going to permit any person to ride outside the body of the vehicle. Wonderful! Wonderful! This is certainly a charitable organization. And it says, in addition to that: "Provided, however, that in addition to the number of passengers which said motor vehicle by the terms of this section is permitted to carry, children under seven years of age may be carried therein, in arms, or seated on the laps of adult persons accompanying them, but no passenger with a child in arms or seated on the lap shall be permitted on the front seat of the vehicle." So you see how closely they are guarding the public. You see, they are not going to allow any habitual overtaking of the vehicle. Once in a while they may carry 50 per cent more in a bus than can be accommodated by the seats, and they are going to allow women with children in their laps, but they are going to be charitable enough and careful enough of the public to leave the fenders and hoods without passengers.

Mr. President, I must vote against this ordinance, and I feel especially, having these charitable suggestions in mind, that I must vote against this public-spirited measure.

Coun. GUILD—Mr. President, the ordinance as drawn reminds me a good deal of a sign in the courthouse of Dover, New Hampshire, in three languages, which says that "People who spit on the floor will be severely dealt with." This ordinance does not tell us at all what is going to happen if the licensee fails in his duty of providing sufficient additional facilities, whether he is going to be severely dealt with, fined \$100, or sent to jail. We are not informed. The ordinance as drawn has already been commented upon by the last speaker, referring to the word "habitual" and to other provisions of it. That language only shows the additional weaknesses in the ordinance as drawn. While ostensibly the limitation of standees is to be to 25 per cent of the seated occupants of a bus, it does not necessarily follow that that will be the limit, taking the language of the ordinance as drawn. Certainly it would seem that they are not to be prevented from exceeding that 25 per cent limit, having in view the clauses referred to by the councilor who has just spoken; and the last clause in this draft would seem to give women holding children in their arms at least a debatable right to go in and stand up. It seems to me that this ordinance has been drawn in a very careless manner for presentation to this body, if they really wished and intended to achieve a certain object. It is so full of technical objections, that must be clear to anybody, that I cannot see how the members can vote for it.

Coun. DOWLING—Mr. President, after all the brilliance which has been shown by the remarks of the gentleman on the extreme left, and the lack of information possessed by the gentleman from Ward 14, it does not seem to me necessary to make any lengthy argument in favor of this ordinance. The Council has already gone on record as not wanting further information in reference to the petition. It is true, sir, that the Committee on Ordinances gave a hearing on the petition. It is also true that four people out of 700,000 are sufficiently interested in the matter to come before the committee and express their objection. It is true that one gentleman representing the Elevated, and probably paid for his services, came and presented the Elevated situation. It is also probably true that no member of the Council is less familiar with the bus situation, so far as experience in riding in buses is concerned, than myself. I have never yet ridden on an Elevated bus. There are, however, three lines of Elevated buses operating in the district I represent. One operates between Faneuil and Union square, Allston; another runs between Union square, Allston, and Union square, Somerville, and the third operates between Union square, Allston, and Central square, Cambridge. I inquired this afternoon and received information as to the number of bus lines that the Elevated operates in the city. I understand that about eighteen bus lines are in operation. I was told that the longest journey on an Elevated bus would be about eighteen minutes, going between the extreme ends of routes, and certainly in the case of the Allston lines connecting with Central square and with Union square, Somerville, the length of the run would probably not be over nine minutes. So, in any event, it is not trip as long as that which Lindbergh took. It is a short journey. I certainly cannot imagine why the Council does not want some information on the matter. There is, to my mind, nothing unreasonable in the request of the Boston Elevated, because already, sir, the Department of Public Utilities which has general supervision over this matter, has passed a regulation which allows a 25 per cent overload. The cities of Somerville, Cambridge and Medford, and other cities and towns, have allowed it. I asked this morning, in view of the fact that the Department of Public Utilities has already granted the 25 per cent overload privilege, why this ordinance had been brought into the City Council, asking this permission, and I was told that it was a matter of courtesy, and brought in here on that account, although they believe that they do have this right under the regulation of the Department of Public Utilities. In any event, this is not a matter to make a great hue and cry over, and it should not be greeted with ridicule. It is a perfectly reasonable proposition. You and I, sir, might be waiting at any point where a bus line runs, waiting for a bus to come along. It might be a bus accommodating twenty-nine seated passengers and there might be one vacant seat, and either you or I would have to be left behind because they could not carry one more than the number for whom seats could be provided. We would certainly consider it a hardship if we were not allowed to get on. So it seems to me that much of the ridicule here has not been warranted, and I hope this Council will not reject this proposed amendment to the ordinance.

Coun. BUSH—Mr. President, I happened to be present at that meeting of the Committee on Ordinances and had the pleasure of hearing a few questions asked of Mr. Mulcahy. With reference to what has been said by the gentleman from Brighton with regard to certain towns having accepted this ordinance, let me say that Mr. Mulcahy was asked these questions by Coun. Wragg:

"Coun. WRAGG—I would like to, ask about the Malden and Everett situation.

"Mr. MULCAHY—We don't operate in Everett.

"Coun. WRAGG—Malden.

"Mr. MULCAHY—Malden has not passed it.

"Coun. WRAGG—But the Council now is considering it?

"Mr. MULCAHY—No, they turned it down." That is one of the phases of the situation. In another part of Mr. Mulcahy's testimony he said:

"What we have asked for is that we may take on a bus standing passenger to the extent of 25 per cent in excess of the seating capacity. Our ordinary buses carry twenty-five and twenty-nine passengers, and where they carry twenty-five that would mean six additional people, and in the case of twenty-nine, seven additional people."

If that is their intention, why do they place this specious phraseology in the ordinance? The ordinance says:

"Passenger in excess of 25 per cent above the seating capacity of such motor vehicle shall not habitually be carried."

What does that mean?

Coun. DOWLING—Mr. President, if the gentleman will yield for just a moment, the probable reason for that—and I have no connection with the Elevated, no sympathy with them, no interest at all personally in them, have never worked for or been employed by them—but the reason probably is because it follows a regulation framed and adopted by the Department of Public Utilities. That is the probable reason why they used that term.

Coun. BUSH—Yes, but what does "habitually" mean? Does it mean that on Monday they may carry exactly 25 per cent of the seating capacity as standees, and that on the other days they may carry 40 per cent of the seating capacity as standees? There is nothing that will limit them to 25 per cent. The ordinance, broadly and liberally interpreted, might allow them to carry 200 or 300 per cent of the seating capacity of the bus, as standees, if the occasion should arise. There is no limit necessarily in the ordinance. This phraseology is very misleading and certainly with the present phraseology I should not vote for the ordinance.

Coun. WILSON—Mr. President, referring to the remarks of the chairman of the Ordinance Committee and the refusal of the members of the Council to receive from the Elevated further information in regard to this matter, my understanding of the situation is this, that this ordinance when it originally came into the body was referred to the Committee on Ordinances, and a public hearing was held, and this evidence was presented. At that time I understand that more than four people were present, although I believe four did speak. There were at least two who represented an organization consisting of 200 or 300 business men. However, had not one single member of the public been present, in my opinion the Elevated would have failed to prove its case on the evidence of its own representative alone. If the only man in the room before the committee was the representative of the Boston Elevated, in my opinion they would have failed to prove their case to the satisfaction of most of the members of the committee, would have failed to logically prove their contention that the ordinance should be changed, because it was clear from the testimony of the attorney for the Elevated himself that he felt that if a man 6 feet or over stood in one of those buses he was taking a chance and in case of injury would be guilty of contributory negligence. Mr. President, I certainly feel that I must vote against this ordinance because of the jokers contained in it. Coun. McGrath has well pointed out the presence of the word "habitually," and, in response to Coun. Bush's question as to what the words "habitually be carried" mean, I would venture the suggestion that it would be at any time when an inspector was not aboard the bus. Another phrase here is as follows:

"Whenever the number of passengers regularly applying for transportation exceeds the number hereinbefore provided for, it shall be the duty of the licensee to furnish sufficient additional facilities to carry such passengers."

In other words, we have here the words "regularly applying for." Those words are significant. In addition, as Coun. Guild has pointed out, there is no penalty for breaking this ordinance. In view of the three jokers in the ordinance which are so plain to the eye even from a casual reading, I would be against the ordinance if there had not been a public hearing, if nobody representing the public were present, and if the Elevated had proved its case, which I believe it did not do.

Coun. WARD—Mr. President, about twenty-five years ago, I suppose, when electric cars were first run through the streets of the city, there was a great hue and cry sent up to the effect that nobody should stand on the running boards. But I remember, as a boy riding on street cars, that I wanted to ride on the running board. One point not emphasized here, it seems to me, when you are dealing with the convenience of 700,000 people of Boston, is the fact that some of those people may want to ride, even if there is not a seat, in order to get to and from their homes, instead of waiting for other conveyances. The gentleman from Dorchester has spoken about health, saying that it would be a menace to health. If you are going to prohibit six passengers from riding in a bus, standing, because of health conditions, for God's sake why do you allow your cars here in Boston to be choked up with standing passengers? If the health of the people is important in the one case, why is it not important in the other? And if it is a

health problem, why not investigate it from the health standpoint? I have no especial feeling for the Elevated, but in the old days it was the popular thing to take a shot at Harvard College, and now it seems to be a popular thing to take a shot at the Boston Elevated, if you want to be elected to public office. I don't believe in that sort of thing. There was no necessity for shooting at Harvard College in the old days, and that has now passed by, and neither is there any sense in shooting at the Boston Elevated today, unless you have good reason for doing so. I hope this ordinance, as reported by the Committee on Ordinances and as it appears before us today, will be passed. It is a matter that was carefully looked into by the members of the committee, who know more about it than the other members of this Council, and this ordinance has been reported to us after a hearing and careful study. The members of the committee felt, after hearing the arguments that were presented, that it should be enacted as an ordinance, because of public necessity and because of the importance of such a regulation, particularly in inclement weather. I am going to vote for the ordinance, because I believe it is in the interest, on the whole, of the 700,000 people of this city, that they should be allowed to ride in a bus, even if they must stand, if they wish to do so, particularly where the limit of the ride is probably only three or four miles.

Coun. GILBODY—Mr. President, the transportation situation has been most ably reviewed by the distinguished gentleman from Roxbury, but my point of view is opposite, in view of the fact that two wrongs do not make a right. I think if twenty-five years ago there had been an insistence on furnishing seats to people in trolley cars, people going to and from their labors in rush hours, and if such a regulation had been in force, people would have had a seat in the cars, that the Elevated would have been forced to run enough cars to furnish room for people to sit down. Looking to the future, to my mind in a few years there will probably not be a trolley car operating in the city. The situation is working around continually to buses. We ought now to take steps to provide for the future, and not permit the present unwise condition in the transportation system of this community to be maintained. Let us not continue to be hoodwinked in the future as we have been in the past in this trolley situation. Don't let them fill up the buses with standee passengers. I know what the situation is, because one of the most prominent bus lines is in my ward, and we know what we are getting and what we have to contend with out there. Of course, Mr. President, the same thing must be true in your ward, out in Brighton, in connection with your bus lines. Furthermore, it is planned that we shall give them permission to put six or seven more people in the buses, according to capacity. There is nobody to shut them out. A man running a bus is so busy watching traffic that you can't expect him to keep an eye on the capacity of the bus. All he can properly do is to watch the traffic, to watch the street, to look out for the management of the bus while he is traveling along the street. He certainly has not time to turn around and count how many people are standing in the bus. I feel that it is against public safety to permit this sort of thing to be done, to have a condition which will necessitate a man driving a bus of this kind turning around to see what the conditions are and taking his eyes off the road. The only thing a man operating a bus should watch is the traffic on the road. If we give them permission to have standees on the buses, also, the first thing we know they will be cutting down on their schedules, filling up the buses, with the result that they will say, "We don't need so many buses there, and we will take some of them off." The result, as I say, will be that the standee ordinance will allow a reduction in the number of buses which will be run. If it is true, as the chairman of the Committee on Ordinances has said, that they did not have to come in here for this ordinance, why in heaven's name have they come in here at all? Let me assure the Council that they certainly did not come in here as a matter of courtesy. They came because they knew they had to come in here. Every newspaper in Boston has pointed out the danger of having standees on the buses. Malden has not given permission for them to have standees on the buses, and I have correspondence to prove it. Medford has not, Cambridge has not. I have correspondence to substantiate my statement, Mr. President. I am going to ask the Council to vote to refuse this standee ordinance. We are all losing sight of the fact that it is not men only who are concerned. One of the ladies who appeared before the committee said:

"I object very much to any women being subjected to this sort of thing. The previous speaker talked about the men. I would like to talk about the women, mothers and would-be mothers, those with children and grandchildren, who object very much to females having to stand in the buses, in Somerville, Cambridge, or elsewhere.

I am going to ask the Council to remember the women who ride in the buses—young women and old women, mothers and future mothers. Don't forget that this is not simply a question of whether there are large men or small men who want to ride.

Coun. FREELEY—Mr. President, being a member of the Jitney Committee for the last two years I might state that I have studied jitney conditions very thoroughly. This year I had occasion to listen to Mr. Dana at a committee meeting, stating the reason why he thought a 25 per cent overload

should be granted to the Boston Elevated on these buses. I might inform the Council that I have occasion to ride on jitneys from Cambridge and Somerville, frequently. I might also say that I have seen deplorable conditions at Kendall Square Station, where many people, including some of my own constituents, have to stand at times in inclement weather, because they are not allowed to get on buses. I might also add that in Coun. Ward's district there was a concern, running for practically a quarter of a century, known as the Boston Belting Company. Many people in my section have received their livelihood from the Boston Belting Company. They had the misfortune to go out of business some five or six years ago, and went to the handiest place, the Boston Woven Hose Company, in Cambridge, and most of the Roxbury people who were working for that company have had to go back and forth between Roxbury and Cambridge since. I have made a point of familiarizing myself with conditions, and I think I know the conditions as well as anybody. Because of the fact that this overload has not been permitted, because of the fact that passengers have not been allowed to stand, I and others have had to stand there waiting, not being allowed to ride on a bus, and I know that that has been the cause of a great deal of inconvenience and injury to many people. I believe that the Elevated is entitled to a 25 per cent overload on those buses. I have had seven or eight cases called to my attention where people have been disciplined because they have been late, not being able to get to their place of business in time, and I have been informed of cases where people in Roxbury have lost their jobs because of the mere fact that they have been late three times in one week, and have been therefore discharged. There has been a great deal of inconvenience and a great deal of injury done to people who work in candy factories and other companies over there. I have had occasion myself to stand for twenty minutes on a rainy morning waiting for a bus where I could get a seat, and having the motorman deliberately slam the door in my face when the seating capacity was taken up. There is also the difficulty of running into different regulations in one city from what you find in another. As a matter of fact, some of these outside towns are waiting to see first whether Boston will grant the desired permission. In this case both Somerville and Cambridge have taken the jump on Boston and have granted this right to the Boston Elevated. In view of the discussion we have had on this matter, I would now move that the matter be laid on the table for one week.

President HEFFERNAN—The Chair would rule that it has just been taken from the table, and that the motion is not now in order.

Coun. GUILD—Mr. President, I move the previous question and ask for a roll call.

The main question was ordered, and the question came on the passage of the ordinance.

President HEFFERNAN—The Clerk will call the roll.

Coun. ENGLERT—Mr. President—

President HEFFERNAN—For what purpose does the gentleman rise?

Coun. ENGLERT—I would like to ask the gentleman from Roxbury if people, when a bus is full, have to wait, perhaps a half an hour, before they have a chance to get on the next bus?

Coun. FREELEY—Yes.

President HEFFERNAN—No debate is in order. The Clerk will call the roll.

The ordinance was rejected, yeas 6, nays 12:

Yeas—Coun. Arnold, Dowd, Dowling, Freeley, Ward, Wragg—6.

Nays—Coun. Bush, Englert, Gilbody, Guild, Heffernan, Lynch, Mahoney, McGrath, McMahon, Parkman, Ruby, Wilson—12.

EAST COTTAGE STREET AS ONE-WAY STREET.

Coun. LYNCH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to designate as a one-way street for southbound traffic East Cottage street, from Columbia road to Pleasant street, Ward 7.

Passed under suspension of the rule.

POND STREET AS ONE-WAY STREET.

Coun. LYNCH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to designate as a one-way street for northbound traffic Pond street, from East Cottage street to Columbia road, Ward 7.

Passed under suspension of the rule.

ENFORCEMENT OF PARKING REGULATIONS.

Coun. DOWD offered the following:

Ordered, That the Fire Commissioner, through his Honor the Mayor, be requested to inform the City Council what steps, if any, are being taken to enforce parking regulations, which will permit the Fire Department to operate efficiently upon the streets of the city.

Passed under suspension of the rule.

REPAVING BROADWAY, SOUTH BOSTON.

Coun. MAHONEY offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave Broadway, South Boston from L street, to Farragut road, with smooth pavement.
Passed under suspension of the rule.

SIDEWALK ON SACHEM STREET.

Coun. FREELEY offered an order:

Ordered, That the Commissioner of Public Works make a sidewalk along Sachem street, from Hillside street to Calumet street, both sides, Ward 10, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

STORAGE AND SALE OF GASOLENE.

Notice was received from the Street Laying-Out Department of hearings on petitions for storage and sale of gasoline, to be held as follows:

Packard Motor Car Company of Boston, 1089 Commonwealth avenue, Ward 21, 1,000 gallons.

Standard Oil Company of New York, 36 Wolcott street, Ward 18, 12,100 gallons.

Referred to the Executive Committee.

RECESS.

The Council voted at 4 p. m., on motion of Coun. ARNOLD, to take a recess subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 5.07 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following:

1. Reports on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, that leave be granted under usual conditions, viz.:

Anne Matilda Gurney, elocution recital, Huntington Chambers Hall, May 27.

Dorothy M. Oliver, Bloomfield Hall, June 10.

A. Marie Goyone, Jordan Hall, June 3.

Madame Isabella Kay, Repertory Hall, June 6.

M. Theresa Connell, Jordan Hall, June 7.

Kathleen V. O'Hara, Jordan Hall, June 11.

Reports accepted; permits granted on the usual conditions.

2. Report on orders (referred May 23) for a payment to James O. Jordan, and accepting chapter 79 of the Acts of 1927,—that the same ought to pass.

Report accepted; said orders passed.

3. Report on order (referred May 23) that an annuity of \$600 be allowed and paid to the widow of Daniel T. McInnes, late member of the Fire Department,—that the same ought to pass.

Report accepted; said order passed.

4. Report on order (submitted by the Mayor and referred today) that the Commissioner of Public Works be authorized to expend a sum not exceeding \$6,000 for the purpose of furnishing ice for the public drinking fountains during the present season, said sum to be charged to the Reserve Fund,—that the same ought to pass.

Report accepted; said order passed, yeas 20, nays 0.

5. Report on order (submitted by the Mayor and referred today)—that the sum of \$15,000 be and hereby is appropriated from special fund, sales of city property, for new fire station, Engine 17 and Ladder 7, Dorchester,—that the same ought to pass.

Report accepted; said order passed, yeas 20, nays 0.

6. Report on order (referred today) that chapter 200 of the Acts of 1927, entitled "An Act establishing the salaries of the Medical Examiners and Associate Medical Examiners for Suffolk County," be and the same hereby is accepted,—that the same ought to pass.

Report accepted; said order passed.

PLAYGROUND, WARD 3.

Coun. GREEN, for the Committee on Finance, submitted report recommending the passage of an order for a loan of \$250,000 to be expended under the direction of the Park Commission, for the purchase of land for playground purposes in the West End section of Ward 3.

The question came on the acceptance of the report and the passage of the order.

Coun. DOWLING—Mr. President, may I inquire whether that is the order that was originally put in for \$100,000, and increased to \$250,000 by the committee?

Coun. GREEN—Yes.

Coun. DOWLING—Mr. President, with all due respect to the councilor from Ward 3, I just want to serve notice that I shall vote against this ordinance. I think I will be about two steps ahead of the Mayor—not that I want to keep in step with him particularly—in voting against the order.

Coun. BUSH—Mr. President, has the information which I requested the first time this order was introduced—that we be informed as to where the location of this proposed playground is going to be, the area of it, and the probable amount that will be required—been furnished to the Council?

Coun. GREEN—Mr. President, I don't think I can give the councilor that information, because I am not interested in either the land there or this purchase. But I think my genial friend from Ward 3 (Coun. Fitzgerald) might give the councilor the information requested.

Coun. FITZGERALD—Mr. President, where this proposed site is going to be I don't know, but all I can say is that I have never voted against a playground nor a public building since I have been a member of the City Council, nor before I was a member of the Council. The order, of course, must stand on its merits, and if any members want to vote against it, that is their privilege. Of course, it is a thing that is going to be for the benefit of the people of my district. Where it is going to be I don't know, and am not concerned.

Coun. WARD—Mr. President, I don't know that I care much where the playground is to be. If it is to be for the kiddies of the West End, that is enough for me. I would like to have it in my district, but as long as it is for the kids of that section I am perfectly agreeable to voting for the order.

Coun. BUSH—Mr. President, as I said when the order was first introduced, I have not the slightest objection in the world to a playground, or two or three of them, for the West End. I am absolutely in favor of that sort of thing. As far as the West End is concerned, I think that is one of the most congested sections of the city, and you cannot provide too many playgrounds for such sections. But I do object to voting a specific amount of money for a non-specific purpose.

Coun. WILSON—Mr. President, I agree with Coun. Bush. I am not against a playground in Coun. Fitzgerald's district. I think we all realize that playgrounds are needed there. I have received, also, several letters from school teachers in the district, some who were formerly school teachers of mine, and in every instance I have written back that I am in favor, generally speaking, of such projects. But it seems to me the location should be at least sketchily outlined; that some information should be given us making the thing a little more specific than simply stating the amount of money we are asked to spend.

Coun. FITZGERALD—Mr. President, all I can say on this matter is that some people would like a playground placed in the vicinity of the Blackstone School. That, however, is open to debate. I have no site in mind. That is a congested district, and there are a lot of people interested in settlement house work, work with the youth of the district, who have different ideas as to where the playground should be placed. We never will get anywhere until we pass the order. Everybody who knows about the population of the district realizes that something of this sort is very much needed. Unfortunately, land is costly down there, but land will have to be taken for this purpose sooner or later. I am only interested in doing something for the district, the same as anybody here. The final solution, as to the site, and so forth, remains with the Mayor and the Park Commission.

Coun. BUSH—Mr. President, it is not the function of this body to rely on somebody's else judgment in these matters. On all such matters, on which we are to act, we are supposed in the first instance, to exercise our own judgment. It seems to me if there is any proposed sum to be spent for a playground, all the information possible with regard to it should be brought before the Council, because it is the Council that has to vote on it, and I do feel that before such a sum is appropriated for this purpose, some information at least should be had as to about where the location or site of the proposed playground is to be, and how much area it is to cover. We would like to know what we are going to get for that money.

Coun. RUBY—Mr. President, it is rather unfortunate that, because this particular order has been introduced, there should be a discussion of this sort in regard to it. I have sat here with the members of the Council since the Council came into existence and have never yet, up to the present time, heard the question of where money was to be spent on land, under an order that was offered, discussed in this fashion. There are many reasons why the exact locations cannot be stated in these cases. Regardless of what may be said by others,

I am a product of the North End, lived there for thirty years, and had occasion to know, as you all know, that the North and West Ends are the most congested part of Boston, the so-called slums of this city. I think if there is any place in Boston that needs breathing spaces it is the North and West End section. I don't think anybody who has gone through that section will fail to feel as I do. At some time or other during the past administration there was a suggestion brought to the attention of the then Mayor, having in view the cutting up of sections through the North and West Ends and making them parks and playgrounds in that very congested area. At that time there were nine of ten or these proposed cuts in the heart of the district proposed for playground purposes, but for some reason nothing was done. When I was a youngster and lived in the North End, I had to walk a mile and a half to Boston Common to take part in athletic sports. It is no concern to me whether land is taken on Charles street, Leverett street, or anywhere else in the West End, so long as a playground is established for the use of the children. I see no reason why the order should be held up any longer, and I hope the members of the Council will see fit to pass it this afternoon.

The order was given its first reading and passage, yeas 18, nays 2.

Yeas—Coun. Arnold, Donovan, Englert, Fitzgerald, Freeley, Gilbody, Green, Guild, Heffernan, Keene, Lynch, Mahoney, McGrath, McMahon, Ruby, Ward, Wilson, Wragg—18.

Nays—Coun. Bush, Dowling—2.

Coun. WILSON—Mr. President, I have voted in favor of the order this afternoon, but I would urge upon the councilor from Ward 3 and the Finance Committee of the City Council that, if possible, they furnish us with the requested information before the order comes up for final passage.

Coun. GREEN—Mr. President, we tried to get that information at a meeting of the Committee on Finance. We invited the chairman of the Park Commission before the committee and he outlined some pieces of land that he thought might be good spots for a playground. There is, for instance, some land near the Blackstone School down in the West End that is being considered. I might say, however, in all justice to Coun. Fitzgerald, whose order originally called for \$100,000, that Commissioner Long felt that nothing such as should be done could be done for that money, that he could not get the land that they should have for that money and he asked for the \$250,000. They are looking over some land down there now, however, and we will try to get for the councilor from Dorchester the information he seeks before the next meeting.

Coun. McGRATH—Mr. President, I ask to make a statement.

President HEFFERNAN—The gentleman will be allowed to speak, with unanimous consent.

Coun. McGRATH—Mr. President, it seems to me that it would be absolutely impossible and would be establishing a bad situation if we asked anybody to tell us where land was going to be located. If we are appropriating money here and naming a specific location, the owners of that location would have an opportunity, after we had gone on record in the matter, to increase the price to almost any amount. It does seem to me that the only way for the City of Boston to get a fair break in matters of this kind is to allow those who have the money to go around and make a fair trade, without settling upon a definite place for them to do business. I think the Council would be bringing about an improper situation in attempting to have a specific place named before the money was even appropriated.

Coun. GREEN—Mr. President, I agree with the councilor from Dorchester.

President HEFFERNAN—The vote has been taken, and there is nothing before the body now.

Coun. GREEN—Mr. President, I ask unanimous consent to make a statement.

President HEFFERNAN—If there is no objection, the gentleman has the floor.

Coun. GREEN—Mr. President, I agree with everything the councilor from Dorchester has so very well said, and, as chairman of the committee, I would like to have any interested parties submit to the committee some land that they have down there. If any land can be secured, I would like to have it submitted to the committee.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN called up, under unfinished business, No. 1 on the calendar, viz.: 1. Action on appointments submitted by the Mayor May 23, 1927, of John A. Mahoney and Philip A. Dornin, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Green and Dowling. Whole number of ballots, 18; yeas 18, and the appointments were confirmed.

Coun. GILBODY—Mr. President, on behalf of the Executive Committee, I would call up the name of Arthur Glass, which appears in No. 2 on the calendar. I would simply say that the other gentlemen's names in No. 2 did not appear before the committee and that we can make no report on them at this time.

No. 2 on the calendar, under unfinished business, is as follows:

2. Action on appointments submitted by the

Mayor May 23, 1927, of Arthur Glass, Carl P. White, Harry Butters and Peter C. Foy, to be Constables.

Coun. WARD—Mr. President, I would also call up the name of Peter C. Foy, under No. 2 on the calendar. He did appear, but did not know where to go. He was out there and I talked with him before the committee met this afternoon.

The names of Arthur Glass and Peter C. Foy, submitted by the Mayor in No. 2 on the calendar, as constables, were taken up, and the question came on confirmation. Committee, Coun. Gilbody and Ward. Whole number of ballots 18, yeas 18, and the appointments were confirmed.

LEASE TO THOMAS J. FITZGERALD
POST 561.

Coun. McGRATH, for the Committee on Public Lands, submitted a report of the order (referred May 23) that the Mayor be authorized, in the name and behalf of the city and in form satisfactory to the Law Department, to execute a lease to Thomas J. Fitzgerald Post 561, Veterans of Foreign Wars of the United States, of the room in the municipal building, South Boston, formerly occupied by the American Red Cross, for a term of one year beginning June 1, 1927, at a rental of one dollar per annum—that the same ought to pass.

Report accepted; said order read once and passed, yeas 20, nays 0.

Assigned for fourteen days for final action.

SIDEWALK ON HOLBROOK STREET.

Coun. GUILD offered an order—That the Commissioner of Public Works make a sidewalk along Holbrook street, from Centre street to No. 15 (about 200 feet), and from No. 27 to No. 43 (about 175 feet), Ward 19, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel and crushed stone, with granite edgestones. Under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

ADDITIONAL WORK, NAVY YARD.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to communicate with Secretary Wilbur of the Navy Department at Washington for the purpose of calling his attention to the fact that there are very few ships and marines assigned to the Navy Yard at Boston at the present time and requesting him to send more ships to the Boston yard, which will result in the employment of a number of men and thus relieve present unemployment conditions.

Passed under suspension of the rule.

THE NEXT MEETING.

Coun. KEENE—Mr. President, I move that when the Council adjourns it be to meet a week from tomorrow, on Tuesday, June 14, at 2 p. m. At that time the fourteen days will have expired which will enable us to take final action on the loan order submitted to us last week, and passing it as soon as possible will make a lot of difference in the amount of work that can be done on the streets this year.

It was voted that the next meeting of the Council be held on Tuesday, June 14, at 2 p. m.

GENERAL RECONSIDERATION.

On motion of Coun. GREEN, a general reconsideration of all action taken today was refused.

Adjourned at 5.29 p. m., on motion of Coun. GREEN, to meet on Tuesday, June 14, at 2 p. m.

INCORPORATED AS A CITY, 1822.

The Act of incorporation was passed by the Legislature on February 23, 1822. On March 4 following, the voters of Boston accepted said Act, Chap. 110, 1821-22, as its first City Charter by a majority of 1,916 in a total vote of 4,678. Previous attempts to incorporate as a city had been made in 1650, 1659, 1667, 1708, 1744, 1762, 1874, 1791, 1804 and 1815. The charter was revised in 1854, 1885 and 1909. Amendments to the 1909 charter were enacted in 1910, 1912, 1914, 1918, 1919, 1921, 1922 and lastly in 1924 (see Municipal Register for 1925, pp. 19-43).

COMPLAINT AGAINST A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of May 9, 1927, reporting a custodian for failure to properly perform his duties as required by the rules and regulations and recommending that the matter be referred to the Trial Board.

Referred to the Trial Board for investigation and report.

TRANSFER OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of May 9, 1927, reporting the transfer, subject to the approval of the Division of Civil Service, of Thomas J. Foley, custodian, Harbor View Street Schoolhouse, to the position of Furnace Inspector, Board of Schoolhouse Commissioners, to take effect Apr. 28, 1927.

Placed on file, and the transfer approved, to take effect on the date stated.

AMENDMENT TO SCHEDULE OF EXTRA COMPENSATION FOR CUSTODIAN SERVICE.

A communication was received from the Schoolhouse Custodian, under date of May 9, 1927, recommending that the order passed at the meeting of Mar. 21, 1927, amending the schedule of extra compensation for custodian service authorizing the employment of one additional assistant to the custodian of the Grover Cleveland Schoolhouse, be amended to provide that it shall take effect Feb. 1, 1927.

Placed on file.

On motion, it was

ORDERED, That the order passed at the meeting of Mar. 21, 1927, authorizing the employment of one additional assistant to the custodian of the Grover Cleveland Schoolhouse is hereby amended to provide that it shall take effect Feb. 1, 1927.

ADDITIONAL COMPENSATION TO A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of May 9, 1927, recommending that Guy C. Lizio, custo-

dian, Henry Vane Schoolhouse, be also appointed custodian of Portable Nos. 137 and 204, Temple Street, and that the salary of these two portables be established at the rate of nine dollars (\$9) per week, to take effect Apr. 22, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

On motion, it was

ORDERED, That the salary of the custodian of Portables Nos. 137 and 204, Temple Street, West Roxbury, be established at the rate of nine dollars (\$9) per week, to take effect Apr. 22, 1927.

REQUEST OF MAYOR THAT SCHOOL COMMITTEE LEAVE UNAPPROPRIATED A PART OF AMOUNT AVAILABLE IN ORDER TO DECREASE TAX RATE.

The following communication from His Honor, the Mayor, was presented for insertion in the records:

City of Boston

Office of the Mayor, City Hall,
April 16, 1927.

Frederick L. Bogan, Chairman,
Boston School Committee,
15 Beacon street, Boston.

Dear Sir:

Your communication to me states that it is not possible for the School Committee to aid in reducing the tax rate this year by leaving unappropriated a substantial sum. Some three months ago, after learning of the huge cash surplus of \$739,000.00 remaining after closing the School Department accounts for the year 1926, I sent the City Auditor and the Budget Commissioner to consult with your Business Manager. They told him that the School Committee should appropriate only such amounts as it could reasonably expect to expend, rather than appropriate all the law allows.

By my instruction they proposed that the School Committee should leave a part of this \$739,000.00 unappropriated so that to that extent the tax rate might show a beneficial decrease. The entire amount of this surplus, however, you now tell me the Committee is about to appropriate. This information comes after the Mayor has cut almost \$3,000,000.00 from the City Department estimates. Inasmuch as I had expected the School Committee to aid in reducing the tax rate this year I must say with candor that your communication is disappointing and difficult to understand.

Permit me to call your attention to the following statistics which are exclusive of any figures for new building construction:

	Cash	School	Surplus,
	Expenditures	End of year	
1922-23	\$11,778,471.00	\$166,939.87	
1923-24	12,421,826.16	415,388.78	
1924-25	13,131,300.13	360,927.99	
1925 (11 mos.)	12,769,323.05	589,174.52	
1926	15,118,502.40	739,519.94	

While there may be substantial reasons advanced for the rapidly increasing expenditures for school maintenance, they are, nevertheless, startling in amount. It does not appear, however, that the same reasons can be advanced for making appropriations that will produce a cash surplus of almost three-quarters of a million in a single year. It is this

extraordinary surplus that encourages me to hope that a substantial saving will yet be made in the appropriations of the School Committee for the benefit of the taxpayer.

The possible appropriations of the School Committee for the year 1927 are approximately as follows:

School tax limit of	
\$8.26 on the thousand	\$15,207,135.50
Estimated revenue	
(1926 income \$611,157.00)	600,000.00
Cash surplus	739,519.94

Total\$16,546,655.44

Were you to estimate an expenditure \$1,000,000.00 in excess of last year, there would still remain an amount of \$428,000.00 that might not be appropriated, which could be added to the tax rate reduction I have promised to make this year.

The attitude of the public towards school expenditures has been very liberal. Unlike other city officials, your Committee has been remarkably free from the petty criticisms of official investigators. Yet an annual increase of \$1,000,000.00 in school expenditures is so disquieting that a public demand for economy in school expenditures may become general. Until then I believe it is only reasonable to expect from your Committee that such detailed study of your budget be made as to effect the elimination of every expenditure that can economically be made without injury to the service.

All municipal expenditures have grown, but school expenditures have outstripped the rest. Not in the history of the city has there been an expansion of activities like those under the control of your Committee. Yet the school attendance has not appreciably increased. It is the ways to spend that multiply.

It is my opinion that half a million dollars of your appropriating power need not be used this year. Your financial history shows that if you appropriate all the law allows you will have a sum in excess of three-quarters of a million dollars left at the end of this year.

In view of the importance of making as large a reduction in the city tax rate as possible, I request that you carefully review your preliminary estimates.

Respectfully yours,
MALCOLM E. NICHOLS,
Mayor.

Placed on file.

On motion, the following communication was ordered sent to His Honor the Mayor, in reply to the Mayor's communication of April 16, 1927, Mrs. Barron not voting because, in her opinion, the said reply involves the budget, and since she is asking for further time for consideration of the budget:

May 9, 1927.

Hon. Malcolm E. Nichols,
Mayor of Boston,
City Hall, Boston, Mass.

Dear Sir:

Your communication of the 16th ultimo has been received and given very careful consideration by the School Committee, and in reply thereto, the following is respectfully submitted:

1. In my communication to you under date of April 13, 1927, I discussed in detail the reasons for the balance remaining at the end of the financial year 1926, and advised you that the Preliminary Estimates for the financial year 1927, of the cost

of maintenance of the schools, based on the conditions existing on January 1, 1927, but containing no provision for growth or expansion of any kind, showed a balance of \$278,361.08 available for growth, expansion and other items. You were also advised that this balance might be increased by reductions which could be made before the budget for the year is adopted.

2. From the Preliminary Estimates has been excluded the amount of money available for the item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards." The amount for this item, under existing law, is \$1,675,362.39 for the current year and it is provided for in a separate appropriation order under existing procedure.

3. It is apparent that were it not for the balances remaining on various items at the end of the year 1926, in 1927 it would be necessary either to petition for additional appropriating power, or curtail activities now in operation.

4. It is true as your Honor states that were the School Committee to estimate an expenditure of \$1,000,000. in excess of last year, there would still remain an amount of approximately \$428,000.00. The increase in estimates for 1927, over the actual expenditures for 1926 for the item "Salaries of Instructors," will approximate \$1,000,000.00, and such increased estimates are due to several factors, namely, (a) the cumulative and continuing cost of the general salary increases to all teachers authorized on September 1, 1925, by act of the Legislature (see paragraph 7); (b) the cost of vacancies existing on January 1, 1927 (see paragraph 6); (c) the full effect of the cost of the salaries of all teachers and members of the supervising staff appointed during the year 1926; (d) the automatic increase for those teachers who have not reached the maxima of their schedules; (e) the cost of operating the common anniversary of September first for all teachers and others ascending to the maxima of their schedules.

5. The amount still remaining over and above the \$1,000,000.00, the reasons for the use of which million dollars have been given in the paragraph immediately preceding in items lettered from (a) to (e) inclusive, is approximately, as you state, \$428,000.00. This sum is needed for necessary growth and expansion and for other desirable items, such as the reduction of the quota of pupils to a teacher in intermediate schools from forty to thirty-five.

6. In the Preliminary Estimates is included, as has been stated, the cost of vacancies which the Superintendent of Schools advised the Business Manager existed throughout the school system on January 1, 1927. The cost of filling these vacancies reported by the Superintendent, is \$346,707.00. The Superintendent undoubtedly will recommend the filling of all of these vacancies during the year, provided qualified candidates shall be found on the various eligible lists for appointment to the school service. While the total amount for these vacancies, viz., \$346,707, may not be an actual excess cost in the estimates for 1927 over the expenditures for 1926, it is obvious that if such vacancies did not exist the sum specified need not be appropriated.

7. It must also be remembered in connection with the general increases in salaries of teachers authorized on September 1, 1925, additional appropriating power for which was secured from the Legislature, that prior to September 1, 1925, a common anniversary was not in operation for teachers ascending on their respective salary schedules, so that it was not possible to accurately gauge the cost of such general increases allowed by legislative approval and action. Necessarily this increase, which has cost substantially more than the additional appropriating power provided, is being met from funds available from several sources,—such as substantial increase in average valuations during the past several years.

EXPENDITURES FOR "LANDS, PLANS AND CONSTRUCTION OF SCHOOL BUILDINGS."

8. Your Honor is, of course, aware that while the School Committee makes appropriations for "Lands, Plans and Construction of School Buildings," and for "alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," it has no control over the actual expenditures. All such expenditures are made by the Schoolhouse Commission, a commission entirely under Your Honor's control, and in this connection it is called to Your Honor's attention that at the end of the financial year 1926, there remained a balance unexpended from Lands, Plans and Construction of School Buildings of \$1,810,696.99. It is further to be noted that the Chairman of the Schoolhouse Commission on July 3, 1926, informed the School Committee that a total sum of \$5,998,804.45 was required for lands, plans and construction of school buildings during 1926, and appropriations were made by the School Committee to cover the sum specified viz., \$5,998,804.45. Of this appropriation the huge balance of \$1,810,696.99 remained unexpended at the close of the year 1926, and for this unexpended balance the School Committee is in no way responsible. Thus it would appear to the School Committee that at least one million and a half dollars was unnecessarily provided for in 1926, and that if such action had not taken place, the tax rate for the year 1926 could have been relieved by approximately eighty cents on the \$1,000. The Committee feels, therefore, that it is in no way responsible for the large balance of \$1,810,696.99 remaining at the end of the year 1926 from an appropriation of \$5,998,804.45 for lands, plans and construction of school buildings during that year.

EXPENDITURES FOR "ALTERATION AND REPAIR OF SCHOOL BUILDINGS, ETC." AND INCREASES IN COSTS OF REPAIRS AND CONSTRUCTION OF SCHOOL BUILDINGS.

9. The appropriation for "Alteration and Repair of School Buildings, Etc.," for the year 1926 amounting to \$1,620,660.37 showed a balance at the end of that year of \$7,913.93. The amount available for the current year is \$1,675,362.39. It is evident that the appropriation for this item is being expended practically in full each year by the Schoolhouse

Commission. It is also noted that the expenditures for "Alteration and Repair of School Buildings, Etc.," have increased approximately 266 per cent. since 1916, and that this is by far the largest percentage of increase of any of the items that go to make up the maintenance cost of the public school system, and over this expenditure the School Committee has no control. The cost of alterations and repairs of school buildings and the cost of lands, plans and construction of school buildings have grown tremendously in recent years. Furthermore, the School Committee has on occasions been obliged to make appropriations for land takings for schools of over 200 per cent. in excess of the assessed valuations of such lands at the time of the takings.

10. The School Committee can only reiterate that while it is in complete sympathy with the desire of your Honor to keep the tax rate for the year 1927 down to as low a figure as possible, it is evident that it would be unwise for the Committee to leave unappropriated a substantial amount of the sums made available for the maintenance of the schools under existing law. The School Committee would gladly co-operate with you in the matter of aiding in the reduction of the tax rate if it could determine at the present time that such a substantial sum could be left unappropriated from the total of all funds available for maintenance of the school system without curtailing the activities now in operation, or running the risk of being without sufficient funds to properly finance the system this year, and in the year 1928.

11. The School Committee does not feel that it should in any way, even by implication, be criticized for coming through with substantial balances from its appropriation for the year 1926 or preceding years; nor should it be criticized, if it finds it necessary to use such balances during the current year, as is provided for under existing legislation.

12. With the exception of the additional appropriating power allowed by the Legislature to meet the cost of the general salary increase which took effect on September 1, 1925, the School Committee has not petitioned for additional appropriating power to maintain the school system during the period from 1921 to 1927, exclusive of the items "Lands, Plans and Construction of School Buildings" and "Alteration and Repair of School Buildings, etc."

13. Your Honor is also advised that the School Committee members individually and collectively are concerned not only with school expenditures but with the effect of such expenditures on the tax rate. The report of the Business Manager on the cost of public school education for the financial year 1925, contains the following paragraph:

"It is evident that a liberal policy of expenditure is necessary in public school education and the taxpayers ungrudgingly make possible this liberality, but it is also a very important function of the School Committee to keep faith with the taxpayers by taking every means possible to study the various types, phases and costs of public school education, to the end that extravagances, if there are any, be eliminated; and that any new policy or hobby be inspect-

ed carefully before it is passed upon and becomes a fixture thereafter in cost and in other directions."

14. The School Committee is entirely in sympathy with the sentiments expressed in the foregoing paragraph and at the conferences and meetings the members constantly are discussing with the educational authorities the necessity for the various activities in operation in the public school system as well as the advisability of taking on new activities. The Committee will most assuredly keep faith with the taxpayers by continuing a study of these problems, with a view to affecting retrenchment wherever and whenever possible. The cost of public school education throughout the country has grown in recent years through the adoption of new educational features and the creation of such auxiliary agencies as tend to keep pupils in school in order that they may secure as much education as possible before becoming wage earners. By far the greater part of the increased cost of public school education since the year 1916 has been due to economic conditions created by the World War. As an illustration: A grade teacher in 1927 received a minimum salary which is in excess of the maximum salary paid in 1916. This great increase is justified by the decreased purchasing power of the dollar. It should not be overlooked, when considering increases in school expenditures, that the cost of doing business and the cost of production throughout the country have grown tremendously since the war in all lines of endeavor. A city laborer employed by the City of Boston received \$2.50 per day in 1916. He is now receiving \$5.00 per day—a 100 per cent increase, and it is an acknowledged fact that a city laborer with a family has a hard time making both ends meet on a salary of \$30.00 per week. There is now a movement on foot to relieve him and his family by increasing his compensation. This is further evidence of the decreased purchasing power of the dollar since 1916.

15. Realizing the need for retrenchment all along the line in municipal expenditures, the School Committee is now making its own study of existing activities, to the end that their continuance may be justified before the public as being in the interests of the pupils, or if this may not be done, modified or discontinued.

16. The purpose of this reply to your Honor's communication of the 16th ultimo, however, is to inform you that the School Committee does not feel that because it has been fortunate during the past two years to come through with substantial balances remaining from its appropriations, it should in any way be criticized for such action, as the demands of the educational system are so numerous and so complex that it could very easily have used up all of the funds available. This the Committee has not done, for the reason that particularly during the past two years, it has been looking forward to financial conditions in future years, bearing in mind that it has no reserve funds to draw on except those created by increases in average valuations.

17. The School Committee is taking effective measures to run the system economically. For instance, an engineer and a bookbinder have been employed, the one to control the expenditures for fuel, light and

power, and the other to salvage school books either through minor repairing or through contract re-binding. Principals, teachers and others have been carefully instructed to avoid waste in the use of supplies and equipment throughout the entire system. The savings through this kind of control are noteworthy and are in line with what is in practice in up-to-date mercantile institutions.

18. The School Committee hopes that the information set forth in this communication will assure your Honor and the public at large of the Committee's attitude towards increasing taxes and its desire to co-operate in keeping down the cost of maintaining the public school system where such action does not seriously interfere with or jeopardize the interests of the pupils in the schools. If the Committee felt that under present conditions it could leave a sum of \$500,000 unappropriated, it would gladly do so. The financial situation this year and in future years, insofar as can be foreseen, does not warrant the diversion of such a substantial sum from the funds provided by the statutes of the Commonwealth for use in maintaining the public school system. Were the School Committee to leave the sum of \$500,000 unappropriated this year and then find in the closing months of the year that it needed the whole or part of such sum, your Honor could not furnish the necessary financial relief, for the reason that the School Committee receives its appropriating power direct from the Legislature and no reserve fund is made available in case the need for some additional funds should arise at the end of the year. If the School Committee is fortunate enough to find at the end of the current year that it has a substantial balance, such a balance would, probably, as provided for in the law, be devoted to its needs for the year 1928.

Further detailed information in connection with this letter may be obtained by reference to the budget which is presented herewith to your Honor.

Respectfully submitted,

The School Committee of the City of Boston,
by Frederick L. Bogan, Chairman.

ANNUAL APPROPRIATION ORDER.

Question came on the adoption of the budget and the annual appropriation order as submitted by the Business Manager under date of May 9, 1927, to provide for the cost of maintenance of the public schools; for the cost of administration and supervision; and for the cost of sundry other services and expenses of the public schools, for the financial year 1927, exclusive of the item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards;" for which provision will be made in a separate appropriation order.

Mrs. Barron: Asked that action on the budget be deferred until the next meeting, in order that she might have further time to go over the estimates in some detail, since the budget in complete form has only come to the School Committee tonight, and inasmuch as it involves the expenditure of millions of dollars, should have very serious consideration.

Dr. Bogan: Explained that the

estimates as presented provide for the maintenance of the school system as in effect January 1, 1927, plus provision for growth and expansion as recommended by the Board of Apportionment. Before any expenditure is incurred on the items of suggested expansion, the Superintendent will present such items for action by the School Committee.

Mr. Sullivan: Pointed out that acceptance of the estimates does not in any way bind the School Committee to particular projects, although provision is made in the said estimates. It is merely permissive legislation.

Mr. O'Hare: The budget has come to the Committee tonight for the first time in combined form, but the Committee had previously given careful consideration, first, to the preliminary estimates submitted by the Business Manager based on the school system as of January 1, 1927, and, secondly, to the estimates of costs of recommended extensions, as submitted by the Board of Apportionment. These two budgetary estimates were then, after acceptance by the School Committee, combined to form the budget now before the School Committee. The adoption of the budget, as presented, is simply enabling legislation to permit the School Committee, if it shall be found desirable, to spend monies as therein set forth. It is not compelling legislation. There is no moral obligation on the part of the School Committee. Personally, has spent many hours, in addition to the time spent in conferences of the School Committee, studying the estimates now before the Committee for action.

Mr. Gray: Is prepared to vote this evening on the acceptance of the budget, but in consideration of Mrs. Barron's wishes, is willing to postpone action for one week.

Question came on postponement of action on the adoption of the budget.

Postponement was refused, Messrs. Bogan, O'Hare and Sullivan opposed; Mrs. Barron and Mr. Gray in favor.

The Board then took up the annual estimates and appropriation order, prepared and submitted by the Business Manager in accordance with the rules, as follows:

OFFICE OF THE BUSINESS MANAGER OF THE SCHOOL COMMITTEE, 15 BEACON STREET, BOSTON, MASS.

MAY 9, 1927.

BUDGET AND ANNUAL APPROPRIATION ORDER TO PROVIDE FOR THE COST OF MAINTENANCE OF THE BOSTON PUBLIC SCHOOLS; FOR THE COST OF ADMINISTRATION AND SUPERVISION; AND FOR THE COST OF SUNDRY OTHER SERVICES AND EXPENSES. FOR THE FINANCIAL YEAR 1927.

To the School Committee of the City of Boston:

1. In compliance with the Rules of the School Committee, I submit herewith the budget and annual appropriation order, with detailed estimates, to provide for the cost of maintenance of the public schools; for the cost of administration and supervision; and for the cost of sundry other services and expenses of the public schools, for the financial year 1927, exclusive of the item "Alteration and repair of school buildings, and for furniture, fix-

tures, and means of escape in case of fire, and for fire protection for existing buildings and for improving existing school yards;" for which provision will be made in a separate appropriation order.

2. The average valuation of the city for the three years 1924, 1925 and 1926, with all abatements allowed up to December 31, 1926, as certified to His Honor the Mayor by the Board of Assessors, is \$1,841,057,566.16. This is the sum upon which all appropriations by the City Council and the School Committee for the financial year 1927 are based.

Under existing law the School Committee is authorized to appropriate the following sums:

(a) Six dollars and ninety-two cents upon each one thousand dollars of the valuation of the city for general school purposes. (Chapter 206 of the Special Acts of 1919, chapter 249 of the Special Acts of 1919, chapter 641 of the Acts of 1920, and chapter 309 of the Acts of 1925.)

(b) Ninety-one cents upon each one thousand dollars of the valuation of the city for the alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards. (Chapter 206 of the Special Acts of 1919, chapter 524 of the Acts of 1920, chapter 488 of the Acts of 1923, and chapter 153 of the Acts of 1926.)

(c) Fifteen cents upon each one thousand dollars of the valuation of the city for organizing and conducting physical training and exercises, athletics, sports, games and play, and for providing apparatus, equipment and facilities for the same in buildings, yards and playgrounds under the control of the School Committee, or upon any other land which the committee may have the right to use for this purpose, under the provisions of chapter 295 of the Acts of 1907. (Chapter 206 of the Special Acts of 1919, chapter 249 of the Special Acts of 1919, chapter 641 of the Acts of 1920, chapter 309 of the Acts of 1925, and chapter 153 of the Acts of 1926.)

(d) Eleven cents upon each one thousand dollars of the valuation of the city for the employment of one supervising female nurse and so many district female nurses as, in the opinion of said committee, are necessary, in accordance with the provisions of chapter 357 of the Acts of 1907, and for the employment of such number of school physicians as, in the opinion of the School Committee, may be necessary, and for the care of the teeth of school children. (Chapter 206 of the Special Acts of 1919, chapter 249 of the Special Acts of 1919, chapter 641 of the Acts of 1920, chapter 309 of the Acts of 1925, and chapter 153 of the Acts of 1926.)

(e) Four cents upon each one thousand dollars of the valuation of the city for the purpose of conducting educational and recreative activities in or upon school property under the control of the School Committee, and the use thereof by individuals and associations in accordance with the provisions of chapter 195 of the Acts of 1912 and chapter 86 of the Special Acts of 1916. (Chapter 206 of the Special Acts of 1919, chapter 641 of the Acts of 1920, and chapter 309 of the Acts of 1925.)

(f) Seven cents upon each one thousand dollars of the valuation of

the city for the payment of pensions to members of the teaching or supervising staff of the public schools of the city, and to persons who were annuitants of the Boston Teachers' Retirement Fund at the time when chapter 589 of the Acts of 1908 took effect, and other teachers who had retired prior to said time, in accordance with the provisions of said chapter 589, chapter 537 of the Acts of 1909, chapter 617 of the Acts of 1910, chapter 569 of the Acts of 1912 and acts in amendment thereof, and of the provisions of chapter 206 of the Special Acts of 1919. (Chapter 206 of the Special Acts of 1919.)

(g) Three cents upon each one thousand dollars of the valuation of the city for promoting the Americanization and better training for citizenship of foreign-born persons. (Chapter 206 of the Special Acts of 1919, and chapter 309 of the Acts of 1925.)

(h) Three cents upon each one thousand dollars of the valuation of the city for vocational guidance. (Chapter 206 of the Special Acts of 1919, and chapter 309 of the Acts of 1925.)

(i) The unexpended balance for the financial year 1926.

(j) The excess of income, if any, for the financial year 1926 over that estimated.

(k) The estimated income for the financial year 1927.

ESTIMATED TOTAL MONEY AVAILABLE 1927.

3. The sums available under existing statutes for the financial year 1927 to provide for the cost of maintenance of the public schools; for the cost of administration and supervision; and for the cost of sundry other services and expenses are as follows:

\$6.92 per \$1,000 for general school purposes	\$12,740,118.36
.91 per \$1,000 for the alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards.....	1,675,362.39

Unexpended balance, appropriation for the alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards, 1926.....	7,913.93
Excess of income over amount estimated, general, 1926....	66,792.19
Excess of income over amount estimated, physical education, 1926	1,696.46
Excess of income over amount estimated, extended use of the public schools, 1926....	2,804.78
Estimated income, general, including Smith-Hughes Fund, 1927	575,000.00
Estimated income, physical education, 1927	10,000.00
Estimated income, extended use of the public schools, 1927	6,500.00
Total	\$16,538,155.14

Deduct amount available for "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards" 1,675,362.39

Estimated total amount available for maintenance, 1927, excluding the item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," for which a separate appropriation order will be made.....\$14,862,793.05

4. The appended table shows the estimated cost of maintenance of the Boston Public Schools; the cost of administration and supervision; and the cost of sundry other services and expenses for the financial year 1927. The table also shows the expenditures for the financial year 1926 and the increases in the several items, year 1927 over year 1926. The items "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards" and "Pensions to Teachers" are excluded.

5. Reference to the table shows an increase in appropriations for the financial year 1927 over the expenditures for the financial year 1926 of \$1,442,385.74. About seventy per cent. of the increase, or \$1,011,590.90, comes in the item "Salaries of Instructors (principals, teachers, members of the supervising staff and others)." The extraordinary increase in this item is due to several factors as follows:

(a) The cumulative and continuing cost of the general salary increases to all teachers authorized to take effect on September 1, 1925, by act of the Legislature. (Chapter 309 of the Acts of 1925.)

(b) The large number of vacancies (245) reported by the Superintendent to the Business Manager as existing on January 1, 1927, to be filled sometime during the year. The cost of filling these vacancies reported by the Superintendent, is \$346,707.

(c) The full effect of the cost of salaries of all teachers and members of the supervising staff appointed during the year 1926.

(d) The automatic increase for those teachers who have not reached the maxima of their schedules.

(e) The continuing cost of operating a common anniversary of September 1 for all teachers and others ascending to the maxima of their schedules.

(f) The appointments recommended on the basis of growth and expansion of the school system.

6. The increases in the other items exclusive of "Salaries of Instructors (principals, teachers, members of the supervising staff and others)" are normal and due to growth and other necessary adjustments.

7. It would certainly appear, from information now at hand, that in the year 1928 it will be necessary for the School Committee to petition for additional appropriating power for maintenance of the school system as a going concern, unless at the end of the financial year 1927 there is a balance remaining, as there was at the end of the financial year 1926, on the various appropri-

tion items of sufficient size to preclude the possibility of such action.

8. In my opinion, it is most desirable to proceed during a financial year along the lines of retrenchment, wherever possible, in order that a balance or surplus may be available for use the following year. Most assuredly it is better to plan for a balance at the end of a financial year amounting to at least three per cent. of the total of the appropriations, than it is to come through without a balance or with a deficit. It is not possible at the beginning of a financial year to forecast with any degree of accuracy the amount of balance at the end of the year. A balance of any substantial size under present conditions is largely due to two factors, to wit: The delayed filling of the large number of vacancies reported by the Superintendent (see item (b) under paragraph 5); and the delayed appointments of teachers and others provided for on the basis of growth and expansion of the system.

9. The money available for appropriation for new school buildings, lands, yards and furnishings, for the year 1927, viz., \$3,000,000 and the amount available for "Alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," viz., \$1,675,362.39 are provided for in separate appropriation orders by the School Committee, but the expenditures under these appropriations, such appropriations totaling \$4,675,362.39, are made by the Schoolhouse Commission, a department under control of the Mayor.

10. It may be readily ascertained that the sum of \$14,862,793.05 is therefore available to meet the cost of maintenance of the public schools; the cost of administration and supervision; and the cost of sundry other services and expenses of the public schools, during the financial year 1927, and to provide for necessary growth and expansion in the school system during such year. The item, "Alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," as stated has been excluded, as it is provided for in a separate appropriation order.

11. I recommend the passage of the accompanying order appropriating the sum of \$7,259,293.05, being the amount necessary in addition to the amount (\$7,603,500.00) appropriated "on account" at the meeting of April 4, 1927, to provide for the cost of maintenance of the public schools; for the cost of administration and supervision; and for the cost of sundry other services and expenses of the public schools, for the financial year 1927, exclusive of the maintenance item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards." The total of the appropriations for the year for the purposes mentioned is therefore, \$14,862,793.05

Respectfully yours,

ALEXANDER M. SULLIVAN,
Business Manager.

Pensions to Teachers.....	65,000.00
Extended Use of the Public Schools (salaries, supplies, equipment and incidentals) ..	45,000.00
Totals	<u>\$7,603,500.00</u>

It is therefore necessary to appropriate the balances of the several items, and the following order carries this intention into effect:

Ordered, That to provide for the cost of maintenance of the public schools; for the cost of administration and supervision; and for the cost of sundry other services and expenses of the public schools for the financial year 1927, exclusive of the item "Alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," the following sums, based on the preceding detailed estimates, are hereby appropriated for the purposes hereinafter stated, in addition to the sums appropriated on April 4, 1927, on account:

For general school purposes, including Americanization and Vocational Guidance:	
Salaries of Instructors (principals, teachers, members of the supervising staff and others)....	\$5,434,562.00

Salaries of School Physicians and Nurses.....	98,938.00
Pensions to Teachers.....	63,874.03

Extended Use of the Public Schools (salaries, supplies, equipment and incidentals)	39,654.87
	<u>\$7,259,293.05</u>

Question came on the acceptance of the estimates and the passage of the appended appropriation order.

The estimates were accepted and placed on file, and the order making appropriation in the sum of \$7,259,293.05 was passed by the following vote, such sum being, as previously stated, in addition to the appropriation on account of \$7,603,500.00 made at the meeting of Apr. 4, 1927:

YEAS—Messrs. Bogan, Gray, O'Hare and Sullivan—4.

NAYS—0.

NOT VOTING—Mrs. Barron—1.

Mrs. Barron explained that she is not voting, for the reasons previously stated.

The Board adjourned.

ELLEN M. CRONIN,
Secretary.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed on bronze tablets the names of 58 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 65 individuals thus selected (up to 1925 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotteushman—total, 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

No Bostonian was selected in 1925.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 58.46 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in

that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Druid street, bounded:

Southerly by Morton street, ten and 85-100 feet; westerly by another part of Druid street, four hundred fourteen and 10-100 feet; northerly by land herein-after described as taken from Daniel Walsh, eight feet; and easterly by another part of Druid street, four hundred twenty-one and 61-100 feet, containing thirty-three hundred and forty-three square feet, more or less.

A parcel of land, supposed to belong to Daniel Walsh, bounded:

Southerly by land hereinbefore described as taken from owners unknown, eight feet; westerly by other land supposed to belong to said Walsh, two hundred twenty-seven and 44-100 feet; northerly by Codman street, eight and 71-100 feet; and easterly by other land supposed to belong to said Walsh, two hundred twenty-three and 82-100 feet, containing eighteen hundred and five square feet, more or less.

The sewerage works to be constructed are as follows: 643 linear feet of 12-inch pipe sanitary sewer and 643 linear feet of 18-inch pipe surface drain, in the above described premises, being part of the private way known as Druid street, leading northerly from Morton street for a distance of approximately 417 feet, and private land between Druid street and Codman street.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the easterly, westerly and northerly sides of Druid street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 758, Sewerage Works, Druid Street, Dorchester, April 16, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

BATHING BEACHES OPENED.

Mayor Nichols announced on June 10 that he had instructed Chairman Long of the Park Department to throw open the bathing facilities of the city during the emergency warm weather for those who will provide their own suits and towels. The official opening day was June 15. It will be impossible to furnish suits and towels and other necessities by reason of the fact that the budget allowance would not permit it before June 15.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN ELM AVENUE, FROM BURGUYNE STREET TO WILCOX ROAD, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Elm avenue, from Burgoyne street to Wilcox road, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 50 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Elm Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, July 1, 1927, with a certified check for two hundred (200) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PRESIDENT COOLIDGE HAPPY TO PRAISE BOSTON.

Mayor Nichols announced on June 23 the receipt of the following letter from President Coolidge relative to the address delivered by the President at Hammond, Indiana, at the dedication of the Wicker Memorial Park to the World War Veterans of that region, in which the President referred to the outstanding position Boston held in the matter of its parks.

RAPID CITY, S. D.

June 17, 1927.

MY DEAR MR. MAYOR,—I have your telegram and sincerely appreciate what you say. It was naturally a real pleasure to me to make mention of the part which Boston has played in development of park and recreational facilities.

Very truly yours,

CALVIN COOLIDGE.

ADDRESS OF MALCOLM E. NICHOLS, MAYOR OF BOSTON, AT THE ANNUAL "NIGHT BEFORE" BANQUET, CELEBRATING THE 152D ANNIVERSARY OF THE BATTLE OF BUNKER HILL, HELD AT THE CHARLESTOWN ARMORY, THURSDAY, JUNE 16, 1927.

The anniversary of Bunker Hill teaches the lesson of strong hands and stout hearts. It was a defeat turned into a victory of great moral strength. It thrilled the thirteen struggling colonies with new power and quickened the life blood of a nation.

We are still young. The youth of America is an inspiration to the world. America is the best hope of the world. Cripple America and the world loses its best guide and friend. Bunker Hill teaches us today as it did a century and a half ago to be steadfast. Our example then not only made the new world free, it taught England herself the worth of Democracy.

The world looks to America for leadership. We can give it. Indeed, we must. The responsibility is ours as of yore. But we cannot keep up with that responsibility by listening to councils of weakness. We must preserve the old faith and turn faith into good works.

It should be our earnest endeavor to develop all manly and womanly qualities that are essential in a war worth making and a peace worth having. I mean such qualities as made it possible for Colonel Lindbergh to conquer the stormy skies of the Atlantic, and accept with serenity the plaudits of the world. His is a rare blend of courage and balance.

Boston was the first city in the world to extend a welcome to him. Our representative, Capt. Gardiner H. Fiske, was on the field at Paris when he landed and extended to him the congratulations of Boston. We gave Commander Byrd, who encircled the North Pole, one of the greatest receptions ever, accorded an official visitor, and Commander Byrd has assured me of the pleasure that will be his in coming to Boston again and with Colonel Lindbergh after the commander returns from his flight across the Atlantic.

We have developed our airport. We must make it grow to meet new demands of aviation. We should make the Navy Yard work for the navy. I want it to be the busiest Navy Yard in the country, and I told Secretary Wilbur so today. For many weeks I have been in close touch with Washington presenting the justice and fairness of the claims of the Charlestown Navy Yard. The Navy Yard is equipped to meet every demand made upon it. I am confident that the advantages which it offers will receive appropriate recognition.

(Continued on page 695.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

FINANCE COMMISSION STUDIES FIRE STATION SITE.

The Finance Commission has addressed the following communication to the City Council:

BOSTON, June 20, 1927.

To the Honorable the City Council.

GENTLEMEN,—In connection with its study of the loan order for a new fire station in the West End, now pending before your honorable body, the Finance Commission has decided to have an official appraisal made of the Revere House lot, proposed for the new fire station. When the appraisal is obtained it will be made available for your consideration. It is doubtful if the estimates can be obtained before your meeting on Monday, June 20. The commission therefore respectfully requests that no action be taken on the loan order until it can submit to you the appraisal and its report on the subject.

Respectfully submitted,

THE FINANCE COMMISSION,

ADDRESS OF MAYOR NICHOLS.

(Continued from page 693.)

The merchant marine means much to Boston, much to the country. The navy means much to the merchant marine and to American interests throughout the seven seas. America cannot stay at home. Her problem is with all nations. We took no profit from the great war. We want none now. Wherever the flag goes peace and prosperity go backed by the hand and heart of America.

CITY TO BATTLE TO SAVE HALF-FARE RATES FOR PUPILS.

Mayor Nichols announced on June 15 that he had instructed Assistant Corporation Counsel Silverman to appear on behalf of the City of Boston at the hearing held by the Department of Public Utilities upon a resolve of the Legislature which directed the Public Utilities Commission to investigate into the advisability of repealing the present law which compels street railways to give pupils attending public schools a half-fare rate, and in so doing the Mayor issued the following statement:

I am opposed to any attempt to repeal the provisions of the existing laws which will deprive the school children of this city and this Commonwealth from the half-fare transportation rate to their schools from their homes and to return, which they now enjoy.

The purpose of this long existing law was to encourage education and to lessen the burden upon the parents of children who had to attend schools which were somewhat distant from their homes. In fact, I do not believe it will be to the advantage of the street railways in this Commonwealth to abolish this half-rate fare, for if the rates are increased school children will not use the cars at all. Many of them will walk or take advantage of any other means of going to the schoolhouses and to their homes upon returning from school. Many of the smaller municipalities in this Commonwealth will employ buses at much cheaper expense to convey school children to the schools and to their homes.

In the long run, street railways will lose much of the revenue which they are now receiving from this source of transportation. There is no great burden imposed upon the street railways by charging half-rate fares to pupils attending public schools. No more cars are necessary; no more employees are required; and it is a source of revenue which they otherwise would not have. The right of the Legislature to enact statutes compelling street railways to transport school children at half rates has been attacked by the street railways in this Commonwealth without success. In every instance our courts have held that it is not unreasonable to compel public utilities, who are a part of the community in which they render service, to assist the public generally and to cooperate in an endeavor to educate the children of the community in which they serve.

The general car riders, I am sure, are willing, able and satisfied to bear any additional burden, if such there be, which may be imposed upon the street railway by the carriage of school children at half rates. While it is true that in Boston the Boston Elevated Railway Trustees have voluntarily established the rate for half fares for children, I understand that under the Public Control Act they are not bound by the statute compelling half rates for school children, nevertheless, I feel that if the statute in question was repealed that the trustees undoubtedly, in keeping with the spirit of the Legislature, would also compel school children in Boston to pay full rates.

It is for these reasons that I am emphatically opposed to any legislation which will bring about the repeal of the existing law and I have accordingly instructed the Corporation Counsel to oppose any effort along these lines.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as New Park avenue, bounded:

Southwesterly by East Border road, ten and 17-100 feet; northwesterly by another part of New Park avenue, three hundred feet; northeasterly by the same, ten feet; and southeasterly by the same, three hundred one and 81-100 feet, containing three thousand and nine square feet, more or less.

The sewerage works to be constructed are as follows: 250 linear feet of 10-inch pipe sanitary sewer and 265 linear feet of 12-inch pipe surface drain, in the above described premises, being part of the private way known as New Park avenue, leading northeasterly from East Border road for a distance of approximately 300 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of New Park avenue, between East Border road and Beech streets, excluding the lots at the northerly and easterly corners of East Border road and New Park avenue, and the lots at the westerly and southerly corners of Beech street and New Park avenue, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 767, Sewerage Works, New Park Avenue, West Roxbury, May 24, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

PENAL INSTITUTIONS DEPARTMENT.

Upon May 28 the Mayor approved a contract with the Ross Steamboat Company for hiring a steamer. A communication from Philip A. Chapman of the Penal Institutions Department was as follows:

BOSTON, May 28, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for permission to hire the steamer "Saziana" of the Ross Steamboat Company.

The cost of hiring the "Saziana" will be \$140 a day, and your approval is requested for the reason that this may exceed \$1,000.

The only other boat available is the steamer "Myrtle," owned by Captain Sorenson, who asks \$150 per day.

This boat will take the place of the steamer "Michael J. Perkins" while undergoing repairs.

Yours respectfully,

PHILIP A. CHAPMAN,
Penal Institutions Commissioner.

Upon May 28 the Mayor approved a contract with the Atlantic Works for repairs to the steamer "Michael J. Perkins." A communication from Philip A. Chapman of the Penal Institutions Department was as follows:

BOSTON, May 28, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—I respectfully request your approval for the award of contract, without advertising, to the Atlantic Works for repairs to the steamer "Michael J. Perkins" in the sum of \$4,133.

This is emergency work and nothing would be gained by advertising in the *City Record* as bids were requested from the following: Atlantic Works, Bethlehem Shipbuilding Corporation, Franklin Engineering Company and the Richard T. Green Company, who are leading shipbuilding concerns in Boston.

The following bids were submitted: Atlantic Works, \$4,133; Bethlehem Shipbuilding Corporation, \$5,973; Franklin Engineering Company, \$6,736; Richard T. Green did not submit bid.

These are emergency repairs and are necessary in order to insure the "Perkins" being available for the Randidge excursions.

Yours respectfully,

PHILIP A. CHAPMAN,
Penal Institutions Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

Upon June 21 the Mayor approved a contract with Edward C. Kelly for installing plumbing fixtures in the Women's Wing, Suffolk County Courthouse, at \$1,527.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 21 the Mayor approved a contract with John Monticone for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 14, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to John Monticone, 3 Baker place, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon June 21 the Mayor approved a contract with Carmine LoChiatto for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 20, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Carmine LoChiatto, 2 Baldwin place, Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon June 21 the Mayor approved a contract with John McNulty for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 15, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to John McNulty, 3858 Washington street, West Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance

but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon June 21 the Mayor approved a contract with Cosimo Pasquale for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 20, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Cosimo Pasquale, 19 Dacia street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon June 21 the Mayor approved a contract with Rosario Palmeri for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 20, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Rosario Palmeri, 128 Whitfield street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Upon June 10 the Mayor approved a contract with B. F. Grant Company for furnishing two pressure flushers. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 10, 1927.

To the Mayor of Boston.

Your approval is respectfully requested to the inclosed bill from the B. F. Grant Company for \$1,156, the same being for furnishing two pressure flushers for dust suppression from April 1 to April 17, inclusive. It was necessary to employ these machines and the cost was estimated not to exceed \$1,000. The amount of the bill being in excess of \$1,000 your approval is therefore requested.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon June 16 the Mayor approved a contract with Samuel J. Tomasello for constructing catch-basins and manholes in Dudley street, Roxbury. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 16, 1927.

To the Mayor of Boston.

Permission is requested to award a contract, without advertising, to Samuel J. Tomasello to construct five catch-basins and five manholes, with connections, in Dudley street, Roxbury, between Harrison avenue and Blue Hill avenue, at a cost of \$3,025.

Mr. Tomasello has the contract to repave Dudley street, and as the basins, etc., are made necessary by the repaving, the work can be done more advantageously by him. The price is reasonable, and I respectfully recommend the award.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon June 16 the Mayor approved a contract with the Cleveland-Chandler Motor Car Company for one royal sedan for the Fire Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 15, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Chandler-Cleveland Motor Car Company to deliver to the Fire Department the following:

One Chandler Royal Eight sedan, fully equipped with bumpers, shock absorbers, spare tire and cover, trunk, and painted maroon, \$2,445, less discount, \$559—\$1,886; less allowance on old car, \$616; net amount of the contract, \$1,270.

As this concern is the manufacturer, no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 16 the Mayor approved a contract with the Linscott Motor Company for one Reo truck for the Sanitary Service, Public Works Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 15, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Linscott Motor Company for furnishing one 1927 Reo truck with express body and four-post top to the Sanitary Service, 650 Albany street, Boston, at a price of \$1,565 delivered, less allowance on 1922 Ford truck offered in exchange, \$25; net price, \$1,540.

As the Linscott Motor Company is the direct representative of the manufacturer of the Reo truck, no advantage would accrue from publicly advertising for same.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 16 the Mayor approved a contract with the Linscott Motor Company for furnishing the Water Service, Public Works Department, one sedan. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, June 15, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Linscott Motor Company for furnishing to the Water Service, 710 Albany street, Boston, one five-passenger Flying Cloud sedan at a price of \$2,025; less allowance on old 1924 five-passenger Buick touring car, \$100; net price, \$1,925.

As the Linscott Motor Company is the direct representative of the manufacturer no advantage would accrue from publicly advertising for same.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon June 21 the Mayor approved a contract with the Gamewell Company for furnishing thirty fire alarm boxes. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, May 3, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Gamewell Company for furnishing thirty (30) Peerless type fire alarm boxes, to be delivered to the Fire Alarm Shop, Fire Department, at a price of \$150 each.

The Fire Alarm Department has made an investigation of the boxes made by various companies, and they are of the opinion that the Gamewell Peerless box is superior to the types made by other companies.

I am attaching copy of letter received by this department from Chief Fickett of the Fire Alarm Branch, in which he makes recommendation that the Gamewell Company's product be purchased.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of the estate of 80 Elm street, West Roxbury district, consisting of a lot of land with the buildings thereon, containing approximately 9,257 square feet, including the trees, buildings and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Alice G. Brennan, bounded:

Northwesterly by Elm street, seventy-five feet; northeasterly by land supposed to belong to the City of Boston, one hundred sixteen and 12-100 feet; southeasterly by land supposed to belong to the First Methodist Episcopal Church of Jamaica Plain, seventy-eight feet; and southwesterly by land supposed to belong to Mary A. Kilduff, one hundred twenty-five and 30-100 feet; containing ninety-two hundred and six square feet, more or less.

Said parcel is shown on a plan marked "City of Boston, Elm Street, West Roxbury, March 23, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that the undermentioned person sustains damages by the taking of her estate on Elm street, West Roxbury district, for school purposes, under the order of the Board of even date herewith, in the amount hereinafter mentioned, and awards said amount therefor: Alice G. Brennan, 9,206 square feet and buildings, \$16,000.

MAYOR FELICITATES PRESIDENT COOLIDGE.

Mayor Nichols announced on June 15 that he had sent the following telegram to President Coolidge expressing his appreciation of the President's reference to Boston and its park system:

PRESIDENT CALVIN COOLIDGE, Rapid City, South Dakota.

Deeply appreciate your splendid tribute to Boston and its park system in your address at Hammond, Indiana. Please accept assurances of my high regard and esteem and every good wish for a most enjoyable rest.

MALCOLM E. NICHOLS, Mayor.

HOPES FOR COMMANDER BYRD'S SUCCESS.

Mayor Nichols announced on June 15 that he had sent the following telegram to Commander Richard E. Byrd, U. S. N., wishing him every success on his flight to Paris.

COMMANDER RICHARD E. BYRD, U. S. N., Roosevelt Field, New York City.

Thanks for your wire. Please accept every good wish from the City of Boston for complete success in your flight from New York to Paris in the "America."

MALCOLM E. NICHOLS, Mayor.

FIRE DEPARTMENT ORDERS.

General Order No. 38.

I. COAL.

Company commanders will forward to this office on or before Thursday, June 16, 1927, an estimate in tons and kind of coal required for the coming winter's supply. Also give an estimate of the amount of coal which can be put in the bins at the present time.

II. HIGH SCHOOL SCHOLARSHIP.

The reverend headmaster of the Boston College High School has requested that the attention of the members of the department be called to the fact that on Saturday, June 18, 1927, there will be a special examination for the Rev. Dennis J. Lynch, scholarship, founded by the members of the Boston Fire Department. The scholarship is to be awarded annually to the son of the member of the Boston Fire Department who obtains the highest average in the annual entrance competitive examinations.

The examination will be held in Boston College High School building, James Street, Boston, at 9 a. m.

III. APPARATUS OPERATORS.

Effective June 3, 1927, the designation of "Engineer" on Engine Companies has been changed to "Apparatus Operator."

Effective June 3, 1927, the designation of "Assistant Engineer" on Engine Companies has been changed to "Assistant Apparatus Operator."

IV. DOCKING OF "CONSTITUTION."

On Thursday, June 16, 1927, the United States Frigate "Constitution" will be docked for rebuilding at Charlestown Navy Yard. The last docking of this vessel took place in 1833 and it is proposed at this time to repeat the ceremony which took place then. The Fire Commissioner has received an invitation from the commandant of the First Naval District for the Boston Fire Department to be represented at the docking ceremony by a uniformed detail to participate in the parade and exercises. Owing to the vacation season a small detail has been arranged for, but all members off duty are invited to join the detail and attend the exercises. Sack coats and white gloves will be worn.

The detail from this department will form at the quarters of Engine Company 50, Winthrop street, at 9.15 a. m.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

CIRCULAR LETTER NO. 33.

MAYOR'S OFFICE,
BOSTON, June 10, 1927.

To the Heads of City Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to all employees in your department who can be spared on Saturday, June 18, 1927. Your department is to be kept open for the transaction of such business as is necessary and to that extent you will keep enough of your organization on hand to attend properly to such business.

Very truly yours,

MALCOLM E. NICHOLS, Mayor.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announces examinations for desirable positions open in the Boston and Metropolitan districts as follows:

CLERICAL SERVICE, STATE AND CITIES, JUNE 25, 1927.

This is an examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. The examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application, and must have attended high school for at least two years.

All applicants will be marked on each

subject of the examination; and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic, multiplication, division and decimals, 1; arithmetic problems, 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total 15.

Applicants will be required to obtain a mark of at least 64 per cent in spelling, and at least 65 per cent in general average in order to become eligible. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

The usual entrance salary for clerks for state service is \$840.

Sample questions for clerks available.

QUARTERMASTER, BOSTON PUBLIC WORKS DEPARTMENT, JUNE 28, 1927.

Salary, from \$6 to \$6.50 per day.

The duties of the position are to assist the captain, keep the pilot house clean, keep a watch out for approaching craft, assist the captain in traffic courts, and in any other way in which called upon. Also to see that the boat is properly unhooked and the gates and chains in place when the boat is about to leave the ferry slip. Applicants should have a complete knowledge of the rules of the United States Steamboat Inspection Service. They should have a license as pilot for vessels of 900 tons and also a lifeboat man's certificate.

Subjects and weights: Training and experience, 3; practical questions, 2; total, 5.

Applicants will be required to obtain at least 50 per cent in practical questions, and at least 65 per cent in training and experience and in general average in order to become eligible.

Physical fitness to be determined by physical examination.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Alpheus road, bounded:

Northeasterly by Beech street, fourteen and 94-100 feet; easterly by another part of Alpheus road, one hundred forty-one and 52-100 feet; southeasterly by the same, four hundred forty-one and 66-100 feet; southerly by the same, three hundred seventy-four and 33-100 feet; westerly by the same, ten feet; northerly by the same, three hundred and seventy-one feet; northwesterly by the same, four hundred thirty-six and 7-100 feet; and westerly by the same, one hundred fifty and 36-100 feet; containing ninety-five hundred and seventy-five square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Weeks street, bounded:

Northerly by Mansfield street, ten and 26-100 feet; easterly by another part of Weeks street, three hundred seventy-seven and 79-100 feet; southerly by the same, ten feet; and westerly by the same, three hundred seventy-five and 48-100 feet; containing thirty-seven hundred and sixty-seven square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Jeffers street, bounded:

Northerly by Bates street, ten feet; easterly by another part of Jeffers street, five hundred and twenty-five feet; southerly by the same, ten feet; westerly by the same, three hundred and thirty feet; again southerly by the same, fifteen feet; again westerly by Mansfield street, ten feet; again northerly by another part of Jeffers street, fifteen feet; and again westerly by the same, one hundred and eighty-five feet, containing fifty-four hundred square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Mansfield street, bounded:

Easterly by Jeffers street, ten feet; southerly by another part of Mansfield street, by two measurements, one hundred thirty-four and 50-100 feet and fifty-one and 48-100 feet; again easterly by the same, ten and 11-100 feet; again southerly by Weeks street, ten and 26-100 feet; westerly by another part of Mansfield street, ten and 43-100 feet; again southerly by the same, by two measurements, forty and 23-100 feet and one hundred five and 40-100 feet; southwest-

erly by the same, ten feet; northerly by the same, by three measurements, one hundred seven and 39-100 feet; one hundred four and 89-100 feet and one hundred fifty and 49-100 feet, containing thirty-five hundred and fifty square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Bates street, bounded:

Easterly by Beech street, ten feet; southerly by another part of Bates street, by two measurements, twenty-five and 51-100 feet and sixty-six and 3-100 feet; again easterly by the same, fifteen feet; again southerly by Jeffers street, ten feet; westerly by another part of Bates street, fifteen feet; again southerly by the same, sixty-five feet, again westerly by the same, ten feet; and northerly by the same, by two measurements, one hundred thirty-eight and 51-100 feet and twenty-two and 99-100 feet, containing seventeen hundred and ninety square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Beech street, bounded:

Westerly by Bates street, ten feet; northerly by another part of Beech street, fifteen feet; easterly by easement taken for sewerage purposes in Beech street January 7, 1927, ten feet; and southerly by another part of Beech street, fifteen feet, containing one hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows:

In Bates street, 195 linear feet of 10-inch pipe sanitary sewer; in Jeffers street, 540 linear feet of 10-inch pipe sanitary sewer; in Mansfield street, 362 linear feet of 10-inch pipe sanitary sewer; in Weeks street, 388 linear feet of 10-inch pipe sanitary sewer; in Alpheus road, 980 linear feet of 10-inch pipe sanitary sewer.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Alpheus road, from Mansfield street to Beech street, excluding the lot at the northwesterly corner of Beech street and Alpheus road; the lots of abutting land on both sides of Jeffers street, from Alpheus road to Bates street; the lots of abutting land on both sides of Weeks street, leading southerly from Mansfield street for a distance of approximately four hundred feet; the lots of abutting land on both sides of Mansfield street, between Jeffers street and a point approximately one hundred and forty feet west of Weeks street; and the lots of abutting land on both sides of Bates street, between Beech street and a point approximately one hundred and seventy feet westerly, excluding the lot at the southwest corner of Beech and Bates streets, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 755, Sewerage Works, Alpheus Road, Weeks Street, Mansfield Street, Jeffers Street, Bates Street, West Roxbury, April 2, 1927, Wil-

liam J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

SCHOOLHOUSE CONSTRUCTION.

The following was received:

City of Boston,

Office of the Mayor, June 7, 1927.

To the City Council.

Gentlemen,—I transmit herewith communication from the Schoolhouse Department in reply to your order of May 9, 1927, in relation to engineering requirements and the Building Laws requirements of the City of Boston for construction of the Continuation School and the new schools in Roxbury and Hyde Park.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,

Schoolhouse Department, May 26, 1927.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Answering the order of the City Council, dated May 9, 1927, referred to this department by your Honor, the Board of Schoolhouse Commissioners reports that the new schools referred to therein will meet safe and proper engineering requirements and the requirements of the Building Laws of the City of Boston for schoolhouse construction.

Very truly yours,
F. E. SLATTERY, Chairman.

SEMI-WEEKLY REFUSE COLLECTIONS.

The following was received:

City of Boston,

Office of the Mayor, June 14, 1927.

To the City Council.

Gentlemen,—I transmit herewith communication from Public Works Department in reply to your order of May 23 in relation to the possibility of making semi-weekly collections of ashes and garbage throughout the city.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,

Public Works Department, June 7, 1927.

To the Honorable the Mayor.

I return order of the City Council, dated May 23, "That the Commissioner of Public Works be requested, through his Honor the Mayor, to advise the City Council if it is possible to make semi-weekly collections of ashes and garbage throughout the city."

At the present time in East Boston, Brighton, Dorchester, West Roxbury and Hyde Park the contracts call for the collection of ashes once per week throughout the year and for the collection of garbage twice a week during June, July and August and once a week during the balance of the year. In addition, it is necessary for the contractors to remove garbage from hotels, restaurants and fish stores daily from May 1 to November 1 and three times a week the rest of the year. The cost of this contract work will be approximately \$411,000 this year, and to comply with the order of the City Council would mean an increase in cost of approximately \$200,000.

In the South Boston, Charlestown, Roxbury, South End, Back Bay and North and West End districts, the collections are made by the city forces. Ashes are collected once a week and garbage once a week, with the exception that collections from fish stores, hotels and restaurants are made either daily or three times a week, depending on the amount of garbage produced. The present cost of collection by the city forces is about \$1,000,000 a year, and to give collections as called for by the order of the Council would increase the cost in the city district \$100,000, making a total of \$600,000 for the entire city.

The complaints received in the department relative to garbage and ashes show a decided drop. On May 27 eight were received and on May 31 nine—these being throughout the city—and they show that at present the public is pretty well satisfied as to the number of collections.

Replying further to this order, it is necessary to state that under the present budget provisions it is not possible to increase the number of collections this year. An extended survey will be made during the next few months to determine just what in-

crease in personnel and equipment will be necessary to give semi-weekly collections throughout the city and have it ready to submit for the next budget in November.

Yours respectfully,

J. H. SULLIVAN,

Commissioner of Public Works.

ACCEPTANCE OF HOLLINGSWORTH STREET.

The following was received:

City of Boston,

Office of the Mayor, June 14, 1927.

To the City Council.
Gentlemen,—I transmit herewith communication from Street Laying-Out Department in reply to your order of May 23 in relation to the acceptance and laying out of Hollingsworth street as a public highway.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

June 10, 1927.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to the order of Councilor Wragg for the acceptance and laying out of that portion of Hollingsworth street between Randolph road and Caton street, the Board begs leave to report that it is having a plan made for that purpose at the present time.

Respectfully,
For the Board of Street Commissioners,
THOMAS J. HURLEY, Chairman.

CRITICISM OF STREET REPAIR LOAN.

The following was received:

June 8, 1927.

To the Honorable the City Council.

Gentlemen,—There is now pending before your honorable body a communication and loan order submitted by the Mayor for borrowing \$500,000 for the repair of streets of the city.

It is unsound financing to borrow money to meet current expenses. The principle of paying current expenses from money raised by taxation has, with few exceptions, been adhered to since the charter amendments were adopted until this principle apparently was abandoned by the present administration. Last year the present administration resorted to this improper method of financing, when it procured a loan to buy trucks and snow removal machinery—property which would soon wear out. That such financing is improper was recognized by the Mayor at the time of the loan for trucks, for he said in his message, "I appreciate that in advocating such a step I am departing, in a sense, from an established financial policy of the city, namely, to finance the purchase of equipment out of current revenue." The impropriety of such financing was also recognized by Mayor Curley in 1925 when, in breaking the good record of the city in the same way, he said, "It is with great reluctance and a realization that the municipality is departing from a sound policy, that I recommend the borrowing of \$500,000 for permanent street paving."

To borrow money for this current expense is contrary to the spirit of the tax limit law passed this year. After hearing arguments on the subject of the tax limit, the Legislature fixed the sum of \$13 on a thousand as the amount which the city might expend for its current expenses, obviously intending thereby that the Mayor should reduce the estimates of his budget to conform to the limit provided. In borrowing for the purpose of repairing streets the administration is overriding the act of the Legislature and declaring that whatever tax limit is established it will nevertheless spend whatever amount it desires, even if the money is obtained by improper means.

Last year with the appropriation provided and balances carried over, the Public Works Department had approximately \$1,085,898 for street repairs, but it was able to spend only \$666,118.85. Subject to certain transfers it carried over for use this year the sum of \$369,779.81. Thus with the \$250,000 provided in the present budget for this purpose, without any loan the department has available for this year's work the sum of approximately \$619,779, which is within \$46,339 of the amount it was able to spend last year. If the pending loan order is passed, the department will have a total spending power of approximately \$1,119,000 for this purpose. There is nothing in its record to show that it has the capacity to carry on work to the extent of the total proposed amount.

All the funds which the Public Works Department can spend for street pavement in the current year can be provided without resort to a loan. If, in addition to the approximate sum of \$619,000 already available, any part of the sum of \$500,000 included in the proposed loan order is needed, there is no question that the Mayor can find it within his present budget. Your own Committee on Appropriations was able to recommend a saving of over \$200,000 by cutting out items, in most cases with the consent or against only a feeble protest of the head of the department involved. In fact last year the departments were unable to expend the amounts provided for them in the budget and carried over unexpended balances of \$1,090,366.13. In the previous year likewise unexpended balances of \$502,545.24 were carried over. In case it should eventually appear that the money is needed, the Mayor should be required to provide it from his present budget by transfer.

The Mayor, in his veto of the School Committee's budget, stated, "I am sure that a careful consideration of the discussion that has been going on for a long time of the relief of taxation and a careful consideration of every item of expenditure will emphasize to you the importance of a thorough examination of your budget for the purpose of taking from it such sums as may appear to be unnecessary." He should be called upon to follow his own good advice.

There is, moreover, an enormous sum not taken into consideration in the budget which can be made available for this purpose. Since the beginning of the present fiscal year over \$4,750,000 of money from taxes assessed in previous years, but not paid until after January 1 of the current year, has come into the city treasury. The greater part of this money has been expended for current expenses by the City Auditor, without any authority from the City Council. If, from money borrowed in anticipation of the coming in of current taxes or from the taxes themselves when they

come in in October, the City Auditor were required to restore to the treasury only a small part of this cash surplus from prior years, the whole amount suggested in the pending loan order could easily be taken care of by a special appropriation. In an opinion rendered to the Finance Commission in January, 1922, Arthur D. Hill, Esq., then Corporation Counsel, held that such an appropriation would be legal.

Under chapter 206 of the Acts of 1891, the pending loan order will be illegal unless, under the terms of the act, the Mayor is ready to certify that the amount intended to be borrowed is not to meet a current expense, or that public necessity requires the borrowing of the same. Of course neither of these statements would be true.

The Finance Commission recommends:

1. That the pending loan order be defeated.
2. That the Mayor be required to find the money, if needed, by transfers from unnecessary items in his budget.
3. That, if the Mayor refuses to find the money, if needed, by means of transfers, the Council refuse to act until the Mayor sends in an order for a special appropriation from the surplus derived from back taxes.

Respectfully submitted,
THE FINANCE COMMISSION,
By CHARLES L. CARR, Chairman.

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to submit to the City Council a list of prices to be charged for refreshments at the Head House, South Boston.
Passed under suspension of the rule.

NOTICE OF PUBLIC UTILITY HEARING.

Coun. BUSH offered the following:
Whereas, It has been the custom of the Department of Public Utilities of the Commonwealth of Massachusetts to hold public hearings on matters affecting the residents of the City of Boston by publication of one notice in a daily newspaper, and
Whereas, The rights of residents of Boston affected by the decisions of the Public Utilities Department have been prejudiced as a result of the failure to have knowledge or notice of such public hearings; therefore be it

Ordered, That the Department of Public Utilities be requested, through his Honor the Mayor, that as a matter of courtesy a notice in writing be given to the City Council of all hearings to be held before the Board in order that the city councilors, whose districts may be affected by such decisions, as may be rendered may have due notice and knowledge thereof to enable them to protect the rights of the residents of their respective districts.

Coun. BUSH—Mr. President, for the information of the members of the Council, and making an explanation which I think is due to them, I want to say this order refers to chapter 488 of the Acts of 1924, in section 22, which states that:

"A building or premises used or to be used by a Public Service Corporation may be exempted from the operation of this act if, upon a petition of the corporation, the Department of Public Utilities shall, after a public hearing, decide that the present or proposed situation of the building or premises in question is reasonably necessary for the convenience or welfare of the public."

Chapter 488 is the Zoning Act of the City of Boston, and this section refers to sections of the city which have been zoned off as local residential districts. It, in effect, states that if a public utility desires to put up a commercial or industrial building in such a zoned area, it can obtain an exception from the zoning laws by applying to the Department of Public Utilities upon petition, and the Department of Public Utilities, if it decides that such action is reasonably necessary for the convenience or welfare of the public, after such hearing can declare the premises upon which it is proposed to erect such a building exempt from the operations of the Zoning Act. It seems that the custom of the Department of Public Utilities is to give notice of the public hearing thus held merely by publication in a daily newspaper for one day. It has been my experience recently that such notice is not sufficient; and when the Edison Electric Illuminat-

ing Company of Boston petitioned the Department of Public Utilities for such an exception under this act, in order to establish a power substation in the purely residential section of my district, there was merely publication of notice of the hearing in the Boston *Daily Globe* for one day, and no notice was given to the abutters, and no knowledge was had by any of the parties in interest. The result was that the only people who appeared at the hearing were the proponents, those representing the Public Utility Corporation, the Edison Electric Illuminating Company, as it happened to be in that case, and, although no evidence was introduced at the hearing showing that what was proposed was reasonably necessary, the Department of Public Utilities granted the exemption from the Zoning Law. Subsequently a representative from the district, Abraham B. Casson, and myself, took the matter before a single justice of the Supreme Court, asking for a restraining order until a writ of *certiorari* could be obtained. The restraining order was refused, and the case was reported to the full bench for action. That is an expensive proceeding and entails a great expenditure of time, with a very slim possibility of success, because where the matter is left by the statute within the discretion of the Department of Public Utilities to decide whether it is reasonably necessary for the Public Utilities to have that site, the Supreme Court is not apt to go any farther. Therefore, it seems imperative that notice should be at least given to someone who will take up the cudgels for the citizens of the district where the site is proposed to be taken; and, of course, no action could be taken by anybody without knowledge or notice of what was proposed to be done. This order merely requests the Department of Public Utilities, through his Honor the Mayor, to give the City Council notice of any public hearing before the department and upon such a matter, so that if members of the City Council, acting for their constituents, are interested in any such action which may be proposed in connection with any industrial plant, they may take such action as may seem desirable in respect to appearance at the hearing.

The order was passed under suspension of the rule.

SIDEWALK ON DEWOLF STREET.

Coun. McGRATH offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along DeWolf street, Hancock street to Downer avenue, both sides, Ward 13, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

BENCHES IN RICHARDSON PARK.

Coun. LYNCH offered the following:
Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to install benches in Richardson Park, Dorchester.

Passed under suspension of the rule.

MUNICIPAL GOLF LINKS ON LONG ISLAND.

Coun. GILBODY offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to consider the advisability of establishing a municipal golf links on Long Island.

Coun. GILBODY—Mr. President, we find the Boston *Globe* interested in the matter of the City of Boston maintaining golf links for the benefit of the people, as is done in other municipalities in the country, and it has been brought to my attention that there are on Long Island about sixty-seven acres of land, about fifteen of which, I believe, are occupied by the almshouse and hospital. There are, I believe, about fifty-four acres available for a golf course. I understand that forty-four acres is about the area of the present course now maintained in Franklin Park. It occurred to me that it might be a desirable proposition to establish such a course down on the island, which would be so easily accessible by boat, the golf players being taken down and up the harbor, and, as we now have the land, the course could be established at a minimum cost. The land is there, and the necessary hazards and other elements of terrain essential to a good golf course. I understand, further, that the municipality of Boston has had a revenue of about \$12,000 annually from the golf course on Franklin Park. If a citizen now wants to play the game he has to join some of the private clubs, at a cost quite excessive for the ordinary middle-aged man. Therefore, I think it is entirely feasible that we might establish a municipal golf course on Long Island, and I ask for a suspension of the rule and passage of the order.

Coun. WARD—Mr. President, some time ago I put in an order relative to a municipal golf

course, but at the time the Council hopelessly rejected the proposal. I believe in municipal golf courses, as does Coun. Gildbody, but I would rather have the matter referred to the Executive Committee, because I am not in harmony with the idea of placing the golf course on Long Island. Therefore, I will ask that the order be referred to the Executive Committee.

Coun. GILBODY—That is perfectly agreeable to me, Mr. President.

The order was referred to the Executive Committee.

APPRAISAL OF PROPOSED FIRE STATION SITE.

Coun. PARKMAN offered the following:

Ordered, That his Honor the Mayor be requested to appropriate sufficient money to provide for an appraisal by three independent experts to be appointed by the Council of the property at the corner of Bulfinch and Cambridge streets, which it is proposed that the city purchase under the pending loan order for a new Central Fire Station.

Coun. PARKMAN—Mr. President, it may be granted that the integrity of the individuals concerned on behalf of the city and on their own behalf in this proposed purchase of property is of the highest, and their motives may be above reproach. Still, the question will remain, whether it is not obviously improper for any individual to be asked to appraise the property which he proposes to sell to the city, and that the city proposes to purchase with public funds. The public has an interest in any transaction which involves the expenditure of the city's money, and the public is entitled to be protected and to have the city's business conducted in a manner which is not subject to any suspicions whatsoever. Not only is the public entitled to protection, but the reputation of the men involved is also entitled to protection. While the individuals themselves may have their own ideas as to how they should deal with the subject in their private capacities, at the same time the Council has a duty to perform, and I can see no reason why any objection whatsoever should be made to having an appraisal arrived at independently by impartial and unbiased individuals, with no interest whatsoever in the property which the city proposes to buy. I believe, therefore, that this order should be passed and that money should be appropriated to provide for an independent appraisal by experts to be appointed by the Council.

Coun. GUILD—Mr. President, I am in accord in theory with the order that the councilor has introduced. It occurs to me, however, that the order might well be revised so as to specify some special sum which is to be paid to experts to make this appraisal. I am not sufficiently familiar with the real estate business to know what is a fair figure to pay men for making an appraisal of this sort; but it seems possible that if three disinterested people are appointed by some means or other and a very large sum were appropriated by the Mayor for the purpose of paying them for making their appraisal, the appraisal might cease to be disinterested, having in view the stipend which they were receiving. As I heard the order read, it occurred to me that no provision was contained in it for the selection of the three disinterested appraisers, and I believe there should be some such provision, if it is to be carried out by this body. I may be in error on that last point, in view of these facts, I would move reference of the matter to the Executive Committee.

The order was referred to the Executive Committee.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor June 6, 1927, of Benjamin H. Cohen and Robert Levine to be Weighers of Coal; Rose Krinsky and Edward Conlon, to be Weighers of Goods; Harry B. Wood and Arthur J. Duffy, to be Measurers of Grain and Weighers of Goods.

The question came on confirmation. Committee, Coun. Dowling and Donovan. Whole number of ballots, 18, yeas 18, and the appointments were confirmed.

LOAN FOR PERMANENT STREET PAVEMENT.

President HEFFERNAN called up, under unfinished business, No. 8 on the calendar, viz.:

8. Ordered, That the sum of \$500,000 be and hereby is appropriated to be expended by the Commissioner of Public Works for Permanent Street Pavement, and that to meet said appropriation, the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On May 31, 1927, the foregoing order was read once and passed, yeas 21, nays 0.

The question came on the second and final reading and passage of the order.

Coun. GUILD—Mr. President, since this order passed its first reading, I and other members of

the City Council have been in receipt of a lengthy communication from the Finance Commission. This communication has already been referred to in a public message from his Honor the Mayor. In referring to the communication I shall endeavor to refrain from the use of adjectives and adverbs with which it might be characterized. I think it is sufficient at the outset to say that the communication from the Finance Commission begs the question which is before the City Council. They assume, at the outset of their letter and throughout, that the repaving of streets with permanent paving is a current expense. The whole gist of the argument contained in their communication is based upon that theory, that it is a current expense. Unless it is a current expense to entirely remove paving from certain streets and to replace it with paving of a permanent character, to endure for a period of fifteen to twenty years, their remarks are without point, and the burden of the entire communication, that it is unsound financing to borrow money to meet current expenses, has no bearing whatever on the issue that is before us. It has occurred to me that this question of the proper method of financing the project which it is proposed to carry out may well be compared to the situation in which a man might find himself if he inherited from his grandfather a fairly old house, in which he found carpets with a few holes worn in them, a few treads in the front steps needing replacing, and, with numerous other such deficiencies in the house because of which it became desirable to make repairs. He might make up his mind to make those repairs in several ways. There are at least three elements which would enter into his reckoning in arriving at a conclusion or judgment. Patching the dining-room carpet, or putting a new board or two in the treads of the wooden front steps are things which most people would say should be paid for out of the weekly pay envelope. They are current expenses. If, on the other hand, all of the carpets were to be taken up and oak floors put in, and if the wooden front steps are to be entirely torn away and granolithic or stone steps put in their place, it would then seem clear that it would be justifiable for him to place a mortgage on the old house in order to make such expensive repairs, which would be in the nature of permanent improvements and would be a proper charge to capital. The Finance Commission criticizes the position of the administration in this matter, as in the past it criticized the policy of the administration in connection with the purchase of snow removal machinery, under the order which went through last year. To use their own expression at that time, we were mortgaging the house to buy a snow shovel. Whether or not he was mortgaging the house to buy a snow shovel last year has nothing to do with the situation with which we are now confronted. It was at least debatable whether the purchase of the snow shovel was a current expense or not, but in my opinion the question of whether the improvements sought under this order are orders of current expense or not is scarcely a debatable one. The loan order which the administration has introduced does not contemplate a mere patching here and there of holes that have developed in the paving we now have. We have been told distinctly that what it is proposed to do is to entirely tear up the paving on certain streets and replace it with paving of a permanent character. This would seem very naturally to be a capital charge upon the city, looking at it purely from what you might call the philosophical point of view. It is not a mere current expense, as the Finance Commission insists all through their communication to us. What the present Mayor has to say regarding a similar matter of financing here to buy snow removal machinery last year has no bearing on the situation, because it is conceivable that the purchase of such machinery is, arguably at least, a current expense. But unless someone is willing to say—and I doubt if they are—that to rip up a paving and replace it with one to last fifteen or twenty years is a mere current expense instead of a capital charge, there can be no comparison between the two cases, and the Finance Commission's letter is without point. Whatever doubts the previous Mayor may have expressed on financing permanent street paving by a loan may well have been expressed because of his customary hostility to a Legislature which had already said that such a matter was sound finance, rather than because of a sincere feeling that such was the case. I refer to the fact that the Legislature has said that this type of replacing existing paving with permanent paving is not a current expense, and that it is in their opinion justifiable to treat it as a capital charge and one for which a loan order is proper. With reference to the argument that the Legislature has this year fixed the limit of \$13 on a thousand as the amount which the city may expend for current expenses—as laid down in the communication from the Finance Commission—the same answer applies. These are not current expenses, and to assume that they are places the whole question before us. The Finance Commission asserts that last year the Public Works Department was able to spend only \$666,118.85 for street repairs. While it may be true that such a sum was all it did spend, it is far from following that it is all it could spend, and it is no basis whatever for an inference that it is all the department can or will spend this year. The work of ripping out the old pavement will be done by contract, the administration tells us, and no one will contend that it takes any more time or labor on the part of the city officials whose duty it is to sign contracts to affix their signatures to a contract for a million dollars than to a contract

for a small sum like \$2,000. That is the work to be done by the city officers and it is too much to expect us to believe the Finance Commission when it says, inferentially at least, that all that can be spent is the same amount that was spent last year. It does not follow at all that because a certain amount was spent last year that is all that could have been spent, and it is very far from following that that is all that they can or will spend this year. There is a suggestion also in the communication from the Finance Commission that the Mayor should be called upon to follow his own good advice to the School Committee. This seems particularly pointless in view of the fact that that advice was given in connection with a purchase covering current expenses, and we are now dealing with something different. So, again, the Finance Commission is begging the whole question. While it might be strictly legal to pay for the permanent paving out of money that is collected this year which should have been paid to the city in previous years,—that is, out of taxes that ought to have been paid to the city in years gone by—it is very far from following that it would be found financial policy to do so, in view of the fact that the proposed expenditure is not a current expense, and that there are plenty of current expenses from which the money in question can be used. That being the case, it would seem to be sound finance to meet with a loan order those things that are properly to be met by a loan order. As far as the legality of the present loan order is concerned, it is hard to imagine anyone who would not be willing to certify both that it was not for a current expense—since the Legislature has said it is properly a capital charge—and that public necessity requires the borrowing, having seen the condition of the paving it is proposed to replace. Having disposed of the contention that the \$500,000 which it is proposed to raise by this loan order is to be spent for current expenses, it seems to me entirely proper to entirely disregard the communication from the Finance Commission, although I do not believe it should be disregarded without at least referring to the weaknesses in the communication they have sent to us, because I believe the Finance Commission has not yet fallen into a position where the public at large entirely disregards what it issues in the way of statements to the public.

The order was given its second and final reading and passage, yeas 19, nays 0.

Yeas—Coun. Bush, Donovan, Dowd, Dowling, Engert, Fitzgerald, Freely, Gildbody, Green, Guild, Heffernan, Lynch, Mahoney, McGrath, McMahon, Parkman, Ward, Wilson, Wragg.

ALFRED SOLOMON SQUARE.

Coun. BUSH offered the following:

Ordered, That the space at the junction of Elm Hill avenue, Waumbeck and Warren streets, Roxbury, be named Alfred Solomon square, in memory of said Solomon, who died as a result of injuries received while in the service of the United States in the World War, and that suitable signs be erected to designate the same.

Passed under suspension of the rule.

LINDBERGH AVIATION FIELD.

Coun. DONOVAN offered the following:

Ordered, That the Department of Public Works of the Commonwealth be requested, through his Honor the Mayor, to name the aviation field at East Boston Lindbergh Field.

Coun. DONOVAN—Mr. President, my reason for offering this order at this time is that I believe this Commonwealth and this great city of ours should pay homage to this young man, who has been so signally honored by the entire world. It is that thought that prompts my filing the order at this time.

The order was passed under suspension of the rule.

BOULEVARD LIGHTS FOR DORCHESTER.

Coun. McMAHON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the installation of three arc lights on Bellevue street, Dorchester, between Columbia road and Quincy street.

Passed under suspension of the rule.

CHILDREN ON COMMON AND PUBLIC GARDEN.

Coun. GUILD offered the following:

Be it ordained by the City Council of Boston as follows:

Chapter 39 of the Revised Ordinances of 1925 is hereby amended by adding after section 82 thereof the following:

Section 82A. No person under the age of sixteen years shall be permitted in or upon the Common or Public Garden between the hours of 9 p. m. and 6 a. m. unless accompanied by his or her parent or guardian.

Referred to Committee on Ordinances.

WIDENING OAK SQUARE.

President HEFFERNAN offered the following: Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to widen Oak square, at the junction of Washington and Faneuil streets, Brighton, by taking by eminent domain the land which has been abandoned for railroad purposes by the Boston Elevated Railway Company at said location.

Passed under suspension of the rule.

SIDEWALK ON HOBSON STREET.

President HEFFERNAN offered the following: Ordered, That the Commissioner of Public Works make a sidewalk along west side of Hobson street, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON MANSFIELD STREET.

President HEFFERNAN offered the following: Ordered, That the Commissioner of Public Works make a sidewalk along Mansfield street, Alcott street to East street, both sides Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

RECESS.

On motion of Coun. PARKMAN, the Council voted at 2.48 p. m. to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3.38 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following:

1. Report on the petition of Maybelle P. Siske (referred today), for children to appear at Boston College Hall, on June 14, 1927—recommending that the permit be granted.

Report accepted, said permit granted on the usual conditions.

2. Report on order (transmitted by the Mayor and referred June 6) recommending acceptance of the bequest of the late Abraham Shuman to the Boston City Hospital—that the same ought to pass.

Report accepted, said order passed.

3. Report on order (referred today) requesting the Park Commission, through his Honor the Mayor, to consider the advisability of establishing a municipal golf links on Long Island—that the same ought to pass.

Report accepted, said order passed.

4. Report on order (referred today) requesting the Mayor to appropriate sufficient funds to provide for an appraisal by three independent experts, to be appointed by the Council, of the property at the corner of Bulfinch and Cambridge streets, which it is proposed that the city purchase under the pending loan order for a new Central Fire Station—that the same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. GUILD—Mr. President, I understood that that was amended in the committee, recommending that the amount paid be in accordance with the scale fixed by the Boston Real Estate Exchange.

President HEFFERNAN—The Chair would inform the gentleman that the Clerk stated that there was no necessity for so amending the order.

Report accepted, order passed.

5. Report on order (referred June 6) requesting Park Commissioners to provide additional attendants forthwith at the L Street Bath Houses—that the same ought to pass.

Report accepted, said order passed.

SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of June, 1927.

Report accepted, said order passed.

\$500 FOR SOLDIERS' RELIEF.

Coun. ENGLERT offered the following:

Ordered, That there be allowed and paid to the Soldiers' Relief Commissioner, and charged to the appropriation for Soldiers' Relief Department, the

sum of \$500, said sum to be expended subject to the approval of the Committee on Soldiers' Relief by said commissioner in affording immediate relief to persons entitled to aid under chapter 115 of the General Laws, and acts in amendment thereof and addition thereto.

Passed under suspension of the rule.

REJECTION OF CONSTABLES.

Coun. GILBODY—Mr. President, for the Executive Committee I would call up, under unfinished business, No. 6 on the calendar, with the exception of the names of Morris Berkman and Barney DeLuca.

No. 6 on the calendar, under unfinished business, as called up by Coun. GILBODY, and with the two names referred to above by him omitted, is as follows:

6. Action on appointments submitted by the Mayor April 11, 1927, of the following-named persons to be Constables: Carleton N. Baker, Jacob Berman, Thomas A. Brannelly, Eugene F. Canney, Nathaniel M. Clark, Saverio DiDonato, John E. Downing, William L. Frost, Remy Goduti, Hugh F. Kiernan, William H. Kivlan, William J. Lally, John F. Laundry, Calvin E. A. Mackenzie, Edward J. McTiernan, Edward F. Murphy, William F. O'Connell, John A. Packard, Frank J. Penney, Howard W. Pinn, George M. Potter, James P. Rosenfield, Herbert D. Sawyer, Benjamin Schnetzer, Arthur W. Wade.

Coun. GILBODY—Mr. President, the committee reports ought not to be confirmed on those names. But the reason, I think I should say, in fairness to them, is nothing derogatory to them, except that they did not respond to the invitation to appear before the committee and be heard in connection with the investigation then pending. Therefore, the Executive Committee reports on these men that they be not confirmed. Therefore, I now call up No. 6 on the calendar, with the exception of the two names I have mentioned.

President HEFFERNAN—The Chair would ask Coun. Gilbody if the report of the committee is that all except those two names he has referred to be not confirmed?

Coun. GILBODY—Yes.

No. 6 was taken up, with the exception of the two names referred to. The question came on confirmation of the appointments. Committee, Coun. Gilbody and Freeley. Whole number of ballots, 19; necessary for confirmation, 10; yeas 2; nays 17, and the appointments were rejected.

CONFIRMATION OF CONSTABLES.

Coun. GILBODY—Mr. President, further reporting for the Executive Committee, I would like to call up the name of Allen Libby, under No. 3 on the calendar, and ask that that name be confirmed at this time. I am assured that the party concerned is a voter and a resident of Boston and is not going to work for an installment house or collecting agency.

Coun. BUSH—Mr. President, I wanted to call up the name of Allen Libby last week. Mr. Libby arrived here too late for the hearing, because his car broke down, as I mentioned in the Executive Committee. He has never been a constable before. I have asked him the same questions that the committee asks these men as a general rule, and he has answered them satisfactorily. I am going to vouch for him.

The question came on confirmation of the name of Allen Libby as constable. Committee, Coun. Dowling and Donovan. Whole number of ballots, 17; yeas, 17, and the appointment was confirmed.

ELEVATED JITNEYS IN EAST BOSTON.

Coun. GILBODY—Mr. Chairman, reporting for Coun. Ward, chairman of the Committee on Jitney Licenses, I will submit the following report:

Coun. GILBODY, for the Committee on Jitney Licenses, submitted a report on the petition of the Boston Elevated Railway Company (referred June 6) to run jitneys between Prescott square and the junction of Lexington and Meridian streets—recommending that license be granted.

Coun. McGRATH—Mr. President, I would like to hear from the councilor from East Boston upon that matter.

Coun. DONOVAN—Mr. President, perhaps no member of this body has had as many squabbles with the Boston Elevated Railroad as I have had; but I want to say that this is a petition requesting temporary use of buses for the hill residents of East Boston until the street cars can be returned, due to the fact that the street will be under construction and not completed until September 15. This is only a temporary permit to the Elevated to give bus service to the residents of that hill until September 15.

Report accepted, permit granted under usual conditions.

SALE OF UNCLAIMED BAGGAGE.

Coun. ENGLERT, for the Committee on Unclaimed Baggage, submitted a report on the petition of the Boston & Maine Railroad (referred June 6,

1927) to sell unclaimed baggage at public auction—recommending the passage of the following:

Ordered, That the Boston & Maine Railroad be hereby authorized to sell at public auction on or before August 15, 1927, and after publication of the time and place of sale, according to law, the articles left remaining unclaimed in the possession of said railroad in the City of Boston.

Report accepted, order passed.

ARC LIGHTS ON BELLEVUE STREET, DORCHESTER.

Coun. McMAHON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the installation of three arc lights on Bellevue street, Dorchester, between Columbia road and Quincy street.

Passed under suspension of the rule.

PLAYGROUND FOR BRIGHTON DISTRICT.

Coun. DOWLING offered the following:

Ordered, That the Board of Park Commissioners be requested, through his Honor the Mayor, to submit an estimate as to the cost of the site for playground purposes in the vicinity of Union, Shannon and Winship streets, Brighton district.

Coun. DOWLING—Mr. President, as that order is the result of a promise which I made to sixty boys of the primary school age in the Brighton district, in a community which borders on the district which you and I represent at the present time, Mr. President, and as there is accompanying the order a petition signed by the boys, drawn up in the language of the average American youth, I respectfully request that the petition, with the names appended, be included in the records of the meeting.

The petition, with the appended names, is as follows:

To His Honor the Mayor and the City Council.

We, the undersigned, representing the small boys living near Union street, Brighton, and having no playground within a half mile of our home, respectfully request that the land now vacant on the south side of Union street, between Shannon and Winship streets, be reserved for playground purposes.

The reasons for which we ask for a playground are as follows:

1. Most of the boys in this neighborhood have to stay home all summer.

2. The nearest public playground is more than a half mile away, and we cannot reach it except by going through streets that are filled with automobiles and street cars.

3. The only place we have to play is in the narrow streets where we live and a lot of automobiles pass through those streets which makes it unsafe for us.

4. A good many of our fathers work nights and sleep in the day time, and for this reason, many of us cannot play in our own yards because we do not want to wake our fathers up.

5. We would like to have a playground with a small ball field, see-saws, swings, bean-bags, ring toss, basket ball, sliding chutes, gymnastic apparatus and a shelter where we can play on rainy days.

PROPERTY SURVEY, MEDFORD STREET.

Coun. GREEN offered the following:
 Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to make a survey of property on Medford street, Charlestown, from Fay square to Chelsea street, for the purpose of determining how near the present assessments are to the present market value.
 Passed under suspension of the rule.

MOTORCYCLE OFFICER FOR MEDFORD STREET.

Coun. GREEN offered the following:
 Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to assign a motorcycle officer for duty on Medford street, Charlestown.
 Passed under suspension of the rule.

FIRE HAZARD INSPECTION, MEDFORD STREET.

Coun. GREEN offered the following:
 Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to instruct the Fire Prevention squad to make an extensive inspection of buildings on Medford street, Charlestown, from Chelsea street to Fay square, for the purpose of reducing the fire hazard and that he also be requested to report to the City Council relative to the same.

WEST ROXBURY LAND-TAKING.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed there-

from within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, supposed to belong to Emdon B. Cornwall, bounded: Easterly by West Roxbury Parkway, twenty-three and 26-100 feet; southeasterly by land supposed to belong to Walsh, fifty-one and 98-100 feet; westerly by land supposed to belong to Cornwall, thirteen and 50-100 feet; and northwesterly by land hereinafter described as taken from owners unknown (Sidley road), fifty-eight and 86-100 feet; containing seven hundred and thirty-five square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Sidley road, bounded: Easterly by West Roxbury Parkway, two and 51-100 feet; southeasterly by land hereinbefore described as taken from Cornwall, fifty-eight and 86-100 feet; westerly by land supposed to belong to Cornwall, twelve and 51-100 feet; and northwesterly by another part of Sidley road, fifty-one and 69-100 feet, containing three hundred and one square feet, more or less.

The sewerage works to be constructed are as follows: One catch-basis and 50 linear feet of 10-inch pipe catch-basin drain.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

The following letter with flowers was sent on June 30 to Mrs. Albert Hegenberger and children at their home on Castle Island in South Boston.

MRS. ALBERT HEGENBERGER AND CHILDREN, Castle Island, South Boston, Mass.

Kindly accept my hearty congratulations and those of the citizens of Boston in the marvelous accomplishment of your devoted husband in spanning the Pacific Ocean with Lieutenant Maitland.

I have this day invited both your husband and Lieutenant Maitland to be the guests of the City of Boston and cordially invite yourself and children to provide opportunity for our people to demonstrate their appreciation of one of the most gallant feats in the history of the world.

MALCOLM E. NICHOLS, Mayor.

MAKES RECORD IN COLLECTION OF CITY'S TAXES.

George H. Johnson of the Collecting Department has made the following report to the Mayor:

BOSTON, June 27, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The accompanying comparative financial table as of June 1, 1927, reflects the activities of the Collecting Department during the past eight and one half months of the current year, and the achievements speak for themselves.

POLL TAXES.

The original poll tax warrant for 1926 amounted to \$489,118, and on June 1, 1927, the collections amounted to \$346,648 which is equal to 70.872 per cent of the poll tax warrant, and establishes a record which has been beaten but twice in the history of the department. The two instances occurring during the years 1920 and 1921, the first two years of the \$5 civilian war poll tax, \$3 of which was payable to the state regardless of collections. Considering the difficulties encountered in the collection of poll taxes, owing to the moving population of this great city with the resultant difficulty in locating the taxpayer, a collection of 70.872 per cent is a very satisfactory showing as compared with the previous years.

The credit poll tax collection is 71.618 per cent as compared with the mark of 66.278 per cent for the complete year of 1925. This is a record not previously achieved.

REAL ESTATE.

The real estate collections started in September, 1926, with an original real estate warrant of \$54,962,961 and on June 1, 1927, the collections amounted to \$53,044,551.93, leaving only 2.788 per cent, or \$1,918,409.07, of the current warrant to be collected, making a record collection of the current 1926 taxes of 96.51 per cent, and with abatements completing an aggregate collection of 97.212 per cent of the entire warrant. A record unequalled in total results.

The real estate warrant for 1925 was \$45,010,518.24, and the collections on June 1, 1926, amounted to \$44,024,783.43. The collections against the 1926 tax exceed those of 1925 by \$9,019,768.50, and the tax title sale has not yet taken place. The sale when held will clear the real estate account either by payment or city title.

PERSONAL TAXES.

A comparison of the personal taxes shows the personal tax warrant for 1926 to be \$5,445,384.30 and the collections to date amount to \$5,066,208.74, while the personal tax warrant for 1925 was \$4,772,467.47, and the collections to June 1, 1926, were \$4,427,871.97.

COLLECTION OF TAXES.

(Continued from page 729.)

The credit collections of personal taxes of 95.622 per cent, leaving uncollected 4.37 per cent, amounting to \$238,389.84. This record stands unequalled, being the highest percentage collections in the history of the city.

The personal tax collections this year exceed those of last year by \$638,336.77, or .258 per cent. The large increase in automobile taxes has added greatly to the personal tax income from these assessments.

In summarizing, we have for the past eight and one half months an unsurpassed record, and all the warrants, personal, poll, real estate and betterment assess-

ments are larger in amount by practically 20 per cent than ever before.

Our aggregate percentage collection, 97.7 per cent of the complete warrant, exceeds that of the city of Buffalo, with a record of 96.997 per cent for the full year; that of Baltimore, with a mark of 94.12 per cent for the year 1926; and of San Francisco, with a collection of 94 per cent.

With more practical business methods in the conduct of this political job and less political ways in the business of the collector's department without preference, has given these results.

Respectfully submitted,

GEORGE H. JOHNSON,
Collector.

In addition to the constant drive for the collection of the current taxes, the department has collected from January 1, 1927, to May 31, 1927, the following amounts of back taxes:

1925.....	\$159,350 46
1924.....	13,048 85
1923.....	7,931 82
1922.....	5,092 31

RIVER STREET CONSTRUCTION TO STAND.

Mayor Nichols cut the red tape on June 24 and ordered the immediate reconstruction of River street despite the pending dispute on the reconstruction of the bridge. This dispute may not be settled for many months, and perhaps a year, and the work might have been indefinitely suspended had not the Mayor directed that it be carried on at once without awaiting the settlement of bridge questions.

The Mayor signed the Street Commissioners' order for the reconstruction of River street and immediately held a conference with Commissioner Sullivan of the Public Works Department, and said that the public demand for this improvement was so great that no delay should be tolerated. The project has been under consideration for twenty-five years, together with the improvements of Ashland and Oakland streets.

The Mayor signed the Ashland and Oakland streets order a few days ago and his signature upon the River street order opens the way for construction. These streets are main arteries, serving a population of over one-half million people. They are at present in a deplorable condition, and actually force traffic into the more crowded downtown streets, and by making them serviceable traffic thoroughfares will have the effect of detouring from the downtown business section traffic going both north and south of the city.

WELCOMES TEXAS DELEGATION.

Acting Mayor John J. Heffernan, on Monday, June 27, greeted the Texas delegation composed of nearly fifty members who are touring the United States on a good-will mission. Owing to Governor Dan Moody being indisposed he was unable to be present.

Mr. Heffernan said:

"I am pleased to welcome you on behalf of the City of Boston, and to extend the greetings of the city. I feel sure that you will all be properly received in Boston, and that your mission will probably mean much to both Massachusetts and Texas.

"I hope that you have all enjoyed your visit to the city."

Dr. S. P. Brooks, President Baylor University of Waco, representing Governor Moody headed the delegation, responded in behalf of the Texan Governor and the delegation.

MAYOR CONGRATULATES ZARAKOV.

Mayor Nichols announced on June 23 that he had sent the following letter of congratulation to Isadore Zarakov, captain of the Harvard baseball team, commending him upon the successful season just passed:

DEAR CAPTAIN ZARAKOV,—Please accept this expression of my sincere congratulations upon the great success of the Harvard baseball team under your leadership during the past season, and permit me to commend most highly your entire career which was brought to such a successful climax by your home run in the ninth inning of yesterday's game. We are all proud of you.

With kindest regards, I am,

MALCOLM E. NICHOLS, Mayor.

Rubber Company, 1 per cent; Rome Wire Company, 1 per cent; Standard Underground Cable Company, $\frac{1}{2}$ of 1 per cent; Hazard Manufacturing Company, 1 per cent.

Approximate Amount of Contract.—Safety Cable Company, \$9,672.60; Pettingell-Andrews Company, \$12,171.74; American Steel and Wire Company, \$10,291.26; U. S. Rubber Company, \$11,372.77; Rome Wire Company, \$9,997.70; Standard Underground Cable Company, \$10,063.82; Hazard Manufacturing Company, \$9,986.94.

Upon June 23 the Mayor approved a contract with the Mitchell-Woodbury Company for furnishing serving room equipment to the Boston City Hospital.

A communication from Herbert S. Frost of the Supply Department read in part as follows:

The lowest bid received on all the items was that of Mitchell-Woodbury Company, which totaled \$2,268. The second lowest bidder was John C. and James F. Pitman, whose bid totaled \$2,271. John C. and James F. Pitman offered a discount of 2 per cent for payment in ten days and the Mitchell-Woodbury Company offered a discount of 1 per cent for payment in ten days. The difference in the cash discounts made John C. and James F. Pitman the lowest bidder by approximately \$19.74.

About seven of the items included in this contract, amounting to approximately \$1,400, are ones which are not carried in stock and will have to be made up special on receipt of our order. In view of this condition inspection was made by this department of the manufacturing plants of Mitchell-Woodbury Company and John C. and James F. Pitman, and as a result of this investigation, I feel that Mitchell-Woodbury Company is better equipped to turn out the class of work desired by the City Hospital and in quicker time than the lowest bidder.

The writer has been in consultation with Doctor Dowling of the Boston City Hospital, who concurs with him in recommending that the contract for this material be awarded to the second lowest bidder, Mitchell-Woodbury Company, at the prices indicated on the attached sheet.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PENAL INSTITUTIONS DEPARTMENT.

The Atlantic Works have been ordered to do the following work in addition to contract: Electric welding and carding seventy-one hull rivets, on stem rivet and three feet of plating cases, \$67. The same not being required by your contract with the City of Boston, dated June 13, 1927, and the amount of \$67 will be added thereto for making the account as

follows: Contract price, \$4,133; additions, \$377; deductions, \$45; net contract price, \$4,468.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$281, on contract with M. DeMatteo for sheet asphalt pavement in Greylock road, Walk Hill street and Hollingsworth street, on account of laying ground water drain, building dry well, and placing concrete around house drains. Original contract, \$47,686.80; total additions, \$2,006; contract as standing, \$49,692.80.

An addition, amounting to \$920, on contract with Henry F. Malley for laying sheet asphalt pavement in Glenburne street, Montcalm avenue, Regina road and Verdun street, on account of building about 85 linear feet of wall and fence on the northerly side of Montcalm avenue, from Dustin street westerly, in accordance with specifications and details shown on plan Ob-704. Original contract, \$33,859; total additions, \$1,090; contract as standing, \$34,949.

An addition, amounting to \$25, on contract with Charles Capone for Portland cement concrete pavement in Floyd and Norwell streets on account of cutting long straight edgestone to set on curves. Original contract, \$31,812.26; total addition, \$25; contract as standing, \$31,837.26.

EXTRA WORK UNDER CONTRACT.

B. E. Grant Company has been directed to perform the following extra work under contract for relaying granite block pavement in Harrison avenue, from East Lenox street to Warren street, dated November 29, 1926. Items ordered: Use Lumnite cement instead of Portland cement for grout joints where directed in the relaying of the granite blocks under Items 5e and 5f. Price to be paid: The sum of fifty cents (\$0.50) per square yard where Lumnite cement is used in addition to the price paid in the contract for Items 5e and 5f. Estimated cost of extra work, \$100.

A. G. Tomasello & Son, Inc., have been directed to perform the following extra work under contract for rebuilding West Newton Street Bridge, over New York, New Haven & Hartford Railroad, Boston, dated January 21, 1927. Items ordered: Remove extra thickness of bituminous surface to prepare site for paving on approaches; lay concrete base instead of broken stone base for said paving; construct concrete driveway with Lumnite cement. After work was started on adjusting approaches to new bridge, owing to unforeseen conditions due to various trenching operations and repairs at different times, it became necessary to do this extra work. Estimated cost of extra work, \$1,200.

C. & R. Construction Company has been directed to perform the following extra work under contract for laying 48-inch water pipes in Beacon street, Charles street, Park square, Columbus avenue, Arlington street, Tremont street, etc., dated October 21, 1926. Items ordered: Insert into westerly vertical 36-inch steel elbow a $\frac{1}{8}$ horizontal steel curve for the purpose of avoiding laying the 48-inch pipe in Boston Common, etc. Estimated cost of extra work, \$500.

Although this is in addition to the work contemplated in the original contract, it is incidental thereto.

Henry F. Malley has been directed to perform the following extra work under

contract for laying sheet asphalt pavement in Glenburne street, Montcalm avenue, Regina road and Verdun street, dated October 26, 1926. Items ordered: Build about 85 linear feet of wall and fence on the northerly side of Montcalm avenue, from Dustin street westerly, in accordance with specifications and details shown on Plan Ob 704. Price to be paid, \$920 for furnishing all labor and materials required for building wall and erecting and painting fence and all work incidental thereto. Estimated cost of extra work, \$20.

MAYOR CABLES PACIFIC FLYERS.

The Mayor sent the following cablegram to the American flyers at Honolulu on June 30:

LIEUT. LESTER J. MAITLAND, U. S. A.
LIEUT. ALBERT HEGENBERGER
U. S. A., Honolulu, Hawaii.

Kindly accept the hearty congratulations of the citizens of Boston upon your marvelous accomplishment in spanning the Pacific Ocean in the first trans-oceanic flight to Hawaii. Your success marks the early development of commercial air service between the United States and Hawaii with an efficiency performance upon your part of inestimable value to the nation. Your feat is especially noteworthy in its pride to the citizens of Boston by reason of the fact that Lieutenant Hegenberger was a pupil in the public schools of South Boston, Mechanic Arts High School and a graduate of the Institute of Technology. I heartily invite you mutually to be the guests of the City of Boston and its citizens and give opportunity for us to demonstrate the great victory over the air which you have accomplished as representatives of the United States Army.

MALCOLM E. NICHOLS, Mayor.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam Stanwood street, Dorchester, from Blue Hill avenue to Columbia road, with division forces, without advertisement, the estimated cost for labor and material being \$6,500.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam Sumner street, East Boston, from Jeffries street to Seaver street, with division forces, without advertising, the estimated cost for labor and material being \$6,500.

MAYOR VISITS INJURED FIREMEN.

Mayor Nichols on June 24 called at City Hospital to see Firemen Frank Meleedy and Eugene W. Carroll, who were injured at the tragic fire which destroyed the home of William L. Shearer, Jr., 47 Bay State road. Mr. Carroll and Mr. Meleedy were severely injured, and the Mayor thanked both for their courage displayed in the face of great danger and stated their daring was an evidence of the fine spirit shown by the Fire Department.

Mayor Nichols also visited the scene of the fire and examined the premises with Fire Commissioner Hultman and Wire Inspector Burke. He directed a report to be submitted on the causes of the fire, which apparently originated in cable connections near the wall of the house.

FINANCE COMMISSION
COMMUNICATION.

The Finance Commission has addressed
the following communication to the City
Council:

BOSTON, June 27, 1927.

To the Honorable the City Council.

GENTLEMEN,—The Finance Commis-
sion submits herewith a report on the
communication and loan order for a new
fire station in the West End, submitted
by his Honor the Mayor to your honor-
able body on June 6, 1927.

The Fire Commissioner proposed in his
report to the Mayor, dated December 21,
1926, that a new fire station be built in
the West End to house four fire com-
panies. If this is done he intends to
abandon the fire houses on Bulfinch,
Leverett and North Grove streets and
to house the companies occupying these
quarters, as well as the fire tower for-
merly located in this district, in this
building.

The Finance Commission inspected
the houses in question and witnessed a
demonstration of running the apparatus
in and out. Although the interior of one
of the houses has been painted and
improved, it found in general that the
description given by the Fire Commis-
sioner in his report was justified. The
buildings are obsolete and poorly located.
It is difficult to maneuver the apparatus
in the narrow streets and it would be
impracticable to use one of the houses
and impossible to use the other two for
the longer apparatus now required for
fighting fires in high buildings. The
commission is of the opinion that this
proposal of the Fire Commissioner should
be carried out.

The Fire Commissioner suggested that
the lot at the corner of Bulfinch and
Cambridge streets, which is the remnant
of the Revere House lot after the widen-
ing of Cambridge street, would be an
"ideal site for the new house." It is
the opinion of the commission that the
lot recommended is well adapted for the
purpose. It has sufficient frontage on a
broad thoroughfare, is located at the
crown of the hill and affords access
through several streets to the district to
be protected. It is not the duty of the
commission, however, to select the site,
and if the lot in question cannot be
obtained at a proper price some other
lot should be selected.

While agreeing with the Fire Commis-
sioner as to the desirability of housing
the several pieces of apparatus in one
new station on a suitable lot, the com-
mission feels called upon to comment on
the position taken in the matter by Mr.
Warren F. Freeman, the city's real estate
agent. He, with two other real estate
men, was directed to report on possible
sites for the consolidated fire houses in
the West End. He made a written
report to the Mayor, in which he de-
scribed some eight or ten separate parcels
of land.

The Revere House lot is owned by a
Massachusetts Corporation called the
Revere Building, Incorporated. One half
the interest in this corporation is owned
by Mr. Freeman. In his written report
he did not disclose to the Mayor that he
was interested in this lot.

Appearing before the commission, Mr.
Freeman testified that the Mayor knew
he was interested in the property as an
owner, but that he did not think the
Mayor knew his particular interest. He
also said that though he did not tell the
Mayor he was personally interested, the
Mayor knew it because he had refused

permits to conduct a bowling alley and
a dance hall on the premises.*

In a communication answering an
inquiry from the commission, the Mayor
stated: "At the time Mr. Freeman sub-
mitted his report upon fire-house sites in
the Bowdoin square district, he made no
reference to his interest in the Revere
House property. He had, however, called
the attention of this office to his interest
some time ago, when an application for
a license for the use of this property was
refused by me. At that time I did not
learn the exact nature of his interest
and had long since dismissed it from my
mind when the three fire-house reports
were received. When I received these
reports I was, of course, aware that he
had some sort of interest in the Revere
House parcel, because it is a matter of
common knowledge. In fact it is indi-
cated by a generous display of his placards
all over the property."

Holding the position of real estate
agent of the city, it was the duty of Mr.
Freeman to make sure beyond a doubt
that his private interest in any site
recommended was known at the time of
his report. It is obvious that he should
not represent the city further in obtain-
ing a site for the fire station in this district.

The location recommended by the Fire
Commissioner was in 1926 assessed for
both land and buildings for \$260,000.
The assessors' records indicate that in
making the assessment the building on
the land was estimated to be two thirds
finished. The Boston Real Estate Ex-
change was employed by the Finance
Commission to make an official appraisal
of the property. Under date of June 24,
1927, it certified † that in the opinion of
its Appraisal Committee the fair valuation
of the property as of that date was
\$300,000.

The Finance Commission has before
it evidence of the amount paid by the
present owners for the land and of the cost
of the building erected thereon. On all the
evidence before it the commission finds
that \$300,000 is a fair value for the
property. The Mayor, however, has
recommended that a loan order for
\$750,000 be passed by your honorable
body, of which \$400,000 is estimated as
the cost of the site. If the amount of
\$300,000 is granted for the site the loan
order may be reduced to \$650,000. If it
should turn out that more than \$300,000
is required for the site, the City Council
can increase the amount of the loan. On
the other hand, if it provides the full
amount now requested, it has placed the
determination of the amount to be
expended beyond its control.

The Finance Commission therefore
recommends:

1. That a loan order be passed to
enable the Fire Department to carry out
its plan of abandoning three inadequate
fire stations and of building a new station
to accommodate four fire companies.

2. That, if the pending loan order is
to be passed on the basis of the location
approved by the Fire Commissioner, not
more than \$300,000 be allowed for the
site and not more than \$350,000 for
erecting the new building.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

* Mr. Freeman's testimony on this point is set
forth in Appendix A.

† A copy of this certificate is annexed as
Appendix B.

REPRESENTS MAYOR AT "AIR MAIL WEEK" CELEBRATION.

Hon. Eliot Wadsworth, representing Hon. Malcolm E. Nichols, Mayor of Boston, at the opening of "Air Mail Week" celebrating the first anniversary of the landing of the air mail in Boston at the Parkman Bandstand on Monday, June 27, said in part:

LADIES AND GENTLEMEN,—The City of Boston is happy to have had the benefit of one year of air mail service. The city promised to support the service by using the air mail and I believe it is redeeming that promise. Last year by action of Mayor Nichols and our City Council there was appropriated the sum of \$10,000, which was spent to increase the size of the Boston airport by 40 per cent; the city has supported the bill in the Massachusetts General Court for the extension of the lease of the field to the United States Government for five years beyond its original period or for fifteen years from the present; enterprising men of Boston have built a commercial hangar and a successful flying school at the port; a farsighted generous Boston merchant has built and maintained for Boston an aerial beacon at a cost of some \$8,000.

Satisfactory passenger service has been established between here and New York; between here and Nantucket; and is to start between here and Hyannis and Cape Cod points shortly.

But above all, Boston is becoming accustomed to using the air mail and Boston merchants are finding it desirable to spend eight cents more per letter to save sixty hours in time between here and the Pacific Coast and the same to other points of the West in proportion. This is a bargain and the citizens of Boston are quick to recognize one.

We look forward to further developments; to a gradually extended airport based on the expert study of the needs of the service; to air lines, mail, freight and passenger to Nova Scotia, Newfoundland and the great cities of Eastern Canada, as well as direct lines to the West and local lines to all the New England states. Commercial aviation has come to stay and Boston will be here always.

This is an anniversary of the air mail service from whose school of hard knocks and varied perils have come many splendid graduates. One among them stands out alone in all the world as a leader in the new profession of air pilots. Single-handed he accomplished a great voyage and withstood unscathed a tidal wave of praise.

The United States Air Mail taught him and can even claim his record as one of its proud traditions.

As the colleges each year award honorary degrees to distinguished men so the air mail service on this occasion might well award its first honorary mention to its greatest graduate in these words:

"Charles A. Lindbergh, son of an ancient race, born on our western prairies, developed by American liberty, free education and progress, no reckless adventurer but a pioneer, thoughtful, persistent, unafraid in blazing new trails for mankind to follow, he represents the highest type of that new race we proudly call Americans."

PRAISES BOSTON'S PLAYGROUND WORK.

Mayor Nichols announced on June 24 that he had received the following communication from Curtis L. Harrington, representative of the Playground and Recreation Association of America, relative to the playgrounds under the supervision of the Park Department of the city:

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

HONORABLE MAYOR,—Until I actually inspected the work of the playground division of the Park Department of the City of Boston, I did not realize the extent of it or the influence for good it is having upon your city life, and I doubt that the people of the City of Boston know how much splendid work this department is doing, nor do I believe they appreciate it.

At the various playgrounds where I expected to find only supervised play for children, which is very necessary for child development, I find a very extensive program for boys, youths and men, and while I realize that statistics are generally dull, the figures which were compiled by the Community Service for the year 1926 are a revelation and give some idea of the rapid growth of the playground movement and the wide increase in the use of the playgrounds in the City of Boston and the amount of money spent for maintenance and upkeep.

In 1926, 186,756 persons used fourteen of the larger playgrounds in the various districts of the city and \$377,838.79 was expended. When the citizens of Boston realize that they have sixty-seven playgrounds, some idea of the magnitude of the work carried on by the Park Department can be imagined. I can only praise the vision and work which has brought these things to pass.

At your play areas I found constructive work being done and was particularly pleased at the decidedly progressive steps taken last year in the appointing of twenty people to furnish leadership on these areas. From our national experience, leadership is vital if we are to secure the measure of results from recreation which we should have. These play areas in the City of Boston are affecting for good thousands of people daily and the number is constantly increasing, due to the instructions you have given the Park Department to utilize the playgrounds to the fullest extent and keep the children off the streets. In spite of this large number of participants, there are still thousands to be served.

Another very progressive step in the development of this department is the organization of your amateur athletic leagues. I understand that there are over 1,150 games to be played by forty organized playground baseball leagues in which over 5,000 boys will participate; also, that there are 751 games of volleyball to be played at which 2,580 boys organized will participate, besides the outdoor track meets, final meets, tennis tournaments and athletic activities of all kinds, shows Boston to be far in advance of a great many cities.

Our observation of other cities shows these things to have brought about a decrease in the delinquencies of over 50 per cent to 70 per cent.

As I had the privilege of visiting the work of your playground department and observing its constant growth in many progressive steps which have been taken in its development, and also to review the

different activities in the department—the plans for future development and growth—I can only express highest praise for your vision and administration.

The Playground and Recreation Association of America will also consider it a privilege to co-operate with you and with the head of your department, Mr. William P. Long, in any manner which you may feel will be helpful to you.

Most sincerely yours,

CURTIS L. HARRINGTON,
Representative, Playground
and Recreation Association of America.

ADDITIONS TO CONTRACTS.

PARK DEPARTMENT.

Joseph A. Singarella has been ordered to make the following changes in the contract for constructing concrete walks in the Greeting, Franklin Park, signed March 29, 1927:

Construct the new concrete walk on the lines of the existing macadam walk between the Lion House and the Bird House instead of carrying the walk straight through its entire length from the columns to the entrance walk to the Bird House as shown on the contract plans. Unit prices for the same work on the different items of the contract will not be changed by this change.

The quantities as estimated in the schedule of quantities will vary due to the change in location of the walk which makes the following additions and deductions in the items of the contract:

Additions to Items of the Contract:
Item 2, 140 cubic yards rock excavation for trenches at \$5, \$700 (estimated);
Item 3, 180 linear feet of 8-inch drain at 55 cents, \$99 (estimated); Item 6, 200 cubic yards earth excavation at \$1, \$200 (estimated). Total, \$999 (estimated).

Deductions to the Items of the Contract:
Item 5, 20 cubic yards brick masonry at \$25, \$500 (estimated); Item 8, 100 tons crushed stone at \$3, \$300 (estimated);
Item 9, 100 cubic yards loam furnished at \$2, \$200 (estimated); Item 10, 700 square yards concrete walk at \$1.55, \$1,085 (estimated). Total, \$2,085 (estimated).

Additions: A.—Dispose of all surplus earth excavation instead of using all the excavated material on the work as contemplated in the contract. For each cubic yard of earth material disposed of the sum of 75 cents will be added to contract price. B.—Take out existing ribbon wire fence along edges of walk to be removed and reset after the new concrete walk is constructed. Do all necessary excavating and backfilling for trench locating water main gates in front of Bird House. Reset three bubble drinking fountains to new grade for concrete walk in front of Bird House, all as directed by this department in accordance with Article 2; to be paid for under Article 8; the cost of labor plus 15 per cent, and the cost of materials.

Additions to Contract: A.—1,100 cubic yards earth hauled away and disposed of at 75 cents, \$825 (estimated); B.—Wire fence replacing, excavating for water gates, resetting drinking fountain, \$250 (estimated). Total, \$1,075 (estimated).

Summary: Additions to the items of the contract, \$999 (estimated); additions to the contract, \$1,075 (estimated); total, \$2,074 (estimated); deductions to items of the contract, \$2,085 (estimated); net deduction, \$11 (estimated). Contract price, \$19,006.75 (estimated); deduction as per this order, \$11 (estimated); contract as standing, \$18,995.75 (estimated).

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Colonial road, Brighton district, as a highway, from Commonwealth avenue northwesterly, with the name of Colborne road, or some other distinctive name, bounded and described as follows:

A highway named Colborne road is hereby laid out, from Commonwealth avenue to the northerly line of Euston road, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southerly by Commonwealth avenue, one hundred thirty-five and 1-100 feet; northwesterly by the northwesterly line of said Colborne road as hereby laid out, sixty-four and 89-100 feet on a curve of forty feet radius; westerly by the westerly line of said Colborne road as hereby laid out, by two measurements, three hundred sixty-five and 9-100 feet and forty-six and 80-100 feet on a curve of six hundred and fifty feet radius; northerly by the northerly line of said Colborne road as hereby laid out, fifty-two and 56-100 feet; northeasterly by the northeasterly line of said Colborne road as hereby laid out, twenty and 35-100 feet on a curve of ten feet radius; easterly by the easterly line of said Colborne road as hereby laid out, forty-six and 1-100 feet; southeasterly by the southeasterly line of said Colborne road as hereby laid out, thirty and 31-100 feet on a curve of thirty feet radius; again easterly by the easterly line of said Colborne road as hereby laid out, one hundred forty-four and 37-100 feet; again northeasterly by the northeasterly line of said Colborne road as hereby laid out, eighteen and 89-100 feet on a curve of ten feet radius; again easterly by the easterly line of said Colborne road as hereby laid out, forty and 33-100 feet; again southeasterly by the southeasterly line of said Colborne road as hereby laid out, thirty-seven and 66-100 feet on a curve of thirty feet radius; again easterly by the easterly line of said Colborne road as hereby laid out, one hundred and thirty feet; and again northeasterly by the northeasterly line of said Colborne road as hereby laid out, sixty-five and 69-100 feet on a curve of forty feet radius.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Included in the above described land (taken hereunder) are parts of certain parcels of land registered in the Land Court, said parcels being shown on the plan hereinbefore referred to, and said parts being the portions of said registered parcels which lie between the side lines of said Colborne road and the middle line thereof; the owners of said portions, the number of the certificate of title and the book and page where the same is registered are as follows:

Annie L. Beckwith, Certificate No. 16256, Book 77, page 56.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Colborne road (formerly Colonial road), Brighton district, as a highway, from Commonwealth avenue to the northerly line of Euston road, under the order of the Board, and awards no damages therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Hosmer street, bounded: Easterly by easement taken by the City of Boston for sewerage purposes August 20, 1926, six feet; southerly by another part of Hosmer street, four hundred feet; westerly by the same, six feet; and northerly by the same, four hundred feet, containing twenty-four hundred square feet, more or less.

The sewerage works to be constructed are as follows: 410 linear feet of 10-inch

pipe sanitary sewer, in the above described premises, being part of the private way known as Hosmer street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Hosmer street, beginning at a point approximately 300 feet east of Blue Hill avenue and extending approximately 380 feet easterly, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 766, Sewerage Works, Hosmer Street, Dorchester, May 21, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

POLICE DEPARTMENT ORDERS.

General Order No. 1093.

The resignation of Patrolman Albert S. Anderson of Division 6 having been presented while charges against him are pending, it is hereby accepted, to take effect Tuesday, June 21, 1927, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1094.

A trial board consisting of Captains Grant, Murphy and Hoppe having heard by reference a complaint against Patrolman Joseph D. Parker of Division 17, charging him with conduct unbecoming an officer, has reported to the commissioner a finding of not guilty on charge and specification. In accordance with which, it is hereby ordered that the complaint against the said Patrolman Joseph D. Parker be dismissed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

BOSTON'S POPULATION ON JULY 1, 1926, (ESTIMATED).

In the fifteen months from April 1, 1925, to July 1, 1926, the increase of population is estimated to be 11,980. This addition brings the total to 862,523 as of July 1, and the increase averages 798 per month or 36.56 per cent less than the actual average of 1,258 per month from 1910 to 1915.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out, widening and reconstruction of River street, as a highway, between Everett square and Mattapan square, and the alteration and construction of the bridge over the tracks of the Midland Division of the New York, New Haven & Hartford Railroad and the approaches thereto at or near the River street station, bounded and described as follows:

The highway named River street is hereby widened and relocated, between Mattapan square and Everett square, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is taken in the following described lands, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Vasil Primpas, John Philopoulos, Peter Mandrakes and Louis Orphanos, situated on the northerly side of River street, bounded:

Southeasterly by River street, by five measurements, sixty-four and 27-100 feet, sixty-five and 73-100 feet, eighty-eight and 66-100 feet, twenty-five and 70-100 feet and forty-seven and 10-100 feet; westerly by land hereinafter described as taken from Delia T. Mulhern, two and 78-100 feet; and northerly by the northerly line of River street as established by this order, by three measurements, ninety-three and 67-100 feet, one hundred eighteen and 71-100 feet on a curve of four hundred and forty feet radius and seventy-four and 98-100 feet, containing sixteen hundred and twenty-four square feet, more or less.

A parcel of land, supposed to belong to Delia T. Mulhern, situated on the northerly side of River street, bounded:

Southerly by River street, twenty-three and 8-100 feet; northerly by the northerly line of River street as established by this order, twenty-three and 67-100 feet; and easterly by land hereinafter described as taken from Vasil Primpas *et al.*, two and 78-100 feet, containing thirty-two square feet, more or less.

A parcel of land, supposed to belong to James R. McGregor and Mary A. McGregor, situated on the northwesterly side of River street, bounded:

Southeasterly by River street, thirty and 44-100 feet; westerly by land hereinafter described as taken from Mary C. Murray, two and 31-100 feet; and northwesterly by the northwesterly line of River street as established by this order, twenty-nine and 97-100 feet on a curve of two hundred feet radius, containing twenty-three square feet, more or less.

A parcel of land, supposed to belong to Mary C. Murray, situated on the northwesterly side of River street, bounded:

Southeasterly by River street, by two measurements, 80-100 feet and thirty-one and 24-100 feet; northwesterly by the northwesterly line of River street as established by this order, thirty-two feet on a curve of two hundred feet radius; and easterly by land hereinafter described as taken from James R. McGregor *et al.*, two and 31-100 feet, containing twenty-seven square feet, more or less.

A parcel of land, supposed to belong to John G. Ray, situated on the north-

westerly side of River street, bounded:

Southerly by River street, by two measurements, twenty-five and 12-100 feet and twenty-five and 12-100 feet; and northwesterly by the northwesterly line of River street as established by this order, forty-nine and 57-100 feet on a curve of one hundred and twenty-five feet radius, containing forty-one square feet, more or less.

REMOVAL OF OBSTRUCTIONS.

Trees or other structures standing upon or affixed to the aforesaid lands, taken for the improvements ordered herein, shall be removed therefrom within sixty days after service of notice by the Board of Street Commissioners to vacate said lands.

Said River street as hereby widened and relocated by this order is bounded and described as follows:

Part between Mattapan square and a line approximately eighty feet west of Ray and Massasoit streets:

Northeasterly by the northeasterly line of said River street as hereby established (Mattapan square), sixty-four and 73-100 feet; southeasterly by the southeasterly line of said River street as hereby established, by three measurements, two hundred thirty-four and 40-100 feet, one hundred fifteen and 77-100 feet and seventy-five and 49-100 feet; southerly by the southerly line of said River street as hereby established, three hundred twenty-four and 26-100 feet; again southeasterly by the southeasterly line of said River street as hereby established, by six measurements, two hundred thirty-two and 96-100 feet on a curve of two hundred sixty-six and 69-100 feet radius, two hundred ninety-nine and 16-100 feet on a curve of seven hundred and 4-100 feet radius, three hundred seventy-nine and 14-100 feet, six hundred sixty-two and 13-100 feet, one hundred twenty-eight and 96-100 feet and one hundred six and 74-100 feet; southwesterly by the southwesterly line of said River street as hereby established, eighty-four and 13-100 feet; northwesterly by the northwesterly line of said River street as hereby established, by eighteen measurements, forty-nine and 57-100 feet on a curve of one hundred and twenty-five feet radius, seventy-two and 78-100 feet, two hundred four and 68-100 feet on a curve of eight hundred feet radius, five hundred ninety-one and 84-100 feet, sixty-two and 31-100 feet, thirty-seven and 69-100 feet, one hundred seventy-three and 81-100 feet, one hundred nine and 5-100 feet, twenty-three and 85-100 feet, sixty-four and 4-100 feet, sixty-one and 97-100 feet on a curve of two hundred feet radius, seventy-nine and 49-100 feet, forty-eight and 62-100 feet, fifty-two feet, thirty feet, fifty feet, seventy feet and ninety-two and 53-100 feet; northerly by the northerly line of said River street as hereby established, by five measurements, thirty-three and 25-100 feet, sixty-nine and 24-100 feet, forty-two and 11-100 feet, one hundred seventeen and 34-100 feet, one hundred eighteen and 71-100 feet on a curve of four hundred and forty feet radius; again northwesterly by the northwesterly line of said River street as hereby established, by seven measurements, seventy-four and 98-100 feet, forty-five and 75-100 feet, seventy-six and 27-100 feet, sixteen feet, fifty-four and 26-100 feet, twenty and 39-100 feet and sixty-three and 42-100 feet.

Part between Everett square and a line approximately one hundred and thirty-six feet east of George street:

Southwesterly by the southwesterly line of River street as hereby established, one hundred five and 56-100 feet; northwesterly by the northwesterly line of said River street as hereby established, by twenty measurements, one hundred sixty-four and 1-100 feet on a curve of one hundred forty-three and 88-100 feet radius, three hundred fifty-one and 6-100 feet, one hundred seventy-one and 9-100 feet on a curve of three hundred and twenty-nine feet radius, three hundred forty-one and 87-100 feet, one hundred ninety-two and 69-100 feet on a curve of three hundred sixteen and 73-100 feet radius, ten and 49-100 feet; three hundred fifty-two and 44-100 feet on a curve of nine hundred and forty-five feet radius; one hundred seventy-six and 93-100 feet; two hundred forty-five and 30-100 feet on a curve of eleven hundred and twenty-eight feet radius; two hundred twelve and 59-100 feet; two hundred four and 93-100 feet; four hundred forty-nine and 32-100 feet on a curve of eleven hundred and eighty-three feet radius and 71-100 feet radius; two hundred forty and 82-100 feet; one hundred eighteen and 39-100 feet on a curve of nine hundred feet radius; three hundred forty-six and 30-100 feet; four hundred thirty-nine and 8-100 feet; two hundred ninety and 13-100 feet on a curve of five hundred feet radius; fifty-eight and 73-100 feet; two hundred twenty-four and 59-100 feet on a curve of five hundred and fifty feet radius; and two hundred fifty and 78-100 feet; northeasterly by the northeasterly line of said River street as hereby established, fifty feet; southeasterly by the southeasterly line of said River street as hereby established, by twenty-one measurements, two hundred fifty-three and 6-100 feet, two hundred four and 17-100 feet on a curve of five hundred feet radius; fifty-eight and 73-100 feet; three hundred nineteen and 15-100 feet on a curve of five hundred and fifty feet radius; four hundred thirty-eight and 65-100 feet; three hundred forty-five and 86-100 feet; one hundred twenty-four and 97-100 feet on a curve of nine hundred and fifty feet radius; two hundred forty and 82-100 feet; four hundred thirty and 34-100 feet on a curve of eleven hundred thirty-three and 71-100 feet radius; two hundred three and 70-100 feet; two hundred eleven and 35-100 feet; two hundred thirty-four and 43-100 feet on a curve of ten hundred and seventy-eight feet radius; one hundred seventy-six and 93-100 feet; three hundred thirty-three and 79-100 feet on a curve of eight hundred and ninety-five feet radius; ten and 49-100 feet; two hundred twenty-three and 10-100 feet on a curve of three hundred sixty-six and 73-100 radius; three hundred forty-one and 87-100 feet; one hundred forty-five and 8-100 feet on a curve of two hundred and seventy-nine feet radius; three hundred forty-nine and 86-100 feet; seventy-six and 76-100 feet on a curve of two hundred eighty-six and 68-100 feet radius; and one hundred two and 81-100 feet.

BETTERMENTS.

Betterments are to be assessed for the improvement of River street as herein ordered.

Ordered, That this Board estimates that the areas comprising all parcels of land abutting the parts of River street ordered improved hereunder, the areas

comprising all parcels of land abutting the part of River street lying between Everett square and Hyde Park avenue, and the parcel of land supposed to belong to the Commonwealth of Massachusetts at the southerly side of Mattapan square at River street, will receive benefit or advantage, other than the general advantage to the community from the making of the aforesaid improvement; each of the parcels of land within said areas to the amount hereinafter respectively set against it; said assessment areas and the parcels of land herein referred to being shown on plans marked "City of Boston, River Street, Dorchester-Hyde Park, Assessment Plan, April 1, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

ADDITIONAL DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Whereas, An award of \$48,000 for the taking of an easement for highway purposes in 839 square feet of land from the Shubert Holding Company for the widening and relocation of Tremont street was made to said Shubert Holding Company under the order for said improvement dated March 26, 1925; and

Whereas, Said sum (\$48,000) was accepted by said Shubert Holding Company not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Shubert Holding Company petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$48,000) so awarded, accepted and paid; now, therefore, it is

Voted, After consultation with the Law Department and on its advice, that additional damages in the amount of \$57,000 flat be and the same hereby is awarded to the Shubert Holding Company, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

That in the matter of Arthur L. Howard and Arthur Dehon Hill, trustees under the will of Georgianna Sargent *et al.*, petitioners for damages occasioned their estates by the widening and relocation of Court street under the order of the Street Commissioners and Mayor of August 20, 1924, after consultation with the Law Department, and on its advice, the Board assesses the petitioners' damages in the sum of \$770, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

RANDIDGE EXCURSIONS START.

The annual Randidge excursions, provided out of the income from the fund left by the late George E. Randidge, will start July 1. These excursions will continue every day except Sundays and holidays during the months of July and August, and 250 worthy children, between the ages of five and fifteen, are taken every day at 9 a. m. on the steamer "Michael J. Perkins" to Rainsford Island, where they enjoy athletic games, swimming, swings and flying horses. At noon a lunch provided by the city is served and the return trip to Boston is made at 4.30 p. m.

Every precaution is taken by the city for their welfare. A director is in charge as well as two lifeguards, a policeman, a fireman and a nurse accompanying the children. There are also about thirty supervisors who watch over each group which come from various local charitable organizations.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 10-inch pipe in Summit road, between La Grange street and a point 350 feet southwesterly, in the West Roxbury district, at an estimated cost of \$3,000.

A sanitary sewer of 20-inch pipe in Seear road, between Florence street and Stellman road, and in Stellman road between Seear road and 192 feet

northwesterly, in the West Roxbury district, at an estimated cost of \$6,500.

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Cedar street, between Washington street and a point 600 feet southeasterly, in the West Roxbury district, at an estimated cost of \$4,500.

A sanitary sewer of 10-inch pipe and a surface drain of 10-inch and 12-inch pipe in Hayes street, between Birch street and a point 332 feet southeasterly, in the West Roxbury district, at an estimated cost of \$3,000.

A surface drain of 12-inch pipe and two catch-basins in Crowell street, between Norfolk street and Evans street, in the Dorchester district, at an estimated cost of \$3,500.

FLYER'S CHUM VISITS MAYOR.

Lieut. Henry C. Prago^{ff}, a member of the Crosseup-Pishon Post of Boston, a friend since the boyhood days of Lieut. Albert F. Hegenberger, and who has been closely associated with him for many years, called on Mayor Nichols on June 30, to have a chat regarding his long and intimate companionship with the successful Hawaiian flier.

When Lieutenant Prago^{ff} was married four years ago, in Minneapolis, Minn., Mr. Hegenberger startled the citizens of that city by arriving by airplane, unexpectedly and unannounced, for the wedding, flying from Dayton, Ohio. According to the records of aviation this was the first time an airplane was ever used for that purpose. Mr. Prago^{ff} stated that Lieutenant Hegenberger was exceedingly modest and retiring. He is the man who perfected the compass which Colonel Lindbergh used on his trans-Atlantic flight. Mr. Hegenberger was also the first man to ever fly successfully by compass, coming from Dayton, Ohio, to Boston at the opening of the Boston airport three years ago. Mr. Hegenberger, according to Mr. Prago^{ff}, has done many things of note for the development of aviation.

MAYOR SENDS RESOLUTIONS TO COMMANDER BYRD.

At the dinner tendered the members of the National Air Tour by Mayor Malcolm E. Nichols and under the auspices of the Municipal Air Board, the following set of resolutions were unanimously adopted:

Upon the evening of the day you started upon the marvellous accomplishment of a trans-Atlantic flight by airplane we extend to you and your devoted associates the best of good wishes upon the part of the Chief Executive and citizens of Boston.

Your gallantry, courage and efficiency in accomplishing the flight from New York to Paris is a magnificent tribute to the valor of the American Navy, a splendid service in securing a greater amity between our nation and the countries of Europe, and as an efficiency performance, approaching the perfect, constitutes an achievement that is of inestimable value to the commercial interests of the United States.

The American nation is justly proud both of yourself and your companions. We appreciate the courage and efficiency of your accomplishment in flying through storm and fog, through daylight and dark, over the widest diversity of terrain, in your valorous performance.

His Honor, the Mayor of the City of Boston, has extended you a most cordial invitation upon the part of the citizens of our honored municipality, where American liberty was born, to be its guest with your honored associates, and we desire to assure

you of our hearty desire to pay you the great tribute which is your due upon your return to the United States.

These resolutions will be forwarded to Commander Byrd upon his arrival in Paris.

HIGH U. S. OFFICIAL INVITED TO BOSTON.

Mayor Nichols on June 29 sent the following telegrams to Assistant Secretary of the Navy Edward P. Warner and Assistant Secretary of Commerce William P. MacCracken, Jr., welcoming them to Boston and inviting them to the dinner given by him under the auspices of the Municipal Air Board at the Hotel Lenox, Wednesday evening.

HON. EDWARD P. WARNER, *Assistant Secretary of the Navy, Care of National Air Tour, Chamber of Commerce, Schenectady, New York.*

Boston is looking forward with great pleasure to your arrival tomorrow noon with the National Air Tour. Trust you will be able to attend the dinner given by me under the auspices of the Municipal Air Board tomorrow evening.

MALCOLM E. NICHOLS, *Mayor.*

HON. WILLIAM P. MACCRACKEN, JR., *Assistant Secretary of Commerce, Care of National Air Tour, Chamber of Commerce, Schenectady, N. Y.*

Boston is looking forward with great pleasure to your arrival tomorrow noon with the National Air Tour. Trust you will be able to attend the dinner given by me under the auspices of the Municipal Air Board tomorrow evening.

MALCOLM E. NICHOLS, *Mayor.*

ASSESSMENT ABATED.

The Mayor has approved the following vote of the Board of Street Commissioners:

In the matter of petition for abatement of assessment of \$50 billed June 13, 1927, to Julia E. Bradford heirs, lot 221, for a sewer laid in Belgrade avenue and completed August 23, 1928, the Board of Street Commissioners deeming it just and proper that abatement should be made from said assessment, acting under chapter 359 of the Acts of the year 1896.

That from so much of said assessment of \$50 to said estate as remains unpaid at this date the sum of \$31.75 be and the same hereby is abated.

DAMAGES ASSESSED.

The Mayor has approved the following votes of the Board of Street Commissioners:

That in the matter of Emily Masse *et al.*, petitioners for damages on account of the taking of an easement in 415 square feet of land for the widening and relocation of Tremont street, under the order of the Board of Street Commissioners and Mayor of March 26, 1925, after consultation with the Law Department, and on its advice, the Board assesses the petitioners' damages in the sum of \$11,000 flat; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

ALTERATIONS AND REPAIRS.

A communication was received from the Board of Apportionment, under date of June 6, 1927, recommending the passage of an accompanying order appropriating all of the remaining amounts available for alterations and repairs under Chapter 153 of the Acts of 1926.

Placed on file.

In connection therewith the Chairman made the following statement:

The School Committee regrets that it is compelled to budget in one sum the administrative expenses of the Schoolhouse Commission. No other municipal budget is handled in this manner and the Committee believes that the law should be amended next year so as to provide that the Schoolhouse Commission shall be required to submit a budget for administrative purposes to the School Committee which shall show the details, personnel employed, the salaries paid, and other necessary administrative items. Appropriating the administrative expenses of the Schoolhouse Commission in one sum, gives the public no information and defeats the purpose of a municipal budget.

Early this year, the Business Manager informed the School Committee that it should not be obliged to pass an unitemized budget for administrative expenses of the Schoolhouse Commission; that such expenses should show the details, as do all budgets.

The Committee therefore is passing such a budget against its best judgment, but evidently is obliged to pass it under existing law in its present form without the necessary details.

The following was offered:

ORDERED, That to provide funds for the alterations and repair of school buildings, for furniture, fixtures and means of escape in case of fire and for fire protection for existing buildings, and for improving existing schoolyards, during the financial year Jan. 1 to Dec. 31, 1927, the following sums are hereby appropriated in addition to the sums appropriated at the meetings of Mar. 21 and May 2 and 9, 1927:

A. Administration Expenses, Schoolhouse Department (alterations and repairs appropriations).	\$125,000.00
C. General alterations and repairs to school buildings, exclusive of major educational items	24,562.30
Total	\$149,562.30

Passed by the following vote:

YEAS—Mrs. Barron, Messrs. Bogan, Gray and O'Hare—4.

NAYS—0.

ABSENT—Mr. Sullivan—1.

CHANGE IN RANK OF WILLIAM L. REARDON.

A communication was received from the Business Manager, under date of June 6, 1927, recommending that the rank of William L. Reardon, Assistant Chief Storekeeper in the Supply Room, be changed to that of Assistant Chief Storekeeper and Inspector.

Placed n file.

On motion, it was

ORDERED, That the rank of William L. Reardon, Assistant Chief Storekeeper in the Supply Room, be changed to "Assistant Chief Storekeeper and Inspector" to take effect June 1, 1927.

RE-CLASSIFICATION OF CERTAIN SCHOOL BUILDINGS IN SCHEDULE OF COMPENSATION FOR CUSTODIAN SERVICE.

A communication was received from the Business Manager, under date of June 6, 1927, recommending the passage of an accompanying order providing for reclassification of school buildings, as set forth in the Schedule of Compensation for Custodian Service of School Buildings, the reclassification being with the approval of the Schoolhouse Custodian and the Domestic Engineer, to take effect Jan. 1, 1927.

Placed on file.

On motion, it was

ORDERED, that Section 7 of School Document No. 10, 1918—Schedule of Compensation for Custodian Service of School Buildings—be amended to read as follows: Section 7. Classification of Buildings. School buildings shall be divided into two classes as follows:

Class A—(1) Buildings in which are installed fans and engines or motors for the main ventilation by the plenum system.

(2) Buildings in which are installed fans and engines or motors for the main ventilation by the exhaust system. It is understood that buildings under this classification containing fans and engines or motors for the main ventilation shall be in a condition suitable and ready for operation.

(3) Buildings which are heated and ventilated by the type of system commonly known as a unit system of heating and ventilation. Class B—(1) Buildings heated by steam or hot water, but without fans, engines or motors for the main ventilation.

(2) Buildings heated wholly by furnaces, but with fans and motors for the main ventilation by the plenum system.

(3) Buildings heated by furnaces or stoves and without fans for the main ventilation.

Buildings in which there are installed two types of heating and ventilating apparatus of substantially equal importance shall be classified according to the superior type of such apparatus.

The classifications of buildings shall not be raised above that determined by the main heating and ventilating plant in consequence of the type of such apparatus installed in sanitariums or in additions to the main building containing not more than three rooms.

CLOSING OF ADMINISTRATIVE OFFICES.

Mr. O'Hare offered the following:

ORDERED, That the administrative offices and the supply room of the School Committee be closed on Saturday, June 18, 1927.

Passed under a suspension of the rules.

NAMING OF NEW SCHOOLS.

Mr. Gray, for the Committee on Naming of School Buildings, offered the following:

ORDERED, That the new five room building on Wren Street, in the Robert Gould Shaw District, is hereby named the Randall G. Morris School, in memory of Randall G. Morris, a member of the School Committee of twenty-four members during the year 1902. Mr. Morris was one of the original members of the Finance Commission appointed by Mayor Fitzgerald. He was a director of the Massachusetts Society for the Prevention of Cruelty to Children, and one of the organizers of the Boston City Club. For many years he was president of the Faulkner Hospital Association, and was a director in many of the charitable associations of the city. Locally he was one of the organizers, and later the president of both the Highland Club and the Citizens' Association of West Roxbury. He was a member of the West Roxbury Congregational Society and for more than thirteen successive years was an active and influential member of the governing board. He was deeply interested in the public schools of the city, especially in those of his own community.

Passed unanimously under a suspension of the rules.

Mr. Gray, for the Committee on Naming of School Buildings, offered the following:

ORDERED, That the new eight room building in the Henry Grew District, Hyde Park, ultimately to become an intermediate school, is hereby named the William Ellery Channing School, in memory of William Ellery Channing (1780-1842). This leader of liberal thought in Boston was a grandson of William Ellery of Rhode Island, a signer of the Declaration of Independence. For many years he was the minister of the Federal Street (now the Arlington Street) Church. He was the gentle pioneer of the theological controversy which separated the Unitarian churches from the old order of Calvinistic orthodoxy. He took an early part in the American Peace Movement, in temperance reform, and, although opposed to the methods of the extreme Abolitionists, was a vigorous and persuasive antagonist of slavery. His purity of character and life won him a high place in the affection of his contemporaries. The keenness of his mind and the breadth and warmth of his sympathies gave to his many

writings a quality which has made them permanent in the literatures of the subjects to which they relate. Passed unanimously under a suspension of the rules.

GIFT TO BOSTON FLOATING HOSPITAL.

Mr. Gray stated that at the graduating exercise of the Central Evening High School on Thursday evening, June 2, 1927, the president of the graduating class presented him with a check in the sum of one hundred dollars (\$100) to be contributed to the fund for the Boston Floating Hospital, and in presenting the gift made the following statement:

"Those of us who read this morning's local papers were confronted with the news that the Boston Floating Hospital had been destroyed by fire.

"In the hope that the good work done by this hospital may not be lost for the future, we trust it shall soon be rebuilt.

"A few moments prior to our entrance into the hall here tonight a collection was taken among the members of our class. I have the pleasure of presenting this check for \$100 to Mr. Gray of the School Committee, as trustee, to be donated either to the rebuilding of this hospital or to whatever purpose connected with the hospital the trustee (Mr. Gray) sees fit."

Mr. Gray, as a member and on behalf of the School Committee, accepted the gift. He has since made inquiries of the Trustees of the Hospital and is informed that it is the intention to rebuild the boat, if it shall be found possible, otherwise, to provide a new boat for the purpose in order that the good work may be continued.

The gift of the graduating class of the Central Evening High School was accepted by unanimous vote; the Secretary was instructed to thank the class for this prompt and generous response to a public need which must prove inspiring and stimulating to other public-spirited citizens; and Mr. Gray was authorized to turn over the check to the Treasurer of the Boston Floating Hospital.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

PROPOSALS FOR REPAIRS TO FIREBOAT ENGINE 44.

The Fire Commissioner of the City of Boston invites sealed proposals for repairs to Fireboat Engine 44 at Northern Avenue Bridge (now on railway at Atlantic Works). A bond of a surety company will be required in the sum of 35 per cent of the proposal, to secure the full performance of the contract and the full protection of the city. Forms of proposals may be obtained at the office of the Fire Commissioner, 60 Bristol street. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Fireboat Engine 44" and left at the office of the Fire Commissioner before 12 m., Friday, July 8, 1927, with a certified check for \$1,000, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited with the City Auditor, previous to the time for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

MALCOLM E. NICHOLS, Mayor.

MAYOR APPROVES THE SCHOOL BUDGET AFTER SECOND CUT OF \$150,000.

Mayor Nichols announced on July 7 that he had made a further cut of \$150,000 from the school appropriation bill. This cut took the form of a veto of certain items in the bill. It is the second veto of the Mayor on school appropriations this year and results in a total cut of \$350,000, and is the first time on record where a Mayor has exercised the power of reducing items in school appropriations.

The Mayor's reasons in both vetoes were that the appropriations were excessive in creating a surplus for school purposes next year, and in his second veto he points out that the intentional establishment of a surplus for the following year is unsound and in conflict with the rules of the School Board. The original appropriations bill was \$7,259,293.05.

Following is the text of the Mayor's message to the School Board:

Boston, July 6, 1927.

To the School Committee of the City of Boston.

I return herewith appropriation order of the School Committee dated June 21, 1927, with my approval, after reducing the total amount \$150,000, for the reason that, in my opinion, certain amounts voted are in excess of the actual requirements for the current financial year.

The reductions in the items of the appropriation order are as follows:

Salaries of instructors.....	\$100,000
Salaries of officers.....	10,000
Fuel and light.....	30,000
Supplies, equipment and incidentals.....	10,000
	<u>\$150,000</u>

In my veto communication to you on May 21, I submitted certain facts and figures, based on four months' expenditures, that indicated a surplus at the end of the year in excess of \$500,000. Your action in supporting my veto clearly showed that at least two members of your committee agreed with me that the original appropriations were excessive and would produce a surplus which would not be expended until the year 1928. In support of my contention, I quote one member of your honorable committee as follows:

"On further consideration I reached the conclusion, which was agreed to by the Business Manager and other members of the committee, that the passing of the budget as originally submitted would mean a surplus of approximately \$600,000. I do not believe in appropriating money which admittedly cannot be used in any one year."

Another member of your committee is quoted as follows:

"I feel, and have felt for some time, that too much money is being spent by the School Committee. I feel that we

WANTS TO HONOR PORTER H. ADAMS.

Mayor Nichols on July 1 sent the following communication to Porter H. Adams, president, National Aeronautical Association, Washington, D. C.

DEAR MR. ADAMS,—I was highly pleased to read in the papers this morning of the statement issued by Mr. Rodman Wanamaker upon the arrival of Commander Byrd and his associates at Le Bourget air field in France, and it was most gratifying to note that he had paid tribute to you in this great triumph of the air.

Boston is deeply proud of the part you have played in the field of aviation, and the great honor which it has in your membership in the Municipal Air Board as chairman.

I sincerely trust that when the time comes to welcome Commander Byrd and his associates, that we shall also have the desired opportunity of showing you what we think of the distinguished contribution you have made to these world-wide events.

With every good wish and with kindest regards, I am,

Sincerely yours.

MALCOLM E. NICHOLS, *Mayor*.

SCHOOL BUDGET APPROVED.

(Continued from page 757.)

might leave unappropriated a sum greater than \$200,000, but in order to insure the continuance of education here in Boston, I have joined in the compromise effected, namely, the withholding from appropriation of the sum of \$200,000."

Other members of your committee have stated in meeting that they were aware that the appropriations voted would produce a surplus beyond the probable expenditures of the year, and that they believed that this procedure was proper. It may be of interest to these other members to learn that their action in appropriating more than the probable expenditures of the current financial year was in direct conflict with section 109 of the Rules and Regulations of the School Committee which provides in paragraph 2:

"He [Business Manager] shall annually prepare and submit to the School Committee at the last regular meeting in February or as soon thereafter as may

be practicable, an itemized appropriation order prepared under the instructions of the School Committee to cover the expenses of the school system for the current financial year with the detailed estimates of the probable costs of the several items."

Thus it appears that the School Committee have no authority for intentionally voting appropriations so as to produce a surplus to be expended in the following year. Such procedure is, of course, unsound and unwise.

It is quite evident that my veto has caused two admissions to be made by your honorable body; first, that on the basis of your original appropriation order a surplus of \$600,000 would result, and second, that a majority of your committee deliberately voted to establish a surplus for use next year.

In support of my opinion that your original appropriations would produce a surplus in excess of \$500,000, which you admit might reach \$600,000, I respectfully submit the following tabulation:

	Increases in Appropriations for 1927 over Expenditures for 1926.	Actual Increases in Expenditures for 1927 over 1926 to June 20, inclusive (6 months).
Salaries of Instructors.....	\$811,590 90	* \$298,985 10
Salaries of Officers.....	40,180 61	8,802 75
Salaries of Custodians.....	60,307 78	26,674 38
Fuel and Light.....	99,764 31	14,329 39
Supplies and Incidentals.....	153,603 04	76,513 28
Pensions to Attendance Officers and Custodians.....	† 107 95	† 301 58
Physical Education.....	38,881 57	11,700 52
Salaries of School Physicians and Nurses.....	25,422 72	* 12,113 09
Extended Use of the Public Schools.....	12,742 76	6,182 42
	\$1,242,385 74	\$454,999 35

* Includes double payment in June; approximately 7 months' increases. † Decrease.

The above figures should be interesting to you. As you well know there will be substantial reductions in expenditures due to the summer vacation, which should be considered in analyzing the figures for the first six months.

As a result of my veto you reduced your original appropriation \$200,000. I have made a further reduction of \$150,000. This total of \$350,000, in my opinion,

should be \$500,000, but not having detailed information, such as you should possess, I refrain from further reduction. I am convinced, however, that the appropriations as reduced are more than ample to take care of all the requirements for the financial year.

Respectfully yours,

MALCOLM E. NICHOLS, Mayor.

SENDS LETTER BY AIR MAIL TO MAYOR ROLPH OF SAN FRANCISCO.

In commemoration of the first anniversary flight of the opening of the air mail service at Boston, on July 1, Mayor Malcolm E. Nichols sent the following letter to Hon. James Rolph, Jr., Mayor of San Francisco, via air mail:

DEAR MR. MAYOR,—We are observing here today the first anniversary of the establishment of air mail transportation between the cities of Boston and New York.

I have been immeasurably gratified by the splendid accomplishment of Lieutenant Maitland, U. S. A., and Lieutenant Hegenberger, U. S. A., the latter a graduate of Boston public schools and the Massachusetts Institute of Technology, in spanning the Pacific Ocean, from San Francisco to Honolulu.

I can but feel that this transpacific flight to Hawaii means the revolution-

izing of our commerce and industry with the countries of the East.

May I further assure you that the splendid co-ordination extended by you to the intrepid aviators in the success of their important mission is greatly appreciated in Boston.

I am firmly convinced that the hour is at hand when an air route between Boston and San Francisco should be definitely established in behalf of both passenger and commercial aviation with stations appropriately marked and lighted upon the transcontinental route.

I propose to ask the Federal Congress at the convening of the seventieth session at Washington in December to indorse a petition for such a route, and I sincerely trust we may be honored by your cordial co-operation.

I firmly believe that upon the occasion of the presentation of my petition to the seventieth Congress I shall be honored by the hearty support of the cities of Massachusetts and New England.

The remarkable air journeys of Lind-

bergh, Maitland, Hegenberger, Byrd and Chamberlin have stimulated national interest in commercial and passenger aviation, and it is the manifest duty of the nation to urge that airports may be established in every city in the United States.

I have been pleased to note that the National Press Club of Washington, D. C., has addressed a letter to the United States Chamber of Commerce in which that organization is urged to recommend to its constituent bodies that such aviation fields could be very appropriately made memorials for our soldiers, sailors and marines, similar to the Memorial Park which President Coolidge recently dedicated at Hammond, Ind.

The constantly increasing and extended use of commercial and passenger airplanes must be regarded as an evidence of their value to the public.

I have also been apprised that approximately 2,000,000 letters have been carried in a single month over the fourteen contract routes providing for the delivery of air mail.

In the development of commercial and passenger airplane service there comes an inestimable economic value. I believe no man will deny also that in such commercial and passenger airplane service and in the necessary building up of information relative to operation we are also providing for the American nation a valuable adjunct of the national defence of the United States.

May I call to your particular attention the fact that cities and towns upon the route of a transcontinental air service from Boston to San Francisco would find outlet at established stations, such as I have herein set forth, for the distribution both of their manufacture and products.

If we are to retain our place in the progress attending commercial and passenger air craft with the nations of Europe an incentive is absolutely necessary that the mayors of American cities may use every power at their command to stimulate interest and commercial accomplishments.

I sincerely trust I may be honored by your support and that of the citizens of San Francisco when I present the petition of the City of Boston to the Federal Congress in December.

I have been apprised of your Honor's noteworthy effort to obtain federal sanction for the building of a bridge between the cities of San Francisco and Oakland.

I know of no waterway in America containing a superior site for the building of a beautiful bridge of fine architectural value and utility than that presented at the Golden Gate and I sincerely wish you the full measure of success.

With assurances of my highest consideration and esteem,

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

FLYERS TO VISIT BOSTON.

Mayor Malcolm E. Nichols received on July 6 a cablegram from Commander Byrd which read as follows:

"MAYOR MALCOLM E. NICHOLS, Boston.

Deeply appreciate message. Will arrange date with you upon my return to America.

RICHARD E. BYRD."

Mayor Nichols also received a message from Lieutenants Maitland and Hegenberger which read as follows:

"MALCOLM E. NICHOLS, Mayor of Boston.

Thanks for congratulations. We would be delighted to visit Boston subject to War Department approval.

MAITLAND AND HEGENBERGER."

INVITES MRS. BYRD AND CHILDREN TO BE GUEST OF CITY AT HUSBAND'S RECEPTION.

MRS. RICHARD E. BYRD AND CHILDREN, 9 Brimmer Street, Boston, Massachusetts.

DEAR MRS. BYRD AND CHILDREN,—All Boston extends to you its most sincere congratulations upon the marvelous achievement of your gallant husband in his successful flight from New York to Paris. It is a performance of efficiency, courage and valor which reflects the highest credit upon the United States Navy.

It has been my honor to extend to Commander Byrd and his associates an invitation to be the guest of the City of Boston upon his return to the United States and I most cordially ask you and the children to join in the deserved tribute which the citizens of Boston so earnestly desire to pay your brave husband.

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Durant street, bounded:

Southeasterly by Sunnyside street, six feet; southwesterly by another part of Durant street, one hundred and ninety feet; northwesterly by the same, six feet, and northwesterly by the same, one hundred and ninety feet, containing eleven hundred and forty square feet, more or less.

The sewerage works to be constructed are as follows: 180 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Durant street, leading northwesterly from Sunnyside street for a distance of approximately 190 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Durant street, for a distance of approximately 200 feet northwesterly from Sunnyside street will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners

thereof being shown on a plan marked "City of Boston, Plan No. 772, Sewerage Works, Durant Street, Hyde Park, June 2, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

ASKS TWENTY-THREE CITIES TO JOIN BOSTON IN PETITION FOR COAST TO COAST AIR ROUTE.

Mayor Malcolm E. Nichols, on July 1, wrote to the mayors of twenty-three cities in the United States. Each of these cities is served by air mail and are on the regular routes of the United States air mail service. All of these letters will go via air mail from Boston today. The list includes:

Hon. N. C. Stevens, Hartford, Conn.; Hon. A. I. Beach, Kansas City, Mo.; Hon. James J. Walker, New York City, N. Y.; Hon. William H. Thompson, Chicago, Ill.; Hon. F. Nighswonger, Wichita, Kan.; Hon. J. D. Marshall, Cleveland, Ohio; Hon. J. S. Smith, Detroit, Mich.; Hon. O. A. Cargill, Oklahoma City, Okla.; Hon. F. Swarthout, Grand Rapids, Mich.; Hon. V. J. Miller, St. Louis, Mo.; Hon. H. C. Meachem, Fort Worth, Tex.; Hon. L. Baylock, Dallas, Tex.; Hon. L. Hodgson, St. Paul, Minn.; Hon. D. W. Hoan, Milwaukee, Wis.; Hon. F. H. Hunter, Des Moines, Iowa; Hon. J. C. Dahlen, Omaha, Neb.; Hon. C. C. Nelson, Salt Lake City, Utah; Hon. George E. Cryer, Los Angeles, Calif.; Hon. G. L. Baker, Portland, Ore.; Mrs. B. Landes, Seattle, Wash.; Hon. A. M. Wilson, Colorado Springs, Colo. Hon. George E. Leach, Minneapolis, Minn.

The following is a copy of the letter:

In commemoration of the first anniversary flight of the air mail service to Boston, I have the honor as Mayor to extend to you the greetings of the City of Boston.

The Boston Airport is the Eastern terminal of the greatest air mail system in the world. It is through the use of air mail that our cities become more closely allied.

I am firmly convinced that the hour is at hand when an air route between Boston and San Francisco should be definitely established in behalf of both passenger and commercial aviation, with stations appropriately marked and lighted upon the transcontinental route.

I propose to ask the Federal Congress at the convening of the 70th session at Washington in December to indorse a petition for such a route, and I am sure that we will have your usual response to all great public movements.

The remarkable air journeys of Lindbergh, Maitland, Hegenberger, Byrd and Chamberlin have stimulated interest in commercial and passenger aviation, and it is the manifest duty of the nation to urge that airports may be established in every city in the United States.

With every assurance of my high regard and esteem, I am,

Sincerely yours,

MALCOLM E. NICHOLS,
Mayor of Boston.

Voted, That in the matter of Kathern McNally, petitioner for damages on account of the taking of an easement for sewerage purposes in 266 and 103 square feet of land on Faneuil street, and the construction of sewerage works therein, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of \$100 for each taking, and consents that the Corporation Counsel agree to judgment in said cases on the terms herein stated.

REGRETS DEATH OF BISHOP ANDERSON.

Mayor Malcolm E. Nichols issued the following statement upon learning of the death of Bishop Anderson:

"In the death of Bishop Anderson we have lost not only a distinguished clergyman but one of our foremost fellow citizens. Bishop Anderson had many rare qualities. In scholarship and in ability to influence the minds of men and women in the right direction he held a leading place. His loss will be felt not only in the Church to which he dedicated his life but also throughout the entire community."

ZARAKOV THANKS MAYOR.

Mayor Nichols received a letter from Isadore Zarakov, captain of the Harvard Baseball Team, expressing his thanks for the Mayor's letter of congratulations. Captain Zarakov wrote, "May I express my thanks to you for your kind congratulations. It means so much to me to have received your letter, the thoughtfulness of which I shall always cherish."

There will be no change in contract price for these changes. Contract price, \$47,715 (estimated); no change as per this order; contract as standing, \$47,715 (estimated).

SET OF RESOLUTIONS SENT MRS. BYRD.

Mayor Nichols announced on July 1 that he had sent to Mrs. Richard Evelyn Byrd the following resolutions for Commander Byrd:

It is a great pleasure to send with this note the resolutions of congratulations to Commander Byrd and his associates, unanimously adopted at the dinner tendered by me to the members of the National Air Tour, under the auspices of the Municipal Air Board, on Wednesday evening at the Hotel Lenox.

We all rejoice at the safe arrival of the commander and renew our most earnest commendation on his latest demonstration of flying skill and intrepidity.

It is earnestly hoped that Boston will soon have the opportunity it desires to pay just tribute to him.

With every good wish and my kindest regards, I am,

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

MAYOR CABLES CONGRATULATIONS TO BYRD.

Upon learning of the arrival of Lieut. Richard E. Byrd and his associates, Mayor Nichols sent the following cablegram:

Lieut. RICHARD EVELYN BYRD, U. S. N., United States Embassy, Paris, France.

Kindly accept my hearty congratulations and those of the citizens of Boston in your splendid accomplishment in spanning the Atlantic Ocean by airplane from New York to Paris. Your courage and valor are a magnificent tribute to the United States Navy in one of the greatest feats of efficiency and valor in the history of civilization. I cordially invite you and your associates to be the guests of the City of Boston upon your return to the United States, that we again may have the opportunity to demonstrate our appreciation of your service to our country.

MALCOLM E. NICHOLS, Mayor.

MAYOR AWARDS DIPLOMAS TO NURSES.

Mayor Nichols attended the graduation exercises of the Long Island Hospital School for Nursing, addressing the graduates and congratulating them upon receiving their diplomas from one of the best training schools in Massachusetts.

The award of prizes and diplomas was made by William S. Kinney, Commissioner of Institutions.

The graduates were Marion Brooks, Sadie Dewey, Erayline Fahey, Elizabeth Hopkins, Lillian Slavin, Nellie Smith and Gertrude Taff.

The prizes given were donated by the Graduates' Association, composed of former graduates of the school. Music was furnished by the Boston Philharmonic Trio and the Schubert Quartet. The Mayor returned to Boston late in the afternoon.

MAYOR ANSWERS FINANCE COMMISSION ON USE OF AUTOMOBILES.

Mayor Nichols, on July 6, made the following comment on the report of the Finance Commission on municipal passenger automobiles:

The report of the Finance Commission on city automobiles is based upon the theory that unless a city car is under operation every hour of the working day said car is idle and ought to be subjected to a strict penalty, and so the recommendations are that all city cars shall be placed under lock and key for two months until they promise to behave.

During this period of two months the city is to employ some kind of taxicab service, but what would happen to the city in case the taxicabs decided to take a vacation in the form of a strike or their owners decided to go into some other business is of no concern to the framers of the Finance Commission report.

That is a question for the city.

If the Finance Commission is right in the statement about idle cars, then the fire apparatus ought to be permanently locked up on the ground that fires are not as frequent in the city as they ought to be and as they used to be.

There would be some value in the suggestion that the city cars be locked up while we experiment with taxicabs if, during that time, the Finance Commission would take a couple of months' vacation along with the cars and save at least a portion of that \$50,000 which the city pays annually for the light entertainment furnished by its reports.

Still talking about the collector's car, I see. The members of the commission were very glad to borrow this car not so very long ago, when for the first time in history they obeyed the impulse to see what the city looked like.

Of all the 600 big cities in the United States they picked out two where they say a saving has been effectuated. But note that no present day information is given about the two cities they mention, except that in one case they are obliged to state that the system was abandoned within the last few months and the expense increased. Thus the report admits a failure in the only two cities in the country of that policy which they now recommend to me.

Take a close look at the figures submitted in the report and you will find that they were compiled in such a manner as to make accuracy well nigh impossible. The report speaks about the number of hours city-owned automobiles were parked about City Hall. The experience of our Traffic Survey experts shows that it would take at least a dozen or more men to tabulate the length of stay of the cars referred to. Instead of a dozen men, however, the Finance Commission had in this service a youth hardly more than nineteen years old. By experience a skilled tabulator takes at least one hour to account for all the cars in the rear of City Hall. For instance, a car may be recorded at 9 a. m. at the beginning of the rounds made by the investigator. At 10 a. m. he checks the same car. He assumes, as any boy of nineteen would, that this car has been standing idle during the entire period, when in fact it has been in and out several times. The boy checked fifty-one cars and showed 320½ hours of idleness, over a period of six days, or an average of 6½ hours per car during said period, or less than an hour per day for each car at its terminal. This is about one hour for meals. Would the

Finance Commission penalize a poor car by locking it up for two months because it took an hour off for lunch?

Not long ago a representative of the Driv-ur-Self system came to City Hall and talked to an official of the Public Works Department. He said he had been sent by the Finance Commission to see if the city would try out the rented car scheme and he submitted his figures with correspondence which he had carried on with the Finance Commission.

A study of the terms presented failed to convince the official who has charge of city cars that there would be any advantage from making a change from the present custom of the city.

It is a matter of concern, however, to find the report of the Finance Commission specifically recommending this service to the city.

It is not the duty of the Finance Commission to interfere with the administration of public business as they are attempting to do. Their duty is limited to criticism and I had thought that they had lived 100 per cent up to that duty, but they are going still further and desire the city to make a contract with a company selected by themselves. Their whole report shows that they have no interest in any other system except that provided by this contract which they urge the city to make.

The Finance Commission is at times funny, never reliable, always queer. In the recommendation which it makes there is an inexcusable breach of propriety. It would be a serious matter if the public failed to take it as it is merely another piece of official roguishness.

FINANCE COMMISSION REPORT.

The Finance Commission has sent a communication to the Mayor and City Council as follows:

BOSTON, July 6, 1927.

To the Honorable the Mayor and City Council.

GENTLEMEN,—The Finance Commission presents a report on the wasteful policy of maintaining municipally-owned passenger automobiles. The report shows the following facts:

1. In 1926 the city maintained a fleet of 114 passenger cars valued at about \$87,210. The amount expended on passenger cars in this year was \$227,731.86, of which \$167,281.86 was for maintenance and \$60,450 for purchase of new cars.
2. The secretary to the Mayor has requisitioned a Fire Department car for his exclusive use with a fireman from the Fire Department acting as chauffeur.
3. Department heads constantly use their official cars for private purposes.
4. Official cars are parked in the rear of City Hall for long periods of idleness during the day and a count made by the Finance Commission for three days in April and three days in June showed a total in those six days of forty-six automobile days of idleness.
5. New York City, in the Mitchell administration, saved in six months \$50,000 by adopting a taxi system.
6. Pittsburgh, Pa., abolished private machines for city officials and contracted with a taxi company for service, and reduced expenses from \$108,597 to \$22,000.

Two kinds of taxi service are illustrated by the Edison system and the Pittsburgh system. By the first, the company retains ownership of a limited number of cars; but, instead of assigning them regularly to its various departments, it

holds them in a central garage and sends them out on call of the departments only when needed and only for official business. This system is well adapted for a private corporation operated on a basis of efficiency and economy. It is not so well adapted for the more wasteful service of a municipal corporation as is the Pittsburgh system under which the city owns, with a few exceptions, no passenger cars, but hires cars only when needed and only for official business.

There is one company in Boston, the "Driv-ur-Self" system, which could furnish cars when continuous daily use is required, as for inspection, and there is a taxi company that could contract to furnish cars as needed for departmental work on city business. Adoption of such service would be better for the City of Boston.

The Finance Commission recommends:

1. That the city abandon its present system of operation of passenger motor cars.
2. That, for the purpose of experimentation, all city passenger cars be placed under lock and key for a period of two months.
3. That arrangements be made for service:
 - (a) for inspectors' cars, on the "Driv-ur-Self" basis;
 - (b) for occasional calls, on the taxicab basis.
4. That immediate plans be made for the adoption of Recommendation No. 3.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

ASKS SHIP BE NAMED "BOSTON."

Mayor Nichols announced on July 1 that he had sent the following communication:

JULIUS P. MEYER, *Managing Director, Hamburg-American Line, 39 Broadway, New York City.*

DEAR MR. MEYER,—Mr. Frank S. Davis, manager of the Maritime Association of the Boston Chamber of Commerce, recently called at the headquarters of your company at Hamburg and presented a communication from me addressed to Dr. Wilhelm Cuno, president of the Hamburg-American Line, expressing the earnest desire of the business interests of New England, and especially of Greater Boston, that your company re-establish its passenger and freight service at the Port of Boston that had been interrupted during the war.

The business men of this section would be appreciative of having the name "Boston" given to one of your new steamers in recognition of the fact that although now but a port of call more than 25 per cent of the total overseas passenger traffic of your company at United States ports is transacted through Boston.

Mr. Davis was very cordially received and informed that this request would be taken up with you and that necessarily it would be contingent upon your recommendation.

I sincerely trust that this request may be acted upon favorably by you and that the name of the great and important shipping port of Boston will find its rightful place upon one of your new boats.

With every assurance of my high regard, I am,

Sincerely yours,

MALCOLM E. NICHOLS, *Mayor.*

MAYOR ADDRESSES SHOE MERCHANTS.

Mayor Nichols delivered the following address of welcome at the Annual Convention of the New England Retail Shoe Merchants Association, Hotel Statler, at 10.30 a. m., Wednesday, July 6, 1927:

MR. PRESIDENT AND GENTLEMEN OF THE NEW ENGLAND RETAIL SHOE MERCHANTS ASSOCIATION.

DEAR FRIENDS,—It is a very gratifying honor and pleasure to come to this representative convention of the New England Retail Shoe Merchants Association, allied with the New England Shoe and Leather Exposition, forming so vital and integral an industry of Boston, Massachusetts and New England, and to bring to you the hearty greetings of the City of Boston as its Chief Executive.

I have been very pleased to note the precision and detail which attends both this convention and exposition, providing meetings of the gentlemen of the retail shoe industry, a director's meeting of the National Boot and Shoe Manufacturers' Association, a meeting of the Board of Governors of the National Shoe Travelers' Association, an advertising conference of the Tanners Council of America and also an important get-together conference of the National Shoe Wholesalers' Association.

It was an especially happy forethought that brings so many representatives of one of our country's greatest industries together under the hospitable roof of Hotel Statler, and I sincerely trust that your deliberations may result in the advancement of the shoe and leather trade whose operation covers the entire civilized world.

The importance of this convention and exposition is well attested by the fact that gentlemen who stand as the leading authorities of shoe merchandising, advertising, and survey of conditions attending your important industry, have come from all parts of the country to address you.

We are proud as citizens of Boston in the primacy which our municipality enjoys in the shoe and leather trades. We have one of the greatest and finest seaports in the United States, through which immense cargoes of hides and skins come from South America, the Far East and Europe, week by week, for immediate distribution to approximately eight hundred tanneries in the United States. Consignments of shoes, leather and machinery related to their manufacture go from the Port of Boston, week by week, to every part of the civilized world.

It was my pleasure last spring to visit Washington and at a hearing before the United States Shipping Board earnestly request that twelve ships, engaged in South American trade, might be allocated to the Port of Boston, and which effort, I am very proud to say, was successful.

I firmly believe that our trade with Argentina, Brazil and Uruguay and other countries of South America can be vastly extended in the import and export of shoes, leather and supplies, and the enjoyment of the greatest South American reciprocity the merchants of Boston, Massachusetts and New England have known in the history of time.

I appeal to you, gentlemen, as representative manufacturers of Boston, the State of Massachusetts and New England, as well, to give to these South American ships the full measure of your co-operation and support, in order that this character of South American mer-

chandising may be made so successful that the ownership of these ships may eventually pass to Boston, Massachusetts, and New England merchants and bring forth a repetition of the successful trading policies that originally resulted in the laying of the foundation of so many of Boston and Massachusetts fortunes.

The citizens of Boston are proud of the success which has attended nearly three centuries of shoemaking in Massachusetts, since that day in 1630, when Thomas Beard, the English shoemaker, landed at Plymouth, with a modest stock of leather and cobblers' tools and began the shoe industry in our Commonwealth.

From this humble beginning, through nearly three centuries of time, Massachusetts and New England has comprised the greatest and most wonderful shoe manufacturing center the world has ever seen, notwithstanding the growth of the shoe and leather trade which has come so successfully to other parts of the country, and produce 36 per cent of the nation's boots and shoes, and sell our products successfully in all the forty-eight states of the Union and to the whole civilized world.

In the City of Boston we have been especially successful in shoe manufacturing in South Boston, Roxbury and East Boston, while in New England it is a very gratifying fact that we have been able to produce everything in footwear, from infant's sandals to lumberman's boots and from broadcand slippers to Indian moccasins, to say nothing of sales of innumerable tons of leather that are produced in scores of New England tanneries.

Mr. Thomas F. Anderson, your splendid secretary, whose untiring labors have proved so material a contribution to the shoe and leather trade has estimated that during sixty years there have been shipped from Boston to other places over 4,000,000,000 pairs of boots and shoes.

The City of Boston has been noted for many generations as the financial and distributing center of the New England shoe and leather industry, containing over 1,000 factories, warehouses, offices and other headquarters of your trade.

I am pleased to note that in the State of Massachusetts there are over seventy communities manufacturing shoes, and it has been estimated that in Massachusetts and New England we have an investment in the shoe industry of between \$250,000,000 and \$300,000,000, requiring over 125,000 skilled operators and manufacturing footwear to the value of more than \$500,000,000 a year.

I congratulate heartily the splendid labors of the gentlemen of the United Shoe Machinery Company, who have developed the world's greatest shoe machinery plant at Beverly, providing shoe machinery for over 1,400 factories in the United States and with a staff comprising 5,000 skilled workmen, when business is at its height.

The shoe industry of Boston gave to our city a noted and dearly beloved Mayor, my predecessor in office, the late Gen. Augustus Pearl Martin, born in Abbot, Maine, November 23, 1835, and who passed away in Boston March 13, 1902, and who served the City of Boston as Mayor during 1884.

Mayor Martin, during his single year in office, performed a tremendous public good in providing against political interference with city employees, especially in the Fire and Police Departments, and those laborers engaged upon public works.

Mayor Martin was a firm adherer, as Mayor of Boston, of a policy of pay-as-you-go, and during a single year in office reduced the net debt of the City of Boston \$1,748,000.

The shoe and leather industry gave to the State of Massachusetts two splendid governors, William Claflin, who served from 1869 to 1872, and William L. Douglas, who served from 1905 to 1906. Both governors gave liberally of their private means, accumulated in your sterling industry, for the betterment of the communities in which they lived.

In the history of the Executive Council of the State of Massachusetts, I know of no man who has served with greater intelligence and industry, made greater sacrifice of valued time, or one who has lived and labored for this Commonwealth more successfully than your splendid representative of the shoe and leather industry, Hon. Elwin T. Wright of Rockland.

I am proud to learn that in Boston, Massachusetts and New England we are manufacturing 50 per cent of the shoes exported abroad, while it is also a fact that Boston today possesses the best shoe-fitting methods enjoyed in any city of the United States.

Gentlemen, I beg you will stand firmly behind the New England Retail Shoe Merchants Association, and the New England Shoe and Leather Fair. They stand for all that is best in the active co-operation, so essential to the selling of New England shoes to New England and the entire country and for the up-building of the finest traditions which can surround your industry.

In closing, may I especially invite you gentlemen who come from distant parts to visit the historical shrines that mark our beautiful city where American liberty was born.

Gentlemen, you will find countless delights in visiting Bunker Hill, Dorchester Heights, Faneuil Hall, the Old South Church, the Old North Church, the home of Paul Revere, Lexington and Concord, and other kindred points of interest that mark the birth of this honored nation.

Gentlemen, I sincerely trust that this convention may achieve every success which its sponsors look forward to and even more than you can now anticipate.

BUILDINGS REMOVED.

The Mayor, upon request of the Building Department, has approved the securing or removing of the following structures:

To enter the building at 429 and 431 Neponset avenue, Ward 16, and secure or remove the portion of the building remaining after the taking by the state for a boulevard.

The owner, Jacob Friedberg estate, trustees of Codman Park Trust, 11 Beacon street, has been served with a notice relative to the unsafe condition of the building, but neglects to remove the cause for complaint.

The building is in such a condition as to constitute a fire menace and a nuisance.

To enter the building at 166 Arlington street, Ward 5, and secure or remove same.

The owner, E. C. Horgan of 3 Copley street, Brookline, has been served with a notice relative to the unsafe condition of the building, but neglects to remove the cause for complaint.

The building is in a very unsafe and dangerous condition.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Canaan street, bounded:

Southwesterly by Alabama street, ten and 1-100 feet; westerly by another part of Canaan street, twenty-one and 29-100 feet; again southwesterly by the same, six hundred ninety-two and 98-100 feet; northwesterly by Livermore street, ten and 7-100 feet; and northeasterly by another part of Canaan street, seven hundred twenty-two and 54-100 feet, containing seventy-four hundred and forty-six square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Livermore street, bounded:

Southeasterly by Canaan street, ten and 7-100 feet; southwesterly by another part of Livermore street, twelve and 11-100 feet; northwesterly by the same, ten feet; and northeasterly by the same ten and 92-100 feet, containing one hundred and fifteen square feet, more or less.

The sewerage works to be constructed are as follows: 710 linear feet of 12-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Canaan street, between Livermore street and Alabama street, and part of the private way known as Livermore street, adjoining Canaan street.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Canaan street, from Alabama street to Livermore street, and the lot of abutting land on the northwesterly side of Livermore street, supposed to belong to the Boston Association for the Relief and Control of Tuberculosis, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 744, Sewerage Works, Canaan Street, Dorchester, March 5, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the widening and construction of Green street, West Roxbury district, as a highway, at the southeasterly corner of Centre street, bounded and described as follows:

The highway named Green street is hereby widened at the southeasterly corner of Centre street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is taken in the following described land exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Sarah Kroll, situated at the southeasterly corner of Centre street and Green street bounded and described as follows:

Westerly by Centre street, sixteen and 86-100 feet; northeasterly by Green street, sixteen and 86-100 feet; and southeasterly by other land supposed to belong to said Kroll, twenty-three and 1-100 feet on a curve of twelve and 17-100 feet radius, containing sixty-five square feet, more or less.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said widening of said highway is bounded and described as follows:

Westerly by the easterly line of Centre street as it existed previous to this widening, sixteen and 86-100 feet; northeasterly by the southwesterly line of Green street as it existed previous to this widening, sixteen and 86-100 feet; and southeasterly by the southeasterly line of Green street as hereby widened, twenty-three and 1-100 feet on a curve of twelve and 17-100 feet radius, containing sixty-five square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that the undermentioned person sustains damages in her estate by the making of the public improvement, consisting of the widening and construction of Green street, West Roxbury district, as a highway, at the southeasterly corner of Centre street, under the order of the Board of even date herewith, in the amount hereinafter mentioned, and awards said amount therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Frontenac street, bounded:

Northerly by another part of Frontenac street, two hundred and twenty-eight feet; easterly by the same, six feet; southerly by the same, two hundred and twenty-eight feet; and westerly by the same, six feet, containing thirteen hundred and sixty-eight square feet, more or less.

The sewerage works to be constructed are as follows: 221 linear feet of 10-inch pipe sanitary sewer, in the above-described premises, being part of the private way known as Frontenac street, between Blue Hill avenue and Lucerne street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Frontenac street, beginning at a point approximately 110 feet east of Blue Hill avenue, and extending easterly for a distance of approximately 272 feet, excluding the lots at the corners of Ashton street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 770, Sewerage Works, Frontenac Street, Dorchester, June 2, 1921, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

FIRE DEPARTMENT ORDERS.

General Order No. 41.

I. U. S. FRIGATE "CONSTITUTION."

In an endeavor to raise funds for the restoration of the famous frigate "Constitution" the commandant of the First Naval District is selling a beautiful ten-colored reproduction of Gordon Grant's oil painting, "Old Ironsides." No contributions are being sought. The price of the picture is twenty-five cents each.

Company commanders are requested to bring this matter to the attention of members. If members desire to purchase pictures and add to the fund being raised they should forward the twenty-five cents to the Chief of Department through their commanding officers, and the pictures will be obtained and sent to them. This should be done on or before July 15, 1927.

Company commanders must see that these changes and additions are made on circuit cards.

III. BOARD OF MERIT.

The Board of Merit is reorganized this date and will consist of the chief of department and the six deputy chiefs.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

UNUSUAL REQUESTS IN MAYOR'S MAIL.

Two unusual requests appeared in the mail of Mayor Nichols. The first was from an individual in Baltimore which is quite timely, owing to the keen interest taken in aviation. The individual asks that the envelope which would be received by the Mayor on July first containing the letter relative to the first anniversary of the Boston to New York Air Mail be sent him.

The other was from Darby, Penn., and is also by a man. He states that his mother is making an old-fashioned quilt of silk patches and would appreciate it very much if the Mayor would send him one of his silk neckties to represent the City of Boston. Apparently other mayors of other cities have been honored with the same request according to the letter.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the laying out and construction of Rockdale street, Dorchester district, as a highway, from Randolph road to Oakland street, bounded and described as follows:

A highway named Rockdale street is hereby laid out from Randolph road to Oakland street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southwesterly by Randolph road, forty and 23-100 feet; northwesterly by the northwesterly line of said Rockdale street as hereby laid out, by three measurements, four hundred ninety-five and 90-100 feet, four hundred eighty-six and 53-100 feet, and five hundred twenty-one and 19-100 feet; northeasterly by Oakland street, forty and 33-100 feet; and southeasterly by the southeasterly line of said Rockdale street as hereby laid out, by three measurements, five hundred sixteen and 89-100 feet, four hundred eighty-six and 53-100 feet and four hundred ninety-nine and 39-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Rockdale street, from Randolph road to Oakland street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Rockdale Street, Dorchester, Assessment Plan, May 24, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

PROCEEDINGS OF CITY
COUNCIL.

Monday, June 27, 1927.

Regular meeting of the City Council in the
Council Chamber, City Hall, at 2 p. m., Presi-
dent HEFFERNAN in the chair. Absent,
Coun. DOWD.

WELCOME TO SUPERVISOR JAMES B.
MC SHEEHY.

Coun. DOWLING—Mr. President, I move
that Rule 27 of our rules be suspended, and
in connection with the motion simply de-
sire to say that in an adjoining room there
is a distinguished visitor to Boston in the
person of James B. McSheehy, chairman of
the Board of Supervisors of San Francisco,
a position similar to that which you occupy
in this body, Mr. President. Mr. McSheehy
is here investigating municipal matters, and
I believe incidentally he is a cousin of our
City Clerk. I move, therefore, a suspension
of the rule, so that a committee may be ap-
pointed to escort Mr. McSheehy to the Coun-
cil Chamber and that the courtesy of the
Chamber be extended to him.

The motion was carried, Rule 27 being
suspended, and President HEFFERNAN ap-
pointed City Messenger Leary to escort Super-
visor McSheehy to the platform.

The City Messenger performed the duty as-
signed, and Mr. McSheehy was welcomed by
President HEFFERNAN.

President HEFFERNAN—The Chair will at
this time call on our distinguished visitor to
make a few remarks. I understand that he
is chairman of the Board of Supervisors
of the city of San Francisco, a body similar
to our Council, and has been a member of
the San Francisco government for the past
ten years. I am informed that he has re-
cently been in Washington in connection with
the petition of the City of San Francisco
for the right to construct a bridge between
Oakland and San Francisco, a bridge which
will be the longest one of the kind in the
world and will cost somewhere between
\$75,000,000 and \$100,000,000. Mr. McSheehy
is also a relative of our genial City Clerk.
I take great pleasure in presenting to the
body James B. McSheehy of San Francisco.
(Applause.)

Mr. MC SHEEHY—Mr. President and gen-
tlemen of the Boston City Council, after an
introduction of this kind it is rather hard

for a citizen of the wild and woolly West
to attempt to address such a dignified body.
I had the pleasure of visiting Boston some
five years ago. My father was born in Bos-
ton. Naturally, Boston is very, very dear
to me, and I was greatly elated Saturday
and yesterday when my genial relative, your
City Clerk, toured the city with me and
showed me what had been done during the
past five years. I was more than surprised
at the vastness of some of the work you
have been doing, especially in the widening
of your streets. You have accomplished
gigantic tasks, undertakings that have cost
a great deal of money, and it has been a
source of much gratification to me to be
able to see what has been accomplished. Last
night I visited one of your theaters, and
I want to tell you that we have nothing
out in San Francisco that is at all comparable
with your wonderful Metropolitan Theater
here. So, taking it all in all, I have been
greatly delighted with my visit to Boston
and what I have seen in your city. We have
in San Francisco a Board of Supervisors,
eighteen in all. We are elected at large for
a term of four years. I imagine that our
business is similar to your business. I un-
derstand that there are twenty-two members
of your Council and that you are elected
by districts. When I was here four years
ago there were but nine members of your
City Council, where there are now twenty-
two. I think a council of twenty-two is
perhaps a great deal better than one of nine.
We are sometimes criticised in our city for
being unwieldy but, after all is said and
done, there is a great deal of value in the
counsel of many minds. I wish to thank you,
Mr. President, and gentlemen of the Council,
for the courtesy you have extended to me
here today, and in behalf of the city and
county of San Francisco I extend to you
all an invitation to visit at some time in
the near future; and I say to you one and
all, that if any one of your members or a
group of members visit our city I will assure
you that the same hospitality will be shown
to you that has been shown to me. We,
too, have a great city, one to be proud of,
but you here in Boston have a great many
things that we have not in San Francisco.
We may well try to imitate you in some
ways. Once again, I thank you, and I hope
that I will sometime in the near future be
able to reciprocate the hospitality that you
have shown me. (Applause.)

President HEFFERNAN—The Chair, on
behalf of the Council, thanks Mr. McSheehy
for his kind words.

POND AND EAST COTTAGE STREETS.

The following was received:

City of Boston,
Office of the Mayor, June 21, 1927.
To the City Council.

Gentlemen,—I transmit herewith communi-
cation from Street Laying-Out Department
in reply to your order of June 10 in relation
to request to designate as a one-way street
for north-bound traffic, Pond street and East
Cottage street.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

Boston, June 20, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Answering the orders of City
Councilor Lynch relative to designating Pond
street and East Cottage street, Ward 7, one-
way streets under the traffic rules.

The Board considers the making of new
one-way streets a major amendment to the
traffic rules, and the Board is at present un-
der promise to the Mayor's Traffic Advisory
Board not to make any such amendments to
the rules until the report of this Advisory
Board has been presented. This report has
been promised for December of this year.

Respectfully,
For the BOARD OF STREET COMMISSIONERS,
THOMAS J. HURLEY, Chairman.

ENFORCEMENT OF PARKING
REGULATIONS.

The following was received:

City of Boston,
Office of the Mayor, June 22, 1927.
To the City Council.

Gentlemen,—I transmit herewith communi-
cation from the Fire Department in reply to
your order of June 6 in relation to informa-
tion regarding the enforcement of parking
regulations, which will permit the Fire De-
partment to operate efficiently upon city
streets.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Fire Department, June 16, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I return herewith the following
order passed by the City Council on June 6,
1927:

"Ordered, That the Fire Commissioner,
through his Honor the Mayor, be requested
to inform the City Council what steps, if

any, are being taken to enforce parking regulations, which will permit the Fire Department to operate efficiently upon the streets of the city.

In City Council, June 6, 1927. Passed.

Attest:

W. J. DOYLE,
Assistant City Clerk."

In reply thereto I would say that everything is being done under the law to facilitate the passage of fire apparatus through the streets of the City of Boston. In accordance with chapter 278 of the Acts of 1926, cases that come to the attention of the Fire Commissioner, where operators of automobiles who maliciously violate the provisions of section 7A, chapter 89, of the General Laws, are reported to the Registrar of Motor Vehicles.

Every assistance is being rendered by the Police Department to relieve the congestion.

Yours very truly,
E. C. HULTMAN,
Fire Commissioner.

NEEDS OF TENEAN BEACH.

The following was received:

City of Boston,
Office of the Mayor, June 24, 1927.
To the City Council.
Gentlemen,—I transmit herewith a communication from the Park Department in reply to your order of June 6, 1927, in relation to conducting a study of the needs of Tenean Beach, Dorchester.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, June 20, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I have your memorandum of June 10, with inclosure, order of the City Council relative to conducting a study of the needs of Tenean Beach, Dorchester, and in reply I desire to say that there is no doubt but what the small area now under the control of the Park Department should be increased. Freeport street will be closed within a short while, and all the bathing in the Dorchester district will have to be cared for at Tenean Beach.

At the present time there is available land fenced off by the owners which can be purchased for the assessed valuation. As it is in the market, there is no telling when same may be purchased by some manufacturing concern which will remove the beach rights and also the unoccupied land.

Tenean Beach is one of the most popular bathing resorts under the control of the Park Department and we should have as much available waterfront in this vicinity as it is possible to obtain to care for the populace.

Very truly yours,
WILLIAM P. LONG, Chairman.

Gentlemen,—I transmit herewith a communication from the Park Department in reply to your order of June 14, 1927, in relation to list of prices to be charged for refreshment at the Headhouse, South Boston.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, June 23, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I have your memorandum of June 22, with inclosure, order from the City Council that the Park Commission be requested, through his Honor the Mayor, to submit to the City Council a list of prices to be charged for refreshments at the Headhouse, South Boston.

In reply I desire to submit the following:
Ice cream soda, 20 cents; cones, small, 5 cents; cones, large, 10 cents; hot dogs, 10 cents; peanuts, 5 cents; popcorn, 5 cents.
Very respectfully yours,
W. P. LONG, Chairman.

MUNICIPAL GOLF LINKS, LONG ISLAND.

The following was received:

City of Boston,
Office of the Mayor, June 24, 1927.
To the City Council.
Gentlemen,—I transmit herewith a communication from the Park Department in

reply to your order of June 14, 1927, in relation to considering the advisability of establishing a municipal golf links on Long Island.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, June 23, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I have your memorandum of June 22, with inclosure, order from the City Council that the Park Commission be requested, through his Honor the Mayor, to consider the advisability of establishing a municipal golf links on Long Island.

In reply I desire to say that the Board of Park Commissioners does not think it advisable to make this study as it feels there is not enough available land on Long Island to properly build a municipal golf links of eighteen holes.

Very respectfully yours,
W. P. LONG, Chairman.

PROPOSED FIRE STATION, WEST END.

The following was received:

The Finance Commission, 11 Beacon Street,
Boston, June 27, 1927.

To the Honorable the City Council.
Gentlemen,—The Finance Commission submits herewith a report on the communication and loan order for a new fire station in the West End, submitted by his Honor the Mayor to your honorable body on June 6, 1927.

The Fire Commissioner proposed in his report to the Mayor, dated December 21, 1927, that a new fire station be built in the West End to house four fire companies. If this is done he intends to abandon the fire houses on Bulfinch, Leverett and North Grove streets and to house the companies occupying these quarters; as well as the fire tower formerly located in this district, in this building.

The Finance Commission inspected the houses in question and witnessed a demonstration of running the apparatus in and out. Although the interior of one of the houses has been painted and improved, it found in general that the description given by the Fire Commissioner in his report was justified. The buildings are obsolete and poorly located. It is difficult to manœuvre the apparatus in the narrow streets and it would be impracticable to use one of the houses and impossible to use the other two for the longer apparatus now required for fighting fires in high buildings. The commission is of the opinion that this proposal of the Fire Commissioner should be carried out.

The Fire Commissioner suggested that the lot at the corner of Bulfinch and Cambridge streets, which is the remnant of the Revere House lot after the widening of Cambridge street, would be an "ideal site for the new house." It is the opinion of the commission

that the lot recommended is well adapted for the purpose. It has sufficient frontage on a broad thoroughfare, is located at the crown of the hill and affords access through several streets to the district to be protected. It is not the duty of the commission, however, to select the site and if the lot in question cannot be obtained at a proper price some other lot should be selected.

While agreeing with the Fire Commissioner as to the desirability of housing the several pieces of apparatus in one new station on a suitable lot, the commission feels called upon to comment on the position taken in the matter by Mr. Warren F. Freeman, the city's real estate agent. He, with two other real estate men, was directed to report on possible sites for the consolidated fire house in the West End. He made a written report to the Mayor, in which he described some eight or ten separate parcels of land. The first four adjoin each other, three fronting on Sudbury street, near Hanover street, and the fourth on Hanover street but adjoining the others in the rear. For fire house development part or all of these lots could be considered as one large parcel. Another parcel mentioned was at the junction of Cambridge and Green streets, the building being known as the Parkman Building. Several adjoining lots at the corner of Cambridge and Chardon streets, owned by the New England Telephone and Telegraph Company, practically constituting one parcel, were described. The last lot mentioned by the real estate agent was the Revere House lot in question. In the report he pointed out certain advantages or disadvantages of the various lots described. Referring to the Revere House lot, he said, "This lot used in connection with the city's lot adjoining on Bulfinch street in the rear would make, in my opinion, an ideal site for the new Central Fire Station in that section of the city, as Cambridge street and Bowdoin square in front of the property are of sufficient width to handle any and all fire apparatus that the city now has or would have for many years to come."

The Revere House lot is owned by a Massachusetts corporation called the Revere Building, Incorporated. One half the interest in this corporation is owned by Mr. Freeman. In his written report he did not disclose to the Mayor that he was interested in this lot. Appearing before the commission, Mr. Freeman testified that the Mayor knew he was interested in the property as an owner, but that he did not think the Mayor knew his particular interest. He also said that though he did not tell the Mayor he was personally interested, the Mayor knew it because he had refused permits to conduct a bowling alley and a dance hall on the premises.*

In a communication answering an inquiry from the commission, the Mayor stated: "At the time Mr. Freeman submitted his report upon fire-house sites in the Bowdoin square district, he made no reference to his interest in the Revere House property. He had, however, called the attention of this office to his interest some time ago, when an application for a license for the use of this property was refused by me. At that time I did not learn the exact nature of his interest and had long since dismissed it from my mind when the three fire-house reports were received. When I received these reports I was, of course, aware that he had some sort of interest in the Revere House parcel, because it is a matter of common knowledge. In fact it is indicated by a generous display of his placards all over the property."

Holding the position of real estate agent of the city, it was the duty of Mr. Freeman to make sure beyond a doubt that his private interest in any site recommended was known at the time of his report. It is obvious that he should not represent the city further in obtaining a site for the fire station in this district.

The location recommended by the Fire Commissioner was in 1926 assessed for both land and buildings for \$260,000. The assessors' records indicate that in making the assessment the building on the land was estimated to be two-thirds finished. The Boston Real Estate Exchange was employed by the Finance Commission to make an official appraisal of the property. Under date of June 24, 1927, it certified † that in the opinion of its Appraisal Committee the fair valuation of the property as of that date was \$300,000. The Finance Commission has before it evidence of the amount paid by the present owners for the land and of the cost of the building erected thereon. On all the evidence before it the commission finds that \$300,000 is a fair value for the property. The Mayor, however, has recommended that a loan order for \$750,000 be passed by your honorable body, of which \$400,000 is estimated as the cost of the site. If the amount of \$300,000 is granted for the site the loan order may be reduced to \$650,000.

* Mr. Freeman's testimony on this point is set forth in Appendix A.

† A copy of this certificate is annexed as Appendix B.

If it should turn out that more than \$300,000 is required for the site, the City Council can increase the amount of the loan. On the other hand, if it provides the full amount now requested, it has placed the determination of the amount to be expended beyond its control.

The Finance Commission therefore recommends:

1. That a loan order be passed to enable the Fire Department to carry out its plan of abandoning three inadequate fire stations and of building a new station to accommodate four fire companies.

2. That, if the pending loan order is to be passed on the basis of the location approved by the Fire Commissioner, not more than \$300,000 be allowed for the site and not more than \$350,000 for erecting the new building.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

APPENDIX A.

Testimony of Warren F. Freeman before the Finance Commission, June 9, 1927.

A. I didn't tell him I was personally interested, but he knew it because—if you want to hear a little history—we had an opportunity to rent the second floor on a five-year lease for a dance hall for \$—, on a graded lease up to \$—, on a graded lease from \$— to \$— for a bowling alley, and the Mayor refused to sign them both and threw them out of the window, and the statute says he shall sign the permit. There is an action over here now in the Superior Court to oblige him to.

Q. That is how he knew of it? A. He knew I was interested as an owner. I don't know as he knew my particular interest. I don't know as he knew any of the details. I never told him and he never asked me.

Q. Did you discuss the matter with him and tell him you owned that property? A. No more than any property. I gave him my report.

Q. So when the Mayor assigned you to this particular job he did know you owned the Revere House parcel with Mr. Dobbins? A. I am inclined to think [he knew] that I was interested, but what my interest was, I don't know whether he did or not.

The pay roll of the Registry of Deeds for the period from May 16 to June 18, 1927, amounting to \$9,468.69, was received and approved.

PLAYGROUND NEAR CLARENDON HILLS STATION.

Coun. WRAGG offered the following:

Ordered, That the Park Commissioners be requested, through his Honor the Mayor, to provide a playground in the vicinity of Clarendon Hills Station, Hyde Park, to serve the new proposed high school, the Metropolitan Hill section and the Mount Hope section of Ward 18.

Passed under suspension of the rule.

SMITH'S POND PLAYGROUND.

Coun. WRAGG offered the following:

Ordered, That the Park Commissioners be requested, through his Honor the Mayor, to put Smith's Pond Playground in condition.

Coun. WRAGG—Mr. President, I might state, in connection with this order, that the playground referred to is one of the old playgrounds in my district. As a matter of fact, it is the only playground we have there. It was given to the city some few years ago and in 1916 the city did some work there, making it possible in a way to use the ground as a playground at that time. Since then nothing has been done. The playground has been allowed to go from bad to worse, until that has become a very dangerous and swampy piece of ground. It is not a place where children could or should play; as a matter of fact, it is not a playground now at all. Last year I had an estimate made by the Park Commissioners of the cost of putting this playground in condition, and we were told that it would cost some \$39,000. The grounds are so poor that the high school in its recent games used Roslindale grounds to play their games upon, with other schools in Boston. Therefore, I move a suspension of the rule and the passage of the order.

Coun. GUILD—Mr. President, I would like to inquire if the councillor who has introduced the order is prepared to state to the Council how much will be left in the item in the budget for the improvement of playgrounds, provided \$39,000 is spent to fix up this one playground?

Coun. WRAGG—Mr. President, I am not prepared to say. I am prepared to say that the ground is in bad condition and would be improved if they would spend any amount on it. I don't care if they spend only \$1,000, if the youngsters will be able to play ball there. The order provides for \$39,000, the amount that we were told would fix up the grounds, but if they can spend \$1,000 or \$2,000 or whatever may be necessary to put the grounds in condition for a playground—in a condition where it can be used—I shall be satisfied.

The order was passed under suspension of the rule.

LICENSES FOR PARKING ON VACANT LAND.

Coun. GUILD offered the following:

Be it ordained by the City Council of Boston, as follows:

Section 1. No person, firm, corporation or real estate trust which owns, occupies or controls vacant land in the City of Boston shall permit the whole or any part thereof to be used for the storage or parking of motor vehicles, except such as are owned by the person, firm, corporation or real estate trust owning or controlling such land, without first obtaining a license for such use of such land from the Board of Street Commissioners.

Section 2. The Board of Street Commissioners shall not issue any license under the foregoing section unless and until the application therefor is approved in writing by the Fire Commissioner.

Section 3. The fee for such license shall be one hundred (100) dollars per annum for each ten thousand (10,000) square feet of land or fractional part thereof so used or five dollars per day for the same area.

The ordinance was declared referred to the Committee on Ordinances.

Coun. WARD—Mr. President, I think that is unconstitutional, and I move that it be referred to the Law Department.

The ordinance was referred to the Committee on Ordinances.

PAVING OF WILLIAMS STREET.

Coun. ENGLETT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Williams street, West Roxbury.

Passed under suspension of the rule.

SIDEWALK ON SUNNYSIDE STREET.

Coun. FREELEY offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Sunnyside street, from Westerly street to Creighton street (southerly side), Ward 10, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

PLAYGROUND IN GERMANTOWN.

Coun. KEENE offered the following:
Ordered, That the sum of fifty thousand dollars be and hereby is appropriated for the purpose of purchasing land for the construction of a playground in that part of Ward 20 known as Germantown.

Referred to the Committee on Finance.

PLAYGROUND IN BRIGHTON.

Coun. KEENE, for President HEFFERNAN, offered the following:

Ordered, That the sum of seventy-five thousand dollars be and hereby is appropriated to be expended under the direction of the Park Department for the purchase of land in Brighton, in the section bounded by Arlington, Market, Faneuil and Parsons streets, to be used as a playground, and that to meet such expense the City Treasurer be authorized to issue, from time to time, at the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

SIDEWALK ON LONGWOOD AVENUE.

Coun. ARNOLD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Longwood avenue, southwesterly side, from Brookline avenue to Riverway, Ward 4, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON BROOKLINE AVENUE.

Coun. ARNOLD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Brookline avenue, from Fenway to Riverway, Ward 4, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

LAYING OUT ACADIA STREET.

Coun. MAHONEY offered the following:

Ordered, That the Board of Street Commissioners be requested to accept and lay out as a public street Acadia street, Ward 6, from East First to East Second street.

Passed under suspension of the rule.

HEARINGS ON GASOLINE LICENSES.

Notices were received of hearings before the Board of Street Commissioners on July 5 and July 11, 1927, on various petitions for licenses for the storage and sale of gasoline.

Referred to the Executive Committee.

IMPROVEMENT OF TENEAN BEACH.

Coun. GILBODY offered the following:

Ordered, That the sum of fifty thousand dollars be and hereby is appropriated to be expended under the direction of the Park Department for the improvement of Tenean Beach in Dorchester, and that to meet such expense the City Treasurer be authorized to issue, from time to time, at the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to Committee on Finance.

RECESS.

On motion of Coun. PARKMAN the Council voted at 2.30 p. m. to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber, and were called to order by President HEFFERNAN at 3.03 p. m.

2. Report on names of certain constables which were referred to and have been under consideration of the committee—recommending that the name, No. 11, of Barnet Levenbaum, No. 15, John F. Welch, No. 12, Corrado Palladino, and No. 14, Roman J. Vasil, be confirmed; and that No. 9, John H. Brady, No. 13, Maurice Rosenberg, and No. 15A, Albert V. Walton, be rejected; and that the name, No. 10, of Thomas Cannizzaro be laid on the table.

Report accepted.

President HEFFERNAN—The question first comes on confirmation of the appointment of John H. Brady, No. 9 on the calendar. The committee recommends that the name be rejected. Committee, Coun. McGrath and Engler.

Whole number of ballots on confirmation of John H. Brady, 16; yeas 3, nays 13, and the appointment was rejected.

In accordance with the report of the committee the name of Thomas Cannizzaro, No. 10, was laid on the table.

The question came on confirmation of the appointment of Barnet Levenbaum. Committee, Coun. Ruby and Mahoney. Whole number of ballots, 16; yeas 13, nays 3, and the appointment was confirmed.

The question came on confirmation of the appointment of Corrado Palladino. Committee, Coun. McMahon and Parkman. Whole number of ballots, 18; yeas 12, nays 6, and the appointment was confirmed.

The question came on confirmation of Maurice Rosenberg.

Coun. WILSON—Mr. President, I will simply say, in relation to this one name, that Mr. Rosenberg wishes to resign. He does not want the job. He has no wish to do this sort of work. That is the reason why the committee reported unfavorably.

Coun. WARD—Mr. President, I move that the name of Maurice Rosenberg be laid on the table.

Coun. WILSON—I would simply ask, Mr. President, if it is laid on the table, if it is going to appear before us on the calendar week after week.

President HEFFERNAN—Yes, until it is acted upon.

Coun. WARD—Mr. President, I believe this is the man who came and told the committee just what he thought of everybody, with fire in his eyes. I don't think his name should pass. I think there should be an opportunity to interview some of these men

who come before the Committee on Constables. If this is referred back it will satisfy me.

Coun. WILSON—Mr. President, I would just suggest that, Coun. Ward being a member of the Committee on Constables, we would have welcomed his presence last Friday afternoon, at which time the matter was gone into.

Coun. RUBY—Mr. President, in regard to Mr. Rosenberg's name, if a letter is sent to his Honor the Mayor with his resignation, will it then be necessary to have any further action taken by this body?

President HEFFERNAN—The Chair will rule that it would not be; that if the resignation is sent to his Honor the Mayor no further action will be necessary.

Coun. RUBY—Then, Mr. President, I ask that this name lie on the table, so that he will not have the record of rejection standing against him, and so that I may get him to send a letter to his Honor the Mayor before the next meeting.

The name of Maurice Rosenberg was laid on the table.

The question came on confirmation of Roman J. Vasil. Committee, Coun. Gilbody and Fitzgerald. Whole number of ballots, 16; yeas 15, nays 1, and the appointment was confirmed.

The question came on the confirmation of John F. Welch. Committee, Coun. Wragg and Green. Whole number of ballots, 18; yeas 14, nays 4, and the appointment was confirmed.

The question came on confirmation of Albert V. Walton. Committee, Coun. Guild and Keene. Whole number of ballots, 18; yeas 3, nays 15, and the appointment was rejected.

PUBLIC LANDS.

Coun. McGRATH, for the Committee on Public Lands, submitted a report on the order (transmitted by the Mayor and referred June 6) authorizing the Mayor, in the name and behalf of the city, to lease to the United States Government the land of Spring street, in West Roxbury, formerly used and occupied as the West Department of the Boston City Hospital,—that the same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN, under unfinished business, called up No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor June 14, 1927, of Matilda R. Hawkes and Hugh I. Wrye to be Weighers of Coal. The question came on confirmation of the appointments. Committee, Coun. Ward and Donovan. Whole number of ballots, 16; yeas 16, and the appointments were confirmed.

LEASE TO THOMAS J. FITZGERALD POST.

President HEFFERNAN called up under unfinished business No. 7 on the calendar, viz.:

Ordered, That his Honor the Mayor be and he hereby is authorized, in the name and behalf of the City of Boston, and in form satisfactory to the Law Department, to execute a lease to Thomas J. Fitzgerald Post 561, Veterans of Foreign Wars of the United States, of the room in the Municipal Building, South Boston, formerly occupied by the American Red Cross, for a term of one year beginning June 1, 1927, at a rental of \$1 per annum.

On June 6, 1927, the foregoing order was read once and passed, yeas 20, nays 0.

The order was given its second and final reading and passage, yeas 17, nays, Coun. Dowling, 1.

CONSTABLES APPROVED.

Coun. GILBODY—Mr. President, for the Executive Committee I wish to call up the appointment, under No. 2 on the calendar, of Jeremiah J. Mahoney to be a constable, and under No. 6 on the calendar the appointment of Morris Berkman to be a constable. The committee recommends the appointment of both constables.

The question came on confirmation of the appointment of Jeremiah J. Mahoney and Morris Berkman to be constables. Committee, Coun. Dowling and Ward. Whole number of ballots, 18; yeas 18, and the appointments were confirmed.

PURCHASE OF LAND IN EAST BOSTON.

Coun. DONOVAN offered the following:
 Ordered, That the sum of one hundred thousand dollars be and hereby is appropriated to be expended under the direction of the Park Department for the purchase of land in what is known as the Fourth Section area of East Boston and the grading, construction, etc., thereof as a playground, and that to meet such expense the City Treasurer be authorized to issue, from time to time, at the request of the Mayor, bonds or certificates of indebtedness of the City to said amount.
 Referred to the Committee on Finance.

HANDBALL COURTS, WORLD WAR MEMORIAL PARK.

Coun. DONOVAN offered the following:
 Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide for the installation of handball courts at World War Memorial Park, East Boston, and that the expense of same be charged to the Parkman Fund.
 Passed under suspension of the rule.

ANNUITY TO WIDOW OF FRANK H. LASKEY.

Coun. DONOVAN offered the following:
 Ordered, That an annuity of six hundred dollars be allowed and paid to the widow of Frank H. Laskey, late member of the Boston Fire Department, who died from injuries received in the performance of his duty, such annuity to continue so long as said widow remains unmarried, and to be charged to the appropriation for Fire Department, Pensions and Annuities.
 Referred to the Executive Committee.

BOULEVARD SYSTEM OF STREET LIGHTING, ST. BOTOLPH STREET.

Coun. ARNOLD offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install the so-called boulevard system of street lighting on St. Botolph street, between West Newton street and Massachusetts avenue, to replace the antiquated lamps now in use on that thoroughfare.
 Passed under suspension of the rule.

REPAVING OF F STREET, SOUTH BOSTON.

Coun. MAHONEY offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement F street, South Boston, from First to East Fourth streets.
 Passed under suspension of the rule.

SWINGS, ETC., AT FATHER BUCKLEY PLAYGROUND.

Coun. MAHONEY offered the following:
 Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide for the installation of swings and sand boxes at the Father Buckley Playground, West Third street, South Boston.
 Passed under suspension of the rule.

ADDITIONAL TENNIS COURTS NEAR AQUARIUM.

Coun. MAHONEY offered the following:
 Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide for the construction of two additional tennis courts near the Aquarium, South Boston, the expense of same to be charged to the Parkman Fund.
 Passed under suspension of the rule.

ARC LAMP AT FOREST HILLS AND WASHINGTON STREETS.

Coun. ENGLERT offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp at the junction of Forest Hills and Washington streets, Ward 11.
 Passed under suspension of the rule.

SWIMMING POOL, CHARLESTOWN HEIGHTS.

Coun. GREEN offered the following:
 Ordered, That the Park Commission be requested, through his Honor the Mayor, to consider and report to the City Council as to the advisability of constructing an all-year-round swimming pool on Charlestown Heights for the use of men, women and children in said section.
 Passed under suspension of the rule.

REPAVING OF RUTHERFORD AVENUE.

Coun. GREEN offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the repaving of Rutherford avenue, Charlestown, from Chapman street to City square.
 Passed under suspension of the rule.

REPAVING OF CHAPMAN STREET.

Coun. GREEN offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the repaving of Chapman street, in the Charlestown district.
 Passed under suspension of the rule.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. WILSON, for the Committee on Ordinances, submitted report in regard to ordinance concerning contracts made by city with plants located in the United States, recommending passage of ordinances in following new draft, viz.:

An Ordinance Concerning Contracts with the City of Boston.

Be it ordained by the City Council of Boston, as follows:

Chapter 40 of the Revised Ordinances of 1925 is hereby amended by striking out the semi-colon at the end of Clause A of section 13 and adding the words "whose plant or plants are located in the United States"; and by striking out the semi-colon at the end of Clause B of said section and adding the words "and the plant or plants of which corporation or other legal association are located in the United States"; so that section 13, Clauses A and B, of said Revised Ordinances of 1925, shall read as follows:

SECT. 13. No contract shall be made by the city except with (a) individual citizens of the United States whose plant or plants are located in the United States;

(b) corporations or other legal associations wherein the controlling interest to the extent of at least over one-half thereof is owned by a citizen or citizens of the United States and the plant or plants of which corporation or other legal association are located in the United States.

Coun. WILSON—Mr. President, I will merely say that the existing ordinance requires that a person with whom the city makes a contract must be a citizen or that a corporation must have a majority of its stockholders citizens of the United States. This proposed revision of the ordinance makes the additional requirement that the plant of the person who contracts with the city must be located in the United States.

Coun. KEENE in the chair.

Coun. HEFFERNAN—Mr. President, I am in sympathy with this ordinance, but one thought that strikes me is that there are, I assume, various forms of merchandise or manufacture that the City of Boston uses that cannot be manufactured in this country. I understand, for instance, that in the George R. White units a certain kind of opaque glass is used which is manufactured abroad and is not made in this country. I would like to ask if, in making such a new draft of the ordinance as is here proposed, it would not be wise to make a provision covering anything of that kind? I would suggest that this be printed on the calendar and acted upon at the next meeting, so that if anybody then has any appropriate amendments to make they may be considered at that time.

Coun. WILSON—Mr. President, I assume that there will be no objection on the part of the committee to this being allowed to remain on the calendar. I would assume that if there are rare glasses or other items of merchandise that the city wants to obtain, and which are not manufactured in the United States, they could be obtained through a citizen of the United States, even if they had

to be brought over from Europe. However, I think there is no objection to this lying on the table.

President KEENE—The ordinance will be assigned to the next meeting, unless there is objection.

The ordinance was assigned to the next meeting of the Council.

LEASE OF LAND FOR MOTHERS' REST.

Coun. FITZGERALD offered the following:
 Ordered, That his Honor the Mayor request the Board of Park Commissioners to consult with the Trustees of the Boston Elevated Railway Company for the purpose of leasing the land owned by said company located on Lowell and Willard streets, West End, the same to be used as a mothers' rest.
 Passed under suspension of the rule.

REPAVING FREEPORT STREET.

Coun. McMAHON offered the following:
 Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Freeport street, from Dorchester avenue to the railroad bridge, Ward 15.
 Passed under suspension of the rule.

DE LUXE BUSES FROM BROOKLINE.

Coun. RUBY—Mr. President, about two months ago there was an order of some kind put in with reference to an investigation of the so-called de luxe buses which are being run from the Brookline line down through Beacon street. I wonder if there has been any report of any kind from anybody with reference to the matter, and why these buses are still being run on the streets of Boston in spite of the fact that the jitney committee and the City Council have refused a license for them.

President HEFFERNAN in the chair.

President HEFFERNAN—The Chair would say that, so far as he knows, the order is still in the hands of the Committee on Jitneys and no action has yet been reported to the body.

Coun. RUBY—Mr. President, may I ask what the procedure would be so that these buses, which are illegally on the streets of Boston, may be removed from the streets of Boston by the proper officials.

President HEFFERNAN—The Chair would say that his own personal opinion is that the buses in question were given a license by the former Council. I am simply stating that as my own opinion. I would state further that if they are illegally on the streets, it is an indictment of Boston's police officials, whose duty should be to get them off the streets if they are illegally there.

Coun. RUBY—Mr. President, while I was a member of the Jitney License Committee a request for a permit to operate the so-called de luxe buses from the Brookline town line down Beacon street at twenty-five cents per passenger was presented, and the committee at that time recommended the rejection of that petition. So, as I recollect, the City Council of 1926 went on record as against granting that permit.

President HEFFERNAN—The Chair would say that so far as he knows the buses are not operated under any such permit. I understand that that was a request for a change of routing, a modification of an existing route previously granted. That is my personal opinion in the matter.

Coun. RUBY—I may be in error, but I understood that that was a request for the right to run a new bus line.

President HEFFERNAN—The Chair will simply say that he thinks the former Council gave the permit to operate from Boston to Brookline, that they then came in with a request to go through Allston instead of Brookline, which request was denied last year, and that they are now operating under a permit granted in 1925 by the old Council. That is as the Chair understands the matter.

Coun. WILSON—Mr. President, might I suggest that the situation would be very much clarified if the Jitney Committee would report back on the two orders before them at an early date?

President HEFFERNAN—The committee will take due notice.

THE NEXT MEETING.

On motion of Coun. KEENE it was voted that when the Council adjourn today it be to meet on Monday, July 11, at 2 p. m.

GENERAL RECONSIDERATION.

On motion of Coun. McMAHON, a general reconsideration of all action taken today was refused.

Adjourned at 3.29 p. m., on motion of Coun. DOWLING, to meet on Monday, July 11, at 2 p. m.

BOSTON COMMON BOASTS OF GINKGO TREE NEARLY ONE HUNDRED FIFTY YEARS OLD.

Mayor Nichols received a communication on July 6 from Chairman Long of the Park Department containing some interesting information relative to a rare tree located on Boston Common opposite the offices of the Park Department. It relates to the Ginkgo tree of Japan, the *Salisburia adiantifolia* of the botanists. Sometimes it is called the "Gingo" tree. It is a beautiful specimen of long curious foliage. According to the records it was located on the Gardiner Greene estate on what is now known as Pemberton square. At that time this site was called Cotton Hill.

The age of this tree is a bit uncertain for the first Ginkgos were brought to this country from England in 1784. It may be possible that this specimen was imported at that time, for when it was growing on Cotton Hill it was quite fully developed. In delving through the history of the Greene family it is learned that Gardiner Greene is a direct descendant of Thomas Greene who came to America and built a refuge called "Greene's Stone Castle," which served the early settlers in their trouble with the Indians during the King Philip's War of 1676. His family established the Greene Foundation of Trinity Church of Boston in 1763.

According to the records Mrs. Greene moved over to what is now known as Beacon street and the Ginkgo tree was offered to the City of Boston provided it might be transplanted to the Common and placed in front of the house to which she had moved. This house was located approximately where the City of Boston Park Department has its office.

The City of Boston could not afford the expense of moving this tree and it stood in jeopardy of being cut down. Mr. Greene then offered \$300 to anyone who would move it and warrant its life for one year.

Mayor Theodore Lyman, Jr., was then the chief executive of the City of Boston and it is said that he supervised the transplanting. The tree was placed in such a position that it would have the same exposure as the original situation.

It is also related that Oliver Wendell Holmes was inspired to write many verses under this tree.

MAYOR TO PRESERVE BOSTON COMMON.

The Mayor has issued the following statement concerning Boston Common:

The Mayor is as sincerely desirous as any one can be to preserve Boston Common for the clean enjoyment and patriotic instruction of both old and young.

This he has done, and to this end he invites and expects to receive the continued co-operation of all.

PROCEEDINGS OF SCHOOL COMMITTEE.

June 8, 1927.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 5.23 o'clock P. M., the Chairman presiding.

Present: Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan.

ANNUAL APPROPRIATION ORDER.

The Chairman stated that the meeting was called for the purpose of considering the communication from His Honor the Mayor, under date of May 21, 1927, returning without his signature, the appropriation order of the School Committee, dated May 9, 1927, amounting to \$7,259,293.05.

On motion, the reading of the communication was omitted, inasmuch as each member of the Board was familiar with the contents.

The communication was ordered spread upon the records as follows:

City of Boston
Office of the Mayor
City Hall

May 21, 1927

To the School Committee of the City of Boston:

I return herewith appropriation order of the School Committee, dated May 9, 1927, amounting to \$7,259,293.05, without my signature, for the reason that I believe the appropriations voted by your Honorable Committee are at least \$500,000 in excess of the necessary requirements for the fiscal year.

Nearly a month before the adoption of your appropriation order I communicated to you under date of April 16th upon the subject of school appropriations for the year, and I think it would have been a wise procedure for you to have considered this matter with me prior to the passage of your vote. Early in the year I called to your attention the questionable policy of appropriating money without recourse to sound budgetary procedure, and requested the City Auditor and the Budget Commissioner to discuss informally with your Business Agent the advisability of reduced appropriations. Inasmuch as their conference indicated the need of further consideration of this subject, I communicated with you as stated above on April 16th, and pointed out the extraordinary increase in school expenditures during the last five years as well as the mounting surplus at the end of each year.

A study of the appropriations and expenditures of the School Committee for the past five years, as well as the surplus remaining at the end of each of these years, indicates that in recent years, School Committee appropriations have been made with a view to having substantial balances carried forward to the new year, which under the law may be added to your appropriating power. As you undoubtedly know, maintenance appropriations should be based upon the estimated expenditures for the year. Any other procedure is contrary to sound municipal finance.

It is interesting to note that four members of your Committee voted for the appropriations and that one member is recorded as not voting.

A fair inference is, that at the time the vote was taken, at least one member doubted the wisdom of appropriating too much money. This is encouraging. It would be more encouraging to know that the other four members voted as they did only after they had been thoroughly convinced that the appropriations voted for the expenses of the year were not to produce a surplus, so large, as to be indefensible.

This surplus last year amounted to \$739,000 raised in large part from the tax levy of last year, but utilized for school maintenance this year. At the end of this year if your budget becomes a law there will again appear, as you admit in your communication to me under date of May 9, a large surplus included in this year's tax levy, to be utilized for school maintenance in the year 1928. This policy offers a temptation to overstate the needs of the School Committee in every item of its maintenance. It is time to correct this procedure, and as a help thereto I submit herewith certain facts, figures and comments that I trust will prove of value to you in consideration of this veto, which is intended to assist you in adopting a new appropriation order that will more nearly approximate the proper expenditures for the year 1927.

The increase in average day and evening school attendance has been negligible in recent years, as is shown by the following:

Year	Average Day and Evening
1923-24	125,733
1924-25	125,837
1925-26	126,568

The figures for 1926-27 are not yet available.

The rapidity of increased school costs (exclusive of new building construction) is shown by the following:

Year	Expenditures
1923-24	\$12,421,826.16
1924-25	13,131,300.13
1925 (11 months)....	12,769,323.05
1926	15,118,502.40

These expenditures show a trend in rising costs that is positively alarming, against a negligible increase in average attendance. The taxpayer may well demand the reasons for an increase of a million dollars a year in maintenance costs as shown above, and it will be your privilege to comply with his demand.

I wonder how you can ever explain the story told in your own words on page VII of your budget, wherein you show "increases in appropriations for 1927 over expenditures for 1926" of \$1,442,385.74 exclusive of the appropriations for Pensions to Teachers and Alterations and Repairs, etc.

The reasons advanced by you for the increase of \$1,011,590.90 in the item "salaries of instructors" are so lacking in detail as to be valueless. From an examination of the Auditor's records it will be seen that the expenditures in this item for four months of the current year as compared with the same months of last year show an increase of \$188,457.24, and on this basis would represent approximately \$565,000 increase for the year. This accounts for a little more than one-half of your million dollars under the item of salaries of instructors. How you account for the other one-half million it is impossible for me to determine, and I think likewise impossible for you.

The additional half million can be accounted for only under the salary increases and appointments. On the

basis of the first four months of this year for salaries of instructors you will have spent at the end of the year \$697,779 less than the amount appropriated by you for this purpose. Deducting \$130,000 for salary increases estimated by you as necessary for this purpose when you appeared before the Legislature, you will have a balance of \$567,779 to be devoted to new appointments for the last four months of the year. In order to utilize this enormous sum for this purpose it will be necessary for you to actually appoint a number of teachers equal to 16 per cent. of your entire teaching force. This on the face of it is ridiculous. Your estimate of \$130,000 is grossly exaggerated. Indeed, it is my opinion that a reasonable figure covering both salary increases and appointments would be liberally represented by the sum of \$150,000 for the last four months of the year. Add \$150,000 to the sum of \$567,779 approximate increase for the year and you will have \$715,000 against the increase of over one million dollars estimated by you, or a difference in round numbers of \$300,000, which I believe represents a moderate statement of excess money which you do not need.

The foregoing figures are clearly indicative of an inflation in the appropriations necessary for school maintenance during the current year. I do not think that you should desire such an inflation although it may produce an attractive sum for future use. I am sure that a careful consideration of the discussion that has been going on for a long time of the relief of taxation and a careful consideration of every item of expenditure will emphasize to you the importance of a thorough examination of your budget for the purpose of taking from it such sums as may appear to be unnecessary.

Your tabulation on page VII further shows that the appropriation for "Supplies, Equipment, and Incidentals," exceeds by \$153,603.04 the expenditures of last year. Keeping in mind that the average school attendance has not appreciably increased for several years, it would seem that \$100,000 of this amount could well be saved and still allow over \$53,000 for increased expenditures. You also show an increased appropriation of \$99,764.31 over the expenditures of last year for "Fuel and Light."

From this there should be a saving of at least \$70,000 and still allow for increased expenditures of approximately \$30,000 for "Fuel and Light." In view of your own experience during the last three years I doubt if any increase in "Fuel and Light" will be necessary.

The \$30,000 remaining of the \$500,000 which I deem in excess of your requirements should be saved from the other appropriation items, without unduly curtailing the necessary activities of the School Committee. Were this saving of \$500,000 to be accomplished on the appropriations already made by you, it would still leave available in your present budget \$942,000 in excess of your expenditures for the same purposes last year.

You were in doubt last year about a remaining balance which at the end of the year appeared as a surplus of \$739,000. On April 13 last you stated that you would be glad to co-operate with me in the reduction of the tax rate if you could determine that a substantial sum could be left unappropriated, and you again expressed a doubt that there would be a remaining balance.

On May 9 last you were no longer in doubt, as your letter and the accompanying budget provide for another substantial surplus for 1928 appropriations. This year I believe the surplus will equal three-quarters of a million dollars. I have shown you where your appropriations are too high by \$500,000. This great sum does not belong among the burdens of the 1927 taxpayers. It should be promptly removed from your appropriations.

In your letter of May 9 you speak of having no reserve fund upon which drafts may be made in case of necessity. This reference lacks force from the fact that there are large reserves throughout your estimates. Your surplus in the eleven months' year of 1925 was \$589,000. In 1926 it rose to \$739,000. By this two years' record, as well as by a study of the present budget, it appears that even with a \$500,000 reduction, which I recommend, you will still have reserves so ample that a surplus will result.

The School Committee has been given an unusual grant of power by the Legislature. It not only makes but adopts its own budget and by a vote of four of its five members may pass a budget notwithstanding the objection of the Mayor.

It is the desire of the public that the School Committee shall be given great freedom in carrying on its important work, and that every proper school activity shall be fully supported. Such a policy demands a budget which provides for no more than the year for which it makes provision. If it does more than this it tends to defeat rather than to aid the Committee by encouraging unwise expenditures and ill-advised changes in plans which ought to be carefully made and consistently followed.

Please be assured that I deeply appreciate the profound sense of responsibility that must be yours in the performance of so high a duty as supervising the school system of a great city. I am not unmindful of your difficulties and have always endeavored to assist you in meeting them. In this spirit I transmit this communication with an expression of the hope that you may give further consideration to your appropriations for the current year, and that you may be able to present to me thereafter a budget which I may approve.

Respectfully yours,
MALCOLM E. NICHOLS,
Mayor.

Question came on the passage of the appropriation order, as passed by the School Committee at the meeting of May 9, 1927, notwithstanding the objections of His Honor the Mayor.

The order failed of passage by the following vote:

YEAS—Messrs. Bogan, Gray and O'Hare—3.

NAYS—Mrs. Barron and Mr. Sullivan—2.

As the members responded to the roll call, each member made a statement in connection therewith, when statements were ordered spread upon the records, as follows:

Mrs. Barron: On May the 9th when the Budget was adopted by the votes of four members of the School Committee I did not vote, because I did not believe, as I stated on that date, that I had had sufficient time to thoroughly digest the Budget. Inasmuch as the Budget called for so large an expenditure—almost 15 million dollars—I felt that

this matter should have more careful attention. Since the 9th of May I have given the Budget very careful study and I have come to the conclusion from my analysis of the figures in said Budget that the appropriations which were voted on May 9th are in excess of the actual probable expenditures for the fiscal year 1927. To adopt the Budget as submitted would mean that with only a small increase in school population, our expenditures in 1927 would exceed those in 1926 by \$1,442,385.74.

I think it will be agreed that a conservative estimate would show that the School Committee under the Budget as submitted would have a balance of at least half a million dollars at the end of 1927. I do believe that we should allow about a quarter of a million dollars for a margin of safety because of emergencies that may arise, but I think that it is a great injustice to the taxpayer to take out of his pocket in 1927 a sum of money which we never can use in 1927. It has been stated by our Business Manager that the law contemplates the use of balances, if any there should remain, and that therefore the School Committee would be justified in providing such a surplus. Although I have confidence in and respect for the judgment of our Business Manager who has done a most painstaking piece of work, I must disagree with him. The Law states: "Any balance of an appropriation so made by the school committee remaining unexpended at the close of a financial year . . . shall be added to the amount which the school committee is hereby authorized to appropriate for the financial year next ensuing."

I believe that the Law contemplates the use of balances because of human inability to estimate exactly to the dollar what expenditures would be made in any given year. I cannot believe that the Law should be interpreted to mean that the taxpayer should be taxed in one year for what cannot possibly be used in that year, but solely for the purpose of providing a surplus to take care of the following year. In short, our Budget for 1927 provides for a minimum surplus of at least one-half a million dollars to serve no purpose whatsoever in the year 1927. Inasmuch as the school children are not to be benefited by this sum I think it is unjust that this amount come out of the taxpayer for no other purpose than to be kept in the bank for safe keeping as a surplus for something that we may need in 1928. I believe that this is an unwise financial policy.

If the tax limit in 1928 is not sufficient for our needs, we ought to go to the Legislature.

It is fundamentally unsound to charge the taxpayer in 1927 for expenditures in 1928. Our Budget provides over a million eleven thousand dollars as an increase in appropriations in 1927 for salaries of instructors over same expenditures for 1926. I believe from an analysis of the figures that we will have a surplus of about \$350,000 in this one item.

In voting to sustain the veto of the Mayor, I wish to state that this in no way will affect the building program or the alteration and repair of school buildings, nor the furnishing of said school buildings, inasmuch as the Budget referred to applies to the cost of maintenance of the Boston Public Schools exclusive of the above items. I believe that it also will in no way curtail our educational program in the schools, and I also feel that it has no con-

nection with the raising of the salaries of our teachers because it has been admitted by all the members of our Committee that in order to give a general salary increase it will be necessary in 1928 to petition the Legislature and that therefore a reduction of our Budget at this time will in no way affect all these projects.

I believe that education is one of the most important elements in our civilization; that civilization progresses, as education progresses, and if there were the slightest doubt in my mind that the reduction of our Budget as voted this year would curtail in any way our educational program for 1927, I should not take the risk of recommending a smaller budget. I believe that our educational system will not be impaired or impoverished, because under the budget as presented, no educational activities will be eliminated because of a reduction, but the surplus which has been provided for 1928 will be eliminated. There are many new projects in my opinion which are necessary for a more efficient conduct of the schools, but nevertheless on examining the Budget for 1927 said projects have not been included. These many worthy projects calling for additional expenditures are now under consideration.

It is quite true that the School Committee has been proceeding very slowly and cautiously with new projects because of its consideration for the taxpayer as well as the children in the school. It would be impossible to adopt in 1927 the many improvements in the schools which we desire. This is due in some instances to lack of physical accommodations, such as would be required in the reduction of the size of elementary classes; also because we are not yet prepared to actually introduce into the schools on a working basis for the entire system some of the many fine projects we desire. Therefore, it would be unwise to set aside in 1927 money for those things which cannot go into effect in 1927 and simply keep it in the bank for safekeeping until such time as we can use said money. In order to be just to the taxpayer it appears to me that we should only appropriate in 1927 the money which we can reasonably use in said year, allowing a margin of safety of about a quarter of a million dollars. No matter how worthy the projects which we will introduce in 1928 may be, I believe it is our duty if we have not sufficient money in 1928 to petition the Legislature in 1928 for a higher tax limit and not make provision in 1927 for 1928. I have full confidence in the Legislature of our State that if our program is presented to them that they will be very glad to give us a higher tax limit in 1928, especially when we can show with what caution we, the School Committee, have proceeded and what consideration we have had of the taxpayer.

Mr. Gray: The fact that His Honor the Mayor has returned the Committee's appropriation order of May 9, 1927, without his signature because in his opinion the appropriations therein voted were in excess of the necessary requirements of the fiscal year, is without doubt a matter which calls for the most careful and earnest consideration by the Committee. Could His Honor have been present at the various deliberations of the Committee on this very important question I am sure

he would have been convinced of the sincerity and earnestness which has animated the Committee throughout in its consideration of the question.

Since the Committee as such has submitted to His Honor, both by letter and in person, detailed statements of the facts relating to the matter of school costs and the increase therein over the last few years, it is presumably unnecessary to go into particulars on that phase of the question at this time. The immediate question has to do with the unexpended cash balance which it appears likely the Committee will have at the end of 1927, and whether or not the Committee should leave unappropriated this year a sum which would be the equivalent of at least a substantial portion of this probable balance. If the Committee holds off or delays action on many of the matters now before it the Business Manager of the Committee estimates that the unexpended balance at the end of 1927 will be between \$500,000 and \$600,000. His Honor the Mayor estimates the balance to be in excess of \$700,000 and has requested the Committee to leave unappropriated \$500,000.

Mr. Chairman, I regret that I am unable to acquiesce in His Honor's request and I shall, therefore, vote to approve the Committee's appropriation order dated May 9, 1927. The reasons for my vote are as follows:—

1. This Committee is charged with administering the schools. A very responsible part of its duty therefore is to make sure that it has on hand funds available to carry out such policies, etc., as it deems desirable. Consequently, the Committee should, in my opinion, so budget its receipts and expenditures as to have a reasonable sum in reserve. The Committee ended the year 1926 with a balance of approximately \$700,000. This sum therefore became available for use in 1927 and has been appropriated for that purpose. Since the estimated balance at the end of 1927 is between \$500,000 and \$600,000 it is at once apparent that had it not been for the \$700,000 balance at the end of 1926 the Committee would have found itself without sufficient funds to carry out its present program. Consequently, were the Committee, to leave unappropriated the \$500,000 requested by the Mayor, the Committee, on its own estimates, would seriously jeopardize its ability to carry out such policies, etc., as it might deem desirable and hence would be unfaithful to its trust.

2. The School Committee obtains its appropriating power from the Legislature and the law provides that unexpended balances (not otherwise specifically required) shall be added to the amount which the Committee is authorized to appropriate for the next ensuing year.

It is evident, therefore, that the law contemplates the using of balances by the Committee. The appropriating power which the Committee is given by the Legislature is based on a three-year average of valuations. Consequently, any year in which the valuations are increased the Committee is able to appropriate more funds. The result is that the Committee is able to meet the normal increase in the cost of running the schools without constant recourse to the Legislature.

In this connection it is significant that the Committee has been to the Legislature only once since 1921, and that was for a particular purpose, namely, a general salary increase for which the Legislature's authorization is virtually a prerequisite. The result of this system by which the School Committee is able to appropriate funds is that

the year in which the valuations have been greatly increased the Committee will have available more funds to appropriate. This was the case in 1927, and is one of the reasons why we expect to come out with a substantial balance at the end of that year. For the year 1928, just the opposite is true, for I am informed the increase will not be so large and consequently the additional funds at our disposal will be smaller in amount. On the whole it seems to me that the law and the practice contemplate that the Committee shall end the fiscal year with a balance which may range from a small to a large sum and that it was by no means intended that a balance accruing in one or more years should thereupon be left unappropriated in the following year.

3. The Committee is fully aware of and has been greatly concerned over the increasing cost of running the schools. So much so that many items calling for increased expenses have been voted down for that very reason, while action upon others has been postponed pending more definite figures as to funds available. For example, the Committee has postponed action on petitions from teachers for salary increases and on such other important matters as reducing the number of pupils per teacher in elementary and intermediate schools. There also appears to be need that better supervision be given to classroom instruction. These and other items of very great importance the Committee has delayed acting upon because of its desire to live within its means and carry over at the end of the year a balance sufficient to enable a new Committee in 1928 to start with a free hand.

If there should be left unappropriated this year the amount which the Mayor has requested, recourse to the Legislature for additional funds would be inevitable, whereas, there is good reason to suppose that if we come out with a substantial balance at the end of the year it would not be necessary for the new Committee in 1928 to ask the Legislature for additional appropriating power for current expenses. This seems to me a very strong argument for leaving no sums unappropriated this year.

In short, Mr. Chairman, it seems to me that the law and the system on which we appropriate contemplate our coming out from time to time with a substantial balance to be used for the benefit of the schools in the succeeding year; that were we to leave unappropriated the sum requested by His Honor the Mayor, we might well find ourselves at the end of the year without sufficient funds to carry on in 1928 the school system as a going concern; and finally, that were we to leave this money unappropriated this year it appears virtually conclusive that we would thus compel the new Committee in 1928 to ask the Legislature for additional appropriating power for current expenses.

At the conference between the Mayor and the School Committee, it was suggested that it might be possible for the Committee to leave unappropriated, at least a portion of the sum requested by the Mayor, provided His Honor would assure us of his cooperation before the Legislature if, by having left this money unappropriated, the Committee found itself in need of funds for current expenses. The suggestion, however, was not acceptable to His Honor.

Having in mind, Mr. Chairman, that without the \$700,000 balance at the end of 1926, we would not have had sufficient funds to carry out

our program for 1927, it seems to me the school system will need in 1928 whatever balance may be on hand at the end of the current year. Consequently, a vote to leave any sums unappropriated this year—which is in effect a vote to reduce any balance which may be on hand at the end of 1927—in my opinion gains for the taxpayers only a temporary advantage while it may well have a harmful effect on the progress of the school system in 1928.

There is one further observation which I should like to make. His Honor has in substance stated that the Committee is singularly free from interference in making up its budget. I feel, and I am sure the other members feel as I do, that the Committee not only should welcome an investigation of its budget, but that it does welcome investigation both as to its budget and any of its other acts or decisions. In my opinion what the Committee needs more than anything else today, is a more active interest on the part of the people in the running of the schools, to the end that the Committee may know and hence may better carry out the wishes of those whom it represents.

Mr. O'Hare: I just want the public to know that I am as interested as any one of the Committee to retrench wherever possible. Never will I vote to save money at the sacrifice of the education of the individual child in this city. If we do not sustain this budget tonight, the precedent here established is bad because each year the School Committee will have to ask the Legislature for a tax limit, as does the Mayor. The Board of five here have fixed tax limits specified by law. The Mayor's tax limit, as specified by law, is \$6.52, established years ago and each year he has to go to the Legislature and ask that that be augmented.

The tax limit fixed this year by the Legislature, in amendment to that document of \$6.52, which is law, is \$13.00, and if we do not pass our budget here tonight, future Committees must go to the Legislature each year to establish a tax rate. In regard to salaries: I wanted to go to the Legislature this year for money and was voted down.

The budget as presented to us is not the sole work of the Business Manager. It is a compilation of his best efforts, the best efforts of our Superintendent, and the best efforts of our Board of Apportionment comprising our Assistant Superintendents.

If we are to continue to go ahead and advance as a growing concern—looking after the individual child—if we reduce this budget \$500,000 this year, we shall have to ask, or our successors will have to ask, next year for \$1,000,000 to operate next year. We save today's taxpayer twenty-four to twenty-six cents per thousand dollars of taxation, and next year and in the years succeeding we penalize him between forty-eight and fifty-two cents. To me this is pennywise and pound-foolish, because if we go ahead as we are we will not, according to the best estimates in our possession, have to ask next year for anything. In other words, we will not have to increase the burdens for next year and for succeeding years.

Tonight, I feel that despite all that has been said for and against the School Committee budget for 1927, I must, in conscience, vote for its passage as I have done previous-

ly. The School Committee, in making its budgets in successive years, does so with an eye always to the future and this present School Committee makes no exception to that well-founded rule. The School Committee of the City of Boston is a continuing corporation despite changes in the personnel of its membership. The Committee always has endeavored, at least while I have been a member of it, to look ahead and see what the succeeding Committee will face in a financial way.

Undoubtedly, the passage of this budget tonight anticipates a substantial balance at the end of 1927. My reasons for justifying appropriations of money, with an almost absolute assurance that there will be a balance, are as follows:

First, that the Committee of 1928 will start off the year with a reasonable assurance that they can carry on present enterprises and grow and expand normally without additional appropriating power for this increase and expansion. If we turn back a large sum of money this year, or do not appropriate to the limit allowed us by the Legislature, I feel equally certain that the Committee next year will have to ask for additional appropriating power to carry on its normal program. If we, however, do pass the budget, which we have previously voted to pass, the School Committee next year will only have to petition the Legislature for additional appropriating power if they decide to put into effect a new and more costly salary schedule.

The only large item in our budget from which money could be safely set aside is the item of salaries of instructors. Boston is still paying lower average salaries than most cities of her size in this country. A slight salary increase could be given this year to all the various groups of teachers, but if this were done, succeeding School Committees would have difficulty in meeting these obligations assumed in 1927. For this reason, for group increases for 1927, I feel constrained to let the present salary schedule remain effective. If, however, the Committee of 1928 desires to more nearly equalize Boston salaries in the teaching profession with those of other cities of the country, by making a full appropriation this year, the Committee of 1928 would have to ask the Legislature for only a slight increase in appropriating power. The large balance this year is not an absolute balance from the budget of 1927, but a cumulative balance which has grown to its present size by the accretion of various balances from years past. This balance is largely due to the large increase in valuation during the last few years which has averaged about sixty millions of dollars annually. If in 1928, as we may well suppose, the increased valuation is but thirty millions of dollars, the School Committee of that year, for ordinary expansion and growth will begin to feel the effect of this smaller increase in valuation.

We, the School Committee, feel our responsibility to the individual taxpayer and to the rentpayer of Boston who is carrying the burdensome cost of schools and school operations. We are not endeavoring to see how large a load we can place on the taxpayers' or rentpayers' shoulders, but we are trying to see how well we can educate the individual child. The citizens of Boston have not, in numbers, spoken to me in a critical way of the increased school costs because evidently these citizens realize that we are

trying to do more and more for the children of Boston in an educational way.

This question of budget is not a question of personal antagonism between the Mayor of the City of Boston and the School Committee of the same city, but merely a question of the policy in financing our school system. I am firmly of the opinion that the passing of this budget tonight even though it is over the Mayor's veto, is for the best interests of the children of Boston and their parents, the taxpayers.

Mr. Sullivan: First I wish to enter into the records of the School Committee meeting a comparative analysis of the annual balances of 1916 to date, as follows:

1916-17	\$142,873.37
1917-18	60,978.47
1918-19	104,628.69
1919-20	117,167.54
1920-21	3,785.99
1921-22	192,123.52
1922-23	130,509.85
1923-24	387,940.19
1924-25	307,789.34
1925	516,699.21
1926	668,226.51

Permit me to felicitate the members of this Committee on their very excellent and eloquent dissertations. Their very eloquence makes my task the easier as the ground has been well covered. The fact remains that we will have a substantial balance of \$600,000 at the end of this year. It does not require any lengthy discussion to point out the sanity of this statement. We will have a balance of over half a million dollars. There is no question but what the tax rate is overly burdensome. Realizing that our first duty is to the schools, the members during their respective tenures of office have functioned with the primary end in view of the welfare of the schools and the children. This realization actuated each and every member in 1926, yet withal we have a balance of \$668,226.51. A balance of \$668,226.51, though the legitimate needs of the schools and the school children were adequately cared for.

Each member of this Committee has expressed his firm belief in the policy of sane retrenchment and sensible economy. We know as individuals and as School Committee members that a measured pocket-book is an excellent guide toward economy. We know further that a big balance is a trying temptation toward extravagance. I say we have conducted the schools with the maximum return to the child and to the community according to the best of our ability in the year 1926, and yet we have come through with the big balance of \$668,226.51.

We are not going to go bankrupt, nor does it necessarily follow, as Mr. O'Hare would infer, that this Committee must go to the Legislature this year and each year thereafter merely because we refuse at this time to override the Mayor's veto, merely because we refuse this time to appropriate to the legislative limit.

We may and probably will come through with a handsome surplus with over a half million dollars after all the legitimate needs of the schools and school children shall have been served well.

My vote to sustain the Mayor's veto is a vote to translate into action our common intention to cooperate intelligently and actively with the chief executive of this city in lowering the tax rate of this city.

There is no check like a monetary check. My action in sustaining the Mayor's veto in no way determines the amount that is to be left unappropriated. This amount will be determined after a careful survey in the reconsideration of the budget curtailing and dispensing where we may without affecting injuriously the welfare of the child.

The legislature fixes our appropriating power and its limit. It says we may appropriate up to the limit fixed. It does not necessarily follow that we should appropriate to this limit.

Mr. O'Hare says that he has not been approached by critical taxpayers. I must hold otherwise. I have been approached many times by intelligent, interested citizens complaining against the extravagance of the School Committee. I am not attempting to temporize with the taxpayers, nor with the Mayor; that is not my attitude. My attitude and action are based on common sense. Note the balances set forth herein; note also the fact that we will have in all probability a balance of more than half a million dollars next year; note further the fact that the taxpayers are demanding a reduction in the tax rate; note further that we have in our system without question certain educational activities which might well be eliminated, not only with financial saving, but with educational benefit.

I say that we should sustain the Mayor's veto at this time to the end that we may go over our budget, carefully, thoroughly and exhaustively with the end in view of retrenchment and economy without injurious hurt to the educational rights of the school children of the Boston Public Schools.

I vote to sustain the Mayor's veto.

Dr. Bogan: I have read very carefully the communication from His Honor, the Mayor, under date of May 21, 1927, returning the appropriation order of the School Committee, dated May 9, 1927, without his signature, for the reason that he believes the appropriations voted are in excess of the necessary requirements for the fiscal year.

In 1919 the appropriating power of the School Committee was codified in Chapter 206 of the Special Acts of 1919. Section 4 of said Chapter 206 of the Special Acts of 1919 provides that any balance of an appropriation made by the School Committee remaining unexpended at the close of any financial year, and not needed to carry out the requirements of any statute, gift, trust, or special appropriation, shall be added to the amount which the School Committee is authorized to appropriate for the financial year next ensuing. It is evident therefore, that the law contemplates the using of balances by the School Committee.

Under the statutes, the Mayor petitions the Legislature each fiscal year for a certain tax limit, which he believes will be needed to operate the departments under his control, exclusive of schools. The School Committee is not expected to petition each year for a tax limit, but is expected, except under extraordinary conditions, to carry the school system on the basis of its appropriating power which takes in the funds from the tax levy, the funds from unexpended balances of the preceding year, the estimated income for the year and the excess of income one year over the other, if any.

It is obvious that the School Committee has been proceeding carefully under its appropriating power. As previously pointed out the School Committee has not petitioned for additional appropriating power for general school purposes during the period from 1921 to date, with the exception of the additional appropriating power allowed by the Legislature to meet the cost of the general salary increase which took effect September 1, 1925. This petition had the support of the Mayor of the City at that time, the Boston Finance Commission, the Chamber of Commerce and other organizations; all of these organizations believing that it was in the interests of the pupils in the public schools to pay such salaries as would retain efficient teachers in the Boston Public Schools.

While it is true that if retrenchment is practised this year that the School Committee may come through the year with a substantial balance, it is also evident that with the increase in average valuation on which appropriations are based coming down to normal in 1928, such balance will be absolutely needed for school purposes in 1928.

The educational experts in the system have several times during the year 1926 and this year, presented to the School Committee projects which they believe are absolutely necessary for the efficient conduct of the public schools. These recommendations have come from the Superintendent, the Board of Superintendents and the Board of Apportionment, and many of them are now before the School Committee or to come up for consideration at a later date. If the School Committee were disposed to spend money freely, all of these projects would have been adopted at very substantial cost, but it is only fair to the Committee to say that it has been proceeding very cautiously, bearing in mind the financial effect of such projects on future years.

For instance, there are before the School Committee at the present time a great many petitions from groups of teachers for adjustment of salaries. It has been the policy of the School Committee to reply to these requests that they will be given careful consideration whenever financial conditions warrant.

There is a demand for the upward extension of high school education to include one or two years of college work for the purpose of providing for higher education for a large group of boys and girls.

The recommendation has been made to convert the Boston Clerical School for Girls into a junior college for girls.

The School Committee has been informed by the educational experts that the number of pupils to a teacher in the elementary schools should be reduced to 40, and that the number of pupils to a teacher in intermediate schools should be reduced to 25. Tentative approval has been given to the proposition in intermediate schools, but as yet no action has been taken.

There is also the insistence that better supervision be given to classroom instruction. It has been stated that the teaching loads of heads of departments in high schools is too heavy and that it should be reduced in order to afford such heads of departments the opportunity to supervise the teachers under their control, thereby making the instruction of the boys and girls in the high schools produce better results.

I am referring briefly to these projects that I have heard discussed with the School Committee simply

to show that the Committee has been proceeding cautiously in financing the school system. Nevertheless, it is agreed that there are certain desirable projects calling for various substantial additional expenditures that must be given consideration. I refer particularly to the insistence that the time has come to reduce the quota of pupils to a teacher if instruction is to be given along effective lines, to the pupils in the public schools.

Looking forward to the financial situation in 1928 and realizing that there is a reorganization of the School Committee on January 1, 1928, it is my recommendation that no sum be left unappropriated, in view of the information set forth in this communication to the effect that there are very many desirable projects that the present School Committee and the School Committee in 1928 may wish to place in operation at the earliest possible date.

The Chairman asked if the Business Manager desired to make a statement and in response the Business Manager made the following statement:

Ever since this controversy started with His Honor the Mayor, I have on several occasions recommended to your Committee that it leave no sums unappropriated this year, regardless of the possibility of a balance of five or six hundred thousand dollars remaining at the end of the year.

The budget actually represents the combined judgment of the Superintendent, the Business Manager, and the Board of Apportionment. Realizing that we may have a substantial balance at the end of 1927, it has been my opinion all along that this Committee should in no way jeopardize the School Committee of 1928 by leaving unappropriated sums varying from \$250,000 to \$500,000.

The history of the School Committee in the past when controversies of this nature have arisen between the Mayor and the School Committee, shows that the Committee has consistently refused to leave sums unappropriated, because each Committee took into consideration the effect of such action upon following financial years. I have stressed in my communications to your Board that the Mayor is obliged to go to the Legislature each year and have the tax limit fixed for city departments under his control. I know from my experience before the Legislature, and your Superintendent knows, that the Legislature does not expect the School Committee to go up each year to have a limit fixed. The School Committee has not been to the Legislature since 1921 for additional appropriating power, with the exception of that needed for the general increase in salaries of teachers allowed on September 1, 1925. In short, we have been living within our tax limit appropriations, plus the money available from our estimated income and the money available from our unexpended balances. In my opinion, the diversion of \$250,000 to \$500,000 from your funds this year will endanger the financial situation of the School Committee in 1928.

Mr. Sullivan, Mr. Chairman, I would like to ask the Business Manager a question. Do you believe the

time has come when this School Committee may well curtail substantially the items now in this budget?

Business Manager: I would not care to answer this because I think it is an educational problem.

Mr. Sullivan: Let me put it this way. Then your statement given just now is merely the statement of a business manager, assuming that everything as set forth in this budget is sound educationally.

Business Manager: I do not think that comes within my province, as to whether or not the items are sound educationally. My talk is wholly based on finances, regardless of the educational features of your budget. My recommendation right along has been based on the premise that in leaving substantial sums unappropriated you are jeopardizing the financial situation of the School Committee in 1928.

Mr. Sullivan: Your opinion is merely an opinion concerning the financial aspect of the budget and not the educational values contained therein.

Business Manager: Yes.

Dr. Bogan: I will make this additional statement. As of January 1st, this Board agreed that everything now in the budget should remain. Then the items of growth and expansion were taken up with the Board of Apportionment, and all the items that went into the present budget were agreed to by this Committee. Some thirty additional items of growth and expansion were brought in before the School Committee, but because of lack of money available this year, they were turned down.

Mr. Sullivan: I just want to get the Business Manager clear. Mr. Business Manager: Then you pass no opinion at all on anything in this budget except the routine matters, such as salaries.

Business Manager: I pass no opinion on the educational value of any item in this budget.

Mr. O'Hare offered the following: ORDERED, That the sum of \$3,000,000.00 be appropriated on account in order that there shall be no holdup on teachers' salaries, the sub-division of items under the order to be determined later.

At Mr. O'Hare's request, the order was laid over for action at a special meeting to be held next Monday.

The Business Manager pointed out that it will be necessary before August 1, to determine the total amount of money that will be required for the maintenance of the schools for the current year in order that necessary certification may be made to the Board of Assessors by that date.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

June 13, 1927.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6.53 o'clock P. M., the Chairman presiding.

Present: Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan.

APPROVAL OF MINUTES.

The reading of the minutes of the meetings of June 6 and 8, 1927, was omitted, the Board approving them as printed.

RESIGNATIONS.

The following resignations reported by the Superintendent, to take effect on the dates stated, were presented:

East Boston High School—Eleanor J. Maguire, junior assistant, May 31, 1927.

Ulysses S. Grant District—Eleanor M. O'Dowd, assistant, elementary, May 31, 1927.

Accepted.

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

ATTENDANTS.

Bowdoin District (Winchell School)—Josephine Roche, nutrition class attendant, June 7, 1927.

Approved.

Boston Disciplinary Day School—Delia A. McGowen, lunch attendant, June 13, 1927.

Approved.

TEACHERS APPROVED FOR TEMPORARY SERVICE.

The Superintendent submitted under the provisions of section 265, paragraph 2, of the regulations, the following additions to the list of teachers approved by him for temporary service:

Day High Schools—Marie S. Degnan.

Day Elementary Schools—Mary B. Clifford, Grace O. McLaughlin.

Department of Special Classes—Marguerite C. McBride.

Continuation School—Cyril D. Norton.

Approved.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence under a suspension of the rules, was granted the following-named teacher for the term specified:

Chapman District—Leroy K. Houghton, master, Mar. 17, 1927, one-half day and Mar. 18, 1927, one-half day, without loss of pay.

On the report of the Superintendent, leave of absence for study or rest, was granted the following-named teachers for the terms specified:

Dorchester High School for Girls—Adalena R. Farmer, first assistant, head of department, from Sept. 1, 1927, to Aug. 31, 1928, for rest.

Dillaway District—Charlotte Raftner, master, from Sept. 1, 1927, to Aug. 31, 1928, for study.

Warren-Bunker Hill District—Jennie F. White, master's assistant, from Sept. 1, 1927, to Aug. 31, 1928, for rest.

DESIGNATION OF TEACHERS.

A communication was received from the Superintendent, under date of June 13, 1927, reporting that he has made the following designations

of teachers to serve in the positions indicated until such time as they shall be filled otherwise in accordance with the rules and regulations, to take effect on the dates stated:

Dearborn District—Mary R. Desmond, assistant, kindergarten, as acting first assistant, kindergarten (vice Marion R. Stevens, absent on leave), Mar. 24 to May 31, 1927.

Wendell Phillips District—Frances E. Webster, assistant, special class, as acting master's assistant, special class (vice Cora E. Bigelow, absent on leave), Apr. 1 to May 18, 1927, inclusive.

William E. Russell District—Alice B. Hennessey, assistant, elementary, as acting master's assistant (vice Katharine Burns, absent on leave), Mar. 14, 1927.

Placed on file.

EMPLOYMENT OF SUBSTITUTE INSTRUCTOR IN BOSTON TRADE SCHOOL, SATURDAY MORNING CLASSES.

On motion of the Superintendent, it was

ORDERED, That the employment of Grover C. Russell as a substitute instructor in the Boston Trade School, Saturday morning classes, is hereby authorized for one day, May 14, 1927, compensation for such service to be at the rate of four dollars (\$4) per session.

EMPLOYMENT IN DEPARTMENT OF VOCATIONAL GUIDANCE WHEN SCHOOLS ARE NOT IN SESSION.

On motion of the Superintendent, it was

ORDERED, That during the school year ending Aug. 31, 1928, the Superintendent is hereby authorized to assign to the office of the Department of Vocational Guidance one vocational instructor and one vocational assistant on days when schools are not in session, Sundays and legal holidays excepted, compensation for said service to be at the rate of eight dollars (\$8) per day for full day of service, and four dollars (\$4) per day on Saturdays, to take effect Sept. 1, 1927.

On motion of the Superintendent, it was

ORDERED, That the Superintendent is hereby authorized to assign to the office of the Department of Vocational Guidance one vocational instructor and one vocational assistant for the period June 29 to July 16, 1927, inclusive, and an additional vocational instructor and vocational assistant for the week beginning June 29, 1927, through July 5, 1927, inclusive, and that upon certification to the Business Manager by the Director in charge of summer review schools, they be paid for their service at the rate of eight dollars (\$8) per full day for Mondays to Fridays inclusive, and four dollars (\$4) for Saturdays.

EMPLOYMENT OF EXAMINERS OF OUTSIDE STUDY IN MUSIC.

On motion of the Superintendent, it was

ORDERED, That the employment of examiners in connection with the granting of diploma credit for

outside study in applied music to pupils in the day high and day intermediate schools is hereby authorized at an expense not to exceed four hundred dollars (\$400); and provided that no examiner shall receive compensation in excess of seventy-five dollars (\$75) for such services.

EMPLOYMENT OF PLAYGROUND TEACHERS AT PRENDERGAST PREVENTORIUM.

On motion of the Superintendent, it was

ORDERED, That for the summer term ending Aug. 31, 1927, the Superintendent is hereby authorized to assign two playground teachers to the Prendergast Preventorium, Mattapan, to take effect June 29 1927,

ANNUAL APPROPRIATION ORDER ON ACCOUNT.

A communication was received from the Business Manager, under date of June 13, 1927, stating that pending final determinations by the Committee of the amounts to be allowed for the financial year 1927 to cover the cost of maintenance of the Boston Public Schools; the cost of administration and supervision, and the cost of sundry other services and expenses, exclusive of the item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards" it is necessary to make appropriations "on account" in addition to the appropriations "on account" made at the meeting of April 4, 1927.

Under the provisions of Chapter 320 of the Acts of 1889 the School Committee, pending the adoption of the budget for the year and the passing of the appropriation orders connected therewith, may make expenditures which shall not be in excess of one-third of the total expenditures for the financial year immediately preceding.

The Business Manager recommends the passage of the accompanying order making appropriations "on account" for all items of maintenance, with the exception of the item, "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards." The amounts provided in the order now recommended for passage, together with the amounts provided in the order of April 4, 1927, amply take care of the expenditures under the various items through the July 31, 1927, draft on the City Auditor.

Final decisions on the total amounts for the year should be made at an early date, as it is necessary under the provisions of Section 3 of Chapter 206 of the Special Acts of 1919 to certify to the Board of Assessors the aggregate amount of the appropriations to be raised by taxation for public school purposes. The certification to the Board of Assessors is made before August 1, 1927.

Placed on file.

The following was offered:

ORDERED, That to meet the current expenses of the School Committee,

and to provide funds for other school purposes as hereinafter specified during the financial year January 1, 1927, to December 31, 1927 the following sums are hereby appropriated "on account" in addition to those appropriated "on account" at the meeting of the School Committee held on April 4, 1927:

Salaries of Instructors (principals, teachers, members of the supervising staff and others).....	\$757,000.00
Salaries of Officers (administrative officers, attendance officers, clerks, stenographers, storekeepers and other employees)	30,000.00
Salaries of Custodians (including matrons)	64,500.00
Fuel and Light (including electric current for power).....	25,000.00
Supplies, Equipment and Incidentals	10,000.00
Pensions to Attendance Officers and Custodians	500.00
Physical Education (salaries of teachers, members of the supervising staff and others, supplies and equipment—day schools and playgrounds).....	50,000.00
Salaries of School Physicians and Nurses	35,000.00
Pensions to Teachers.....	13,000.00
Extended Use of the Public Schools (salaries, supplies, equipment and incidentals).....	15,000.00
Total	\$1,000,000.00

Passed by the following vote:

ATTENDANCE AT CONVENTION OF THE AMERICAN LEGION.

Mr. O'Hare offered the following:

ORDERED, That any employee of the School Committee who is a member in good standing of an American Legion Post and who actually attends the American Legion Convention in France in 1927, shall be allowed not more than six weeks' leave of absence between Sept. 1 and Oct. 15, 1927, no deduction in salary to be made for said leave of absence for the first four weeks of said leave, and deduction beyond the four weeks' period of said leave to be made at the present "half pay" rate, as provided in section 338, paragraph 4, of the regulations.

Question came on the passage of the order, and in connection therewith the following statements were made.

Mr. Sullivan: I am voting against the order introduced by Mr. O'Hare because I do not think that any preference should be given to the veterans in the employ of the School Committee. If I am correctly informed, the American Legionnaires or war veterans in other branches of the service, municipal and State, are not to be permitted the dispensation proposed in Mr. O'Hare's order. I feel that the employees of the School Committee who are veterans are in better positions, generally speaking, than employees in similar capacities in other governmental positions. I feel that we cannot afford, in the light of the situation as it exists, to grant this dispensation. I am a member of the American Legion, but, as I have said, since neither federal, state nor municipal employees who are legionnaires are to be given the dispensation now proposed, I find myself unable to vote in favor of Mr. O'Hare's order.

Mr. Gray: I shall vote against the order. I do this with regret because,

having served in the American Expeditionary Forces and being a member of the American Legion, I appreciate what this trip means. The Committee has been informed that other city and state employees are not to be granted the privilege of leave of absence without loss of pay, or with part pay, for the purpose of attending the convention. In view of this fact, I am voting in the negative.

Mrs. Barron: I am voting in the negative for the reasons already expressed by Mr. Sullivan and Mr. Gray.

Dr. Bogan: I am voting in the negative for the reasons already stated by Mr. Sullivan and Mr. Gray. I, too, am a member of the American Legion and of the Veterans of Foreign Wars. For these reasons I would like to see the veterans given the opportunity if it could be done, but in view of the fact that municipal, state and federal employees are not to be granted the dispensation, I do not believe that this department should be called upon to allow its employees the privilege of leave of absence to attend the convention without loss of pay or with part pay. Apart from the question whether leave for the purpose with pay or with part pay, could be granted legally, I do not believe that we should use the taxpayers' money to allow men or women extended leave of absence on full pay or part pay for the purpose.

Mr. O'Hare: It goes without saying that I am voting in favor of the order which I have introduced. If the permission were granted there would be very few in the service who could avail themselves of the opportunity, either with full pay or part pay. The number would be so small that it would in no way embarrass the administration or seriously interfere with the running of the schools.

The Chairman declared the order lost, four members having voted in the negative.

Mr. O'Hare offered the following:

ORDERED, That any employee of the School Committee who is a member in good standing of an American Legion Post and who actually attends the American Legion Convention in France in 1927, shall be allowed not more than six weeks' leave of absence between Sept. 1 and Oct. 15, 1927, deduction for the said six weeks' leave of absence to be at the present "half-pay" rate of deduction as provided in section 338, paragraph 4, of the regulations.

The order failed of passage, four members voting in the negative.

UNFINISHED BUSINESS

At the request of the Schoolhouse Custodian, the communication from the Schoolhouse Custodian reporting suspension of a custodian for violation of the rules, which was referred to the Trial Board at the meeting of June 6, 1927, was taken up and placed on file.

The Board adjourned.

POLICE DEPARTMENT ORDERS.

General Order No. 1099.

The following is a list of names of officers of this department who qualified as pistol experts, pistol sharpshooters or pistol marksmen, at the Commonwealth Armory Pistol Range, January 11 to February 25, 1927:

Three hundred and sixty-five (365) officers were selected to shoot for pistol qualification.

Twelve (12) officers qualified as expert for the first time.

Seven (7) officers qualified as expert for the second time.

Twenty (20) officers qualified as sharpshooter for the first time.

Four (4) officers qualified as sharpshooter for the second time.

Eighty-eight (88) officers qualified as pistol marksmen, first class, for the first time.

Fifty-five (55) officers qualified as pistol marksmen for the second time.

(Note: No credit is given by the War Department for requalification in the Marksman's Class.)

Accompanying this General Order are sent to each division commander, the medals to be awarded to these men by the Director of Civilian Marksmanship, War Department, Washington, D. C.

Division commanders will see that they are distributed in accordance with the list.

Any of the officers who are absent at this time for any reason will be awarded the medal on their return to duty. Division commanders will keep the same in custody until that time.

The commissioner wishes to congratulate the members of the department who have shown proficiency in pistol marksmanship and repeats what he has stated in previous General Orders on this subject, that it will serve as an incentive for other members of the department to continue practice along these lines for another year.

AREA OF UNITED STATES,
NEW ENGLAND, ETC.

Total of the 48 states in square miles, 3,026,789; Alaska, 590,884; making grand total of 3,617,673 square miles or 42.11 per cent of continent of North America and 6.32 per cent of the earth's land area. The six states of New England, 66,424 square miles, *i. e.*, Maine, 33,040; Vermont, 9,564; N. H., 9,341; Mass., 8,266; Conn., 4,965; R. I., 1,248. Land area of New England, 61,976 square miles; of Massachusetts, 8,039 square miles.

Total area of U. S. (including Alaska) 112,000 square miles less than total of Canadian provinces, but the total population is over 12 times as many.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed on bronze tablets the names of 58 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 65 individuals thus selected (up to 1925 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total, 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

No Bostonian was selected in 1925.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 58.46 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 423; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of City's total; in 1910 its population had increased to 477,311, or 71.18 per cent. Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of City.

POPULATION OF NEW ENGLAND CITIES, 1920.

Ranking from the highest number of inhabitants:

Providence, 237,595; Worcester, 179,754; New Haven, 162,537; Bridgeport, 113,555; Hartford, 138,036; Springfield, 129,614; New Bedford, 121,217; Fall River, 120,485; Lowell, 112,759; Cambridge, 106,694; Lynn, 99,148; Lawrence, 94,270; Somerville, 93,091; Waterbury, Conn., 91,715; Manchester, N. TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam Marginal street, East Boston, from Boston, Revere Beach and Lynn Railroad to 471 feet east of Jeffries street, with division forces, without advertising, the estimated cost for labor and material being \$4,000.

The Mayor has approved the request of the Public Works Department for authority to relay granite block paving, with grout joints, in Chapman street, Charlestown, from Main street to Austin street, with division forces, without advertising, the estimated cost for labor and material being \$6,500.

ORDER FOR WEST END PLAYGROUND DISAPPROVED—SPECIAL COMMITTEE TO STUDY CITY'S NEEDS.

Mayor Nichols announced on July 12 that he had returned without his approval a City Council order dated June 22 providing for an appropriation of \$250,000 for the purchase of land for playground purposes in the West End, and the following is the text of his message.

To the City Council.

GENTLEMEN,—I return, without my approval, your order under date of June 27 providing for the appropriation of \$250,000 for the purchase of land for playground purposes in the West End section of Ward 3.

At the present time requests and petitions are in the office of the Park Commission for new playgrounds in the following districts:

East Boston. Vicinity of Wordsworth street.

Charlestown. Vicinity of Charlestown Heights, extension of Einmons Playground to Austin street.

City Proper. Present proposal for West End. South End, vicinity of Columbus avenue and Newton street.

Brighton. Vicinity of Market street and in Faneuil district.

West Roxbury. Germantown district and Clarendon Hills section.

Roxbury. Fairfield street section.

Dorchester. Uphams Corner section, Milton Lower Mills section, Mattapan section.

Jamaica Plain. Bromley park section.

Forest Hills. Morton street section, Canterbury street section.

Hyde Park. Rugby section.

Since the introduction of the West End Playground order several other playground orders have been introduced and are now pending before your honorable body. These orders carry with effect the foregoing requests and petitions. If all were to be given favorable consideration the immediate investment required of the city would, in the opinion of the Park Department, amount to about three and one half millions.

The last comprehensive report upon playgrounds issued by the Park Department in November, 1925, does not indicate the need of future playground facilities in the West End, but is directed rather toward the establishment of playgrounds elsewhere. There is everything to be said in favor of more playgrounds, nevertheless, all pending requests and petitions have an equal claim upon our attention, and all should be considered before any one is granted.

Since I have been Mayor, so many have been the demands and so great the expense that it seemed the part of wise economy to consider how existing playgrounds could be made more widely serviceable. Under the plan adopted we have increased their utility by at least 75

MAYOR PROVIDES FOR TESTING AUTO BRAKES.

Mayor Malcolm E. Nichols, on July 11, issued the following statement:

I was amazed to read in the morning papers that twenty-three people were killed by automobile accidents last week and that fifteen of these were pedestrians. There is no doubt that many of these fatalities were due to faulty brakes. Through the official City of Boston Safety Committee which was recently appointed by me, and with the co-operation of the City of Boston Police Department and the Boston Automobile Club, brakes will be tested every day this week from 4 p. m. until darkness, on Dorchester avenue, between Summer street and the Fort Point Channel Bridge.

The proposed test at these hours will be held particularly for the working people who were unfortunate in having this test made earlier in the season. A car owner owes it to himself as well as to the pedestrian to be sure that at all times his automobile is in perfect control and that his brakes are in absolute working order. I earnestly urge everyone will avail themselves of this opportunity to help the work of safety which is being carried on in Boston.

AMPLIFIERS AT MARINE PARK BANDSTAND INAUGURATED.

Mayor Nichols received a letter on July 11 from Chairman Long of the Park Department relative to the use for the first time of amplifiers at the bandstand at Marine Park in connection with the band concert of yesterday. It read in part:

"The success of the amplifiers and loud speakers which were used for the first

time at the band concert at Marine Park yesterday afternoon proved to be very satisfactory. Naturally the inclement weather did not draw the usual crowds but scores of automobilists, comfortably seated in their cars at Marine Park, City Point, showed their appreciation of the music rendered by the band by the blowing of their horns. The amplification will be used regularly at all future band concerts given there during the balance of the season."

PLAYGROUND NEEDS.

(Continued from page 789.)

per cent. In commendation of this plan, I quote from a letter to me under date of June 20 from Curtis L. Harrington, representative of the Playground and Recreation Association of America, as follows:

"At your play areas I found constructive work being done and was particularly pleased at the decidedly progressive steps taken last year in the appointing of twenty people to furnish leadership on these areas. From our national experience, leadership is vital if we are to secure the measure of results from recreation which we should have. These play areas in the City of Boston are effecting for good thousands of people daily and the number is constantly increasing, due to the instructions you have given the Park Department to utilize the playgrounds to the fullest extent and keep the children off the streets."

Only a few days ago the excellence of our park and playground system was given nation wide publicity through the favorable comment of President Coolidge.

For the equipment and maintenance of playgrounds the sum of \$182,000 is provided in the budget this year. A survey of playgrounds recently made by the Park Department indicates that the sum of \$357,000 could be advantageously expended upon construction and equipment on existing play areas, and this need alone should be carefully noted when new playgrounds are being considered.

Your order is defective in its failure to make provision for the items of construction and equipment. It provides only for buying land. Without a further order covering such items, no playground could be established.

In view of the foregoing, I find it necessary to withhold my signature. I do so, however, without passing upon the merits of the playground denied. Every playground request undoubtedly has merit, although this proposal should be closely viewed with reference to the fine play area in the West End along the Charlesbank containing ten acres and having 150 acres of surrounding city limits within a quarter of a mile distance. The usefulness of the Charlesbank Playground has been greatly enhanced during the past year through the adoption of play leadership.

In providing for an expansion of play areas and the development of existing facilities, we should follow a systematic policy of giving a fair study to the needs of every section of the city. In pursuance of this policy I have appointed today a special committee of representative citizens to study and compare these needs and to submit appropriate recommendations thereon.

SPECIAL COMMITTEE.

William P. Long, Chairman, Board of Park Commissioners.

Charles A. Coolidge, Architect, member of Park Commission.

James E. McConnell, lawyer, former member of Park Commission.

Francis D. Donoghue, M. D., Medical Adviser, Industrial Accident Board of the Commonwealth.

Mrs. Ely Feibelman, President of the League of Jewish Women's Organizations, a Vice President, Boston Section, Council of Jewish Women, and a member of the Welfare Board of the Children's Hospital.

Stephen W. Sleeper, President, Boston Real Estate Exchange.

EXTRA WORK UNDER CONTRACT.

Samuel J. Tomasello has been directed, to perform the following extra work under the contract for building sewerage works in Dudley street, between Harrison avenue and Blue Hill avenue, Roxbury. Items ordered: Build one or more drop inlets at \$50 each; excavate fifty, more or less, cubic yards of material in outside trench at \$4 per cubic yard. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Estimated cost of extra work, \$300.

MONEY TO CONSCIENCE FUND.

Mayor Nichols received 75 cents in cash on July 12 from Commissioner Long of the Park Department which was sent to him anonymously from an individual who said he wished to make restitution on damages which he had done on Park Department property recently. The sender felt that the amount of the damage was small and felt that the amount inclosed would cover the costs. The money was turned over to the City Treasurer to be placed in the Conscience Fund.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Antony Cefalo has been granted an extension of the time of completion of the contract for the building of sewerage works in Midvale road and Stellman road, West Roxbury, from June 25, 1927, to July 15, 1927 (twenty days).

The Atlantic Works have been granted an extension of the time of completion of the contract for new suction chamber for No. 5 pump, Calf Pasture, dated November 24, 1926, from June 30, 1927, to July 16, 1927 (sixteen days).

THE HAMBURG-AMERICAN LINE PLANS TO INCREASE BOSTON SERVICE.

Mayor Nichols has received the following letter from J. P. Meyer of the Hamburg-American Line:

Boston, July 5, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR MR. MAYOR,—I am in receipt of your letter of July 1, referring to the recent visit of Mr. Frank S. Davis, manager of the Maritime Association of the Boston Chamber of Commerce, to our directors in Hamburg, and on which occasion he presented a communication from you to our chairman, Dr. Wilhelm Cuno, with regard to the re-establishment of a passenger and freight service between your city and Hamburg as it existed prior to the war.

You may be assured that the policy which is being followed by our company for the re-establishment of the services as they existed before the war is only being retarded as to his complete fulfillment by the lack of suitable tonnage. For the present the principal routes of our company's services to the different parts of the world must receive first consideration towards complete re-establishment, before our good intentions for a direct freight and passenger service from your port to Hamburg can be fully realized.

In the meantime, we are, as you know, giving Boston a regular service by our steamers "Cleveland," "Westphalia" and "Thuringia," and we are in hopes that in time we will be able to provide the further improvements desired by the business interests of your city and its surrounding territory. I am sending copies of this correspondence to our chairman, Dr. Wilhelm Cuno, for his information, and I am also submitting to him your request of naming one of our future new steamers for your city.

Allow me to express to you the sincere thanks and appreciation of our company for the many courtesies extended to us in the past, and to assure you of our earnest desire to co-operate with you in every way in the future development of our Boston service.

Sincerely yours,

J. P. MEYER,
Hamburg-American Line,
New York City.

MAYOR REGRETS DEATH OF NOTED ACTOR, JOHN DREW.

Mayor Malcolm E. Nichols sent the following telegram on July 8 to Mrs. John Devereaux, daughter of the late John Drew:

MRS. JOHN DEVEREAUX, Dante Hospital,
San Francisco, Cal.

Please accept this expression of profound sympathy in your loss in the death of your illustrious father, John Drew. Boston can well claim him for he came to us annually for a period of thirty years. The American stage, which he adorned for fifty-four years, has suffered an irreplaceable loss in the death of its dean. The American public has lost a foremost leader in the field of art.

MALCOLM E. NICHOLS, *Mayor.*

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Donald road, bounded:

Northeasterly by Harvard street, eight and 38-100 feet; northeasterly by another part of Donald road, three hundred and twenty-four feet; southeasterly by the same, eight feet; and southwesterly by the same, three hundred twenty-one and 48-100 feet; containing twenty-five hundred and eighty-two square feet, more or less.

The sewerage works to be constructed are as follows: 318 linear feet of 10-inch pipe sanitary sewer and 316 linear feet of 12-inch pipe surface drain, in the above described premises.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the northeasterly side of Donald road, excluding the lots at the corners of Harvard street and the lots of abutting land on the southwesterly side of Donald road, excluding the lots at the corners of Harvard street and Blue Hill avenue, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 774, Sewerage Works, Donald Road, Dorchester, June 3, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Shirley street, bounded:

Southeasterly by Sunnyside street, six feet; southwesterly by another part of Shirley street, one hundred and eighty-five feet; northwesterly by the same, six feet; and northeasterly by the same, one hundred and eighty-five feet, containing eleven hundred and ten square feet, more or less.

The sewerage works to be constructed are as follows: 175 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Shirley street, leading northwesterly from Sunnyside street for 185 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Shirley street will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 773, Sewerage Works, Shirley Street, Hyde Park, June 2, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN BOSTON PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as Boston proper and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Alley No. 523, bounded:

Westerly by West Canton street, ten and 8-100 feet; northerly by the northerly line of said Alley No. 523, three hundred fifty-one and 51-100 feet; easterly by Dartmouth street, ten feet; and southerly by the southerly line of said Alley No. 523, three hundred fifty and 23-100 feet; containing thirty-five hundred and nine square feet, more or less.

The sewerage works to be constructed are as follows: 310 linear feet of 15-inch pipe sanitary sewer, in the above described premises, being part of Alley No. 523, from West Canton street to Dartmouth street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Alley No. 523, from West Canton street to Dartmouth street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan 771, Sewerage Works, Alley No. 523, Boston Proper, May 17, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

FIRE DEPARTMENT ORDERS.

General Order No. 42.

I. LIGHTS.

During the past year additional equipment in the form of lights has been furnished to the department in order to increase the efficiency of its work at fires and to protect the men against unnecessary and possibly fatal injuries. At any fire where an officer feels that illumination is necessary he should immediately order the lights put into service without waiting for the arrival of his superior officer. This applies particularly to the commanders of companies equipped with lights. Officers will be held responsible for failure to provide proper illumination at fires.

All orders concerning lights inconsistent with the above are hereby revoked.

II. JOURNALS.

Journals are now being distributed to all companies that sent in reports in accordance with General Order No. 31. This supply of journals is for one year, and any further requisitions for journals must be accompanied by an explanation from the commanding officer of the company requesting them.

III. HEAVY OIL BURNERS.

The following letter which has been received from the State Fire Marshal is published for the information of the department:

"Subject: Heavy Fuel Oil-Burning Installations.

1. The approval of all heavy fuel oil-burning systems by this department is required. Before the installation, plans must be submitted at this office showing the location and construction of the oil tanks, boiler room, pumps, piping, valves, controls, and other equipment in connection with same.

2. The following lists of firms have received the approval of this department to make installations of their respective devices for the burning of heavy fuel oil in accordance with the above provisions:

The Ballard Oil Burning Equipment Company, 535 Commonwealth avenue, Boston, Mass.

The Petroleum Heat and Power Company, 100 Boylston street, Boston, Mass.

F. V. Hadley & Co., 127 Federal street, Boston, Mass.

The Simplex Oil Heating Company, 6 Beacon street, Boston, Mass.

The Hammell Oil Burning Equipment Company, Providence, R. I.

The Lake Oil Burning Company, 120 Tremont street, Boston, Mass.

The S. T. Johnson Oil Burning Equipment Company, 755 Boylston street, Boston, Mass.

Trowbridge & Schellens, Inc., 6 Beacon street, Boston, Mass.

GEORGE C. NEAL,
State Fire Marshal."

IV. LOSS OF PROPERTY AT FIRES.

When complaint is made to any officer of this department by a person that personal property is missing, either through alleged theft or otherwise, the officer should notify the complainant to report the matter immediately to the local police. The officer receiving the complaint should also notify the police of the matter. A report of the action taken should then be forwarded to the Fire Commissioner, which report will include the time the complaint was received and the time it was reported to the police.

By order of Fire Commissioner E. C. Hultman,

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 43.

1. U. S. FRIGATE "CONSTITUTION."

Referring to General Order No. 41, current series, the Fire Commissioner has been requested by Rear Admiral Philip Andrews, U. S. N., to ask the members of the Fire Department to give the invitation to purchase pictures of "Old Ironsides" serious consideration. These pictures will be sold for 25 cents each, which price does not represent their value as a work of art.

In considering the purchase of one of these pictures members are requested to bear in mind the following: That as citizens of the City of Boston it is a patriotic step for them to take to contribute this small sum towards the reconditioning of "Old Ironsides." This boat was built in Boston, and Boston has been its home.

The Boston Fire Department is the first organization which has been invited to contribute, as a Fire Department, by the purchase of these pictures. If the Boston Fire Department makes a worthy response to the invitation their action will be broadcast throughout the country by the committee in charge, in order to

encourage members of other fire departments to join in the effort being made to raise funds. The Rear Admiral hopes that the Boston Fire Department will respond generously because of the fact that Boston is the home of the "Old Ironsides."

While the contribution that is asked is only 25 cents, it is emphasized again that the picture is worth much more.

All returns should be made by company commanders on or before July 15, 1927.

II. DEPUTY CHIEFS' AIDES AND

DISTRICT CHIEFS' CHAUFFEURS.

Deputy chiefs and district chiefs are responsible for the men whom they select to act as aides and chauffeurs.

Deputy chiefs will forward to headquarters the names of the men whom they have selected and assigned for this work, together with the date the assignment took effect, not later than July 12, 1927.

District chiefs will forward the names of the men whom they have selected as chauffeurs and the date when such assignment took effect. These names will be forwarded to the Fire Commissioner not later than July 12, 1927.

By order of Fire Commissioner E. C. Hultman,

DANIEL F. SENNOTT,
Chief of Department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Allendale avenue, bounded:

Northerly by easement taken by the City of Boston for sewerage purposes October 15, 1923, six feet; easterly by another part of Allendale avenue, three hundred thirty-three and 12-100 feet; southerly by easement taken by the City of Boston for sewerage purposes, November 3, 1923, six feet; and westerly by another part of Allendale avenue, three hundred thirty-three and 12-100 feet; containing nineteen hundred and ninety-nine square feet, more or less.

The sewerage works to be constructed are as follows: 340 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Allendale avenue.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the easterly side of Allendale avenue, beginning at a point approximately 202 feet north of Milton street and extending northerly for a distance of approximately 285 feet, and the lots of abutting land on the westerly side of Allendale avenue, beginning at a point approximately 191 feet north of Milton street and extending northerly for a distance of approximately 315 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 777, Sewerage Works, Allendale Avenue, Dorchester, June 10, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

APPROPRIATION FOR ADMINISTRATION EXPENSES, SCHOOLHOUSE DEPARTMENT.

A communication was received from the Board of Apportionment, under date of June 21, 1927, recommending, in accordance with the provisions of Section 142 of the Rules, the passage of the accompanying order, making an appropriation on account for the purpose of meeting administration expenses of the Schoolhouse Department in connection with land and buildings for schools appropriations.

Placed on file.

The following was offered:

ORDERED, That in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, as amended by Chapter 488 of the Acts of 1923, as amended by Chapter 327 of the Acts of 1925, as amended by Chapter 314 of the Acts of 1926, the following appropriation is hereby made on account for the purpose of meeting the administration expenses of the Schoolhouse Department, in connection with land and buildings for schools appropriations:

Item 1, 1927—Administration Expenses, Schoolhouse Department (land and buildings appropriations)\$39,000.00

Passed by the following vote:

TRANSFER OF APPROPRIATIONS.

A communication was received from the Board of Apportionment, under date of June 13, 1927, recommending the passage of an accompanying order providing an additional appropriation by transfer to cover the additional cost of a land and building item previously authorized.

Placed on file.

In connection with the foregoing, the Chairman made the following statement:

The School Committee regrets the necessity for this additional appropriation for the Mahler Road site and has long delayed action, hoping that some other solution might be found. It seems now that there is no alternative unless the Committee is willing to abandon the site which has been taken and meet the cost of the damages which will be more than \$100,000. according to the statements of the architect and the contractor, filed by the Schoolhouse Commission.

On May 18, 1925, an appropriation in the sum of \$13,000 was made for the purchase of land, as asked for by the Schoolhouse Commission. On March 15, 1926, appropriation in the sum of \$154,500 was made for "plans and construction" on recommendation of the Schoolhouse Commission. May 10, 1926 the sum of \$9,700 was transferred from the appropriation

for the Mahler Road site, that amount being reported by the Schoolhouse Commission as available for transfer on account of reduction in estimate and postponement of purchase of equipment for the building.

Under date of May 12, 1927, the Schoolhouse Commission requested an additional appropriation of \$60,000, reporting that "upon exposing to view the underlying soil it was found that its condition made it necessary for the Board to change the form of construction, making this a job where piles have to be driven. This additional appropriation is therefore necessary to cover the extra work on the foundations of this proposed building."

It seems to the School Committee that reasonably adequate knowledge of the condition of the land selected should have been in the possession of the Schoolhouse Commission before the taking was completed. Had this been done there would be now no need for additional appropriation because the contract would not have been awarded until decision was reached as to the suitability of the land.

There appears to be now but two alternatives:

1. Abandon the site and pay damages of over \$100,000 according to the figures filed by the Schoolhouse Commission, or

2. Provide for additional \$60,000 asked for, in order to permit of the driving of piles and immediate progress on the erection of the building.

If the first proposition were decided upon, there would be an expenditure in excess of \$100,000 plus the cost of land, with no school building. The second proposition will mean an additional outlay of \$60,000 but will give a school building to meet the immediate needs of the section. The Board of Apportionment reports that there is no other suitable available site in that section of West Roxbury. Consequently, the Committee reluctantly agrees to this additional appropriation.

The following was offered:

ORDERED, That of the amounts appropriated by the School Committee under dates of Mar. 15, 1926 (see p. 46); May 10, 1926 (see p. 94); and Feb. 7, 1927 (see p. 40), the following amounts are hereby transferred for the purpose of meeting the additional cost of a land and building item previously authorized, as reported by the Schoolhouse Department:

FROM

Item 14, 1927—Elihu Greenwood District, Hyde Park: Land and construction of thirty-six class room high school for boys and girls. (Item 37, 1925; Item 24, 1926)	\$50,000.00
Item 14, 1926—Bennett District, Brighton: Plans and construction of four-room addition to the Alexander Hamilton Building, Grades I to VI.....	6,587.07
Item 31, 1926—Warren-Bunker Hill District, Charlestown: Charlestown High School, land and construction of one-story shop unit of three-story annex (Item 26, 1924; Item 2, 1925) ..	2,142.61
Item 40, 1926—Warren-Bunker Hill District, Charlestown: Plans and construction of two-story addition to Charlestown High School annex	1,270.32
Total	\$60,000.00

TO

Item 10, 1926—Francis Parkman District, West Roxbury: Land and construction of four-room unit of eight-room building, kindergarten and Grades I to III (Item 22, 1925). (To cover plans and construction and change to a five-room unit, kindergarten and Grades I to VI, of future eleven-room building)

\$60,000.00

Passed by the following vote:

ANNUAL APPROPRIATION ORDER.

A communication was received from the Business Manager, under date of June 21, 1927, reporting that on Apr. 4, 1927, appropriations "on account" were made as follows.

Salaries of Instructors (principals, teachers, members of the supervising staff and others) ..	\$6,000,000.00
Salaries of officers (administrative officers, attendance officers, clerks, stenographers, storekeepers and other employees)	175,000.00
Salaries of Custodians (including matrons)	410,000.00
Fuel and light (including electric current for power)	225,000.00
Supplies, Equipment and Incidentals	450,000.00
Pensions to Attendance Officers and Custodians	2,500.00
Physical Education (salaries of teachers, members of the supervising staff and others, supplies and equipment—day schools and playgrounds) ..	136,000.00
Salaries of School Physicians and Nurses	95,000.00
Pensions to Teachers	65,000.00
Extended Use of the Public Schools (salaries, supplies, equipment and incidentals) ..	45,000.00
	<u>\$7,603,500.00</u>

On June 13, 1927, appropriations "on account" were made as follows:

Salaries of Instructors (principals, teachers, members of the supervising staff and others)	\$757,000.00
Salaries of Officers (administrative officers, attendance officers, clerks, stenographers, storekeepers and other employees)	30,000.00
Salaries of Custodians (including matrons)	64,500.00
Fuel and Light (including electric current for power)	25,000.00
Supplies, Equipment and Incidentals	10,000.00
Pensions to Attendance Officers and Custodians	500.00
Physical Education (salaries of teachers, members of the supervising staff and others, supplies and equipment—day schools and playgrounds) ..	50,000.00
Salaries of School Physicians and Nurses	35,000.00
Pensions to Teachers	13,000.00
Extended Use of the Public Schools (salaries, supplies, equipment and incidentals) ..	15,000.00
	<u>\$1,000,000.00</u>

The budget showing the detailed estimates of the cost of maintenance of the public schools, of the cost of administration and supervision; and of the cost of sundry other services and expenses of the public schools for the financial year 1927, exclusive of the item "Alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," adopted at the meeting of May 9, 1927, called for appropriations totalling \$14,862,793.05. (See minutes of meeting of May 9, 1927, for complete details).

On May 21, 1927, His Honor, the Mayor, vetoed this budget under authority provided in section 2 of

chapter 206 of the Special Acts of 1919, which reads as follows:

"Section 2. The votes of the school committee making appropriations as aforesaid shall have the same force and effect as orders or votes of the city council appropriating money, and shall be subject to the same provisions of law in respect to approval by the mayor, except that a vote of four of the members of the school committee, taken by yeas and nays, shall be necessary to pass such appropriations over the veto of the mayor."

At the meeting of the School Committee held on June 8, 1927, the veto of His Honor, the Mayor, was sustained. (See minutes of meeting of June 8, 1927 for complete details).

At the conference of the School Committee held on June 13, 1927, the Business Manager was instructed to reduce the total estimates of the budget, amounting as herein stated to \$14,862,793.05, by the sum of \$200,000. Carrying out such instructions, I suggest that the sub-item under General School Purposes, viz., "Salaries of Instructors (principals, teachers, members of the supervising staff and others)" which sub-item, in the budget with detailed estimates adopted at the meeting of May 9, 1927, called for a total appropriation of \$11,434,562.00, be changed to read \$11,234,562.00. As a result of such action the total of the original estimates, viz., \$14,862,793.05, is reduced to \$14,662,793.05.

The appropriations made "on account" at the meeting of April 4, 1927, and at the meeting of June 13, 1927, total \$8,603,500.00. Taking into consideration the information submitted in the foregoing paragraphs, I am recommending the passage of the accompanying order which, together with the two appropriations "on account" mentioned, provides for appropriations for the financial year 1927 totaling \$14,662,793.05 to cover the cost of maintenance of the public schools; the cost of administration and supervision; and the cost of sundry other services and expenses of the public schools, exclusive of the item "Alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards."

Placed on file.

The following was offered:

ORDERED, That to meet the current expenses of the School Committee, and to provide funds for other school purposes as hereinafter specified during the financial year January 1, 1927, to December 31, 1927, the following sums are hereby appropriated in addition to those appropriated "on account" at the meetings of the School Committee held on April 4, 1927, and June 13, 1927:

Salaries of Instructors (principals, teachers, members of the supervising staff and others)	\$4,477,562.00
Salaries of Officers (administrative officers, attendance officers, clerks, stenographers, storekeepers and other employees)	153,343.73
Salaries of Custodians (including matrons)	348,985.83
Fuel and Light (including electric current for power)	264,957.00
Supplies, Equipment and Incidentals	558,980.73
Pensions to Attendance Officers and Custodians	2,000.00
Physical Education (salaries of teachers, members of the supervising staff and others, supplies and equipment—day schools and playgrounds) ..	113,997.06
Salaries of School Physicians and Nurses	63,938.00

Pensions to Teachers.	50,874.03
Extended Use of the Public Schools (salaries, supplies, equipment and incidentals) ..	24,654.67
	<u>\$6,059,293.05</u>

Passed by the following vote:

YEAS—Mrs. Barron, Messrs. Bogan, Gray and Sullivan—4.
NAYS—Mr. O'Hare—1.

As the members responded to the roll call, each member made a statement in connection therewith, which statements were ordered spread upon the records, as follows:

Mr. Gray: Under existing law the affirmative vote of four of the five members of the Committee is necessary to pass an appropriating order. At the meeting on May 9, four members voting in the affirmative and one member—Mrs. Barron—not voting, the appropriation order in question was passed. Under that order, which I shall hereafter refer to as the budget, the Committee voted to appropriate for the use of the schools for the year 1927 all sums which the Committee by law is authorized to appropriate.

The budget thus adopted by the Committee was subsequently vetoed by the Mayor with the request from His Honor that the Committee revise its estimates so as to leave unappropriated the sum of \$500,000. To pass the budget over the Mayor's veto four affirmative votes are again necessary. At the meeting of the Committee on June 8 the Chairman, Mr. O'Hare and I voted in favor of the original budget, or in other words, voted to override the Mayor's veto. The other two members, Mrs. Barron and Mr. Sullivan, voted to sustain the veto, with the result that the budget as adopted on May 9 failed of passage.

If the situation thus presented, viz., that of a minority blocking the wishes of the majority, is unusual in School Committee annals, the fact remains that the Legislature in providing that four affirmative votes were necessary to the passage of the budget must have intended that in a matter of such great importance, involving as it does many millions of dollars, more unanimity was desirable than is to be found in the expression of a bare majority. In effect the Legislature has directed that where an honest and sincere difference of opinion has arisen as is the case here the members shall get together and adjust their differences.

Under the law we are required to notify the Board of Assessors before August 1 of the total to be raised by taxation for all school purposes. Mr. Chairman, I am not in favor of revising our budget or of leaving any sums unappropriated this year. My reasons for this were stated in detail at the meeting on June 8 and it is unnecessary at this time to reiterate them. I understand that you and Mr. O'Hare hold the same opinion that you expressed at that meeting. Mrs. Barron and Mr. Sullivan, on the other hand, remain equally convinced that a considerable sum should be left unappropriated this year. In other words we are, putting it frankly, at a deadlock.

If all of us persist in our views no budget will be adopted this year. The teachers will not be paid. The schools will not run. This is unthinkable. There should be and there must be some common meeting ground. The personal satisfaction of adhering to one's vote as originally cast

must yield to the more important duty with which we are charged, namely, the running of the schools to the best of our joint ability. With this in mind there is, in my opinion, only one thing to do and that is to agree upon a sum to be left unappropriated. The Mayor has requested that this sum be \$500,000. This figure in my judgment is excessive and I could not vote to leave any such amount unappropriated. In our deliberations on this matter both Mrs. Barron and Mr. Sullivan have shown their appreciation of the difficulties of the situation and it is a desire on their part to co-operate to the best interests of all concerned which has prompted them to agree tentatively on the sum of \$200,000 as the amount to be left unappropriated this year. In view of that fact I am ready under the circumstances to vote in favor of a budget which leaves this amount—\$200,000—unappropriated.

Mr. Sullivan: I am voting for the budget as now presented. As Mr. Gray has so well expressed it, this was a situation where it was imperative that there be a common meeting ground of minds, and a compromise effected. I feel, and have felt for some time, that too much money is being spent by the School Committee. I feel that we might leave unappropriated a sum greater than \$200,000, but in order to insure the continuance of education here in Boston, I have joined in the compromise effected, namely the withholding from appropriation of the sum of \$200,000.

Mr. O'Hare: Because I believe in the original budgetary items in toto, I cannot subscribe to this appropriation order which reduces our total amount to be appropriated for 1927 by \$200,000.

Mrs. Barron: At the meeting of May 9, I did not vote for the budget as submitted by our Business Manager because, as I had stated previously, I had grave doubt as to the advisability of voting for a budget which included a surplus which could not be entirely used in 1927. On further consideration, I reached the conclusion, which was agreed to by the Business Manager and other members of the Committee, that the passing of the budget as originally submitted would mean a surplus of approximately \$600,000. I do not believe in appropriating money which admittedly can not be used in any one year.

I would not vote to withhold from appropriating \$200,000 as I am voting tonight, if I felt that such action would in any way limit the activities of the school system or handicap the Superintendent in its administration. I am voting for the reduction of \$200,000 because I am convinced that with this reduction we will still have a surplus of some \$400,000 at the close of the current year. I am convinced that in 1927, even with this reduction, we will be able to carry on desirable projects. I believe that if we are obliged to go to the Legislature in 1928 for additional appropriation for the maintenance of the schools and the carrying through of necessary additional activities we will be given additional appropriating power, because I have confidence in the justice of the Legislature.

Dr. Bogan: At the meeting of the School Committee on May 9, with three of my associates I voted to adopt the budget for the year 1927. I voted for the appropriation order which was based upon the bud-

getary items submitted by the Business Manager after conferences with the educational officials. Again at the meeting of the School Committee on June 8, when the Committee had under consideration the communication from His Honor the Mayor vetoing the budget of the School Committee, I voted with two of my associates to pass the original budget over the veto of the Mayor. With reference to the proposition that a substantial sum be left unappropriated, in view of a prospective balance this year, I said, "Looking forward to the financial situation in 1928 and realizing that there is a reorganization of the School Committee on January 1, 1928, it is my recommendation that no sum be left unappropriated, in view of the information set forth in this communication to the effect that there are very many desirable projects that the present School Committee and the School Committee in 1928 may wish to place in operation at the earliest possible date."

I have not changed my opinion in the slightest. I am still firmly of the opinion that the budget as originally presented should be adopted and that no sum should remain unappropriated. Since, however, the votes of four of the five members of the Committee are necessary to override the Mayor's veto, and since it is impossible to secure more than three votes for this purpose, I am unable to carry out my wishes. The schools must function, the teachers must be paid, the bills must be settled, and all this is impossible without the adoption of the budget. In order that the schools may be open for our children during the remainder of the present financial year, I reluctantly yield and vote for the budget, leaving unappropriated \$200,000 of the amount which may be raised by law for maintenance of schools.

Mr. O'Hare: If the theory of appropriating with knowledge beforehand that there will be a balance at the end of the year is not sound, as is claimed by some students of municipal finance, then this present reduction of \$200,000 is not sound.

We all feel certain that even now with the above-mentioned reduction we will have a balance at the end of 1927 of between \$350,000 and \$450,000. This reduction, therefore, is not accomplishing the standard set—namely, appropriating only the exact amount needed.

I believe that the original budget as passed is the proper one, because my theory of school finance takes into consideration not only this Committee of 1927, but also the Committee of 1928. As a continuing body, even with changes in personnel I feel that reduction of appropriating power is a very bad precedent.

And surely a half-way stand of appropriating with a knowledge beforehand of a slightly decreased surplus cannot stand the acid test of either view of school finance.

Mrs. Barron: I am voting for the budget which will possibly leave a substantial balance this year because I believe that to properly administer our schools we must allow a margin of safety. I am not voting for the purpose of leaving a surplus of \$400,000 for 1928. I am voting for this surplus in order to allow provision for new projects which may be introduced, and to provide for possible emergencies which may arise during the year in order to protect our schools.

DEATH OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of June 21, 1927, reporting the death, on June 9, 1927, of William A. Foley, custodian, Hill-side School-house.

Placed on file.

APPOINTMENT TO A PORTABLE

A communication was received from the Schoolhouse Custodian, under date of June 21, 1927, recommending that Walter H. Bickford, custodian, Winship School-house, be also appointed as custodian of Portable No. 82, located in the yard of that school, to take effect May 27, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Owencroft avenue, bounded:

Southeasterly by Codman street, thirty-four and 14-100 feet; westerly by the westerly line of Owencroft avenue, twenty-two and 63-100 feet; southwesterly by the southwesterly line of Owencroft avenue, five and 94-100 feet; northwesterly by another part of Owencroft avenue, twelve and 2-100 feet; southwesterly by the same, five hundred forty-eight and 46-100 feet; northwesterly by the northwesterly line of Owencroft avenue, eight feet; and northeasterly by another part of Owencroft avenue, five hundred sixty-eight and 4-100 feet; containing forty-eight hundred and twenty-eight square feet, more or less.

A parcel of land, supposed to belong to Hurley-Driscoll Building Company, bounded:

Southeasterly by Owencroft avenue, and by other land of said company, ninety-three and 43-100 feet; southwesterly by easement taken by the City of Boston for sewerage purposes, July 11, 1903, six feet; northwesterly by other land of said company, ninety-three and 48-100 feet; and northeasterly by the same, six feet, containing five hundred and sixty-one square feet, more or less. The aforesaid described parcel is a part of a parcel of land registered in the Land Court, Certificate No. 21656, Book 104, page 56.

The sewerage works to be constructed are as follows: 670 linear feet of 18-inch pipe surface drain.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to blanket coat with asphalt River street, Hyde Park, from Garden avenue to Readville street, with division forces, without advertising, the estimated cost for labor and material being \$3,000.

The Mayor has approved the request of the Public Works Department for authority to blanket coat with asphalt West street, Hyde Park, from Hyde Park avenue to West Roxbury line, with division forces, without advertising, the estimated cost for labor and material being \$1,500.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Elm avenue, bounded: Easterly by easement taken by the City of Boston for sewerage purposes in July, 1892, eight and 35-100 feet; southerly by another part of Elm avenue, five hundred fifty-one and 97-100 feet; westerly by easement taken by the City of Boston for sewerage purposes, August 26, 1926, six feet; and northerly by another part of Elm avenue, five hundred forty-five and 95-100 feet, containing thirty-two hundred and ninety-two square feet, more or less.

The sewerage works to be constructed are as follows: 560 linear feet of 10-inch pipe sanitary sewer.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvements.

Ordered, That this Board estimates that the lots of abutting land on the northerly side of Elm avenue, for a distance of approximately 520 feet westerly from Burgoyne street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 769, Sewerage Works, Elm avenue, Dorchester, May 18, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said widening of said Alford street is bounded and described as follows:

Southwesterly by the northeasterly line of Main street as it existed previous to this widening, by two measurements, one hundred sixty-eight and 13-100 feet and fifty feet; northwesterly by the southeasterly line of Alford street as it existed previous to this widening, by two measurements, fifty feet and one hundred sixty-seven and 44-100 feet; and easterly by the easterly line of said Alford street as hereby widened, by three measurements one hundred sixty-four and 40-100 feet on a curve of one hundred and ninety-five feet radius, one hundred fifty-five and 76-100 feet and thirty-five and 47-100 feet on a curve of seventy feet radius, containing thirteen thousand seven hundred and thirty-three square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

The highway named Rutherford avenue is hereby widened at the southeasterly corner of Cambridge street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the Standard Oil Company of New York, situated at the southeasterly cor-

ner of Rutherford avenue and Cambridge street, bounded and described as follows:

Southwesterly by the existing northeasterly line of Rutherford avenue, twenty feet; northwesterly by the existing southeasterly line of Cambridge street, twenty feet, and easterly by the easterly line of Rutherford avenue as established under this order, thirty-one and 69-100 feet on a curve of twenty and 50-100 feet radius, containing eighty-six square feet, more or less.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said widening of said Rutherford avenue is bounded and described as follows:

Southwesterly by the northeasterly line of Rutherford avenue as it existed previous to this widening, twenty feet; northwesterly by the southeasterly line of Cambridge street as it existed previous to this widening, twenty feet; and easterly by the easterly line of said Rutherford avenue as hereby widened, thirty-one and 69-100 feet on a curve of twenty and 50-100 feet radius, containing eighty-six square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

The highway named Cambridge street is hereby widened at its junction with Main and Sever streets, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the City of Boston, situated at the junction of Main, Cambridge and Sever streets, bounded and described as follows:

Northeasterly by the existing southwesterly line of Main street, forty-five and 26-100 feet; again northeasterly, southeasterly and southwesterly by a curved line forming the existing junction of Main, Cambridge and Sever streets, two hundred twenty-five and 6-100 feet on a curve of seventy-two and 41-100 feet radius; again southwesterly by Sever street, thirty-two and 97-100 feet; northerly by the northerly line of Cambridge street as established under this order, twenty-two and 48-100 feet on a curve of thirteen and 29-100 feet radius; northwesterly by the northwesterly line of Cambridge street as established under this order, one hundred twenty-five and 24-100 feet; and westerly by the westerly line of Cambridge street as established under this order, eleven and 58-100 feet on a curve of eight and 18-100 feet radius, containing twelve thousand and eighty-one square feet, more or less.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said widening of said Cambridge street is bounded and described as follows:

Northeasterly by the southwesterly line of Main street as it existed previous to this widening, forty-five and 26-100 feet; again northeasterly, southeasterly and southwesterly by the existing curved line forming the junction of Main, Cambridge and Sever streets, two hundred twenty-five and 6-100 feet, on a curve of seventy-two and 41-100 feet radius; southwesterly by the northeasterly line

of Sever street as it existed previous to this widening, thirty-two and 97-100 feet; northerly by the northerly line of said Cambridge street as hereby widened, twenty-two and 48-100 feet on a curve of thirteen and 29-100 feet radius; northwesterly by the northwesterly line of said Cambridge street as hereby widened, one hundred twenty-five and 24-100 feet; and westerly by the westerly line of said Cambridge street as hereby widened, eleven and 58-100 feet on a curve of eight and 18-100 feet radius, containing twelve thousand and eighty-one square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that the undermentioned estates sustain damages by the making of the public improvement, consisting of the widening and construction of Alford street, Rutherford avenue and Cambridge street, Charlestown district, under the order of the Board, in the amounts hereinafter respectively set against them, and awards said amounts therefor.

MAYOR PLANS LINDBERGH RECEPTION.

Mayor Nichols announced on July 13 arrangements for the reception of Col. Charles A. Lindbergh as the guest of the city. As soon as the Mayor was assured that Colonel Lindbergh would be in Boston on Friday, July 22, he arranged for a conference between Director George H. Johnson, Director of Public Celebrations, and Milburn Kusterer, representing Colonel Lindbergh. Mr. Johnson left immediately for New York where the conference was held yesterday afternoon.

Mayor Nichols ascertained through Director Johnson the wishes of Colonel Lindbergh and laid down the program for the reception in a conference which was held in the Mayor's office.

The Mayor also called a conference for this afternoon with Maj.-Gen. Preston Brown of the Army Base, Rear Admiral Philip Andrews, of the Charlestown Navy Yard, Police Commissioner Herbert A. Wilson, Fire Commissioner Eugene C. Hultman, Gardiner H. Fiske, Vice-Chairman Municipal Air Port, Capt. Horace N. Heisen, Commander Boston Air Port, Edward Dana, Boston Elevated Railway, and Chairman Long of the Park Department.

The purpose of this conference was to discuss arrangements for the escort of Colonel Lindbergh and the accommodation of the great crowds who will be anxious to see him. The Mayor predicted that the city would give the noted aviator one of the greatest receptions in its history. The Mayor has asked the Governor to act as Honorary Chairman of the Committee. The Mayor further announced that he had sent a telegram to Colonel Lindbergh's mother to be a guest of the city on this occasion.

Following is the program announced by the Mayor:

- 2 p. m. Arrival of Colonel Lindbergh at the Boston Municipal Air Port. Welcome to Boston by the Mayor and to be escorted by the Mayor to Boston Common.
- 3.30 p. m. Public reception at the Parkman Bandstand. Colonel Lindbergh

has consented to make a short talk here, and preparations are being made for a radio broadcast. Preceding the arrival of Colonel Lindbergh and party, there will be a band concert. After the reception on the Common Colonel Lindbergh proceeds to his hotel, where he remains until seven o'clock.

- 7 p. m. Band concert in Symphony Hall. Appropriate exercises will be held at which Colonel Lindbergh will again speak at this meeting, and the Mayor will preside. Admission to Symphony Hall exercises will be by ticket.

FINANCE COMMISSION REPORT.

The Mayor has received the following communication from the Finance Commission:

Boston, July 8, 1927.

HON. MALCOLM E. NICHOLS, Mayor.

Sir,—the cleaning of water supply pipes has been the subject of several reports by the Finance Commission. This cleaning is done not to purify the water but for the alleged purpose of securing an adequate flow of water. In fact the so-called cleaning may make the water dirty for a considerable period and clog faucets with loosened particles and iron rust.

Last year the Public Works Department continuing its practice of several years received proposals for pipe cleaning, but did not award a contract. Recently the department again advertised for proposals for this work and on June 24 opened bids which are now awaiting action. The Finance Commission has opposed the award of contracts for cleaning water pipes on two principal grounds, (1) exorbitance of the price and (2) the lack of evidence that the cleaning is needed.

In 1922 the commission reported that the contract price of 35 cents per linear foot was exorbitant and that not over 12 cents per foot should be paid. The price of 12½ cents offered by the lowest bidder in the present competition brings the cost approximately within the limits set by the commission and removes its first objection.

The second objection still stands. No tests have been made to determine whether the pipes selected for cleaning under the proposed contract are in need of cleaning. The engineer of the Water Service has stated to the commission that pipe cleaning is done primarily to insure an adequate supply of water for the Fire Department in case of fires. The same witness, however, stated that no complaints had been received from the Fire Department as to the adequacy of the flow of water.

The pipes selected for cleaning were those laid thirty or more years ago and only such as are in streets not permanently paved. The fact that a pipe is old does not necessarily mean that it is clogged, but if old age in itself were a sufficient ground for cleaning the pipes, the omission of those in permanently paved streets would be inexcusable.

Not only is it a waste of the city's money to clean pipes unless they need it, but the cleaning process may by injury to the interior finish of the pipes make them more susceptible to the formation of the very coating sought to be removed. Indiscriminate cleaning should not be done. It is entirely feasible to test pipes to determine whether cleaning

is necessary. Until such tests have been made, no contract should be awarded.

The Finance Commission recommends that all bids under the present competition be rejected.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announces examinations for desirable positions open in the Boston and Metropolitan districts as follows:

ASSISTANT BACTERIOLOGIST, DEPARTMENT OF PUBLIC HEALTH, AUGUST 12, 1927.

Requisition is for a male but the examination is open to both males and females.

The salary is \$3,600 per year. Applicants must be graduates from a reputable college with special training in biochemistry and bacteriology.

The duties of this position are as follows: The concentration of diphtheria antitoxin plasma and other serums; the making of standard chemical solutions and the titration of bacteriological media; assisting in the performing of potency and sterility tests on toxins, antitoxins, and other products, and such other related duties as may be assigned.

The subjects of examination with their respective weights will be as follows: Training and experience, 3; practical questions, 2; total, 5.

Applicants will be required to obtain a mark of at least 50 per cent in practical questions and at least 65 per cent in training and experience and in general average in order to become eligible.

MAYOR SUBMITS ORDER FOR
"REVERE HOUSE" FIRE
STATION.

Mayor Nichols announced on July 12
that he was submitting to the City
Council an order in the sum of \$650,000
for the acquisition of the Revere House
site, so called, for the construction of a
fire station for the northern and western
districts of the city. The text of his
message follows:

Gentlemen of the City Council.

I submit for your consideration an
order in the sum of \$650,000 for the
acquisition of land and the construction
of a central fire station at the corner of
Bulfinch and Cambridge streets. This
land is commonly known as the Revere
House site and is strongly recommended
by the Fire Commissioner as the ideal
location from which to protect life and
property in the West and North End
districts.

A survey of the existing fire houses in
this neighborhood indicates the pressing
need of a modern efficient plant which
should be put in operation with as little
delay as possible. It appears that a
majority of your honorable body are in
entire accord with the findings of this
survey but that upon a similar order the
vote was three short of the necessary
two-thirds vote required by law for the
passing of this appropriation.

I have placed the amount of the appro-
priation at \$650,000, of which \$350,000
is for the construction of the fire station,
and \$300,000 for the site. This latter
figure is in accordance with the estimate
set by the Boston Real Estate Exchange
Appraisal Committee, and I earnestly
recommend the passage of this order.

MALCOLM E. NICHOLS, Mayor.

LAND-TAKING IN WEST
ROXBURY.

The Mayor has approved the order of
the Board of Street Commissioners for the
taking of land for sewerage works to be
constructed as follows:

The right and easement is taken to lay
and maintain sewerage works in the fol-
lowing described lands, exclusive of any
interest in trees, buildings or other struc-
tures standing thereon, reserving to the
owners thereof the right to use the lands
for any purpose except such as may injure
or obstruct said works, and except for
placing or maintaining any structure on
said lands not authorized in writing by the
Mayor of said city; trees, buildings or
other structures standing upon or affixed
to the land in which an easement is hereby
taken are to be removed therefrom within
sixty days following a notice of the city's
intention to enter upon said taking for the
purpose of constructing said sewerage
works. Said lands are in that part of
Boston formerly West Roxbury and are
bounded as follows:

A parcel of land, owners unknown, being
part of the private way known as St. Peter
street, bounded:

Southwesterly by Boylston street,
fifteen feet; northwesterly by another
part of St. Peter street, two hundred
seventy-three and 37-100 feet; north-
easterly by easement taken by the City of
Boston, October 20, 1926, eight and 3-100
feet; southeasterly by another part of St.
Peter street, two hundred sixty-one and
70-100 feet; and easterly by the same,
nine and 92-100 feet, containing twenty-
two hundred and six square feet, more or
less.

The sewerage works to be constructed
are as follows: 250 linear feet of 10-inch
pipe sanitary sewer.

Ordered, That this Board determines

that no persons sustain damages in their
estates by the taking of said easement and
the construction of said sewerage works
and awards no damages therefor.

Betterments are to be assessed for the
making of the aforesaid improvement.

Ordered, That this Board estimates that
the lots of abutting land on both sides of
St. Peter street extending northeasterly
from Boylston street for a distance of
approximately 270 feet, excluding the lots
at the corner of Boylston street, will
receive benefit or advantage, beyond the
general advantage to all real estate in said
city, from the improvement herein
ordered, each of said lots to the amount
hereinafter respectively set against it;
said lots and the supposed owners thereof
being shown on a plan marked "City of
Boston, Plan No. 775, Sewerage Works,
St. Peter Street, West Roxbury, June 6,
1927, William J. Sullivan, Chief Engineer,
Street Laying-Out Department," and on
file in the office of said department.

TO OMIT AND SUBSTITUTE
WORK UNDER CONTRACT.

J. J. McCarthy & Co. have been
directed to omit and substitute the follow-
ing work under the contract for construct-
ing bitulithic pavement in Eldridge road,
Midvale road, Pierpont road and Russett
road. Although this is in addition to the
work contemplated in the original con-
tract it is incidental thereto. Items or-
dered: Omit full width artificial stone
sidewalks in Pierpont road and Russett
road, where directed, and substitute four
and one half (4½) foot artificial stone
sidewalks with seeded loam space twelve
(12) inches in depth. The price, includ-
ing refilling to subgrade of loam, furnish-
ing, placing, raking, seeding and rolling
loam and placing additional framing for
artificial stone, to be one dollar (\$1) per
square yard. Estimated cost of omitted
work, \$774; estimated cost of substituted
work, \$475; estimated decrease in cost,
\$299.

PROTESTS TO MAYOR AGAINST
USE OF WORD "KIDS" ON
SAFETY SIGNS.

Mayor Malcolm E. Nichols received a
protest on July 10 from an individual
criticising the use of the word "kid"
which the Safety Committee of the
Boston Automobile Club has embodied
in the 5,000 signs which have been
placarded in the congested sections of
Greater Boston in an effort to reduce the
number of highway accidents involving
children under five years of age. The
letter reads in part:

"It seems incredible that an organ-
ization should desire to plaster our city
so abundantly with a sign of this kind.
If the city government has authority or
influence I hope it will urge the desir-
ability of using the common word children,
to designate the human young rather
than substitute that commonly used for
the young of a domestic animal. This
will be so much less offensive to persons
of education and culture and so much
more impressive to the driver in need of
a caution sign."

MRS. BYRD THANKS MAYOR FOR RESOLUTIONS.

Mayor Nichols received the following communication from Mrs. Richard E. Byrd thanking him for the set of resolutions which were adopted at the dinner recently tendered the National Air Tour on their visit to Boston. It reads as follows:

DEAR MAYOR NICHOLS,—I appreciate very greatly your sending me the set of resolutions of congratulations to Commander Byrd and his associates. I will see that it is the first thing that he receives upon his return to Boston.

With many sincere and appreciative thanks, I am,

Sincerely yours,

MARIE A. BYRD.

MAYOR WINS PERMISSION FOR LIEUTENANTS HEGENBERGER AND MAITLAND TO COME TO BOSTON FOR RECEPTION.

The Mayor received on July 16 from Assistant Secretary of War Davis, the following telegram stating that authority had been granted Lieutenants Maitland and Hegenberger to be in Boston on the morning of July 23. They will fly from Washington accompanied by three pursuit planes.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

Authority granted Lieutenants Maitland and Hegenberger in D.H. No. 2 Transport accompanied by three pursuit planes to fly from Washington to Boston morning the 23d for reception here.

DAVIS,
Assistant Secretary of War.

BOSTON GAVE ROARING WELCOME TO COLONEL CHARLES A. LINDBERGH AND GALAXY OF RENOWNED AIRMEN GATHERED FOR HONORS BY MAYOR MALCOLM E. NICHOLS AND HIS COMMITTEE OF RECEPTION—COMMON AND ARENA THROGGED FOR CEREMONIES.

Boston gave roaring welcome to the famed fliers whom Mayor Nichols and his welcoming committee entertained Friday and Saturday in the name of the city and in honor of the coming of Col. Charles A. Lindbergh to the city. Beginning with the landing of Colonel Lindbergh at the Boston Airport and ending with the concluding ceremonies of Saturday the city was in one continual fete, homes and business districts being in best holiday dress.

Boston had the honor, of which no other city could boast, of entertaining a full group of the world's most famous fliers at the same time. Other cities entertained them as individuals but no other city had them all present for a single welcome; men who had spanned the Atlantic and Pacific Oceans in single jumps. And Boston showed its appreciation by turning out in force to cheer these heroes of the air as they were presented to them by the Mayor.

The keen interest shown by the people of Greater Boston in the announcement of Colonel Lindbergh's proposed visit was evidenced by the thousands of letters received at the Mayor's office.

In addition the telephone operator on the switchboard at the Mayor's office, as well as the operators at City Hall Annex, were literally swamped with calls from people with suggestions of entertaining Lindbergh personally, to make personal appointments with him, or to serve on the Mayor's Committee of Welcome.

A number of songs and poems, by children as well as grown-ups, were received. If every invitation had been accepted by Lindbergh the Colonel would have found it necessary to remain in Boston nearly a year to fulfill even one per cent of them.

The program for the day conformed with the wishes of the Guggenheim Foundation, for "Lindy" has a strenuous itinerary ahead of him in his three months' tour of the forty-eight states.

Andrew A. Cassassa, of Revere, telephoned the Mayor and inquired if the Mayor was going to declare a holiday for the city and suggested also that he communicate with the Mayors of Metropolitan Boston asking them to do likewise.

Mayor Nichols decided it would be unwise, owing to practically all large retail stores being closed all day Saturday.

(Continued on 827.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.]

FIRE DEPARTMENT ORDERS.

General Order No. 44.

I. REINSTATEMENT.

The following reinstatement, which took effect at 8 a. m. July 11, 1927, is hereby announced:

John J. McCormack, Ladder 24.

II. TRANSFERS.

The following transfers, which took effect at 8 a. m. July 12, 1927, are hereby announced:

Thomas J. Driscoll, from Engine 12 to Engine 21.

Thomas J. Donovan, from Ladder 24 to Engine 12.

III. RETIREMENT.

The following retirement, which took effect at 8 a. m. Friday, July 15, 1927, is hereby announced:

Charles J. McCarthy, Ladder Company 19.

IV. AIDS TO DEPUTY CHIEFS.

The following named men have been designated as aids to deputy chief to take effect on the dates stated:

Ladderman Timothy J. Keefe, Ladder Company 23, as of May 24, 1926.

Ladderman William F. Farley, Ladder Company 8, as of May 23, 1927.

V. DETAIL.

During the absence of Superintendent of Fire Prevention, Peter E. Walsh on vacation for two weeks, from Monday, July 18, 1927, District Chief Charles A. Donohoe of District 13 will be detailed as Acting Superintendent of the Fire Prevention Division.

VI. COMMENDATIONS.

Hoseman John P. Burke of the Maintenance Division is hereby commended for the prompt service rendered by him about 12 p. m. Saturday, July 9, 1927, when a sprinkler head went off accidentally in the plant of the Albany Carpet Cleaning Company, Brighton.

Ladderman Martin J. Powers of Ladder Company 31 is hereby commended for his prompt action in rescuing Mary Cardinale, twelve years of age, at 1.30 p. m. July 13, 1927. Mary Cardinale had become exhausted from cramps, while in the water, and had gone below the surface twice when rescued by Ladderman Powers who brought her to the shore and applied first aid and the prone method of resuscitation, reviving her to consciousness.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

LINDBERGH RECEPTION.

(Continued from page 825.)

All applications for tickets for the Lindbergh reception in the evening, at the Boston Arena, beginning with a band concert at 7.30 p. m. were requested to be made in writing, and tickets were distributed in the order of receipt of these communications. The communications were addressed to George H. Johnson, Director of Public Celebrations, City Hall, Boston, Mass. Arrangements were made to broadcast the ceremonies at the Boston Arena so that thousands unable to attend were able to share in them.

The route of Colonel Lindbergh's escort after he arrived at the Boston Airport was through the main streets of East Boston, Chelsea, Charlestown and running along the Esplanade in Cambridge, thence into Boston.

From the airport the escort went down Maverick street to Maverick square to Eastern avenue to Central avenue, Chelsea to Park street, Chelsea to Broadway, Chelsea and then to the North Draw where the procession entered Boston. Then along Chelsea street to City square, to Rutherford avenue, to Washington street, and then to Prison Point avenue, along Commercial avenue to the Esplanade on the Cambridge side to Harvard Bridge. Crossing Harvard Bridge the party continued along Massachusetts avenue to Beacon street to the Parkman Bandstand on Boston Common.

Colonel Lindbergh's proposed trip will give additional impetus to the vast interest which is already being shown in aviation. In his message to the people in his tour he will accentuate this interest and will educate the entire country to the necessity of supporting commercial flying, which at the present time is in its infancy. Colonel Lindbergh will indicate how a thorough support of the air mail will increase the number of contract lines covering the United States and he will also urge various municipalities to support their airports in order that regularly established routes will be adopted for the convenience of the public.

The Department of Commerce is showing an unusual interest in "Lindy's" proposed trip, for they are sending three men along with him. The Department of Commerce airplane will carry Donald E. Keyhoe who will act as Colonel Lindbergh's personal aid, and Philip R. Love will act as pilot. In addition an expert mechanic will cover the entire trip.

Milburn Kusterer, representing Colonel Lindbergh's tour, when he learned that Commander Byrd and his associates as well as Lieutenants Maitland and Hegenberger would be here on Saturday, communicated with the Guggenheim Foundation in New York and received their approval to hold Colonel Lindbergh in Boston until Saturday noon in order that he might greet the other well-known fliers.

This was the first meeting of these renowned fliers.

All the fliers breakfasted with Mayor Nichols on Saturday, then reviewed the 6,500 troops of the National Guard under the command of Brigadier-General Edward L. Logan, on their return from Camp Devens.

This review was made from the Mayor's grandstand in front of City Hall.

The Ritz-Carlton Hotel was selected by the Guggenheim Foundation as the hotel where Colonel Lindbergh and his associates, Donald E. Keyhoe, of the Department of Commerce, and his old "buddy," Philip R. Love, stopped while they were in Boston.

A radiogram received late in the afternoon of July 16 from Commander Byrd and his associates confirmed his former statement that he would be in Boston on Saturday.

It read as follows:

Will be in your hands for Saturday. Whatever arrangements you make are suitable.

Other messages sent and received by Mayor Nichols were as follows:

Mayor Malcolm E. Nichols sent the following telegrams to the mother of Commander Byrd and to his two brothers, one of whom is the Governor of Virginia:

Mrs. R. E. Byrd, Senior, care MAYOR
JAMES J. WALKER, New York City.

Boston would be highly honored if you could be with us on Saturday, July 23, at reception tendered by city to your illustrious son. Please wire.

MALCOLM E. NICHOLS, Mayor.

HON. HARRY F. BYRD, Governor of Virginia, Richmond, Va.

Boston would be highly honored if you could be with us on Saturday, July 23, to take part in Boston's reception to your illustrious brother. Please wire.

MALCOLM E. NICHOLS, Mayor.

CAPT. THOMAS B. BYRD, care MAYOR
JAMES J. WALKER, New York City.

Boston would be highly honored if you could be with us on Saturday, July 23 at the Reception to be tendered by the city to your illustrious brother. Please wire.

MALCOLM E. NICHOLS, Mayor.

The Mayor received the following communication from Milburn Kusterer who is Col. Charles A. Lindbergh's personal representative:

I wish to thank you personally for the fine way you treated me in Boston and assure you that my visit there was most pleasant. I am sure the Colonel's visit will be the same, and that the program you have arranged will run off smoothly. I congratulate you on the big day you are going to have Saturday. It certainly will be an historic event.

MILBURN KUSTERER.

Mayor Malcolm E. Nichols received the following telegram from Commander Byrd's mother:

Captain Byrd and I appreciate greatly your invitation. Can't be with you on the twenty-third when you welcome my son to the home of his adoption. It is with deep regret we will be unable to accept your invitation.

Mrs. R. E. BYRD.

Mayor Nichols sent the following telegram to Rear Admiral Philip Andrews, who is at present in Annapolis:

REAR ADMIRAL PHILIP ANDREWS, care
Lieut. C. C. Champion, Annapolis, Maryland.

Would be honored to have you represent the United States Navy at Boston's reception to Colonel Lindbergh Friday evening, July 22, at Boston Arena at 8 p. m. Please wire.

MALCOLM E. NICHOLS, Mayor.

Rear Admiral Philip R. Andrews wired Mayor Nichols from Annapolis as follows:

Many thanks for your telegram. I return to Boston 8.55 Friday evening, Boston time, and will get to the Lindbergh

reception as soon as possible after that. Captain Cook and other naval officers will attend from the beginning.

REAR ADMIRAL ANDREWS.

The Mayor received the following telegrams from Washington, D. C., from Davison, Assistant Secretary of War:

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

Arrangements made. Maitland and Hegenberger fly Washington to Boston, afternoon July 22, to be present at breakfast eight o'clock July 23.

DAVISON,
Assistant Secretary of War.

HON. MALCOLM E. NICHOLS, Boston, Mass.

Reference Captain Murphy's telephone conversation, I am sending Maitland and Hegenberger to Boston Friday afternoon in sister ship to Honolulu ship, accompanied by three pursuit planes, arriving about 5 p. m. Definite time will be given you later. They will remain through Saturday and Sunday, returning Monday morning.

DAVISON,
Assistant Secretary of War.

Immediately following the exercises at the Parkman Bandstand Colonel Lindbergh proceeded with an escort to the State House where he was received by Governor Alvan T. Fuller and his staff. Colonel Lindbergh then proceeded to the Ritz-Carlton Hotel where he remained until 7.30 in the evening, when he left for the exercises at the Arena, escorted by members of Crosscup-Pishon Post. For the comfort and convenience of the general public all automobiles were excluded from the Boston Airport.

A PROCLAMATION.

Mayor Malcolm E. Nichols issued the following proclamation to the citizens of Boston:

In honor of the presence of Col. Charles A. Lindbergh as the guest of the City of Boston on Friday, July 22, I earnestly request that the national emblem be raised throughout the city and that buildings be appropriately decorated with the national colors.

MALCOLM E. NICHOLS, Mayor.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam Rossmore road, West Roxbury, from Forest Hills street to Washington street, with division forces, without advertising, the estimated cost for labor and material being \$4,000.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam Chestnut street, from Brimmer street to Charles River Embankment, with department forces, without advertising, the estimated cost for labor and material being \$1,200.

RECEIPTS OF MILK IN BOSTON,
1925, BY RAIL.

Total, 198,132,118 quarts, or 151,036,648 by Boston & Maine R. R.; 39,287,886 by New York, New Haven & Hartford R. R.; 7,807,584 by Boston & Albany R. R. The said total exceeds that of 1924 by 6,959,444 quarts and is the largest on record.

BOSTON CHILDREN ESPECIALLY INVITED TO COMMON BY MAYOR FOR LINDBERGH WELCOME.

Mayor Malcolm E. Nichols issued the following proclamation to the children of Boston inviting them to the Common on Friday:

To the Children of Boston.

I hope it will be possible for a large number of children to visit Boston Common when Col. Charles A. Lindbergh receives the welcome of the City of Boston this Friday afternoon at half past two. The name of Lindbergh stands as a symbol for all that is finest in American youth and his presence in this city should inspire all boys and girls with enthusiasm and courage to meet the great problems of human life.

In addition to the proclamation Mayor Nichols has requested that there be no flying in Boston on Friday other than the arrival of the Spirit of St. Louis and the escort plane which will accompany Colonel Lindbergh's plane. This, of course, does not include the regular departure of the Air Mail in the early evening.

The airport will be roped off to provide for the safe landing of Colonel Lindbergh and will be patrolled by one thousand men of the 26th Division.

The Mayor wishes to call to the attention of the public that they must absolutely keep off the flying field, otherwise individuals may cause accidents not only to themselves but to others.

There is plenty of space at East Boston for thousands of people to view the colonel as he approaches the field and it will be easy to see him land, for the stretch of the runway is well in the center of the field.

After Colonel Lindbergh hits the ground he will taxi over to the National Guard Hangar where the Mayor will give him the formal greetings and extend the welcome of the City of Boston to him.

The party will then enter the automobiles and start over the route which has already been outlined.

The general public will have an opportunity to get a close up of the Spirit of St. Louis as the hangar will be left open and properly patrolled so that individuals can see it but not injure it as happened in Paris after he landed at Le Bourget Field. The plane which is escorting Colonel Lindbergh and the only one which will be in the air when the colonel arrives is a Fairchild, is a cabin monoplane which will carry four passengers in addition to the pilot. It is 30 feet 11 inches in length, 9 feet high and has a wing spread of 44 feet. Its high speed is 120 miles an hour and its cruising range is from 6 to 7 hours.

This plane has folding wings which will permit its being stored in a small space, and has numerous improvements, such as individual wheel brakes, inertia starter, unusually large baggage compartment, comfortable upholstered seats, navigation lights and wide vision windows.

The initial climb of this plane is 650 feet per minute. The fuselage is painted maroon and the wing is sand color (light tan). The plane is powered with a Wright Whirlwind J-5 engine, the same type used in the Spirit of St. Louis.

In addition to the mechanic from the Wright Company who is on the tour, the pilot of the plane will be Philip R. Love, who is an airplane and engine inspector of the Aeronautics Branch, Department of

Commerce. Mr. Love was a roommate of Lindbergh's at Brooks Field during the course which they pursued as cadets. He has since maintained a close acquaintanceship with Colonel Lindbergh. In addition, Mr. Love is a cross-country pilot of exceptional ability and is considered a skilled navigator. Mr. Love's duties in the department are those of examining pilots, mechanics and aircraft, and licensing and identification, also investigation of airplane accidents and similar related matters.

Philip R. Love is a native Washingtonian, twenty-four years old, entered Brooks Field with Lindbergh in March, 1924, to begin the Army Cadet course. They were roommates at Brooks and at Kelley Fields, from which both graduated in March, 1925. Lindbergh and Love both specialized in pursuit plane work. Love took up cotton dusting with the Huff-Deland Company, and then went to the Robertson Aircraft Company to carry mail on the same route with Lindbergh.

Love is experienced in night flying and cross-country work. He has had 1,250 hours in the air and has covered at least thirty states. He is a lieutenant in the Army Air Corps Reserve and in the Missouri National Guard.

Colonel Lindbergh's personal representative on this tour is Donald E. Keyhoe, graduate Naval Academy 1919, entered Marine Corps Aviation 1919, retired as lieutenant, Marine Corps, 1925. He is a spherical balloon pilot as well as airplane pilot. He is now Assistant Chief of the Air Information Division, Department of Commerce. Mr. Keyhoe's duties with the department are those of Assistant Chief of the Air Information Division, which include the collection and dissemination of all information on commercial aeronautics. He was tour manager of the Byrd airplane tour in the fall of 1926. He has written several articles and compiled several bulletins on the subject of commercial aeronautics in addition to other writing. Will have position as aid to Colonel Lindbergh and business manager of the tour. He is thirty years old, resides in Washington, D. C.

HIGH PRAISE FOR BOSTON'S TAX COLLECTION RECORD.

George H. Johnson, City Collector, received the following letter from Henry F. Long, Commissioner of Corporations and Taxation.

"Because of absence from the office your letter of July 5, 1927, relative to the collection of taxes in the City of Boston has only just reached me.

"Please allow me to congratulate the Collecting Department upon the very excellent work that your statement shows to have been accomplished. It is perfectly evident from the success of your activities that taxes can be collected in the City of Boston as expeditiously as in other places, and your example indicates that taxes can be collected generally within a reasonable time after they are levied without undue hardship on any one.

"It is clear that this money coming earlier into the treasury of the City of Boston reduces the expense caused by the necessity of borrowing large sums of money and obviates the certainty of many taxes proving uncollectible when left too long on the tax roll.

"I see no reason, with the start that you have already made, why in the next financial year you should not approach close to the 100 per cent, which is much to be desired. The idea of allowing taxes

to go unpaid and the countenancing of laxity in collectors' offices in not enforcing payment of taxes is rapidly becoming a thing of the past. The stress of the present day as well as the unusual demand thrown upon a city or town makes it absolutely essential that every possible effort be made to reduce unnecessary expense like interest on money borrowed against the doubtful asset of uncollected taxes.

"Please accept my congratulations and my very best wishes."

HENRY F. LONG,
Commissioner of Corporations and Taxation.

BROOKLINE WOMAN WANTS MAYOR'S AID FOR ATLANTIC FLIGHT.

A Brookline woman has written to the Mayor asking him if there is any way he can suggest for her to be the first American woman to fly over the Atlantic Ocean. The letter reads as follows:

DEAR MAYOR NICHOLS,—I have been reading everything printed about aviation during the past few months and am obsessed with the desire to be the first woman to make the transatlantic flight. I have visited the Boston airport and am sure it is your earnest desire that it should become one of the foremost in the nation.

Local and national interest would be drawn to the Boston airport if someone would "take off" from there for London or Paris.

Some woman will probably make the flight soon and I would like to be that woman. I have no plane and no backing and if you can suggest any way in which I can accomplish this during the next few weeks, I will be more than grateful.

I think an American woman ought to attempt this flight before a foreign aviatrix comes to this country and does it.

If you think this is reasonable, I am at your service.

CIRCULAR LETTER NO. 35.

OFFICE OF THE MAYOR,
BOSTON, July 16, 1927.

To the Heads of all City Departments.

You are hereby directed to grant leave of absence, without loss of pay, to all employees of your department who are members of the Municipal Clerks' Association, to attend the outing of that association to be held at Rainsford Island, Saturday, August 6, 1927.

Very truly yours,

MALCOLM E. NICHOLS, *Mayor.*

CIRCULAR LETTER NO. 36.

MAYOR'S OFFICE,
BOSTON, July 18, 1927.

To Heads of all Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to all employees in your department who are delegated members of the American Legion, to attend the annual convention of the Massachusetts Department to be held at Fitchburg, Massachusetts, on August 11, 12 and 13, 1927.

Very truly yours,

MALCOLM E. NICHOLS, *Mayor.*

**INDEPENDENCE DAY ADDRESS OF
WILLIAM MCGINNIS, DEPART-
MENT COMMANDER, THE
AMERICAN LEGION, DEPART-
MENT OF MASSACHUSETTS,
AT FANEUIL HALL, BOSTON,
MASS., JULY 4, 1927.**

Permit me to express my deep appreciation to you, Mr. Mayor, for the tribute paid the American Legion in Massachusetts by extending an invitation to its Department Commander to deliver the address in Faneuil Hall on this the 144th municipal observance commemorating the 151st anniversary of the Declaration of Independence. No speaker on this occasion should proceed without a word of reference to the beautiful and historical building in which these exercises are being held, affectionately described as the Cradle of Liberty.

First built in 1740 through the beneficence of Peter Faneuil, it was offered to and accepted by the town fathers on September 10, 1742, and three days later the first town meeting was held. The ravages of time and the elements have changed the physical appearance of the building, but the spirit of the place remains unchanged. Visitors entering this hall reverently uncover as they do in the house of God and one converses in a whisper lest they disturb the spirits of the great men who have made history within its walls.

Here men met to discuss the problems that confronted the colonists and here doctrines were preached and decisions made that hastened the day, 151 years ago, that we now commemorate. By a strange twist of fate British officers during the Revolution were at one time quartered in Faneuil Hall. It will not be my purpose to discuss in detail the causes leading to the momentous decision that prompted the delegates from Virginia, through Richard Henry Lee, to present to the Continental Congress on June 7, 1776, the Independence resolutions, that later resulted in Thomas Jefferson's original draft, changed in part before it was adopted by the Congress, or whether we should observe the day on July 2 when the resolution was adopted, or July 4 when the draft of the Declaration was adopted.

We are concerned with the principles enunciated in that document, the results obtained and the necessity to consult those principles more frequently on the part of a large portion of our population who demand rights under the Constitution that followed the Declaration of Independence and who are unwilling to share or assume the responsibilities of citizenship.

I think it is not inappropriate to include a contemporary description of how the news was received in Boston.

"Thursday, last,
(18 July 1776)

pursuant to the order of the Honorable Council, was proclaimed from the balcony of the State House in this town the Declaration of the American Congress, absolving the United Colonies from their allegiance to the British Crown, and declaring them free and independent States. There was present on the occasion in the council chamber a committee of council, a number of the Honorable House of Representatives, the magistrates, selectmen, and other gentlemen of Boston and the neighboring towns, also the commission officers of the Continental regiments stationed here, and other officers.

Two of the regiments were under arms in King Street, formed into three lines on the north side of the street and in thirteen divisions, and a detachment from the Massachusetts regiment of artillery, with two pieces of cannon, was on their right wing. At 1 o'clock the Declaration was proclaimed by Colonel Thomas Crafts, which was received with great joy, expressed by three huzzas from a great concourse of people assembled on the occasion. After which, on a signal given, thirteen pieces of cannon were fired from the fort on Fort Hill; The forts at Dorchester Neck, the Castle, Nantasket, and Point Alderton likewise discharged their cannon. Then the detachment of artillery fired their cannon thirteen times, which was followed by the two regiments giving their fire from the thirteen divisions in succession, these firings corresponded to the number of American States united. The ceremony was closed with a proper coalition to the gentlemen in the council chamber; . . .

"The bells in town were rung on the occasion; and undissembled festivity cheered and brightened every face. On the same evening, the Kings Arms, and every sign with any resemblance of it, whether Lion and Crown, Pestle and Mortar and Crown, Heart and Crown, etc., together with every sign that belonged to a Tory, were taken down, and the latter made a great conflagration of in King Street."

(New England Chronicle for
July 25, 1776)

Following the adoption of the Draft of Declaration on July 4, 1776, it was ordered to be engrossed July 19. To correctly understand and appreciate the reasons set forth in that declaration for severance from the mother country, one must consider the times and feelings of the colonists. They were setting out on an uncharted sea of government, when they declared the principle of the state being an agent of the people rather than the state possessing unlimited powers. They were also handicapped by an influential class in the various states who desired to conciliate and who never accepted the principle of independence.

In our day there is much food for thought in the principle of the state being the agent of the people with the tendency to bureaucratic control by the federal government.

The Declaration of Independence adopted, it was necessary to have a closer co-ordination between the states—that some form of organization should be affected to put into force the language of the Declaration and to give the states a certain legal status. This was accomplished by the framing of the Articles of Confederation in 1777.

It was soon discovered that there was no central authority, no federal executive, no compelling the obedience of states or individuals to the commands of Congress, under the Articles of Confederation. In 1787 a constitutional convention was called at Philadelphia and in 1789 the constitution was ratified by nine states.

It is difficult to picture in our day the tremendous task that confronted the men who toiled against formidable odds to reap the benefits and privileges of the Declaration of Independence through that other precious document the Constitution of the United States. It was the Constitution that set forth the authority, power and jurisdiction of the federal government. It provided the machinery of carrying into effect the new responsibilities of the young nation, brought into being with so much suffering.

The Declaration cited the wrongs committed, and the reason for severing all relations with the mother country, the Constitution was the next logical step. It was not an accomplished fact, however, until twelve years had elapsed. Hamilton speaking of the Constitution said, "The establishment of a Constitution, in time of profound peace by the voluntary consent of a whole people, is a prodigy to the completion of which I look forward with trembling anxiety."

James Bryce in "The American Commonwealth" has this to say, "Had the decision been left to what is called 'the voice of the people', that is, to the mass of the citizens all over the country, voting at the polls, the voice of the people would probably have pronounced against the Constitution." Yet, Bryce in this same work describes the Constitution in these words—"Yet, after all deductions, it ranks above every other written Constitution for the intrinsic excellence of its scheme, its adaptation to the circumstances of the people, the simplicity, brevity and precision of its language, its judicious mixture of definiteness in principle, with elasticity in details." This brief reference to the Declaration and its connecting link, the Constitution, is given as a historical background. It is far from complete in detail, it is a picture of the struggle of a period in the history of our country, for unified action and control, at a time when educational facilities were not as now, yet Bryce could pay that beautiful tribute to the men who framed that Constitution.

The Declaration of Independence was the first practical effort to demonstrate that the rights of the people to institute and alter their government belonged exclusively to the people, and that when a government degenerates from the promotion to the destruction of that purpose the duty and right accrues to the people to change it to another.

The people of this country deliberately chose a government for themselves. Hereditary authority does not exist. Here wealth is no title to distinction. This privilege was not secured without its terrible toll of suffering, misery, and loss of lives on bloody battlefields. Countless thousands have given their lives that the people of these United States should continue in the noninterference, both from within our borders and without, in the privilege of conducting our own affairs.

A terrible civil war was waged to determine whether we were a confederation of states or a united people. Yet, there is a tendency today to ignore the frightful price paid for these established rights and privileges of American citizenship.

Do we thoroughly understand the significance of American citizenship? Do we appreciate the privileges we enjoy under our form of government? What efforts do we make to understand the problems of government? Is it not true that because of our neglect, groups within our population, have attached themselves to various isms and seek to intimidate the vast majority who take no actual part in the conduct of their government?

It would be comparatively simple to prepare and deliver an address on this occasion dealing exclusively with the Declaration of Independence. I do not choose such a theme. It is my aim to point out some of the vital problems in our social and political life that compel thought on the part of intelligent men and women, who are interested in the future of these United States.

The past has taken care of itself; other generations have seen to that. Our problems are at our very front doors. We must meet the issues raised. A doctrine of discontent with everything is being preached that will surely undermine the foundations of our government if allowed to continue. The preachers of this doctrine have begun their work with the impressionable children in our schools and the youth in our groups of the higher educational scheme. They seek to remove from history any reference to the military contributions in the making of our country. Their particular hobby is directed to portraying the misgivings, frequently imagined, of the characters and persons who were prominent in the history of these States. Disrespect for constituted authority apparently stamps one as a member of the modern intelligensia. The slackers' and cowards' example is declared to be a virtue. The reading public is deluged with books degenerate in thought and inference. The stage is confronted with the problem of catering to the box office receipts rather than to the entertainment and education of the public. The government itself has not escaped. Many men elected to high offices within the gift of the people, brazenly defy the standards of common decency in their attitude to public trust. Money is poured into elections for one candidate or the other. The size of the campaign contribution frequently determines the election rather than the ability of the candidate.

Peaceful citizens may no longer enjoy the ordinary pursuits of life without danger of molestation. Our jails are, more than ever, receiving criminals charged with serious crimes.

Self-interest is paramount to public welfare. The un-American hyphenate is beginning to rear his head again. Individuals proclaim themselves 100 per cent Americans. There is no percentage basis of citizenship in these United States. You are either an American citizen or you are not. One of the blessings of the World War was the temporary disappearance of the hyphenated American whose allegiance at times was, and frequently is now, more to the country of his birth than to the country of his adoption. Attacks upon the courts and government occur daily.

Are these things in keeping with the principles of American citizenship? Has selfishness reached a point that the desire of the majority is to be set aside? Has the so-called right of the individual reached such proportions that decent self-respecting persons must submit to this condition? Has a period of moral decay infected the people?

Aliens are grouped and highly organized for their personal gain, with no intention of embracing citizenship. They enjoy all the material benefits of our form of government. There is little or no genuine interest in the customs or traditions of our people. Foreign groups dictate to the constituted authorities in our Commonwealth what should and should not be done to aliens and draft dodgers charged with crimes against society, while citizens of this Commonwealth pay the penalty of their crimes, both being afforded the right of trial by jury and other protections of the law.

The military policy of our country is the subject of bitter denunciation by the professional pacifist.

It is appalling to learn of the widespread ignorance among our people on this subject. The birth of this Republic was conceived with the force of arms on

the part of the troops of the Revolutionary War; our independence was secured by a war with Britain.

The Civil War, in which brother fought against brother, caused a great toll of life, not to mention the economic loss. But the Union was preserved. It settled for all time the question of independent states within the Union. This result was obtained by the force of arms.

Again during the World War we were compelled to resort to the same means to preserve our national rights and save ourselves from a new menace.

Apply the pacifist doctrine to the Revolutionary period. What would the result have been? Apply their doctrine to the period of the Civil War. What would the result be? Their efforts during the World War are remembered and the number who based their objections to military service upon religious grounds indicated that the ranks of a certain small religious sect had grown a hundredfold from the moment war was declared by Congress.

With the signing of the Armistice many of these individuals no longer expressed the religious fervor that saved them from military service.

We contend that one of the obligations of citizenship is the duty to serve in the military forces of our country, in case of national emergency. We submit that this is fundamental under the present organization of nations.

The American Legion believes in peace. Most of its members came into physical contact with the grim realities of war. We know the tragedy of untrained men without proper equipment being used when the blow is struck. We also understand and appreciate the value of preparedness. We will never countenance disarmament in these United States to the point where we will be left defenceless. We welcome disarmament conferences that seek honest and mutual reductions in war equipment.

The effect of these doctrines and the attitude of their sponsors has resulted in a situation causing grave concern. Our whole social structure is in danger. The youth of this country is being poisoned by the example of many of their elders. No person worthy of the heritage of American citizenship can be a real American and condone these attacks upon the common good.

My friends, these cankers on the social life of our communities are of sufficient importance to justify our pausing on this anniversary to consider where we are drifting. Let us have the courage to face the issue. If it continues unchecked it will engulf us.

These are topics discussed wherever groups of intelligent men or women meet. These matters affect the social life of the community and nation. The public conscience must be aroused or disaster will result.

American citizenship is a priceless treasure. It guarantees certain rights and liberties. It also places upon the citizen certain responsibilities. We are loud in our demands for our rights as citizens and very little is heard of our obligations. It would seem that the time has arrived for plain language. We have reached a point where patriotic men and women should with one voice cry out "Stop!"

Government means something more than the mechanical administration of the affairs of a city, state or nation. It would appear that the educational system of our country is not reaching the problem. A

tremendous proportion of our population remains away from the polls during election, neglecting to exercise the privilege of franchise. They take no part or assume no responsibility in their own government. The future of popular government is at stake. The problem is not entirely new, but if America is going to hold her place in the world of affairs, if the people of these United States desire to continue under the form of government created for and entrusted to them, a remedy must be sought.

It is a function of government to interest itself in the peace and contentment of its people. The good things accomplished are many, but the undue prominence given these other matters are undermining the faith of our people in our institutions. We have a responsibility that extends beyond our day and generation. The future citizens of these United States are now at the impressionable age. Example and environment are tremendous forces in moulding character. It is a duty we owe the future of America.

You, my friends, must determine the course of action. You must devote your efforts to the awakening of the conscience of the people. You must recognize this problem, study it in the hope of discovering the solution. The citizenship of this great Republic is looking for leaders, not supermen, but men with courage who dare to face the problem. Leadership is a matter of demonstration. A public, heart-sickened at the trend of the times will gather around your colors once they are raised. We are looking for a way. The road is going to be difficult but the self-respecting people of this country will interest themselves in a higher ethical standard. We are confronted with a condition, not a theory.

The flag-waving type of patriotism never helped America and never will. Something more substantial is required. If people who come to these shores decline to embrace the opportunity of citizenship, and knowingly violate the law as aliens, they should be deported and the first ship sailing will be none too soon. Some remedy will have to be devised for the citizen who is out of harmony with society. Jails do not seem to produce the desired results.

Let us talk less of mass production, standardization, dollars in the bank, ownership of property, and other external and material evidences of wealth. Let us look to the impoverished soul and spirit of these United States. The ideals that look to human happiness, the spirit that prompted our soldiers and sailors to forget and cast aside the accepted evidences and opportunities of life to die with a smile because of the vision they saw of the future of this great country, a future not based upon accumulated dollars, but upon a spirit of tolerance and understanding.

In the World War thousands of men gave their lives and thousands more became human derelicts to preserve certain ideals of American citizenship, in the belief that destiny had placed our people in a favorable position. They died to preserve the principle of government whose powers are received from the consent of the governed.

They believed it was their duty to support the Constitution, to obey its laws, to honor and respect its flag, to defend it against all enemies.

Has all of this sacrifice been in vain? We wonder. We ask the question in behalf of our sacred dead, and in behalf of the thousands of veterans of our wars—America, what is your answer?

FINANCE COMMISSION REPORT.

The Mayor has received the following communication from the Finance Commission:

BOSTON, July 18, 1927.

To the Honorable the Mayor and City Council.

GENTLEMEN,—By report dated September 16, 1924, to the Mayor and City Council of that year, the Finance Commission disclosed the fact that for filling furnished at Columbus Park the J. C. Coleman & Sons Company had been overpaid in an amount over \$200,000.

Before the contract was awarded to this company a plan had been made, after survey, showing the levels of the area to be filled. The contract provided that all filling materials furnished, except sand, should be put in place, leveled and rolled. The amount would then be determined by finding the new levels by a survey and calculating the material between the old and the new levels. This was an accurate method of determining the amount delivered.

Instead of following the method thus provided by the contract, the Park Commissioners of that year undertook to ascertain the amount of filling by counting the loads delivered, an inaccurate method and liable to fraud. This method was contrary to the contract provisions. After the Finance Commission had begun to investigate the situation, the Park Commissioners of that year attempted to legalize their over payments by an amendment to the original contract, made on August 7, by which they attempted to establish a new method of measurement instead of that provided in the contract.

In concluding its report the Finance Commission made the following recommendations:

"Action should now be taken by a taxpayers' committee in the courts to prevent further waste of the city's money and to have the amendment to this contract made on August 7 declared void. The money paid to the contractor in excess of his performance of the contract should be recovered by the proper authorities."

The recommendations of the commission were followed. The petition was brought and tried and under the decision of the Supreme Judicial Court, handed down June 29, 1917; the first two provisions of the commission were established, namely, (1) the further waste of the city's money was prevented by the ordering of an injunction "perpetually enjoining the city of Boston and all officers and agents of the city of Boston from paying directly or indirectly to the defendant J. C. Coleman & Sons Company any further sums of money under the contract" . . . ;

(2) the August 7 amendment to the contract was declared void.

The third proposition of the commission, that the money paid to the contractor in excess of the provisions of the contract should be recovered, now awaits fulfillment. The Court held it had no jurisdiction on the ten taxpayers' petition to order repayment and left the recovery for further proceedings.

The final step remains to be taken and suit should now be brought against the contractor to recover what is due the city by reason of the overpayments and for damages if the contractor refuses to go on and complete the contract.

The Commission recommends:

1. That proceedings be instituted immediately to recover from the contractor the full amount of overpayment and damages, if the contractor refuses to complete the work.

2. That special counsel be appointed to handle these proceedings.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

HOSPITAL DEPARTMENT.

Upon July 12 the Mayor approved a contract with the Matthew Cummings Company for painting and certain changes in the Vose House. A communication from Joseph P. Manning of the Hospital Department was as follows:

BOSTON, June 28, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR MR. MAYOR,—When the original specifications were made for the additions to the Nurses' Home and certain changes in the Vose House, the City Auditor recommended that the painting item, which was carried by the Matthew Cummings Company at \$3,000, be omitted, because this was a repair job, and not alterations and additions as contemplated in the loan order issued for the purpose of constructing the addition to the Nurses' Home; and as a result this item was dropped, and was later requested in the budget, under B-39, and allowed by your Honor. The architects, James H. Ritchie and Associates, recommend that this work be performed by the Matthew Cummings Company, as it is the opinion of the architects that they would do it more cheaply than if bids were requested at this time; and it would also expedite the finishing of this work, because the Matthew Cummings Company would not allow an outside contractor to come into the building until they have completed their contract and the building has been accepted by the trustees. It was voted at the last meeting of the Board of Trustees, held on June 24, to approve of the recommendation of Mr. Ritchie that the painting be performed by the Matthew Cummings Company at the price originally carried

in their contract, namely, \$3,000, if it meets with your approval.

Yours respectfully,

JOSEPH P. MANNING,
President, Board of Trustees.

PUBLIC WORKS DEPARTMENT (Paving Service.)

Upon June 28 the Mayor approved a contract with Patrick J. McGuigan for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, June 27, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Patrick J. McGuigan, 24 Adams street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon July 7 the Mayor approved a contract with the Brockway Motor Truck Corporation for furnishing one six-cylinder truck. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, July 7, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of June 7, 1927, your Honor approved an award of a contract to the Brockway Motor Truck Corporation, without publicly advertising for same, for furnishing one (1) Model S Y two-ton six-cylinder truck, to be delivered to the Bridge Service, at a total price of \$3,250.

The Bridge Service offered an old Reo truck in exchange, upon which the Brockway Motor Truck Corporation made us an allowance of \$125. Since the appraisal, namely, on June 13, 1927, this truck was badly burned and is practically valueless, but the Brockway Motor Truck Corporation have agreed to allow us \$25 for the truck in its present damaged condition.

I would therefore request that authority be given me to change the amount of the allowance for the old Reo truck from \$125 to \$25.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon July 7 the Mayor approved a contract with the American Laundry Machinery Company for furnishing the City Hospital one washer. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, July 6, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract to the American Laundry Machinery Company for furnishing to the Boston City Hospital one 36-inch by 54-inch solid head sterilizing washer with belt drive and elevator header, at a price of \$1,610 delivered.

The superintendent of the City Hospital has notified this department that after investigation he feels that this washer, made by the American Laundry Machinery Company, is best suited for his purposes and for this reason desires to install same.

As the American Laundry Machinery Company is the manufacturer of this particular machine no advantage would accrue from publicly advertising for same.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon July 7 the Mayor approved a contract with the New England Coal and Coke Company for furnishing 500 tons of coal to the pumping station, Sewer Service. A communication from Herbert S. Frost of the Supply Department was as follows:

Boston, July 6, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the New England Coal and Coke Company for furnishing 500 tons, more or less, of semi-bituminous coal to the pumping station, Sewer Service, at a price of \$7.47 per gross ton.

The reason for this request is that extensive repairs to the oil-burning apparatus at the pumping station are now in progress, and it was found necessary to use coal instead of oil while these repairs were going on. It is extremely difficult to estimate the length of time required to make all the necessary repairs to these boilers, and for this reason we have been obliged to secure two prior permissions to award contracts for 300 and 500 tons, respectively, but the Sewer Service feels that the present delivery of 500 tons will be all that is necessary to complete the repairs to the oil apparatus.

The New England Coal and Coke Company have agreed to furnish these 500 tons, more or less, at the same price which they submitted on the publicly advertised bid of April 21, 1927, for coal delivered to the Long Island Hospital, namely, \$7.47 per gross ton delivered in the bins.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon July 19 the Mayor approved a contract with the American LaFrance Fire Engine Company for furnishing fire apparatus. A communication from Herbert S. Frost of the Supply Department was as follows:

Boston, July 19, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of May 20, 1927, requisition was received from the Fire Commissioner for the following:

Two (2) 85-foot aerial trucks; three (3) four-wheel tractors; six (6) combination hose and chemical cars.

On May 23, 1927, your Honor requested the emergency committee to make a study and report on this matter. On July 5, 1927, after considerable study, said committee filed with your Honor a report recommending that the city continue in its use the American LaFrance fire apparatus.

In pursuance of said report I have taken up the matter of the purchase of this apparatus with the American LaFrance

Fire Engine Company, and after several conferences with said company and the Fire Commissioner, regarding prices of said apparatus, I feel convinced that the final figure submitted on July 14, 1927, namely, \$112,154, is the lowest price for which this apparatus can be bought by the City of Boston.

As the American LaFrance Fire Engine Company is the manufacturer of this apparatus, no advantage would accrue from publicly advertising for same. I therefore request that permission be granted me to award this contract to the American LaFrance Fire Engine Company.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

HOSPITAL DEPARTMENT.

Joseph Rugo, contractor for erection and completion of Surgical Building for City of Boston, has been instructed to add to the contract dated March 7, 1927, the sum of \$4,688.82 for substituting turned bolts in reamed holes for field rivets, in the erection of the structural steel, for the primary connections, and unfinished bolts in the secondary connections. Original contract, \$599,000; now added, \$4,688.82; corrected contract, \$603,688.82; total added, \$4,688.82.

Original contract, \$405,422; corrected contract, as per order No. 1431, \$415,503.86; now deducted, \$888; corrected contract, \$414,615.86; total added \$14,756.86; total deducted, \$5,563.

HOSPITAL DEPARTMENT (Sanatorium Division).

John B. Dolan has been ordered to deduct from the contract of September 14, for the erection and completion of the Out-Patient Building, Boston Sanatorium, the sum of \$3,040.32 for the following: Difference in cost of nickel-plate and brass piping, \$48.22; omission, temporary heat, \$1,500; saving on hardware allowance, \$1,271.80; substitution of cast-iron weights, \$154; credit for three enamel iron sinks, \$90; contractor's percentage, \$15.30—total, \$105.30; less crating and transit, \$39—\$66.30; total deduction, \$3,040.32. The above deduction makes the contract stand as follows: Amount of contract at signing, \$156,400; addition No. 1, \$57.50; addition No. 2, \$172.50; addition No. 3, \$149.50; addition No. 4, \$396.76; addition No. 5, \$247.25; addition No. 6, \$412.65; deduction No. 7 as above, \$3,040.32. Total, \$154,795.84.

PENAL INSTITUTIONS DEPARTMENT.

Atlantic Works have been ordered to do the following work in addition to contract: Splice wire rope and furnish roller bearing for steering gear, \$20.45; furnish water, 8,000 gallons, \$4; refit stuffing box and glands, \$20.10; remove and replace life

preservers, \$22.83—\$86.38; the same not being required by your contract with the City of Boston, dated June 13, 1927, and the amount of \$67.38 will be added therefor, making the account as follows: Contract price, \$4,133; additions, \$444.38; deductions, \$45; net contract, \$4,532.38.

SCHOOLHOUSE DEPARTMENT.

Phandor Company has been allowed the following addition to the contract for the R. G. Shaw School, Wren street, for reinforcing roof framing, per architect's letter of June 21, 1927, and the amount of \$600 will be added therefor, making the account as follows: Contract price, \$92,454; total additions, \$600; total deductions, \$1,400; amount of contract, \$91,654.

COMMANDER BYRD'S ASSOCIATES INVITED TO BOSTON.

Mayor Nichols sent the following telegram to Commander Byrd's associates who arrived in New York on July 18:

Boston extends cordial invitation to be guest of City Saturday July 23 and earnestly hopes that you can be with us. Program begins at 8 o'clock with breakfast, then review of National Guard troops, followed by exercises in the afternoon.

MALCOLM E. NICHOLS.

The telegrams were addressed to Lieut. George C. Noville, Mr. Bert Acosta, and Mr. Bernt Balchen.

ASSESSMENT LEVIED.

The Mayor has approved the following vote of the Board of Street Commissioners:

In the matter of application for revision of assessment levied on account of the construction of sewerage works, the Board of Street Commissioners, acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken upon said application,

Orders, That the amounts hereinafter specified, being the annual apportionments of said assessment for the year specified below, be and the same is hereby abated.

Edith L. Holmes, Elizabeth A. Holmes, 1926, apportionment, Plan 1919-26, Lot 51, Charles street, October 24, 1921.....	\$4 96
